MANAGEMENT ASSERTION LETTER

March 15, 2017

E.C. Ortiz & Co., LLP Certified Public Accountants 333 S. Des Plaines, Suite 2-N Chicago, Illinois 60661

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the State of Illinois - Department of Commerce and Economic Opportunity (Department). We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of the Department's compliance with the following assertions during the two-year period ended June 30, 2016. Based on this evaluation, we assert that during the years ended June 30, 2016 and June 30, 2015, the Department has materially complied with the assertions below.

- A. The Department has obligated, expended, received and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The Department has obligated, expended, received and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The Department has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the Department are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.

| E. Money or negotiable securities or similar assets handled by the Department on behalf of the State or held in trust by the Department have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate and in accordance with law. |

Natalie Covello Chief Internal Auditor

Office of the Auditor General

Jon Fox Audit Manager

E.C. Ortiz & Co., LLP

Marites Sy Partner Cecilia Lazaro Manager

The responses to the recommendations were provided by Megan Buskirk, External Accountability Manager, in a correspondence dated March 15, 2017.

INDEPENDENT ACCOUNTANT'S REPORT ON STATE COMPLIANCE, ON INTERNAL CONTROL OVER COMPLIANCE, AND ON SUPPLEMENTARY INFORMATION FOR STATE COMPLIANCE PURPOSES

Honorable Frank J. Mautino Auditor General State of Illinois

Compliance

As Special Assistant Auditors for the Auditor General, we have examined the State of Illinois, Department of Commerce and Economic Opportunity's (Department) compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the two years ended June 30, 2016. The management of the Department is responsible for compliance with these requirements. Our responsibility is to express an opinion on the Department's compliance based on our examination.

- A. The Department has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The Department has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The Department has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the Department are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the Department on behalf of the State or held in trust by the Department have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the Department's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Department's compliance with specified requirements.

In our opinion, the Department complied, in all material respects, with the compliance requirements listed in the first paragraph of this report during the two years ended June 30, 2016. However, the results of our procedures disclosed instances of noncompliance with the requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings as items 2016-001 through 2016-012.

Internal Control

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the Department's internal control over compliance with the requirements listed in the first paragraph of this report to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings as items 2016-001 through 2016-012 that we consider to be significant deficiencies.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter to your office.

The Department's responses to the findings identified in our examination are described in the accompanying schedule of findings. We did not examine the Department's responses and, accordingly, we express no opinion on the responses.

Supplementary Information for State Compliance Purposes

Our examination was conducted for the purpose of forming an opinion on compliance with the requirements listed in the first paragraph of this report. The accompanying supplementary information for the years ended June 30, 2016 and June 30, 2015 in Schedules 1 through 13 and the Analysis of Operations Section is presented for purposes of additional analysis. We have applied certain limited procedures as prescribed by the Audit Guide as adopted by the Auditor General to the June 30, 2016 and June 30, 2015 accompanying supplementary information in Schedules 1 through 13. However, we do not express an opinion on the accompanying supplementary information.

We have not applied procedures to the June 30, 2014 accompanying supplementary information in Schedules 3 through 7, 10, 11, and 13 and in the Analysis of Operations Section, and accordingly, we do not express an opinion or provide any assurance on them.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, and agency management and is not intended to be and should not be used by anyone other than these specified parties.

SIGNED ORIGINAL ON FILE

Chicago, Illinois March 15, 2017

For the Two Years Ended June 30, 2016

CURRENT FINDINGS – STATE COMPLIANCE

2016-001. FINDING (Weaknesses in Controls over Grant Administration)

The Department of Commerce and Economic Opportunity (Department) did not ensure adequate controls were established in the administration of grant programs.

The Department expended \$1,305,778,270 for awards and grants during the examination period. Expenditures for awards and grants accounted for 87% of the Department's total expenditures of \$1,507,773,053. We tested 60 grant agreements spread across the various bureaus within the Department.

During the examination of 60 awards and grants, the following issues were noted:

- Seven (12%) awards tested disclosed the Department did not ensure payments to grantees were only made after required reports were received and approved by the Department as required in the grant agreement. The Department disbursed funds totaling \$31,247,325 of these awards prior to approving required reports that would allow for the disbursement of funds.
- Four (7%) awards tested disclosed certain grant records were not properly maintained. The grant application evaluations completed by the Department for 3 awards tested were not found on file. One award had incomplete grantee application evaluation documentation, with only one of the two required evaluations on file. Further, the record that provides evidence that an onsite monitoring was completed for one award was also not found on file.
- Two (3%) awards tested disclosed grantees were not adequately monitored during the audit period. The Department did not perform the required onsite review/visits on 2 awards with funds disbursed totalling \$12.5 million during Fiscal Years 2015 and 2016.
- The Department did not return 1 of 8 (13%) refund vouchers tested totalling \$24,606 to the contractor timely. The refund was returned to the contractor 316 days after the date the unspent funds were required to be returned to the contractor.

The Fiscal Control and Internal Auditing Act (Act) (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems of internal fiscal and administrative controls, to provide assurance that resources are utilized efficiently, effectively, and in compliance with law and obligations are in compliance with applicable laws. In addition, good business practices dictate the Department apply a multifaceted monitoring approach for all of its grants during the grant period to ensure accountability and compliance with the grant requirements.

For the Two Years Ended June 30, 2016

Department officials stated the Department implemented procedures to prevent payments from being made prior to the approval of the required report being approved. The payments noted in the exception were made prior to the implementation of the auditors' recommendation. Further, in one of the payments noted in the exception, management made a decision to process the payment in order to prevent work stoppage and facilitate better performance outcomes and stabilize grantee's fiscal condition. The grant application evaluations and evidence of onsite monitoring were not found on file due to staff transition and attrition. The Department did not perform onsite monitoring because one of the programs for one of the grants subject to the finding was suspended during the audit period. The other grant did not have onsite monitoring because the Department can conduct the onsite monitoring during the grant's remaining record retention period. The unspent funds were not timely returned to the contractor due to unavailability of appropriation as a result of the budget crisis.

Failure to ensure adequate controls and procedures are established and followed for the administration of the grant programs increases the risk of undetected noncompliance and delays in recovering unused funds, if any. Finally, untimely return of refunds deprives grantors/contractors of needed funds. (Finding Code No. 2016-001, 2014-001, 12-1, 10-1, 08-1)

RECOMMENDATION

We recommend the Department strengthen its controls over the grant administration process including controls over disbursement of grant funds, maintaining grant documentation, grant monitoring and returning of unspent funds to grantors/contractors.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation. The Department continues to assess the efficiency and effectiveness of our current controls over the grant administration process, and have already implemented new controls to ensure payments to grantees are only made after required reports are received and approved by the Department as required in the grant agreement. In addition, the Department's Office of Accountability will ensure that grant monitoring will occur per the conditions of the grant agreements for those programs that lack monitors.

For the Two Years Ended June 30, 2016

2016-002. FINDING (Noncompliance with the Fiscal Control and Internal Auditing Act)

The Department of Commerce and Economic Opportunity's (Department) internal auditing program did not fully comply with the Fiscal Control and Internal Auditing Act.

The Department's Office of Internal Audit (OIA) did not conduct audits of the Department's major systems of internal accounting and administrative control to ensure major systems are reviewed at least once every two years. During Fiscal Year 2015, the OIA did not conduct and complete any audits. During Fiscal Year 2016, the OIA completed two audits. In addition, the Department installed a new electronic data processing system during Fiscal Year 2015; however, no internal audit review of the system design and controls was conducted prior to installation.

The Fiscal Control and Internal Auditing Act (Act) (30 ILCS 10/2003), requires the chief executive officer of each designated State agency ensure the internal auditing program includes audits of major systems of internal and administrative control conducted on a periodic basis so that all major systems are reviewed at least once every two years. The audits must include testing of the obligation, expenditures, receipt, and use of public funds of the State and of funds held in trust to determine whether those activities are in accordance with applicable laws and regulations. Additionally, the audits must include grants received or made by the designated State agency to determine the grants are monitored, administered, and accounted for in accordance with applicable laws and regulations. The Act also requires the internal auditing program to include reviews of the design of major new electronic data processing systems and major modifications to existing systems prior to their installation to ensure these systems provide for adequate audit trails and accountability.

Department officials stated the noncompliance was mainly due to staffing limitation in the OIA. During the audit period, OIA had no Chief Internal Auditor for a period of nine months thus required audits were not performed.

The Department administers a large number of State and Federal awards and grants. Awards and grants totaling \$1,305,778,270 were expended during the examination period, requiring an effective system of internal control to ensure awards and grants are monitored, administered, and accounted for in accordance with applicable laws and regulations. The major areas of internal control must be audited by internal audit on a regular basis to ensure adherence to an effective internal control system. Failure to perform regular internal audits of major systems of internal and administrative controls may result in weaknesses in internal control not being timely detected. (Finding Code No. 2016-002, 2014-003, 12-2)

For the Two Years Ended June 30, 2016

RECOMMENDATION

We recommend the OIA conduct internal audits of major systems and administrative controls at least once every two years in compliance with the Fiscal Control and Internal Auditing Act. OIA should include review of the Department's internal control over its administration of Federal and State grants and also include review of major electronic systems installed or review of major modifications to the existing electronic systems.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation. The Department continues to establish processes that will help ensure adherence to all requirements of the Fiscal Control and Internal Auditing Act. The Department is pursuing filling internal auditor positions which are essential to operate a fully functioning Office of Internal Audit.

For the Two Years Ended June 30, 2016

2016-003. **FINDING** (Failure to Submit, or Timely Submit Required Reports)

The Department of Commerce and Economic Opportunity (Department) did not submit or timely submit required reports in accordance with the mandates set forth in the State Law.

During testing of statutes applicable to the Department, auditors noted the following:

• The Department did not submit a report on its evaluation of the effectiveness of the tax credit program to the Governor and the General Assembly as required by the Economic Development for a Growing Economy (EDGE) Tax Credit Act. The last evaluation report submitted by the Department was on November 1, 2005. The Department believes they fulfill this requirement through the EDGE Annual Report, which is submitted to the Governor and the leaders in the Senate and House on or before July 1 each year. The auditors noted the EDGE Annual Report for calendar years 2014 and 2015 included a summary of jobs created and potential capital investment of each program. However, the report did not discuss the Department's assessment of the effectiveness of the program in creating new jobs in Illinois and the revenue impact of the program.

The EDGE Tax Credit Act (35 ILCS 10/5-75) requires the Department on a biennial basis to evaluate the tax credit program. The evaluation shall include an assessment of the effectiveness of the program in creating new jobs in Illinois and of the revenue impact of the program, and may include a review of the practices and experiences of other states with similar programs. The Director shall submit a report on the evaluation to the Governor and the General Assembly after June 30 and before November 1 in each odd-numbered year.

• The Department did not timely submit the reports evaluating the effectiveness of the River Edge Redevelopment Zone Act to the Governor and General Assembly during Fiscal Years 2015 and 2016. The reports were submitted 16 and 209 days after they were due.

The River Edge Redevelopment Zone Act (65 ILCS 115/10-6(a)(1)) requires the Department to monitor the implementation of this Act and submit reports evaluating the effectiveness of the program and setting forth any suggestions for legislation to the Governor and General Assembly by October 1 of each year preceding a regular Session of the General Assembly.

Department officials stated the failure to file the biennial report evaluating the effectiveness of the tax credit program was due to the Department's belief that the assessment of the effectiveness of the program was provided within the contents of the annual report. The failure to timely submit the reports under the River Edge Redevelopment Zone Act was due to staff turnover and extra time needed to gather relevant and necessary information to provide a more accurate and comprehensive review of the program.

For the Two Years Ended June 30, 2016

Failure to submit or timely submit required reports inhibits accumulation of meaningful oversight information for the Governor and General Assembly. (Finding Code No. 2016-003, 2014-004, 12-4, 10-5)

RECOMMENDATION

We recommend the Department revisit the statute that requires an evaluation of the EDGE Tax Credit Program to determine its effectiveness in creating new jobs and revenue impact to the State or seek legislative remedy as appropriate. In addition, we also recommend the Department allocate sufficient resources to ensure necessary information are collected and required reports are timely submitted to the Governor and General Assembly.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and will continue to strive for timely submission of all required reports or, when appropriate, seek statutory changes.

For the Two Years Ended June 30, 2016

2016-004. FINDING (Boards, Commissions, Committees and Councils Not Fully Staffed)

The Department of Commerce and Economic Opportunity (Department) did not ensure that certain Boards, Commissions, Committees, Councils, or Working Group mandated to provide guidance to the Department had the required number of members.

During testing of statutes applicable to the Department requiring various boards, committees, councils, and working groups, the auditors noted the following:

• The Illinois Steel Development Board (Board) has never met due to lack of appointments. In addition, the Department's two appointments to the Board were employees who have separated from the Department in July 2011 and March 2016, respectively.

The Civil Administrative Code of Illinois (Department of Commerce and Economic Opportunity Law) (20 ILCS 605/605-425) requires the establishment of the Illinois Steel Development Board as an advisory board to the Department. The Director of the Department shall serve as the Chairman of the Board and Deputy Director of the Office of Business Development will serve as one of the members. The rest of the Board shall be composed of 4 General Assembly members and 8 persons appointed by the Governor. In addition, the Department of Commerce and Economic Opportunity Law requires the Board to meet at least annually or at the call of the Chairman and 9 members shall constitute a quorum. The board shall provide advice and recommendations to the Department.

• The Digital Divide Elimination Advisory Committee has one vacant position to be appointed by the House Minority Leader. This position has been vacant since February 2014.

The Eliminate the Digital Divide Law (30 ILCS 780/5-30(e)) created the Digital Divide Elimination Advisory Committee consisting of 7 members appointed one each by the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House, and the House Minority Leader, and two appointed by the Director of the Department, one of whom shall be a representative of the telecommunications industry and one of whom shall represent community technology centers. The Digital Divide Elimination Advisory Committee shall advise the Department in establishing criteria and priorities for identifying recipients of grants under the Eliminate the Digital Divide Law.

• The Digital Divide Elimination Working Group has not been active since 2007. It remained inactive during Fiscal Years 2015 and 2016.

The Eliminate the Digital Divide Law (30 ILCS 780/5-30(f) & (g)) created a Digital Divide Elimination Working Group (Working Group). The Working Group is to consist of the Director of the Department or his designee, the Director of Central Management Services or his designee, and Executive Director of Illinois Commerce Commission or his designee. The

For the Two Years Ended June 30, 2016

Working Group is to present information to the Department on grant programs that are available as well as researching and cataloging programs designed to advance digital literacy and computer access.

• The Department did not appoint a liaison to serve as an ex-officio member on the Illinois Latino Family Commission.

The Illinois Latino Family Commission Act (20 ILCS 3983/20) requires the Department to appoint a liaison to serve ex-officio on the Illinois Latino Family Commission (Commission). The Office of the Governor, in cooperation with the State agencies appointing liaisons to the Commission, shall provide administrative support to the Commission.

• The Department did not appoint a liaison to serve as an ex-officio nonvoting member on the Older Adult Services Advisory Committee.

The Older Adult Services Act (320 ILCS 42/35(b)) requires the Department to select a representative to serve as an ex-officio nonvoting member on the Older Adult Services Advisory Committee.

• The Department did not appoint a representative to the Illinois Single Audit Commission (ILSAC) upon the existing representative's separation from the Department. Effective April 1, 2016, the Department's representative in the ILSAC separated from the Department. The Department attempted to replace its representation in ILSAC on April 12, 2016; however, the signed and notarized oath of office form necessary to formalize the appointment of the replacement was inadvertently not submitted by the new appointee to the Governor's Office of Boards and Commissions. The Department only noticed the oversight to submit the oath of office during the audit inquiry. The new appointee of the Department on ILSAC was finalized on October 20, 2016.

The Illinois Grant Funds Recovery Act (30 ILCS 705/15.1) creates the Illinois Single Audit Commission to "assist the Governor's Office of Management and Budget in creating its annual report under Section 90 of the Grant Accountability and Transparency Act." The Commission shall be comprised of one representative from each of the grant making agencies, including the Department of Commerce and Economic Opportunity, who is considered an expert in grants subject matter, and who shall be appointed by the Governor.

• The Department did not appoint a member or designate an employee to serve as a member of the Mississippi River Coordinating Council (Council) upon the existing member's separation from the Department. Effective February 2016, the Department's representative in the Council, who was also designated to assist the Council, separated from the Department; however, the Department did not appoint or designate another employee to replace the representation of the Department to the Council.

For the Two Years Ended June 30, 2016

The Mississippi River Coordinating Council Act (20 ILCS 4003/10(a)) requires the Director of the Department or his designee to serve as a voting member of the Mississippi River Coordinating Council. Further, 20 ILCS 4003/20 requires the Director of the Department to designate at least one employee to assist the Council.

• The Department did not appoint or designate an employee to serve as ex-officio non-voting member on the Support Your Neighborhood Commission (Commission) upon the existing member's separation from the Department. In March 2016, the former Director of the Department, who was appointed as an ex-officio non-voting member of the Commission separated from the Department; however, the Department did not appoint or designate the current Director or another employee as a designee to replace their representative on the Commission.

The Civil Administrative Code of Illinois (Department of Central Management Services Law) (20 ILCS 405/405-525 (c)) requires the Director of the Department or his designee to serve as an ex-officio non-voting member of the Support Your Neighborhood Commission.

• The Department did not appoint a member to the Wabash and Ohio Rivers Coordinating Council (Council) upon the existing designated member's separation from the Department. In February 2016, the Department's designee to the Council separated from the Department; however, the Department did not appoint or designate another employee to replace its representation to the Council.

The Wabash and Ohio Rivers Coordinating Council Act (20 ILCS 4060/10(a)) requires the Director of the Department or his designee to serve as an ex-officio voting member of the Council.

• The Department did not formally appoint a liaison to serve ex-officio on the Illinois African-American Family Commission (Commission). During the examination period, it was noted the Department appointed a liaison to the Commission. However, the required oath of office form was not submitted to the Governor's Office of Boards and Commissions to formalize the appointment.

The Illinois African-American Family Commission Act (20 ILCS 3903/20) requires the Department to appoint a liaison to serve ex-officio on the Commission.

• The Department did not formally appoint a new representative to the Commission on Children and Youth (Commission) upon the former Director's separation from the Department. During review of the Department's representation to the Commission, auditors noted the existing Department's representative to the Commission continued to be the former Director of the Department. The Department communicated its intent to update its representation on the Commission to the Governor's Office of Boards and Commissions; however, the signed and notarized oath of office form necessary to formalize the appointment was not completed.

For the Two Years Ended June 30, 2016

The Commission on Children and Youth Act (20 ILCS 4075/15(d)) requires the Director of the Department or his designee to serve as an ex-officio member of the Commission.

• The Department did not appoint a member to the Mid-America Medical District Commission (Commission) upon the appointee's separation from the Department. In July 2015, the Department's designee to the Commission separated from the Department; however, the Department did not appoint or designate another employee to replace its representation to the Commission.

The Mid-America Medical District Act (70 ILCS 930/10 (c)) requires the Director of the Department or his designee to serve as an ex-officio member of the Commission.

Department officials stated that competing priorities prevented the Department from appointing a representative/liaison to the mandated Boards, Commissions, Committees, Councils, or Working Groups.

Failure to appoint representative/designee/liaison or communicate vacancies prevents or hinders the Boards, Commissions, Committees, Councils, or Working Groups from carrying out their duties in accordance with the statutes. (Finding Code No. 2016-004, 2014-005, 12-6)

RECOMMENDATION

We recommend the Department appoint the required designees or when applicable continue to formally communicate to the Governor's Office the need to fill the vacancies to comply with the required membership in the mandated Boards, Committees, Councils and Working Groups. We also recommend the Department form the Digital Divide Elimination Working Group as required by the Eliminate the Digital Divide Law or seek a legislative remedy to the statutory requirement. Further, we recommend the Department timely appoint a replacement to a vacated appointed membership position after an appointed employee separates from the Department.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and will track compliance of statutorily required appointments; or make required appointments; or, where appropriate, seek statutory changes.

For the Two Years Ended June 30, 2016

2016-005. FINDING (Noncompliance with Statutory Mandates)

The Department of Commerce and Economic Opportunity (Department) did not comply with various statutory mandates.

During testing, auditors noted the following:

 The Department did not establish a comprehensive community economic development project to provide technical assistance to communities for purposes specified in the Build Illinois Act.

The Build Illinois Act (30 ILCS 750/9-4.5) requires the Department to establish a comprehensive community economic development project that will provide technical assistance to five communities.

Department officials stated the comprehensive economic development project was not established due to lack of funding and the Department did not request funding to establish the project because the Department continues to evaluate the feasibility of the program. According to Department officials the project has never been established since the legislation was enacted on December 2, 1994.

Failure to establish a comprehensive community economic development project may reduce the availability of information to promote economic development and may impinge on the job creation and retention efforts of the State.

• The Department's Film Production Services Tax Credit annual report for both Fiscal Year 2015 and 2016 did not include all the required vendor information as enumerated in subsection (c) of the Film Production Services Tax Credit Act of 2008.

The Film Production Services Tax Credit Act of 2008 (35 ILCS 16/45(c)) requires the Department to submit to the General Assembly an annual report that includes, without limitation, the following information:

- 1) An identification of each vendor that provided goods or services that were included in an accredited production's Illinois production spending;
- 2) The amount paid to each identified vendor by the accredited production;
- 3) For each identified vendor, a statement as to whether the vendor is a minority owned business or a female owned business, as defined under Section 2 of the Business Enterprise for Minorities, Females, and Persons with Disabilities Act; and
- 4) A description of any steps taken by the Department to encourage accredited productions to use vendors who are a minority owned business or a female owned business.

For the Two Years Ended June 30, 2016

Department officials stated the database that collects information for this reporting requirement is not comprehensive and did not encompass vendor minority/female ownership status. In addition, full compliance with this reporting requirement would require the Department to make public, proprietary and confidential information which is prohibited from being disclosed by Section 50 of the Film Production Services Tax Credit Act of 2008. Further, the Department has implemented steps to encourage film production companies to use vendors who are minority owned or female owned; however, these steps are not described in the annual reports to the General Assembly, rather, accumulated data on minority/female hiring by tax credit recipients are included in the annual reports to demonstrate that such objectives of the Act are being met.

Failure to include required information on the annual reports submitted to the General Assembly may inhibit accumulation of meaningful information that will help achieve the objectives of the Act.

• The Department did not administer the Illinois Industrial Coal Utilization Program and operate a revolving loan program aimed to partially finance new coal burning facilities or convert existing boilers to use coal located in Illinois.

The Energy Conservation and Coal Development Act (Act) (20 ILCS 1105/9) requires the Department to administer the Illinois Industrial Coal Utilization Program. The purpose of the program is to increase the environmentally sound use of Illinois coal by qualified applicants. To that end, the Department shall operate a revolving loan program to partially finance new coal burning facilities sited in Illinois or conversion of existing boilers located in Illinois to coal use, referred to as "industrial coal projects".

Department officials stated the Illinois Industrial Coal Utilization program was not administered due to lack of funding and the Department did not request funding to administer the program because of resource constraints and competing priorities. According to Department officials the program has never been administered in many years.

Failure to administer the Illinois Industrial Coal Utilization Program may limit opportunities for businesses considering the advantages of using environmentally sound Illinois coal or the creation of new coal burning facilities in Illinois.

• The Department developed the State strategic economic development plan (plan) which was submitted to the Governor and the General Assembly on July 1, 2014 in accordance with the statute. However, the Department did not complete and submit annual modifications to the plan which were due on July 1, 2015 and July 1, 2016. In addition, the Department did not submit necessary legislation to implement the Plan.

For the Two Years Ended June 30, 2016

The Civil Administrative Code of Illinois (Department of Commerce and Economic Opportunity Law) (20 ILCS 605/605-300) states the Department shall develop a strategic economic development plan for the State by July 1, 2014. By no later than July 1, 2015, and by July 1 annually thereafter, the Department shall make modifications to the plan as modifications are warranted by changes in economic conditions or by other factors, including changes in policy. Also, the Department shall annually submit legislation to implement the strategic economic development plan or modifications to the strategic economic development plan to the Governor, the President and Minority Leader of the Senate, and the Speaker and the Minority Leader of the House of Representatives. The legislation shall be in the form of one or more substantive bills drafted by the Legislative Reference Bureau.

Department officials stated the modifications and legislations to implement the plan were not completed and submitted to the Governor and General Assembly due to the mixture of staff turnover and the effect of the budget crisis.

Failure to make modifications to the plan may result in an outdated plan that does not address changes in economic conditions and other factors affecting economic development. Legislation is important to implement and enforce the various components of the plan.

• The Department's designee did not regularly participate as a member on the Business Enterprise Council for Minorities, Females, and Persons with Disabilities (Council). During review of the meeting minutes of the Council, auditors noted the designee of the Department did not attend 11 of the 19 (58%) meetings of the Council held during Fiscal Years 2015 and 2016.

The Business Enterprise for Minorities, Females and Persons with Disabilities Act (Act) (30 ILCS 575/5) creates the Business Enterprise Council for Minorities, Females and Persons with Disabilities, which shall include the Director of the Department of Commerce and Economic Opportunity or his duly appointed representative, as a member.

Department officials stated that competing priorities caused the inconsistency in attendance.

Failure of the Department's designee to attend meetings of the Council inhibits the Department's participation to implement, monitor, and enforce the goals of the Act. (Finding Code No. 2016-005, 2014-006, 12-7)

RECOMMENDATION

We recommend the Department allocate resources to comply with the statutory requirements or seek a legislative remedy as appropriate.

For the Two Years Ended June 30, 2016

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and is taking steps to ensure compliance with these requirements; or, where appropriate, the Department is seeking statutory changes.

For the Two Years Ended June 30, 2016

2016-006. FINDING (Noncompliance with the Employment and Economic Opportunity for Persons with Disabilities Task Force Act and Illinois Employment First Act)

The Department of Commerce and Economic Opportunity (Department) did not fully comply with the Employment and Economic Opportunity for Persons with Disabilities Task Force Act and the Illinois Employment First Act.

During testing of the Department's compliance with the Economic Opportunity for Persons with Disabilities Task Force Act and the Illinois Employment First Act, auditors noted the following:

- The Economic Opportunity for Persons with Disabilities Task Force (Task Force) created under the Economic Opportunity for Persons with Disabilities Task Force Act, of which the Department is a member, did not produce an annual report of its activities and recommendations that should be issued no later than May 1st of each year.
- The Task Force had not finalized the measurable goals and objectives for the State to ensure implementation and monitor measured progress towards implementation of the Illinois Employment First Act.
- The Task Force did not submit the final five-year strategic report due on June 30, 2015 to the Governor. As of September 2016, the final strategic plan has not yet been submitted by the Task Force.

The Employment and Economic Opportunity for Persons with Disabilities Task Force Act (Act) (20 ILCS 4095/10) creates the Employment and Economic Opportunity Task Force, which shall be comprised of the following representatives of State Government: a high-ranking member of the Governor's management team, designated by the Governor; representatives of each division of the Department of Human Services, designated by the Secretary of Human Services; the Director of Healthcare and Family Services, or his or her designee; the Director of Veterans' Affairs or his or her designee; the Director of Employment Security or his or her designee; the Executive Director of the Illinois Council on Developmental Disabilities or his or her designee; and the State Superintendent of Education or his or her designee. The Act (20 ILCS 4095/20) requires the Task Force to make recommendations to the General Assembly and to the Governor, including legislative proposals, regulatory changes, systems changes, and budget initiatives, that would advance employment and economic opportunity for persons with disabilities in Illinois. The Task Force shall produce an annual report of its activities and recommendations that shall be issued no later than May 1st of each year.

The Illinois Employment First Act (20 ILCS 40/20) requires the Task Force to establish measurable goals and objectives for the State to ensure implementation of this Act and monitor the measured progress toward implementation of this Act. All State agencies shall fully cooperate with the Task Force and provide data and information to assist the Task Force in carrying out its responsibilities.

For the Two Years Ended June 30, 2016

The Task Force shall include in its annual report a progress report on the implementation of this Act and any recommendations with respect to the implementation of this Act.

The Executive Order Implementing Employment First in Illinois (14-08) requires the Task Force to submit a final strategic plan on or before June 30, 2015 and shall include: (a) Strategies for providing capacity building to all stakeholders and providers; (b) The short term and long term cost of implementing the necessary changes in policy, practices, and procedures and how these cost will be addressed by State agencies; (c) Strategies for reducing the reliance upon vocational placements of people with disabilities in sheltered workshop settings, segregated settings and day treatment settings; (d) the interagency agreements, where needed, in collaboration with the Governor's Office Liaison to improve coordination of services and allow for data sharing as appropriate; (e) agency benchmarks; and (f) a plan detailing how State Agencies will work with Illinois Department of Employment Security and Department of Commerce and Economic Opportunity to increase recruitment opportunities for individuals with disabilities with private employers.

Department officials stated that the noncompliance was due to transitional issues experienced by the Task Force and oversight on the annual reporting requirement.

Failure to comply with the requirements of the Employment and Economic Opportunity for Persons with Disabilities Task Force Act and Illinois Employment First Act may hinder the State's goal and efforts to facilitate inclusion and integration of individuals with disabilities in the workplace. (Finding Code No. 2016-006)

RECOMMENDATION

We recommend the Department together with other member State agencies of the Task Force comply with the requirements of the Economic Opportunity for Persons with Disabilities Task Force Act, the Illinois Employment First Act, and the Executive Order implementing the Illinois Employment First Act.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation. In December of 2014, the Economic Opportunity for Persons with Disabilities Task Force created workgroups charged with development of the strategic plan. From that time, through July of 2016 when a draft plan was posted for public comment, Department staff participated on the workgroups and submitted feedback related to workforce development. Once the Economic Opportunity for Persons with Disabilities Task Force becomes active again, the Department will continue to contribute.

For the Two Years Ended June 30, 2016

2016-007. FINDING (Noncompliance with the Retailers' Occupation Tax Act)

The Department of Commerce and Economic Opportunity (Department) did not comply with certain requirements of the Retailer's Occupation Tax Act.

During testing, auditors noted the Department did not timely act upon the applications for eligibility for retailer's occupation tax exemption by business enterprises. Two of six (33%) applications for eligibility for exemption on retailer occupation tax tested were not approved within 60 days from receipt of the applications. The applications were approved 78 to 329 days after the applications were received.

The Retailer's Occupation Tax Act (35 ILCS 120/1f) requires if the Department determines that a business enterprise meets the criteria prescribed for a retailer's occupation tax exemption, it shall issue a certificate of eligibility for exemption to the business enterprise in such form as is prescribed by the Department of Revenue. The Department shall act upon such certification requests within 60 days after receipt of the application, and shall file with the Department of Revenue a copy of each certificate of eligibility for exemption.

As noted in the Department's Application Approval Process (14 Ill. Adm. Code 520.1630) "applications shall be submitted to the Department, which shall approve or deny the application in writing within 60 days after receipt."

Department officials stated the delay in processing occurred due to staffing issues and the positioning and replacement of key personnel within the program.

Failure to timely act upon the application for eligibility of tax exemption under the Retailers' Occupation Tax Act may result in the delay of investments by business enterprises and creation of jobs within the State. (Finding Code No. 2016-007, 2014-007)

RECOMMENDATION

We recommend the Department allocate sufficient staffing resources to timely act upon applications received on tax exemption.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and is seeking additional staffing resources to timely act upon applications received on Retailer's Occupation Tax Act exemptions.

For the Two Years Ended June 30, 2016

2016-008. FINDING (Failure to Comply with Certain Provisions of the Public Utilities Act)

The Department of Commerce and Economic Opportunity (Department) did not comply with certain provisions of the Public Utilities Act.

During testing, auditors noted the following:

Natural gas utilities and the Department are required to use cost-effective energy
efficiency to reduce direct and indirect costs to consumers. Certain requirements of the
Public Utilities Act do not apply to customers of a natural gas utility that are considered a
Self-Directing Customer (SDC) or Exempt Customer. The only SDC application
received during the audit period was approved by the Department 32 days late.

The Public Utilities Act (220 ILCS 5/8-104(m)(2)) requires the Department to review the application for an SDC or Exempt Customer to determine that it contains the required information and the review shall be completed within 30 days after the date the application is filed with the Department.

• Two of five (40%) of the SDC's did not timely submit their annual reports. The annual reports were submitted 25 to 259 days late.

The Act (220 ILCS 5/8-104(m)(1)(E)) requires the SDC's to report statutorily required information by October 1 of each year.

• The Department did not formally appoint a non-voting trustee on the Illinois Clean Energy Community Trust (Trust). During testing, the Department's official representative on the Trust continued to be the former Director of the Department. The Department communicated its intent to update its representation to the Trust to the Governor's Office of Boards and Commissions; however, the signed and notarized oath of office form necessary to formalize the appointment was not completed.

The Public Utilities Act (220 ILCS 5/16-111.1 (b) (1)) requires the Department to appoint a non-voting trustee to serve the Trust.

Department officials stated the review of the SDC application was completed within 30 days, however, the Department failed to send the approval letter timely due to staff turnover and because this mandate was unfunded. The SDC did not file their annual reports on time despite repeated follow-up by the Department. The failure to complete the appointment to the Illinois Clean Energy Trust was due to competing priorities.

For the Two Years Ended June 30, 2016

Failure to timely approve applications of the SDC may delay the provision of adequate, efficient, reliable, and environmentally safe and least-cost public utility services to the citizens of the State. Failure to ensure SDC's submit their annual reports timely deprives the Department of valuable information needed to monitor the SDCs' compliance with the Act. Failure to formalize appointments may result in the Trust not meeting its intended objectives and functions. (Finding Code No. 2016-008, 2014-008)

RECOMMENDATION

We recommend the Department allocate adequate resources to comply with the requirements set forth in the Public Utilities Act. Further, the Department should work with the SDC's to ensure timely filing of their annual reports.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and is taking steps to ensure compliance with these requirements; or, where appropriate, the Department is seeking statutory changes.

For the Two Years Ended June 30, 2016

2016-009. FINDING (Exceptions Identified With Interagency Agreements)

Auditors identified exceptions at the Department of Commerce and Economic Opportunity (Department) while testing interagency agreements.

During testing of nine interagency agreements during Fiscal Years 2015 and 2016, auditors noted the following:

- Seven (78%) interagency agreements tested pertain to the sharing of services of certain employees between the Department and other State agencies. The employees worked on activities for both parties; however, the cost or expenditures related to the employees' services are not shared or allocated between the parties. The employees' full salaries for five of these agreements were paid in full by the Department while the other two agreements were paid by the Illinois Office of the Comptroller and the Illinois Department of Central Management Services. In addition, the employee covered by one of the interagency agreements whose salary was paid by the Department did not submit timesheets to the Department.
- Four (44%) interagency agreements tested were not signed by all parties prior to the effective date of the agreements. The agreements were signed between 3 and 17 days after the effective dates of the agreements.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that resources are used efficiently and effectively and obligations and costs are in compliance with applicable laws. Good internal controls require the approval of agreements prior to the effective date of the agreements.

The State Finance Act (30 ILCS 105/9.03) requires a certification on every State payroll voucher stating "that the results of the work performed by these employees and that substantially all of their working time is directly related to the objectives, functions, goals, and policies of the organizational unit for which the appropriation is made..."

Department officials stated they enter into interagency agreements to coordinate mutually beneficial efforts with other state agencies and offices in an effort to judiciously utilize limited state resources. In some instances, interagency agreements are used for a short period of time to bridge a gap while an employee is transitioning out of one role into another. Other times, agencies'/offices' objectives and outcomes are in synch and entwined; one agency/office will pay for salary and benefits while the other agency/office may pay for other costs associated with the employee because parsing apart the benefits between agencies/offices is overly onerous. Interagency agreements not signed by all parties prior to effective dates and failure of the employee subject to interagency agreement to submit timesheets to the Department were due to administrative oversight.

For the Two Years Ended June 30, 2016

Failure to appropriately allocate the cost of employees' services distorts the appropriation process and may result in inaccurate allocation of expenditures between agencies. Failure to approve interagency agreements prior to the effective dates prevents all parties from assessing whether the agreements are reasonable, appropriate, and sufficiently document the responsibilities of all parties in a timely manner. (Finding Code No. 2016-009, 2014-009)

RECOMMENDATION

We recommend the Department reevaluate interagency agreements to determine an appropriate allocation of the cost related to the employees' shared services between the agencies, or document the reason why the employees' shared services are only being paid by one of the agencies. We also recommend the Department ensure all interagency agreements are signed by all parties prior to the effective date of the agreements.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and will assess and document the methodology for allocation of costs related to interagency agreements, and will take the necessary steps to ensure agreements are signed timely.

For the Two Years Ended June 30, 2016

2016-010. FINDING (Employee Performance Evaluations were Not Completed Annually and Timely)

The Department of Commerce and Economic Opportunity (Department) did not perform annual employee performance evaluations for all employees, and did not perform certain employee performance evaluations on a timely basis.

During testing of employee files for performance evaluations, auditors noted the following:

- Eight of 40 (20%) employees tested did not have performance evaluations completed, three for Fiscal Year 2015 and five for Fiscal Year 2016. This includes an employee who was not evaluated during the four month probationary period.
- Twelve of 40 (30%) employees' annual performance evaluations were completed 1 to 120 days after they were due.

Personnel rules issued by the Department of Central Management Services (80 Illinois Administrative Code 302.270(d)) require performance records to include an evaluation of employee performance prepared by each agency not less often than annually. The Department's Employee Policy Manual Section 2.13 (Employee Evaluations) states, "Evaluations must take place no less than every twelve (12) months unless otherwise specified under the Illinois Personnel Rules. For employees serving four (4) month probationary period, the supervisor must prepare and submit to the Office of Human Resources an evaluation form after two (2) months of the probationary period and another evaluation two (2) weeks prior to the end of the probationary period."

Department officials stated the failure of the supervisor to complete performance evaluations or timely complete performance evaluations was due to employee and supervisor time off, leave of absences and supervisors' competing priorities.

Employee performance evaluations are a systematic and uniform approach used for the development of employees and communication of performance expectations to employees. Without timely completion of an employee performance evaluation, the employee would not be provided with formal feedback or assessment of his or her performance, and areas for improvements and current year's performance goals and objectives may not be identified and communicated in a timely manner. Employee performance evaluations should serve as a foundation for salary adjustments, promotions, demotions, discharges, layoff, recall, or reinstatement decisions. (Finding Code No. 2016-010, 2014-010, 12-3, 10-3, 08-5, 06-4)

For the Two Years Ended June 30, 2016

RECOMMENDATION

We recommend the Department remind supervisors of the requirements for completing or timely completing employee performance evaluations and continue to monitor compliance.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and is taking steps to ensure compliance with these requirements. The Department's Executive Management will communicate an expectation of compliance to managers and supervisors

For the Two Years Ended June 30, 2016

2016-011. FINDING (Weaknesses in Controls over State Property)

The Department of Commerce and Economic Opportunity (Department) had weaknesses in controls over its State property.

During review of the Department's compliance with State property requirements, auditors noted the following:

- The Department did not have an adequate segregation of duties when conducting its State property inventory. The Property Control Officer conducts a physical count of assets and maintains the property control records.
- The Department was not able to locate a laptop with a cost of \$3,682 during the Fiscal Year 2016 annual inventory inspection. The missing laptop was believed to be sent to one of the State approved recycling vendors; however, the Department did not have documentation to confirm the transfer. In addition, the Department could not provide documentation to prove the laptop was wiped of any sensitive information that may have been stored on the laptop.
- The Department did not dispose of assets in accordance with the property control rules. Auditors reviewed the Department's support for 25 deleted equipment items and identified three servers totalling \$12,177 and a multiplexer totalling \$525 that were deleted from the property control records because the equipment items were either lost or could not be located. According to the Department, the three servers and multiplexer were located and used by Workforce Partner entities and would have stored information relating to employment and workforce data. The Department further stated these equipment items were considered obsolete and were disposed of by the Workforce Partner entities, however, the Department could not provide documentation to prove that the equipment items were wiped of any sensitive information that may have been stored on the equipment items. Workforce Partners are independent organizations receiving grants from the Department to implement the objectives of the Workforce Innovation and Opportunity Act.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that resources are used efficiently and effectively and obligations and costs are in compliance with applicable laws. Good internal controls require the segregation of duties when conducting inventories of State property. Persons with access to the property control records should not also conduct the physical inventory of the State property.

The State Property Control Act (30 ILCS 605/4) requires the Department to be accountable for the supervision, control and inventory of all items under its jurisdiction and control. In addition, the Department had the responsibility to ensure confidential information was protected from

For the Two Years Ended June 30, 2016

disclosure and that provisions of the Personal Information Protection Act (815 ILCS 530/30) were followed.

The Department's Asset Management Procedures Manual (Manual) states that in circumstances where equipment is located either in a foreign office or a grantee location, program managers assigned responsibility for these programs or offices are responsible for physical inventory, control, and all procedures necessary to ensure property rules are followed and enforced. The Manual (Section 3.20) states when disposing of transferable information technology and or electronic equipment, arrangement should be made with Central Management Services or their approved vendor to wipe/clean all information technology or electronic equipment with a data collection device.

Department officials stated the issue regarding segregation of duties is attributable to the budget constraints that only allow limited staffing. The equipment that could not be located was due to the property control unit not being more diligent in recording/tracking the disposal of equipment. Further, assets located at the Workforce Partners were not disposed of in accordance with property control rules due to the property control unit needing to communicate more effectively the disposition procedures to partner entities.

Inadequate segregation of duties in conducting State property inventories increases the risk of misappropriation of State property. Failure to properly track State property transfers and failure to follow property control rules in disposing of State property may result in erroneous property control records and increases the risks associated with the potential exposure of confidential personal information. (Finding Code No. 2016-011)

RECOMMENDATION

We recommend the Department provide sufficient resources to adequately segregate conflicting duties when conducting inventories of State property. We also recommend the Department ensure all State property transfers are properly documented and signed by all parties for accountability purposes. Further, we recommend the Department require workforce partner entities to return obsolete equipment items to the Department so that the State property rules are followed in disposing of obsolete equipment.

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and will implement procedures to improve the accountability of transfers and disposals of State property, and will segregate the duty of taking physical inventory from the duties of tracking and reporting of State property.

For the Two Years Ended June 30, 2016

2016-012. FINDING (Weaknesses over Employee Time Reporting)

The Department of Commerce and Economic Opportunity (Department) had weaknesses in controls over employee time reporting.

The Department utilizes the automated eTime system for reporting and summarizing the employees' work hours and time off. Each employee is expected to submit a weekly timesheet in the eTime system for approval by the supervisor.

During testing of 83 timesheets, auditors noted the following:

- Thirty-two (39%) timesheets tested were not submitted by employees timely. These timesheets were submitted eight to 123 days after the timesheet period end date.
- Five (6%) timesheets tested were not completed and submitted by employees as required.

The State Officials and Employees Ethics Act (5 ILCS 430/5-5(c)) requires State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour.

The Department's Employee Policy Manual (Manual), (Section 2.5) states "All employees are required to submit, on a weekly basis, their Daily Time Report within the eTime system for approval. The report must accurately reflect (a) time spent on official State business; and (b) authorized leave to the nearest quarter hour. The Daily Time Report must be submitted weekly." Further, the Manual (Section 2.5.1) requires each employee to electronically submit their Daily Time Report to verify its accuracy and submit to their immediate supervisor for approval.

Department officials stated timesheets were not submitted timely due to employee time off and leave of absences. The timesheets that were not submitted were due to oversight.

By not ensuring timely submission of appropriate timesheets from some of its employees, the Department does not have complete documentation of the time spent by these employees on official state business as required by the Act. (Finding Code No. 2016-012)

RECOMMENDATION

We recommend the Department strengthen controls and monitor the eTime system to ensure employees' time records are completed and submitted timely.

For the Two Years Ended June 30, 2016

DEPARTMENT RESPONSE

The Department of Commerce and Economic Opportunity accepts the recommendation and is taking steps to ensure compliance with these requirements. The Department's Executive Management will communicate an expectation of compliance to managers and supervisors.

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY PRIOR FINDINGS NOT REPEATED

For the Two Years Ended June 30, 2016

A. <u>FINDING</u> (Failure to Comply with the Requirements on Granting and Administering Loans under the Small Business Development Act)

During the prior examination period, the Department did not comply with certain provisions of the Small Business Development Act (Act) with regards to approval and administration of a direct loan and use of an equity intermediary. The Department entered into a loan agreement under the Act during Fiscal Years 2013 and 2014. Auditors noted exceptions in the application and approval processing of the loan and noncompliance with significant covenants of the loan agreement. In addition, the Department entered into an Equity Intermediary Agreement to purchase equity interest in two small venture capital businesses. Auditors noted that commitment to one of the small venture capital businesses was made prior to the approval of the equity intermediary in accordance with the Act.

During the current examination period, the Department did not enter into any loan agreements under the Act. The loan that was the subject of the finding in prior years was fully paid in Fiscal Year 2015. In addition, the Department did not enter into any equity intermediary agreements during Fiscal Years 2015 and 2016. (Finding Code No. 2014-002)

B. **FINDING** (Noncompliance with the Project Labor Agreements Act)

During the prior examination period, the Department did not ensure compliance with the Application Guidelines of Illinois Next Generation Biofuel Production Program and the requirements of the Project Labor Agreements Act. The Department determined a provision of a project labor agreement should have been included in the Illinois Next Generation Biofuel Production Program Grants. However, the Department did not include the provision regarding project labor agreements requirements on three grant agreements signed under the Illinois Next Generation Biofuel Production Program.

During the current examination period, the Department did not enter into any grant agreements under the Illinois Next Generation Biofuel Production Program. The three grants in prior years were completed during Fiscal Years 2015 and 2016. (Finding Code No. 2014-011)

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY COMPLIANCE EXAMINATION

For the Two Years Ended June 30, 2016

SUPPLEMENTARY INFORMATION FOR STATE COMPLIANCE PURPOSES

SUMMARY

Supplementary Information for State Compliance Purposes presented in this section of the report includes the following:

Fiscal Schedules and Analysis

Schedule of Appropriations, Expenditures and Lapsed Balances – Fiscal Year 2016 Schedule of Appropriations, Expenditures and Lapsed Balances – Fiscal Year 2015 Comparative Schedule of Net Appropriations, Expenditures, Reappropriated and Lapsed Balances

Comparative Schedule of Net Appropriations, Expenditures, Reappropriated and Lapsed Balances By Detail Object Code

Comparative Schedule of Net Appropriations, Expenditures, Reappropriated and Lapsed Balances By Fund

Schedule of Changes in State Property

Comparative Schedule of Cash Receipts

Reconciliation Schedule of Cash Receipts to Deposits Remitted to the State Comptroller Fiscal Year 2016

Reconciliation Schedule of Cash Receipts to Deposits Remitted to the State Comptroller Fiscal Year 2015

Analysis of Significant Variations in Expenditures

Analysis of Significant Variations in Receipts

Analysis of Significant Lapse Period Spending

Analysis of Accounts Receivable

• Analysis of Operations

Agency Functions and Planning Program (Not Examined)

Budget Impasse Disclosures (Not Examined)

Alternative Financing in Lieu of Appropriations and Programs to Address Untimely Payments to Vendors (Not Examined)

Interest Costs on Fiscal Year 2016 Invoices (Not Examined)

Average Number of Employees (Not Examined)

Grant Management Projects (Not Examined)

Service Efforts and Accomplishments (Not Examined)

Schedule of Indirect Cost Reimbursements and Administrative Costs (Not Examined)

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY COMPLIANCE EXAMINATION

For the Two Years Ended June 30, 2016

The accountant's report that covers the Supplementary Information for State Compliance Purposes presented in the Compliance Report Section states the accountants have applied certain limited procedures as prescribed by the Audit Guide as adopted by the Auditor General to the June 30, 2016 and June 30, 2015 accompanying supplementary information in Schedules 1 through 13. However, the accountants do not express an opinion on the supplementary information. The accountant's report also states that they have not applied procedures to the Analysis of Operations Section, and accordingly, they do not express an opinion or provide any assurance on it.

| GRAND TOTAL ALL FUNDS | | \$ 434,562,12 | \$ 77,951,106 | \$ 512,513,234 | |

- Note 1: Expenditure authority, appropriations, expenditures, and lapsed balances were obtained from the State Comptroller records as of September 30, 2016, and have been reconciled to the Department records.
- Note 2: Expenditure amounts are vouchers approved for payment by the Department and submitted to the State Comptroller for payment to the vendor.
- Note 3: The Circuit Court of St. Clair County in *AFSCME Council 31 v. Munger* (15 CH 475) ordered the State Comptroller, in the absence of enacted annual appropriations, to "draw and issue warrants accomplishing payment of wages [for all State employees] at their normal rates of pay." As the Department never received enacted personal services appropriations for Fund 001, the Department was able to submit vouchers to pay its employees in full without a maximum expenditure limit for personal service costs during Fiscal Year 2016.

DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY SCHEDULE OF APPROPRIATIONS, EXPENDITURES AND LAPSED BALANCES

Expenditure Authority for Fiscal Year 2016

- Note 4: During Fiscal Year 2016, the Department operated without enacted appropriations until Public Act 99-0409, 99-0491, and Public Act 99-0524 were signed into law on August 20, 2015, December 7, 2015, and June 30, 2016, respectively. During the impasse, the Circuit Court of St. Clair County in *AFSCME Council 31 v. Munger* (15 CH 475) ordered the State Comptroller, in the absence of enacted annual appropriations, to "draw and issue warrants accomplishing payment of wages [for all State employees] at their normal rates of pay." As such, the Department's court-ordered payroll payments were merged into the enacted appropriation for Fund 078, 387, 506, 531, 550, 636, 659, 737, 763, 859, 870, 871, 875, 883, 913, 925, 971, and 973. Further, the Department incurred non-payroll obligations within Funds 078, 387, 506, 531, 550, 552, 621, 636, 737, 763, 820, 859, 870, 871, 875, 883, 913, 925, 969, and 973, which the Department was unable to pay until the passage of Public Act 99-0409, 99-0491, and Public Act 99-0524.
- Note 5: Public Act 99-0524 authorizes the Department to pay Fiscal Year 2016 costs using its Fiscal Year 2017 appropriations for non-payroll expenditures. The Analysis of Operations section of this report at page 86 indicated the Department did not have any outstanding invoices from Fiscal Year 2016 unpaid after the closure of the Fiscal Year 2016 Lapse Period on August 31, 2016. Therefore, the Department did not use its Fiscal Year 2017 appropriations to pay its Fiscal Year 2016 costs.

- Note 1: Expenditure authority, appropriations, expenditures, and lapsed balances were obtained from the State Comptroller records as of September 30, 2016, and have been reconciled to the Department records.
- Note 2: Expenditure amounts are vouchers approved for payment by the Department and submitted to the State Comptroller for payment to the vendor.
- Note 3: The Circuit Court of St. Clair County in AFSCME Council 31 v. Munger (15 CH 475) ordered the State Comptroller, in the absence of enacted annual appropriations, to "draw and issue warrants accomplishing payment of wages [for all State employees] at their normal rates of pay." As the Department never received enacted personal services appropriations for Fund 001, the Department was able to submit vouchers to pay its employees in full without a maximum expenditure limit for personal service costs during Fiscal Year 2016.
- Note 4: During Fiscal Year 2016, the Department operated without enacted appropriations until Public Act 99-0409, 99-0491, and Public Act 99-0524 were signed into law on August 20, 2015, December 7, 2015, and June 30, 2016, respectively. During the impasse, the Circuit Court of St. Clair County in *AFSCME Council 31 v. Munger (15 CH 475)* ordered the State Comptroller, in the absence of enacted annual appropriations, to "draw and issue warrants accomplishing payment of wages [for all State employees] at their normal rates of pay." As such, the Department's court-ordered payroll payments were merged into the enacted appropriation for Fund 078, 387, 506, 531, 550, 636, 659, 737, 763, 859, 870, 871, 875, 883, 913, 925, 971, and 973. Further, the Department incurred non-payroll obligations within Funds 078, 387, 506, 531, 550, 552, 621, 636, 737, 763, 820, 859, 870, 871, 875, 883, 913, 925, 969, and 973, which the Department was unable to pay until the passage of Public Act 99-0409, 99-0491, and Public Act 99-0524.
- Note 5: Public Act 99-0524 authorizes the Department to pay Fiscal Year 2016 costs using its Fiscal Year 2017 appropriations for non-payroll expenditures. The Analysis of Operations section of this report at page 86 indicated the Department did not have any outstanding invoices from Fiscal Year 2016 unpaid after the closure of the Fiscal Year 2016 Lapse Period on August 31, 2016. Therefore, the Department did not use its Fiscal Year 2017 appropriations to pay its Fiscal Year 2016 costs.

DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY COMPARATIVE SCHEDULE OF NET APPROPRIATIONS, EXPENDITURES, REAPPROPRIATED AND LAPSED BALANCES BY FUND

For the Fiscal Years Ended June 30, 2016, 2015, 2014

| | Fiscal Year | | | | | |
|---|---|-------------|---|----|---------------------------------|--|
| | 2016 | | 2015 | | 2014 | |
| NON-APPROPRIATED FUNDS | P.A. 99-0409 99-0491; 99-05 Court-Ordere Expenditure | 24; d 98 | P.A. 98-0679; -0675; 98-0681; 99-0001 | | P.A. 98-0050; -0064; 98-0642 | |
| Expenditures DCEO Projects Fund - 0419 | \$ 196, | 941 \$ | 5,745,059 | \$ | 834 | |
| GRAND TOTAL - ALL FUNDS | \$ 512,513, | 234 \$ | 995,259,819 | \$ | 1,051,761,271 | |

- Note 1: Expenditure authority, appropriations, expenditures, and lapsed balances were obtained from the State Comptroller records as of September 30, 2016, and have been reconciled to the Department records.
- Note 2: Expenditure amounts are vouchers approved for payment by the Department and submitted to the State Comptroller for payment to the vendor.
- Note 3: The Circuit Court of St. Clair County in *AFSCME Council 31 v. Munger* (15 CH 475) ordered the State Comptroller, in the absence of enacted annual appropriations, to "draw and issue warrants accomplishing payment of wages [for all State employees] at their normal rates of pay." As the Department never received enacted personal services appropriations for Fund 001, the Department was able to submit vouchers to pay its employees in full without a maximum expenditure limit for personal service costs during Fiscal Year 2016.
- Note 4: During Fiscal Year 2016, the Department operated without enacted appropriations until Public Act 99-0409, 99-0491, and Public Act 99-0524 were signed into law on August 20, 2015, December 7, 2015, and June 30, 2016, respectively. During the impasse, the Circuit Court of St. Clair County in *AFSCME Council 31 v. Munger* (15 CH 475) ordered the State Comptroller, in the absence of enacted annual appropriations, to "draw and issue warrants accomplishing payment of wages [for all State employees] at their normal rates of pay." As such the Department's court-ordered payroll payments were merged into the enacted appropriation for Fund 078, 387, 506, 531, 550, 636, 659, 737, 763, 859, 870, 871, 875, 883, 913, 925, 971, and 973. Further, the Department incurred non-payroll obligations within Funds 078, 387, 506, 531, 550, 552, 621, 636, 737, 763, 820, 859, 870, 871, 875, 883, 913, 925, 969, and 973, which the Department was unable to pay until the passage of Public Act 99-0409, 99-0491, and Public Act 99-0524.
- Note 5: Public Act 99-0524 authorizes the Department to pay Fiscal Year 2016 costs using its Fiscal Year 2017 appropriations for non-payroll expenditures. The Analysis of Operations section of this report at page 86 indicated the Department did not have any outstanding invoices from Fiscal Year 2016 unpaid after the closure of the Fiscal Year 2016 Lapse Period on August 31, 2016. Therefore, the Department did not use its Fiscal Year 2017 appropriations to pay its Fiscal Year 2016 costs.

^{*} These are receipts collected on behalf of the Department by the Illinois Department of Revenue.

^{**} At the end of Fiscal Year 2014, the Department reported a prior year refund of \$1,800 as deposit in transit. In July 2014, the Office of the Comptroller processed the \$1,800 refund as a current year refund which offset Fiscal Year 2015 expenditures. Thus, the Department adjusted the receipt initially recorded as prior year refund in Fiscal Year 2014 to a current year refund in Fiscal Year 2015 to reconcile with the Comptroller's records.

^{**} At the end of Fiscal Year 2014, the Department reported a prior year refund of \$1,800 as deposit in transit. In July 2014, the Office of the Comptroller processed the \$1,800 refund as a current year refund which offset Fiscal Year 2015 expenditures. Thus, the Department adjusted the receipt initially recorded as prior year refund in Fiscal Year 2014 to a current year refund in Fiscal Year 2015 to reconcile with the Comptroller's records.

The Department of Commerce and Economic Opportunity's (Department) explanations for significant fluctuations in expenditures as presented in the Comparative Schedule of Net Appropriations, Expenditures, Reappropriated and Lapsed Balances By Fund (Schedule 5) are detailed below. For the purpose of this analysis, a significant fluctuation is defined as a variation that equaled or exceeded \$750,000 and 20% as compared to the prior year.

General Revenue Fund - 0001

Expenditures decreased by \$13,645,729 or 62% in Fiscal Year 2016 from Fiscal Year 2015 due to the elimination of an appropriation for grant spending in this fund during Fiscal Year 2016. Expenditures decreased by \$21,674,314 or 50% in Fiscal Year 2015 from Fiscal Year 2014 due to the suspension of many grant programs paid from the General Revenue Fund.

Solid Waste Management Fund - 0078

Expenditures decreased by \$1,495,169 or 71% in Fiscal Year 2016 from Fiscal Year 2015 due to winding down of grants issued under the Recycling Grant Program suspended in Fiscal year 2015. Expenditures decreased by \$2,279,354 or 52 % in Fiscal Year 2015 from Fiscal Year 2014 due to the suspension of the Recycling Grant Program during Fiscal Year 2015. As a result, the Department did not issue new grants during Fiscal Year 2015.

Capital Development Fund - 0141

Expenditures decreased by \$25,494,333 or 100% in Fiscal Year 2016 from Fiscal Year 2015 due to lack of appropriation received in this fund for Fiscal Year 2016. Expenditures increased by \$21,209,434 or 495% in Fiscal Year 2015 from Fiscal Year 2014 due to an increase in the programmatic State grant activities to bolster the economy, promote a clean environment and improve the overall quality of life throughout the State in Fiscal Year 2015.

State Small Business Credit Initiative Fund - 0506

Expenditures increased by \$2,522,259 or 24% in Fiscal Year 2016 from Fiscal Year 2015 due to a slightly higher number of loans purchased in the loan participation program. There were 35 loans purchased during Fiscal Year 2016 compared to 31 in Fiscal Year 2015. In addition, the average loan amount was higher in Fiscal Year 2016 compared to Fiscal Year 2015. Expenditures decreased by \$7,822,232 or 43% in Fiscal Year 2015 from Fiscal Year 2014 due to a lower level of participation loans being entered into with local banks. This is partially due to a lower staff headcount that was able to work with the local banks.

Energy Efficiency Portfolio Standards Fund - 0531

Expenditures decreased by \$39,187,429 or 63% in Fiscal Year 2016 from Fiscal Year 2015 due to lack of an approved State budget for most of the fiscal year. As a result, the Department was unable to issue grants until the end of Fiscal Year 2016.

Supplemental Low Income Energy Assistance Fund - 0550

Expenditures decreased by \$50,522,020 or 45% in Fiscal Year 2016 from Fiscal Year 2015 due to the delay in receiving the appropriation in Fiscal Year 2016. As a result, the Department was not able to operate a cooling program for the summer of 2016.

Workforce, Technology and Economic Development Fund - 0552

Expenditures increased by \$887,734 or 151% in Fiscal Year 2016 from Fiscal Year 2015 due to grant payments for the Small Business Development Center (SBDC) State 80 grants which did not occur in Fiscal Year 2015.

Renewable Energy Resources Trust Fund - 0564

Expenditures decreased by \$2,803,349 or 100% in Fiscal Year 2016 from Fiscal Year 2015 due to lack of appropriation received in this fund for Fiscal Year 2016. Expenditures decreased by \$4,984,072 or 64% in Fiscal Year 2015 from Fiscal Year 2014 due to the suspension of the Renewable Fuels Program (Program). As a result, the Department did not issue new grants after the Program's suspension during Fiscal Year 2015.

Energy Efficiency Trust Fund - 0571

Expenditures decreased by \$1,446,082 or 85% in Fiscal Year 2015 from Fiscal Year 2014 due to the suspension of the Energy Efficiency Trust Program. As a result, the Department did not issue new grants during Fiscal Year 2015.

<u>International Tourism Fund - 0621</u>

Expenditures increased by \$1,121,772 or 26% in Fiscal Year 2016 from Fiscal Year 2015 due to significant lesser amount of activity during Fiscal Year 2015. Fiscal years prior to Fiscal Year 2015, specifically Fiscal Year 2014 and Fiscal Year 2013 had expenditures of \$5.8 million and \$6.0 million, respectively, which is consistent with Fiscal Year 2016. Expenditures decreased by \$1,503,834 or 26% in Fiscal Year 2015 from Fiscal Year 2014 due to a general effort to reduce overall spending in this fund.

Coal Development Fund - 0653

Expenditures decreased by \$7,222,578 or 100% in Fiscal Year 2016 from Fiscal Year 2015 due to lack of appropriation received in this fund for Fiscal Year 2016. Expenditures increased by \$4,845,533 or 204% in Fiscal Year 2015 from Fiscal Year 2014 due to a one-time grant issued for a clean coal environment project.

FY09 Budget Relief Fund - 0678

Expenditures decreased by \$13,819,008 or 99% in Fiscal Year 2015 from Fiscal Year 2014 due to the winding down of the Statewide Summer Youth Employment Program which was appropriated/reappropriated for by this fund in prior fiscal years.

Energy Administration Fund - 0737

Expenditures increased by \$2,958,609 or 26% in Fiscal Year 2015 from Fiscal Year 2014 due to an increase in federal award allotment that allowed increase in grants activities during Fiscal Year 2015.

Tourism Promotion Fund - 0763

Expenditures decreased by \$30,298,847 or 61% in Fiscal Year 2016 from Fiscal Year 2015 due to delay in the appropriation because of the budget impasse in Fiscal Year 2016. As a result, the Department was unable to issue grants until the end of the fiscal year.

<u>Digital Divide Elimination Fund - 0770</u>

Expenditures decreased by \$3,463,291 or 100% in Fiscal Year 2016 from Fiscal Year 2015 due to lack of appropriation received in this Fund for Fiscal Year 2016. Expenditures increased by \$3,463,291 in Fiscal Year 2015 from Fiscal Year 2014 due to an appropriation received in Fiscal Year 2015 that allowed the Department to provide grant and administer the Digital Divide program under the Eliminate Digital Divide Act.

DCEO Energy Projects Fund - 0820

Expenditures increased by \$2,074,437 or 1,030% in Fiscal Year 2016 from Fiscal Year 2015 due to a new large Federal award received during Fiscal Year 2016.

Federal Energy Fund - 0859

Expenditures decreased by \$1,295,990 or 49% in Fiscal Year 2016 from Fiscal Year 2015 due to an American Recovery and Reinvestment Act of 2009 (ARRA) Federal Energy program which did not have expenditures during Fiscal Year 2016.

Low Income Home Energy Assistance Block Grant Fund - 0870

Expenditures decreased by \$69,679,510 or 37% in Fiscal Year 2016 from Fiscal Year 2015 due the lack of appropriation for the most part Fiscal Year 2016 because of the budget impasse. As a result, the Department was unable to issue grants until the end of the fiscal year.

Community Development/Small Cities Block Grant Fund - 0875

Expenditures decreased by \$8,760,490 or 21% in Fiscal Year 2016 from Fiscal Year 2015. Expenditures decreased by \$43,016,710 or 50% in Fiscal Year 2015 from Fiscal Year 2014. These variances were due to the continued winding down of the Ike Disaster Recovery Program that provided housing repair and rehabilitation for homes substantially damaged by the Ike disaster in 2008.

Intra-Agency Service Fund-0883

Expenditures decreased by \$ 2,170,825 or 21% in Fiscal Year 2016 from Fiscal Year 2015 primarily due to headcount and overall payroll cost reductions.

Coal Technology Development Assistance Fund - 0925

Expenditures decreased by \$12,607,296 or 96% in Fiscal Year 2016 from Fiscal Year 2015. Expenditures decreased by \$6,012,631 or 31% in Fiscal Year 2015 from Fiscal Year 2014. These variances were due to the continuing suspension of the State's Coal Program.

Build Illinois Bond Fund - 0971

Expenditures decreased by \$217,816,662 or 99% in Fiscal Year 2016 from Fiscal Year 2015 due to suspension of issuing grants from this Fund as a result of the budget crisis.

DCEO Project Fund - 0419

Expenditures decreased by \$5,548,118 or 97% in Fiscal Year 2016 from Fiscal Year 2015 due to a one-time Summer Youth Program with the Illinois Department of Labor that occurred during Fiscal Year 2015. Expenditures increased by \$5,744,225 or 688,756 % in Fiscal Year 2015 from Fiscal Year 2014 due to the one-time Summer Youth Program administered in Fiscal Year 2015.

The Department of Commerce and Economic Opportunity's (Department) explanations for significant fluctuations in receipts as presented in the Comparative Schedule of Cash Receipts (Schedule 7) are detailed below. For the purpose of this analysis, a significant fluctuation is defined as a variation that equaled or exceeded \$750,000 and 20% as compared to the prior year.

General Revenue Fund - 0001

Receipts increased by \$2,364,490 or 524% in Fiscal Year 2016 from Fiscal Year 2015 due to higher prior year refunds received during Fiscal Year 2016. Refunds are dependent on the amount of unused grant monies at close out and will vary from year to year.

DCEO Project Fund - 0419

Receipts decreased by \$6,000,000 or 100% in Fiscal Year 2016 from Fiscal Year 2015 and receipts increased by 6,000,000 in Fiscal Year 2015 from Fiscal Year 2014 due to a receipt of state funded project in Fiscal Year 2015 which did not occur during the Fiscal Years 2016 and 2014.

State Small Business Credit Initiative Fund - 0506

Receipts decreased by \$26,984,890 or 79% in Fiscal Year 2016 from Fiscal Year 2015 and increased by \$29,462,670 or 601% in Fiscal Year 2015 from Fiscal Year 2014. The Department received the third and final payment of an award from the Federal Government under the Small Business Credit Initiative program during Fiscal Year 2015.

Energy Efficiency Portfolio Standards Fund - 0531

Receipts decreased by \$41,805,400 or 72% in Fiscal Year 2016 from Fiscal Year 2015 due to the lack of a State budget. As a result, grants could not be issued and funds could not be deposited from the utility companies during Fiscal Year 2016.

Workforce Technology and Economic Development Fund - 0552

Receipts decreased by \$1,106,453 or 61% in Fiscal Year 2015 from Fiscal Year 2014 due to an \$800,000 deposit for a one-time State program from the Capital Development Board and receipt of \$480,000 in prior year refunds, both were not repeated in Fiscal Year 2015.

Energy Efficiency Trust Fund - 0571

Receipts decreased by \$2,584,453 or 62% in Fiscal Year 2016 from Fiscal Year 2015 and receipts increased by \$2,108,060 or 103% in Fiscal Year 2015 from Fiscal Year 2014 due to the timing of deposits into the fund by the Illinois Department of Revenue collected on behalf of the Department. The majority of the receipts take place in July. However, during Fiscal Year 2015 the funds were deposited early in the month of June 2015 resulting in lower receipts for Fiscal Year 2016 and higher receipts for Fiscal Year 2015.

Energy Administration Fund - 0737

Receipts increased by \$5,460,127 or 58% in Fiscal Year 2015 from Fiscal Year 2014 due to the increase of federal expenditures. The receipts in this Fund are dependent upon the grantee expenditure activity. Most of the activity in this Fund takes place during the spring and summer months. Fiscal Year 2015 had larger than normal activity of the program administered under this fund.

Federal Energy Fund - 0859

Receipts decreased by \$3,166,302 or 76% in Fiscal Year 2015 from Fiscal Year 2014 due to a large receipt of a prior year refund from a grantee in Fiscal Year 2014, that did not occur in Fiscal Year 2015.

Low Income Home Energy Block Grant Fund - 0870

Receipts decreased by \$71,697,019 or 37% in Fiscal Year 2016 from Fiscal Year 2015 due to the delay of the appropriation because of the budget impasse. The program receipts administered in this fund are dependent upon expenditures. As such, delay in the receipt of appropriation resulted in the decrease in both expenditures and receipts of this fund in Fiscal Year 2016.

Community Development/Small Cities Block Grant Fund - 0875

Receipts decreased by \$55,744,601 or 61% in Fiscal Year 2015 from Fiscal Year 2014 due to the winding down of the Disaster Recovery Program that provided housing repair and rehabilitation for homes substantially damaged by the Ike disaster in 2008.

Build Illinois Bond Fund - 0971

Receipts increased by \$845,666 or 106% in Fiscal Year 2015 from Fiscal Year 2014 due to increase in refunds received from grantees. Refunds are dependent on the amount of unused grant monies at close out and will vary from year to year.

The Department of Commerce and Economic Opportunity's (Department) explanations for significant lapse period spending as presented in the Schedule of Appropriations, Expenditures, Reappropriated and Lapsed Balances for fiscal years 2016 and 2015 (Schedules 1 and 2) are detailed below. For purposes of this analysis, significant lapse period spending is defined as \$750,000 and 20% or more of the total expenditures for the respective fiscal year.

Fiscal Year 2016

| Fund, Fund Number and Explanation | Total Expenditures | Lapse Period Expenditures | Percent |
|--|--------------------|---------------------------|---------|
| Energy Efficiency Portfolio Standards Fund - 0531 The large percentage of expenditures taking place in the lapse period is due to the late passage of the Fiscal Year 2016 budget. As a result, the Department was unable to process expenditures until the lapse period. | \$ 22,682,754 | \$ 19,685,562 | 87% |
| Workforce, Technology and Economic Development Fund - 0552 The large percentage of expenditures taking place in the lapse period is due to the late passage of the Fiscal Year 2016 budget. As a result, the Department was unable to process expenditures until the lapse period. | 1,476,393 | 1,476,393 | 100% |
| International Tourism Fund - 0621 The large percentage of expenditures taking place in the lapse period is due to the late passage of the Fiscal Year 2016 budget. As a result, the Department was unable to process expenditures until the lapse period. | 5,400,917 | 2,122,047 | 39% |
| Energy Administration Fund - 0737 Due to the nature of the Weatherization Grant Program, some obligations are often modified during the last quarter of the fiscal year, which results in expenditures being processed during the lapse period. | 11,720,131 | 2,542,170 | 22% |

Fiscal Year 2016 (Continued)

| Fund, Fund Number and Explanation | Total Expenditures | Lapse Period Expenditures | Percent |
|--|--------------------|------------------------------|---------|
| Tourism Promotion Fund - 0763 The large percentage of expenditures taking place in the lapse period is due to the late passage of the Fiscal Year 2016 budget. As a result, the Department was unable to process expenditures until the lapse period. | \$ 19,455,777 | \$ 12,678,095 | 65% |
| DCEO Energy Projects Fund - 0820 The lapse period vouchers are a result of the timing of the receipt of the funds from a large federal award. This funding was not received until the lapse period. As a result, the voucher payments could not be expended until the lapse period. | 2,275,783 | 2,073,665 | 91% |
| Federal Energy Fund - 0859 The large lapse period voucher spending is the result of the timing of a voucher payment for a revolving loan fund for \$600,000. Fiscal Year 2015 | 1,359,769 | 773,970 | 57% |
| Energy Administration Fund - 0737 Significant lapse period spending was primarily due to the nature of the Weatherization Grant | \$ 14,357,755 | \$ 3,196,016 | 22% |
| Program. Some obligations are often modified during the last quarter of the fiscal year, which results in expenditures being processed during the lapse period. | | | |

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY ANALYSIS OF ACCOUNTS RECEIVABLE For the Two Years Ended June 30, 2016

The comparative aging of accounts receivable for the fiscal years ended June 30, 2016, 2015 and 2014, per Department records (in thousands), are as follows:

| | 2016 | 2015 | 2014 |
|-----------------------------------|-----------|-----------|----------|
| Current | \$ 39,514 | \$ 14,795 | \$ 917 |
| 1-30 days | - | - | - |
| 31-90 days | - | - | - |
| 91-180 days | 4 | - | 147 |
| 181 days-1 year | - | - | - |
| Over 1 year | 1,918 | 3,676 | 3,604 |
| Accounts Receivable Gross Balance | 41,436 | 18,471 | 4,668 |
| Less: Estimated Uncollectibles | (1,793) | (3,539) | (3,604) |
| Accounts Receivable Net Balance | \$ 39,643 | \$ 14,932 | \$ 1,064 |

Note: The majority of the Department's receivables represent outstanding loan receivables from the Energy Efficiency and Loan Participation Program. The Department utilizes the Office of the Attorney General, outside collection agencies through the Illinois Department of Revenue, and the Office of the Comptroller's offset system to collect overdue receivable balances.

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY ANALYSIS OF OPERATIONS

AGENCY FUNCTIONS AND PLANNING PROGRAM

For the Years Ended June 30, 2016 and 2015 (Not Examined)

Mission Statement

The Department of Commerce and Economic Opportunity's (Department) mission is to raise Illinois' profile as a premier global business destination and to provide a foundation for the economic prosperity of all Illinoisans, through coordination of business recruitment and retention, provision of essential capital to small businesses, investment in infrastructure and job training for a 21st century economy, and administration of state and federal grant programs.

Organization

The Department was created in 1979 by the Department of Commerce and Economic Opportunity Law (20 ILCS 605/605) to provide a wide range of programs and services to promote economic development in Illinois.

Adam Pollet was Director of DCEO until January 2015. Andria Winters was named Acting Director on January 20, 2015. James Schultz was named Acting Director on February 16, 2015, and was confirmed as Director on March 24, 2015. Sean McCarthy was named Acting Director on April 1, 2016. Former Director Pollet, Acting Director Winters and Acting Director McCarthy have worked from the DCEO office at 100 West Randolph Street, Suite 3-400, in Chicago. Director Schultz worked from the office at 607 East Adams, 12th Floor, in Springfield.

The Department's Regional Field Offices provide front-line services to all areas of the State. These offices are located in: Springfield; Effingham, Peoria, Canton, Lisle, Chicago; Rockford, Viola, Marion, Galesburg and Quincy.

In addition to the offices located in Illinois, the Department also maintains International Offices staffed with the Department's trade representatives who work to increase Illinois exports to global markets, facilitate foreign investment into Illinois, and market Illinois to foreign travelers and tourists. The Department's International Offices are located in: Brussels, Tokyo, Hong Kong, Mexico City, Sao Paolo, Toronto, Shanghai, Jerusalem, New Delhi and Johannesburg.

Internal Organization

The Department's organizational structure has two types of units: administrative and programmatic.

The Department's central administration point is the Director's Office, which houses the administrative offices of: Accountability & Transparency; Financial Management; Equal Opportunity Monitoring & Compliance; Grants Management; Human Resources; Information Management; Legislative Affairs; Management Operations; Marketing & Communications; Strategic Sourcing & Procurement; General Counsel; and Internal Audit.

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY ANALYSIS OF OPERATIONS

AGENCY FUNCTIONS AND PLANNING PROGRAM

For the Years Ended June 30, 2016 and 2015 (Not Examined)

The Department's programs and services are delivered by the programmatic units, which are organized into the following 12 Offices:

- 1. The Office of Business Development administers a wide array of programs and services designed to help Illinois businesses thrive in today's economy. The incentives offered through these programs help sustain and expand current business, in addition to attracting new businesses.
- 2. The Office of Coal Development works to preserve and strengthen the Illinois coal production and related industries by providing infrastructure support, coal education programs, technical and financial support for research and development, and commercial-scale demonstration of promising clean coal utilization technologies. The Coal Development Programs have been suspended since 2015.
- 3. The Office of Community Development offers programs designed to improve the physical and social infrastructure of Illinois communities by providing financial assistance, technical assistance, and support programs which encourage and support community building.
- 4. The Office of Employment & Training works to cultivate a well-trained Illinois workforce by expanding employment and training opportunities to Illinois citizens, with the goal of assisting them achieve financial independence and an enhanced quality of life. The office administers the federal government's hallmark national job training program the Workforce Investment Act (WIA), now known as the Workforce Innovation & Opportunity Act (WIOA).
- 5. The Office of Energy Assistance offers programs that are designed to help low income residents manage their home energy costs. The two main programs include the Low Income Home Energy Assistance Program (LIHEAP), which provides supplemental funding to eligible low income families to assist them in paying their utility bills; and the Illinois Home Weatherization Assistance Program (IHWAP), which provides home weatherization assistance that will translate into lower energy consumption, resulting in low income families' energy bills becoming more affordable.
- 6. The Office of Entrepreneurship, Innovation & Technology works to identify and serve the needs of Illinois small businesses and entrepreneurs to help sustain and grow their businesses in a rapidly changing global economy. Programs provide comprehensive business assistance, training, information, advocacy, and access to critical resources.
- 7. The Office of Energy & Recycling creates jobs and stimulates economic development in Illinois through programs and policies that spur investment in Illinois' green economy. All Recycling Programs have been suspended since 2015.

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY

ANALYSIS OF OPERATIONS AGENCY FUNCTIONS AND PLANNING PROGRAM

For the Years Ended June 30, 2016 and 2015 (Not Examined)

- 8. The Illinois Film Office works to increase the number of productions filmed in Illinois, promoting Illinois as a center for film, television, commercials, cable and multimedia.
- 9. The Office of Regional Economic Development is comprised of field staff deployed in each of the state's ten economic development regions. These local DCEO representatives live and work in the communities they serve, and are charged with facilitating economic development efforts in their regions, in addition to providing communities with front-line access to state programs and services.
- 10. The Office of Tourism administers programs and services designed to market Illinois as a tourism destination to increase domestic and international visitation to the state. The office strives to manage statewide tourism industry efforts to result in sustainable and significant economic and quality-of-life benefits for Illinois citizens.
- 11. The Office of Trade & Investment works to create jobs and commerce in Illinois by helping Illinois firms export their products and by attracting new foreign direct investment to Illinois.
- 12. The Office of Urban Assistance was formed within DCEO in November 2009. The mission is to create and implement policies designed to address the pressing economic needs of residents, businesses and stakeholders in the State's urban areas. The Office of Urban Assistance oversees programs such as the Employment Opportunities Grant Program the Urban Weatherization Initiative and the Illinois Fresh Food Financing Initiative.

Planning & Priorities

The Department is committed to its mission and has established strategic goals to help it achieve its objectives. The Department's goals reflect its leadership role in the Illinois economic development process and a clear understanding of the challenges states face in today's global economy. Initiatives have been established that focus on improving Illinois' global competitiveness and strengthening the state's foundations for economic growth. The Department's specific goals, objectives and performance measures are developed each fiscal year.

The Department is guided by the following strategic goals:

- Grow Illinois' Economy
- Restore our Global Reputation
- Expand access to opportunities for minority & low income communities
- Develop and retain talent to meet current and future employer needs
- Increase Department transparency, accountability, and operational performance

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY BUDGET IMPASSE DISCLOSURES

For the Two Years Ended June 30, 2016 (Not Examined)

Payment of Fiscal Year 2016 Costs in Future Fiscal Years

Article 74 of Public Act 99-0524 authorized the Department of Commerce and Economic Opportunity (Department) to pay Fiscal Year 2016 costs using the Department's Fiscal Year 2017 appropriations for non-payroll expenditures. The Department did not have any outstanding invoices from Fiscal Year 2016 unpaid after the closure of the Fiscal Year 2016 Lapse Period on August 31, 2016. Therefore, the Department did not use its Fiscal Year 2017 appropriations to pay its Fiscal Year 2016 costs.

STATE OF ILLINOIS

DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY ALTERNATIVE FINANCING IN LIEU OF APPROPRIATIONS AND PROGRAMS TO ADDRESS UNTIMELY PAYMENTS TO VENDORS

For the Two Years Ended June 30, 2016 (Not Examined)

Transactions Involving the Illinois Finance Authority

The Department and its vendors did not participate in alternative financing in lieu of enacted appropriations involving the Illinois Finance Authority during Fiscal Year 2016.

<u>Transactions Involving the Vendor Payment Program and Vendor Support Initiative Program</u>

Vendor Payment Program (VPP)

In 2011, the State of Illinois (State) created the voluntary VPP in response to delays in payments for goods and services provided by the State's vendors arising from the State's cash flow deficit. The Department of Central Management Services (CMS) approved third party financing entities to act as "qualified purchasers" of accounts receivable from "participating vendors" who had submitted invoices which had not been paid by the State.

A participating vendor's accounts receivable is eligible for the VPP if it is from an invoice unpaid by the State that is (1) not for medical assistance payments (2) where 90 days have passed since the proper bill date, which is (3) entitled to interest under the State Prompt Payment Act (Act) (30 ILCS 540) and (4) free of any liens or encumbrances. Under the terms of an agreement between a qualified purchaser and the participating vendor, the participating vendor receives payment for 90% of the receivable balance. The participating vendor, in turn, assigns its rights to the interest due under the Act to the qualified purchaser. When the State Comptroller ultimately pays the invoice, the participating vendor receives the remaining 10% due (less any offsets).

Notably, while CMS approved the qualified purchasers and provided information to vendors about VPP, neither CMS nor the State are parties to the assignment agreements.

During Fiscal Year 2015 and Fiscal Year 2016, none of the Department's vendors participated in the Vendor Payment Program (VPP).

Vendor Support Initiative Program (VSI)

During Fiscal Year 2016, the State created the voluntary VSI as an alternative to the VPP for cases where the Department lacked an enacted appropriation or other legal expenditure authority to present invoices to the State Comptroller for payment. The VSI operated similarly to the VPP, although the Department was required to determine a participating vendor's invoice (1) would have met the requirements of the VPP and (2) provided the proper bill date of invoice prior to the qualified purchaser and participating vendor entering into an agreement where the participating vendor received payment for 90% of the receivable balance. The participating vendor, in turn, assigned its rights to the interest due under the Act to the qualified purchaser. After the State Comptroller ultimately paid the invoice after the Department received appropriations or other

For the Two Years Ended June 30, 2016 (Not Examined)

legal expenditure authority to pay the invoice, the participating vendor received the remaining 10% due (less any offsets).

During Fiscal Year 2016, the Department had three vendors who participated in VSI for 62 invoices, totaling \$24,358. A summary of the amount of transactions by qualified purchaser follows:

TRANSACTIONS BY QUALIFIED PURCHASER

\$ 24,358

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY INTEREST COSTS ON FISCAL YEAR 2016 INVOICES

For the Two Years Ended June 30, 2016 (Not Examined)

Prompt Payment Interest Costs

The Department calculated the prompt payment interest due to vendors under the State Prompt Payment Act (Act) (30 ILCS 540) using the vendor's proper bill date through the date the State Comptroller issues a warrant to the vendor, regardless of when and if an enacted appropriation existed during Fiscal Year 2016. The Act (30 ILCS 540/3-2) and the Illinois Administrative Code (74 Ill. Admin. Code 900.100) require interest to be paid under a daily simple interest rate of .033% (1% over a 30-day period) for every day elapsed following the 90th day after a vendor submits an eligible proper bill to the Department. The following chart shows the Department's prompt payment interest incurred related to Fiscal Year 2016 invoices, calculated on the accrual basis of accounting, through June 30, 2016, by fund:

PROMPT PAYMENT INTEREST INCURRED

Year Ended June 30, 2016

| Fund # | Fund Name | Invoices | Vendors | Dollar Value |

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY MEMORANDUMS OF UNDERSTANDING For the Two Years Ended June 30, 2016 (Not Examined)

| Parties Involved Other Than DCEO | Dates Involved | Memorandum Requirements Description |
|--|---|---|
| Illinois Emergency Management Agency (IEMA) | 6/20/2011 This MOU will remain in effect until the HMP program for the Disaster Declaration DR-IL-1800 closed and /or the Illinois "Ike" Property Buyout Program is closed. Any party upon sixty (60) days written notice to the other may terminate this MOU. | Establish terms by which IEMA and the Department will jointly approve grant applications for a Global Match project under the Hazard Mitigation Grant Program (HMGP). |
| Illinois State Board of Education (ISBE) | 11/30/2010 ISBE and the Department will annually evaluate the understanding and intentions described in this MOU and determine the need for amendment or termination. Either party may terminate this MOU at any time. | ISBE and DCEO will cooperate in the planning and development of the Learning and Performance Management System (LPMS) described in Illinois' Race To The Top application for Phase 2 funding. LPMS will provide the technology platform necessary to support the STEM Learning Exchanges and district implemenation of Programs of Study in key STEM-application areas. Amended 6/29/11 to name NCSA as requirements development lead/facilitator. |
| Illinois Department of Innovations & Technology Central Management Services (CMS) Illinois Department of Children & Family Services (DCFS) Illinois Department of Human Services (DHS) Illinois Department of Public Health (DPH) Illinois Department of Healthcare & Family Services (HFS) Illinois Department of Employment Security (IDES) Illinois State Board of Education (ISBE) Illinois Department of Aging Illinois Department of Corrections Illinois Department of Juvenile Justice Illinois Department of Veterans Affairs | 5/16/2016 The initial term of the Enterprise Memorandum of Understanding (E-MOU) shall be for a peirod of one year commencing on the effective date. Upon the expiration of the initial term, this E- MOU shall authomatically renew for successive one-year terms unless terminated by the Secretary of Department of Innovation and Technology by providing to the Partners at least ninety (90) days prior written notice of the termination of this E- MOU. | Establish terms that will allow for interoperability of data between the 13 State agencies (the "Partners"). Interoperability is a national effort of technology and programmatic coordination. Interoperability refers to the ability of two or more systems or components to exchange information and use the information for the benefit of the State and its clients. The Partners desire to securely exchange data as permitted or required by applicable law in order to increase the efficiency and effectiveness of programs they operate for the benefit of the citizens of the State of Illinois. |

^{*}Headcount differs from numbers reported in the average of employees on page 90 due to allocation of administrative headcount to the various programmatic areas.

The largest factor driving the Department's performance during Fiscal Year 2016 was the budget crisis caused by the legislature's failure to pass a balanced budget. A number of state grantfunded programs were temporarily or completely suspended due to a lack of resources, and thus achieved no results. Examples include several training programs such as the Employer Training Investment Program (ETIP), Job Training for Economic Development (JTED), and the Equal Employment Opportunity Program (EOGP).

Some programs were able to function but at a reduced level of effectiveness. The Small Business Development Center (SBDC) program leverages state and federal support to provide businesses with professional management, marketing, and financial guidance to help them succeed. State fiscal constraints and a commensurate reduction in federal match funding have caused strain on the network of local centers. While Fiscal Year 2016 metrics were not down precipitously, the budget impasse contributed to the closure of a handful of local centers. Similarly, the impasse reduced the effectiveness of the Community Service Block Grant (CSBG) program which promotes revitalization of low income communities and self-sufficiency of low income families. Even though the funding is federal, staffing and funding challenges at the local community agency-level has impacted our local partners' ability to effectively implement the program.

For the Years Ended June 30, 2016 and 2015 (Not Examined)

Similarly, some job creation and investment incentive programs, including the Small Business Job Creation Tax Credit, have been being allowed to sunset, arguably due to the ongoing budget impasse. The EDGE program, Illinois' incentive for business development, and the Angel Investment Credit are scheduled to sunset at the end of calendar year 2016. If these incentives expire without being replaced, it will reduce Illinois' ability to promote business growth and attract new jobs, especially in the manufacturing sector.

Some programs were less affected by the budget impasse and generated positive results during Fiscal Year 2016. The Film Tax Credit program generated \$310 million in total film production, thanks to strong performance in the episodic television sector. If two major projects in the pipeline come to fruition, film production could reach \$500 million in Fiscal Year 2017. The Workforce Innovation and Opportunity Act (WIOA) program continues to be an effective tool in enhancing workforce skills, based on success in helping trainees find and retain employment. Targets have been ratcheted down for Fiscal Year 2017 but this is due to a federally-driven revamp of metrics definitions rather than any negative state trends.

Heading into Fiscal Year 2017, the Department is optimistic that the budget impasse will ultimately be resolved and the Department will be in position to fund and operate programs vital to its mission. We continue to work on program design and advance our performance measurement regime to better evaluate program effectiveness and overall results.

For the Years Ended June 30, 2016 and 2015 (Not Examined)

Energy Assistance

Mission Statement: Provide energy assistance to make energy more affordable for as many low income households as possible, while giving priority to the most vulnerable and those that have the greatest energy

305 ILCS 20/1 et seq.

Statutory

Authority:

burden.

Program Goals:

Objectives:

- 1. Target energy assistance to low-income households with the greatest home energy burden through Low Income Home Energy Assistance Program (LIHEAP).
 - a. Promote timely payment of energy bills.
 - b. Advocate for clients when there are issues with energy service providers.
 - c. Reduce the number of low income households that suffer a loss of energy service.
 - d. Provide assistance with repair or replacement of non-functional home heating equipment.
 - e. Provide education on energy saving practices to program participants.
- 2. Ensure long-term energy savings for targeted low income households through Weatherization program (IHWAP).
 - a. Enhance indoor air quality for weatherized homes.
 - b. Lower the baseload energy usage in weatherized homes.
 - c. Ensure safety and maximum efficiency of current heating systems in weatherized homes.
 - d. Monitor to ensure work standards are complied with by weatherization workers.

Employment and Training

Mission Statement: Employer driven talent solutions that integrate education, workforce and economic development resources across systems to provide businesses, individuals, and communities

with the opportunity to prosper and contribute to growing the state's economy.

Program Goals:

Objective:

- 1. Increase the retention in employment of participants in the Workforce Investment Act (WIA) Title I Adult and Dislocated Workers program.
 - a. Ensure at least 85% of adult program participants who enter employment in the first quarter after exiting the program remain employed in the second and third quarters after exit.
 - b. Ensure at least 91% of dislocated worker program participants who enter employment in the first quarter after exiting the program remain employed in the second and third quarters after exit.
- 2. Increase the employment of participants in the Workforce Investment Act (WIA) Title I Adult, Dislocated Worker, and Youth programs.
 - a. Ensure at least 74% of adult program participants enter employment in the first quarter following program exit.
 - b. Ensure at least 83% of dislocated worker participants enter employment in the first quarter following program exit.
 - c. Ensure at least 70% of youth are placed in employment or education.
 - d. Improve literacy and numeracy of youth program participants.
- 3. Provide training for economically disadvantaged individuals through the Job Training for Economic Development (JTED) program.
 - a. Increase the number of individuals enrolled in the JTED program.
 - b. Increase the number of individuals completing training through the JTED program.
 - c. Increase the number of JTED trainees retaining employment (90 days consecutive or 150 days non-consecutive).
- 4. Provide oversight to the Workforce Investment Act (WIA) Title I Program in Illinois.
 - a. Negotiate system performance goals with U.S. Department of Labor and local workforce boards.
 - b. Monitor the program performance of local workforce areas.
 - c. Allocate dollars to workforce areas (by Federal formula) and monitor expenditures.
 - d. Issue grants to local workforce boards to ensure capacity building of local workforce systems.
 - e. Analyze program performance and submit reports for the Governor to U.S. Department of Labor.
 - f. Develop a State Plan for delivery of workforce services.

Community Development

Mission Statement:

To improve the physical and social infrastructure, quality of life, and overall economic health of Illinois communities by providing financial assistance, technical assistance and supporting programs which provide core support on behalf of Illinois communities.

Statutory Authority: 20 ILCS 605/605-940,

24 CFR 57

Program Goals:

Objectives:

- 1. Improve the physical infrastructure within local communities including disaster assistance.
 - a. Improve water and sewer service for residents in local communities demonstrating health and safety compliance issues.
 - b. Improve substandard housing units occupied by low-to-moderate income persons.
- 2. Improve the social infrastructure within local communities.
 - a. Improve the quality of life for homeless and very low-income families.
 - b. Improve the quality of life for low-income families by increasing the number of jobs created.
- 3. Improve the capacity of local communities to meet their community and economic development objectives.

Community Development

- (a) The CSBG Small Business Loan Program was suspended in November 2014 per direction of the US Office of Community Services. The Department expects the suspension to be permanent. Monitors had questioned whether the loan program was consistent with federal funding guidelines.
- (b) The Fiscal Year 2016 target for CSBG Services provided has been reduced to reflect changes in work programs which have resulted in higher costs per trainee.
- (c) The number of Disaster Assistance Persons Served is volatile, and depends on the timing of the disasters, the timing of assistance that is subsequently provided, and the demographics of the community receiving assistance.
- (d) The target for Number of Homes was 0 for Fiscal Year 2015, even though the program was active, because no grants were expected to close during that time frame. As it happened, this assumption was incorrect.
- (e) Fiscal year targeted expenditures for Fiscal Year 2015 included the full amount appropriated for the fiscal year, even if those funds were likely be spent over multiple years (or not at all). Community Development's targeted expenditures for Fiscal Year 2015 included excess federal spending authority.

For the Years Ended June 30, 2015 and 2016 (Not Examined)

Tourism

Mission To manage efforts that drives travel to and within Illinois, both domestic and international. **Statement**: while enhancing the quality of life for Illinois residents.

Program Goals:

Objectives:

1. Promote Illinois as a travel destination for domestic travelers.

- a. Increase the total number of traveler inquiries generated by the advertising campaign.
- 2. To maximize international awareness of Illinois as a travel destination in key markets.
 - a. To increase the number of international visitors to Illinois.
- 3. To foster increased Hotel-Motel receipts by boosting overall tourism activity.

a. Increase adjusted Hotel-Motel tax receipts.

Energy & Recycling

Mission Statement: The Office of Energy and Recycling administers a variety of energy and environmental programs and planning initiatives, which are designed to stimulate economic development and create jobs,

while producing a cleaner environment and more secure energy future.

Program Goals:

Objectives:

- 1. To lead the State to a clean, reliable energy future, which all Illinois consumers can reap economic benefits from and will grow the emerging clean tach industry, by administering cost-effective energy efficiency, renewable energy, and sustainable transportation programs and planning efforts.
 - a. Reduce energy costs for consumers, by offering programs that help them increase their energy efficiency, generate renewable energy, and take advantage of sustainable transportation alternatives.
 - b. Get a bigger bang for the state's buck by designing programs that will better leverage public dollars with private investment, through clean energy finance.
 - c. Support and attract Illinois businesses by better marketing our energy and environmental resources and planning for Illinois' long-term energy future.
- 2. To divert valuable resources from being sent to landfills, create jobs and promote businesses competitiveness, by administering cost-effective recycling, reuse, source reduction and waste reduction programs and planning efforts.
 - a. Financially assist Illinois manufacturers producing products with recycled content.
 - b. Financially assist collection and processing entities in order to increase the availability of recycled feedstock.

Statutory Authority: 20 ILCS 1105/3

c. Divert materials from the Illinois solid waste stream.

- (a) The Recycling and Renewable Energy programs have been suspended due to budget constraints, with no new grants being issued, pending resolution of the budget impasse. Fiscal year 2016 targets have been set to N/A, though there may be some residual outcomes from projects initiated during Fiscal Year 2015, and the programs could be reinitiated once the budget is resolved.
- (b) Performance outcomes were lower than expected during Fiscal Year 2015 due to budget constraints in the forms of a budget freeze, fund sweeps, and grant suspensions.
- (c) Energy Jobs supported are calculated using a U.S. Department of Energy-derived expenditure multiplier of one (1) job supported per \$92,000 in energy conservation spending.
- (d) Fiscal year targeted expenditures for fiscal year 2015 included the full amount appropriated for the fiscal year, even if those funds were likely to be spent over multiple years (or not at all). Energy & Recycling's targeted expenditures include significant levels of excess federal spending authority.

For the Years Ended June 30, 2015 and 2016 (Not Examined)

Business Development

Mission Statement: The Office of Business Development (BD) works with business officials to ensure that Illinois is at the top of the list when they consider locations for expansion and growth. Office staff helps business leaders access programs targeted to meet their needs, from technical assistance to tax credit programs and financing that helps businesses locate and expand in Illinois.

Program Goals:

Objectives:

- 1. To expand employment at existing producers and suppliers in Illinois and attract additional producers and suppliers to Illinois.
- 2. To retain employment through current producers and suppliers in Illinois.
- 3. Provide access to capital (state and private sector financing) for business growth and expansion and stimulate private investment for new and expanding businesses.
- 4. Provide jobs training resources to existing and prospective Illinois employers through the Employer Training Investment Program (ETIP).

Trade and Investment

- (a) Due to budget constraints, some trade missions were cancelled which reduced the number of companies participating. This and other budget-related restrictions may also have contributed to the decline in jobs added due to foreign direct investment.
- (b) The Fiscal Year 2015 goal for exports was tied to the former Governor's goal of doubling exports. However, the continued weakness in the machinery sector, recent price declines in petroleum and a surge in the value of the dollar has negatively impacted the U.S. economy and Illinois exports in particular. As long as demand and prices for primary commodities remains weak, we will likely see a downturn in exports in Fiscal Year 2016. However, according to the International Monetary Fund (IMF), emerging markets will start recovering in 2016 and Illinois exporters will be well positioned to take advantage of these opportunities.

For the Years Ended June 30, 2016 and 2015 (Not Examined)

Grant Management

Mission Enhance the quality of life for Illinois citizens by improving the social and physical **Statement**: infrastructure in Illinois communities.

Program Goals:

Objectives:

1. To administer grants that build, repair and upgrade Illinois' critical infrastructure.

- a. To work effectively and efficiently with grantees for an outcome of a grant agreement and funding.
- b. To continually monitor grants as they move to completion.
- 2. To provide project funds that lead to the creation and retention of jobs.
 - a. Increase the number of actual permanent jobs created as reported by the grantee.
 - b. Increase the number of actual permanent jobs retained as reported by the grantee.

Source of Funds: Capital Development Fund, Fund for Illinois' **Statutory Authority:** 30 ILCS 750 Future, Build Illinois Bond Fund

Film production companies have up to two years to submit audited expenditure data to received Film Tax Credits. Therefore, information from FTC applications, vetted for reasonableness, is used to provide more timely performance data.

- (a) Several large episodic television projects significantly boosted film production activity during Fiscal Year 2015.
- (b) Approval of new Film Tax Credit applications has been deferred due to the Fiscal Year 2016 Budget crisis. Therefore, a lengthy impasse have a significant impact on Fiscal Year 2016 Film Production activity.

| • Illinois Fresh Food (IFF) number of communities served (b) | 1.0 | 0.0 | 5.0 | 1.0 | 5.0 |

For the Years Ended June 30, 2016 and 2015 (Not Examined)

Urban Assistance

- (a) Fiscal Year 2015 targets for the Urban Weatherization Initiative have proven overly optimistic, as several grantees have been unable to perform as well as anticipated.
- (b) Openings of grocery stores supported by the Fresh Foods program, expected during Fiscal Year 2015, have been delayed until Fiscal Year 2016.
- (c) Fiscal year targeted expenditures for Fiscal Year 2015 included the full amount appropriated for the fiscal year, even if those funds were likely to be spent over multiple years (or not at all). Targeted expenditures for Urban Assistance included state capital funding which will extend over multiple years.

For the Years Ended June 30, 2016 and 2015 (Not Examined)

Coal Development

Mission Statement: To preserve and strengthen Illinois coal production and related industries by providing infrastructure support, coal education programs, technical and financial support for basic research and development, and commercial-scale demonstration of promising coal utilization technologies.

Program Goals:

Objectives:

1. To preserve and strengthen coal production and related industries in Illinois.

- a. Leverage private investment in coal industry infrastructure and coal technology demonstration.
- b. Create new coal industry jobs.
- c. Publicize recent advances in coal research and mining methods.

Source of Funds: Coal Development Fund, Coal Technology

Development Assistance Fund

Statutory Authority: 20 ILCS 1105,1110,

30 ILCS 730

Coal Development programs were suspended in early calendar year 2015 due to budget constraints. The Department does not anticipate offering Fiscal Year 2016 Coal programming at this time.

STATE OF ILLINOIS DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY SCHEDULE OF INDIRECT COST REIMBURSEMENTS AND ADMINISTRATIVE COSTS

For the Two Years Ended June 30, 2016 (Not Examined)

INDIRECT COST REIMBURSEMENTS

The Department has negotiated indirect cost rates for programs administered during State Fiscal Year 2016. The amounts of cash receipts received under the provisions of the negotiated rates were transferred into the Intra-Agency Services Fund as follows:

| | Amount | |
|-------------|----------------|--|
| Fiscal Year | (in thousands) | |
| | | |
| 2016 | \$ 7,728 | |
| 2015 | 7,744 | |
| 2014 | 12,687 | |
| 2013 | 10,798 | |
| 2012 | 9,943 | |
| 2011 | 7,912 | |
| 2010 | 8,419 | |
| 2009 | 7,780 | |
| 2008 | 7,513 | |
| 2007 | 6,753 | |
| 2006 | 4,922 | |
| 2005 | 5,051 | |

ADMINISTRATIVE COSTS

Percentages of total expenditures represented by administrative costs as computed by the Department are as follows:

| Fiscal Year | Percentage | | |
|-------------|------------|--|--|
| | | | |
| 2016 | 14% | | |
| 2015 | 10% | | |
| 2014 | 9% | | |
| 2013 | 10% | | |
| 2012 | 10% | | |
| 2011 | 7% | | |
| 2010 | 8% | | |
| 2009 | 16% | | |
| 2008 | 18% | | |
| 2007 | 13% | | |
| 2006 | 12% | | |
| 2005 | 18% | | |
| | | | |
