The management of the State of Illinois, Governor's Office of Management and Budget is responsible for compliance with these requirements. Our responsibility is to express an opinion on the State of Illinois, Governor's Office of Management and Budget's compliance based on our examination.

- A. The State of Illinois, Governor's Office of Management and Budget has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The State of Illinois, Governor's Office of Management and Budget has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The State of Illinois, Governor's Office of Management and Budget has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the State of Illinois, Governor's Office of Management and Budget are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the State of Illinois, Governor's Office of Management and Budget on behalf of the State or held in trust by the State of Illinois, Governor's Office of Management and Budget have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Member of Private Companies Practice Section

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the State of Illinois, Governor's Office of Management and Budget's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the State of Illinois, Governor's Office of Management and Budget's compliance with specified requirements.

In our opinion, the State of Illinois, Governor's Office of Management and Budget complied, in all material respects, with the compliance requirements listed in the first paragraph of this report during the two years ended June 30, 2013. However, the results of our procedures disclosed instances of noncompliance with the requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings as items 2013-001, 2013-002, and 2013-003.

## **Internal Control**

Management of the State of Illinois, Governor's Office of Management and Budget is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the State of Illinois, Governor's Office of Management and Budget's internal control over compliance with the requirements listed in the first paragraph of this report to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the State of Illinois, Governor's Office of Management and Budget's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of Illinois, Governor's Office of Management and Budget's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings as items 2013-001, 2013-002, and 2013-003 that we consider to be significant deficiencies.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter to your office.

The State of Illinois, Governor's Office of Management and Budget's responses to the findings identified in our examination are described in the accompanying schedule of findings. We did not examine the State of Illinois, Governor's Office of Management and Budget's responses and, accordingly, we express no opinion on the responses.

#### Supplementary Information for State Compliance Purposes

Our examination was conducted for the purpose of forming an opinion on compliance with the requirements listed in the first paragraph of this report. The accompanying supplementary information for the years ended June 30, 2013 and June 30, 2012 in Schedules 1 through 10 and the Analysis of Operations Section is presented for purposes of additional analysis. We have applied certain limited procedures as prescribed by the Audit Guide as adopted by the Auditor General to the June 30, 2013 and June 30, 2012 accompanying supplementary information in Schedules 1 through 10. However, we do not express an opinion on the accompanying supplementary information.

We have not applied procedures to the June 30, 2011 accompanying supplementary information in Schedules 3 through 9 and in the Analysis of Operations Section, and accordingly, we do not express an opinion or provide any assurance on it.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, and the State of Illinois, Governor's Office of Management and Budget management and is not intended to be and should not be used by anyone other than these specified parties.

#### **Current Findings – State Compliance**

#### 2013-001. **<u>FINDING</u>** (Inaccurate locally held fund reports)

The Governor's Office of Management and Budget (Office) did not submit accurate "Report of Receipts and Disbursements for Locally Held Funds" (C-17) reports to the Office of the Comptroller.

The Office operated seven locally held funds for the purpose of paying debt service on select special bond issuances and on certificates of participation outstanding. We noted discrepancies between the C-17s and related bank statements for 5 of 56 (9%) C-17s filed during the examination period. All errors occurred in fiscal year 2013 reports, for a net misstatement of \$36,945,465 more fully explained as:

- An understatement of \$5,805,385 for the first quarter was reported when an analyst who is no longer with the Office prepared the report and Office personnel were unable to determine the cause for the variance.
- A fund transfer for the second quarter was reported using the Comptroller records rather than the Office amounts, resulting in the C-17 being overstated \$42,762,108.
- An account balance was inadvertently omitted in the second and third quarter C-17s resulting in understatements of \$5,656 and \$5,657.
- On the 4<sup>th</sup> quarter C-17, a \$55 clerical error was not discovered due to rounding.

Statewide Accounting Management System (SAMS) (Procedure 33.13.10) requires each agency to submit accurate C-17 reports reflecting the receipts and disbursements occurring in each locally held fund each quarter. Good internal controls require agencies to review reports for accuracy prior to submission to the Office of the Comptroller.

Failure to provide accurate C-17 reports to the Office of the Comptroller could result in inaccurate Statewide financial reporting. (Finding Code No. 2013-001, 11-2)

#### **Current Findings – State Compliance**

#### 2013-001. **<u>FINDING</u>** (Inadequate locally held fund reports) (Continued)

#### **RECOMMENDATION**

We recommend the Office implement procedures to review all C-17 reports prepared for accuracy prior to submission to the Office of the Comptroller.

## **OFFICE RESPONSE**

We concur with the auditor's recommendation. Currently an Office analyst prepares the C-17 reports, but a manager will review and approve these reports prior to their submission to the Office of the Comptroller. Each of these mistakes was corrected in the subsequent quarter or at the end of the fiscal year during the GAAP package preparation.

## STATE OF ILLINOIS GOVERNOR'S OFFICE OF MANAGEMENT AND BUDGET COMPLIANCE EXAMINATION For the Two Years Ended June 30, 2013

#### **Current Findings – State Compliance**

#### 2013-002. **FINDING** (Inadequate control over cash receipts)

The Governor's Office of Management and Budget (Office) did not exercise adequate controls over cash receipts.

During our testing of receipts totaling \$57,140,621 we noted the following:

- 1 of 27 (4%) receipts tested was deposited 9 days late. The receipt totaled \$12,487 and was a refund from the State for employer's contributions due to a change in the fiscal year 2011 contribution rate.
- 1 of 27 (4%) receipts tested was not received in full from the federal government. The receipt totaled \$6,830,796, but the Office only received a partial payment of \$6,580,933 and failed to pursue the additional \$249,863 that was not received. The receipt was a rebate for an interest subsidy from the federal government that is recorded in the Office's Federal Interest Subsidy Receipts Tracker (Tracker).

Total rebates recorded to the Tracker were \$64,337,252 and \$63,300,146 in Fiscal Years 2012 and 2013, respectively.

The State Officers and Employees Money Disposition Act (Act) (30 ILCS 230/2 (a)) requires each State agency to deposit into the State Treasury individual receipts exceeding \$10,000 in the same day received. The Statewide Accounting Management Systems (SAMS) manual (Procedure 26.40.10) states each agency must individually pursue all reasonable and appropriate procedures available to the agency to effectuate collection of amounts due.

Office personnel stated the failure to deposit the cash receipt timely was due to the draft being lost in interoffice mail and the fact that an employee was out and was not able to follow up on the lost draft timely. The failure to pursue outstanding rebates was due to no formal procedure in place to track outstanding rebates. Office personnel stated they have discussed the \$249,863 difference with the federal authorities and were told the amount was applied to a penalty the state owed the Internal Revenue Service. This was verbally confirmed with a State employee; however, formal written documentation is not available to further explain.

#### **Current Findings – State Compliance**

#### 2013-002. **<u>FINDING</u>** (Inadequate control over cash receipts) (Continued)

Failure to deposit cash receipts timely reduces the amount of funds available for expenditures and increases the risk that funds will be lost or stolen. Failure to pursue outstanding refunds could result in loss of funds owed to the State. (Finding Code No. 2013-002, 11-1)

#### **RECOMMENDATION**

We recommend the Office deposit cash receipts timely according to State Statutes. Additionally, we recommend formal procedures be developed to pursue the collection of outstanding Interest Subsidy Receipts on a timely basis.

#### **OFFICE RESPONSE**

We concur with the auditor's recommendation. Additional staff have been authorized and trained to make deposits.

- The receipt totaling \$12,487 was received on June 8, 2011 and deposited on June 17, 2011. During that time both employees capable of depositing the check were out on furlough and vacation. Upon their return the check was deposited immediately.
- Formal procedures have been put in place to track the collection of the outstanding Interest Subsidy Receipts, as well as, reconciliation with the Comptroller's record of depositing the subsidies.

## STATE OF ILLINOIS GOVERNOR'S OFFICE OF MANAGEMENT AND BUDGET COMPLIANCE EXAMINATION For the Two Years Ended June 30, 2013

#### **Current Findings – State Compliance**

#### 2013-003. **<u>FINDING</u>** (Inadequate control over interagency agreements)

The Governor's Office of Management and Budget (Office) did not exercise adequate control over its interagency agreements.

Testing of 12 of 44 (27%) of the Office's Interagency Agreements disclosed the following:

- 4 of 12 (33%) were signed by the Office after the effective date of the agreement. The signatures were obtained 4 to 6 days late.
- 1 of 12 (8%) contained a termination agreement which was signed by the Office 26 days after the date of termination.
- 5 of 12 (42%) were not signed by all of the required parties by the effective date of the agreement. The signatures were obtained from the other parties to the agreements 4 to 12 days late.

Good internal controls require the approval of agreements and related addendums prior to the effective date, and services should be performed only after the agreement is approved by all parties. In addition, the Fiscal Control and Internal Auditing Act (Act) (30 ILCS 10/3001) requires agencies to establish internal fiscal and administrative controls to provide assurance that resources, obligations, and costs are in compliance with applicable laws, rules, and agreements.

According to Office personnel, 3 of the 12 agreements were signed 4 days after the effective date by the Office and the other required parties because the effective date of the agreements was July 1<sup>st</sup> (Friday) and the July 4<sup>th</sup> (Monday) holiday caused difficulties in obtaining signatures. Secondly, Office management stated the termination agreement was completed following completion of the employee transfer to the other Agency. Office personnel noted they have limited control over signatures at other agencies.

Prudent business practices calls for agreements to be approved prior to the effective date, in order to assess whether the agreement sufficiently enumerates the responsibilities of all appropriate parties. (Finding Code No. 2013-003, 11-4, 09-4, 07-2)

#### **Current Findings – State Compliance**

#### 2013-003. **FINDING** (Inadequate control over interagency agreements) (Continued)

#### **RECOMMENDATION**

We recommend the Office ensure interagency agreements are signed by all parties before the effective date of the agreement. Additionally, we recommend the Office ensure termination agreements are signed by all parties before the effective date of the termination.

#### **OFFICE RESPONSE**

We concur with the auditors' recommendation. The Office's policy is to execute interagency agreements prior to their respective effective dates. The majority of the interagency agreements that were the subject of this finding were not signed appropriately or timely by other agencies, over which the Office has limited control, and as previously noted, three of the agreements were executed immediately following an extended holiday weekend that coincided with the beginning of the fiscal year. The Office continues to maintain its policy to obtain fully executed and dated agreements prior to their effective dates to the greatest extent practicable and within its control.

#### **Prior Findings Not Repeated**

#### A. **<u>FINDING</u>** (Inadequate control over travel functions)

During the prior examination, the Governor's Office of Management and Budget (Office) did not exercise adequate control over travel vouchers.

During the current examination, testing of the Office travel vouchers showed they were being submitted timely. (Finding Code No. 11-3, 09-3, 07-5, 05-6)

B. **<u>FINDING</u>** (Notice of Bond Interest and/or Principal forms not filed timely)

During the prior examination, the Governor's Office of Management and Budget (Office) did not file "Notice of Payment of Bond Interest and/or Principal "(C-08) forms with the Office of the Comptroller timely.

During the current examination, testing of 100% of C-08 forms were timely filed with the Office of the Comptroller. (Finding Code No. 11-5)

C. **<u>FINDING</u>** (Inadequate control over employee attendance reporting)

In the prior examination, the Governor's Office of Management and Budget (Office) did not exercise adequate control over employee attendance and related reporting.

During the current examination, testing of a sample of Office employee attendance records indicated supervisor review and approval were documented. (Finding Code No. 11-6, 09-7)

D. **<u>FINDING</u>** (Inadequate control over voucher processing)

During the prior examination, the Governor's Office of Management and Budget (Office) did not exercise adequate controls over voucher processing.

During the current examination, the Office began processing their vouchers with their own staff and significant improvements were made in lowering voucher processing exceptions. As a result, this finding has been moved to the letter of immaterial findings. (Finding Code No. 11-7, 09-8)

#### **Prior Findings Not Repeated**

E. <u>**FINDING**</u> (Noncompliance with General Obligation Bond Act and Build Illinois Bond Act)

Testing in the previous examination disclosed the Governor's Office Management and Budget (Office) did not maintain or provide documentation to substantiate compliance with provisions of the General Obligation Bond Act (30 ILCS 330/8 (b)) regarding letters certifying contingent fees will not be paid to third parties for having promoted their services to the Office with bond issuances. Secondly, cost of issuance and truth in borrowing reports were untimely filed.

During the current examination, testing of a sample of certification letters, cost of issuance reports, and truth in borrowing disclosures showed the Office was in compliance with the statutes. (Finding Code No. 11-8)

#### Agency Functions

Originally created as the Bureau of the Budget in 1969, the agency's name was formally changed to the Governor's Office of Management and Budget (GOMB) in 2003 by Public Act 093-0025 of the General Assembly. The major functions of GOMB, as prescribed by law, include:

To enable GOMB to perform its duties, under such regulations as the Governor may prescribe, every State agency is required to furnish GOMB with any information it might require to perform its duties. In addition, GOMB shall have access to, and the right to examine, all documents or records of any agency.

As the organizational chart indicates, the functions of GOMB are spread over several units. While each unit has a particular area of responsibility, the various groups must work closely together.

#### Planning Program

Since the Office is part of the Executive Officer of the Governor, many of its short-term goals and objectives are requests and directives issued by the Governor. These requests are generally informal in nature and are subject to change with little notice. Progress towards implementation of short-term goal is not formally documented. As a result, the level of accomplishment pertaining to short-term goals cannot easily be determined.

The Office's long-term goals and objectives are established in general terms by the statutes that define its duties and responsibilities. Management has developed a planning document containing the Office's statement of purpose, its goals and statutory mandates (outlined above), and its strategies and schedules to achieve these goals. The Office reviews its progress toward these goals on an annual basis, at minimum.

The Division Directors meet with the Director to plan strategies and evaluate progress toward accomplishing the office's goals and objectives. These meetings provide a planning base for projects to be completed and for integration of divisional goals into the overall office goals and objectives. Re-evaluation of goals and monitoring of programs take place regularly at every level within the Office.

## STATE OF ILLINOIS GOVERNOR'S OFFICE OF MANAGEMENT AND BUDGET SERVICE EFFORTS AND ACCOMPLISHMENTS (NOT EXAMINED) For Fiscal Years 2012 and 2013

#### **Budget Process**

Every year during November and December, the Office conducts a detailed financial and programmatic review of agency budgets and works with other agencies to develop a State budget. Once budget options are developed, they are presented to the Governor for his final decisions. The Governor then presents his recommended budget in the form of an appropriation bill to a joint session of the Illinois General Assembly. The recommended budget is then subject to hearings before the House and Senate appropriation committees and must be adopted by each committee before it moves to the full House or Senate for debate. Both legislative chambers must pass the appropriation bill before it returns to the Governor for his signature. The Office monitors each step of the legislative process and any amendments as well as substantive legislation to identify any potential fiscal impacts.
