FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

NEED TO IMPROVE COVENANT COMPLIANCE MONITORING

The Illinois Finance Authority (Authority) did not have adequate internal controls to properly maintain records for monitoring covenant compliance for bonds or loan agreements reported on the face of the Authority's basic financial statements.

Authority was unable to provide evidence of monitoring borrower compliance with significant loan or bond covenants

During testing, the auditors noted the Authority could not provide documentation filed by borrowers or present evidence of the Authority's monitoring of borrower compliance with 16 of 39 (41%) significant covenants tested, affecting 22 loan agreements or revenue bonds reported on the face of the Authority's basic financial statements. The noted significant covenants included continuing disclosure requirements, such as providing calculations, financial reports, ratio compliance certifications, and insurance coverage documentation; however, the noted significant covenants did not include monitoring of actual principal and interest payments required under the tested bond or loan agreements.

According to Authority management, the Authority does not have a records management system capable of identifying where specific records are retained within the Authority's files. (Finding 1, pages 65-66)

Authority officials agree with auditors

We recommended the Authority develop, establish, and maintain a recordkeeping system documenting receipt of the required bond documents, which is capable of identifying the location of documents retained by the authority.

Authority officials agreed with our finding and recommendation.

NEED TO IMPROVE CONTROLS OVER FINANCIAL REPORTING

Authority did not develop a basis or prepare any calculations for a liability accrual of \$1,000,030

The Authority did not exercise adequate internal control over financial reporting.

During testing, the auditors noted the following:

• The Authority did not develop a basis or prepare

any calculations for the estimated arbitrage liability accrual of \$1,000,030 within the debt service fund of the State of Illinois Revolving Fund, Series 2004 (Clean Water) issuance under the Internal Revenue Service's Publication 4079, *Tax Exempt Governmental Bonds Compliance Guide*.

Authority failed to accrue interest income of \$388,909 to the proper accounting period

• The Authority did not accrue interest income, totaling \$388,909, from March 2012 through June 2012 on investments of the debt service fund under the Debt Service Forward Delivery Agreement for the State of Illinois Revolving Fund, Series 2004 (Clean Water) issuance.

According to Authority management, the Authority recorded the liability accrual based upon a conversation between the Authority, the borrower, bond counsel, and the bond trustee concerning the potential for a higher arbitrage tax liability. Further, Authority management stated the interest income was not accrued due to staff oversight. (Finding 2, pages 67-68)

We recommended the Authority document the calculation of estimated arbitrage liability based upon an accumulation of relevant, sufficient, and reliable data and properly record interest accruals.

Authority officials agree

The Authority officials agreed with our finding and recommendation.

AUDITORS' OPINION

Our auditors stated the financial statements of Illinois Finance Authority as of and for the year ended June 30, 2012, are fairly stated in all material respects.

WILLIAM G. HOLLAND Auditor General
