FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

CONTROLS OVER FINANCIAL STATEMENT PREPARATION

The Regional Office of Education #24 did not have sufficient internal controls over the financial reporting process.

The Regional Office of Education #24 is required to maintain a system of controls over the preparation of financial statements in accordance with generally accepted accounting principles (GAAP). Regional Office's internal controls over GAAP financial reporting should include adequately trained personnel with the knowledge, skills, and experience to prepare GAAP based financial statements and include all disclosures as required by the Governmental Accounting Standards Board (GASB).

The Regional Office of Education #24 did not have sufficient internal controls over the financial reporting process. The Regional Office maintains its accounting records on the cash basis of accounting during the fiscal year and posts year-end accrual entries for financial statement purposes. While the Regional Office maintains controls over the processing of most accounting transactions, there are not sufficient controls over the preparation of GAAP based financial statements for management or employees in the normal course of performing their assigned functions to prevent or detect financial statement misstatements and disclosure omissions in a timely manner.

During review of the Regional Office of Education #24's financial information prepared by the Regional Office of Education #24, auditors noted the Regional Office's financial information required material adjusting entries to accounts receivable, prepaid expenses, accounts payable, accrued payroll, and unearned revenue in order to present its financial statements in accordance with generally accepted accounting principles. Through inquiries and discussions with the ROE's accounting personnel and Regional Superintendent, auditors noted that the ROE did not have adequate controls to record and report the ROE's net accrued pension liabilities/assets, deferred outflows of resources, deferred inflows of resources, and pension expenses in accordance with GAAP. Proposed adjusting entries were approved and accepted by Regional Office management.

According to Regional Office officials, they did not have adequate funding to hire and/or train their accounting personnel in order to comply with these requirements.

Additionally, the complex requirements of GASB Statements No. 68 and No. 71 were new for fiscal year 2015 and will require additional time and training before the ROE can fully implement the requirements on its own. (Finding 2015-001, pages 11a-11b) **This finding was first reported in 2010.**

The auditors recommended that as part of internal control over the preparation of financial statements, the Regional Office of Education #24 should implement comprehensive preparation procedures to ensure that the financial statements are complete and accurate. These procedures should be performed by a properly trained individual possessing a thorough understanding of the applicable GAAP, GASB pronouncements, and knowledge of the Regional Office of Education #24's activities and operations.

The Regional Office of Education #24 responded that it has taken the following steps to address this finding:

- 1. Implemented a new software system--now in its third year of use;
- 2. Provided professional development opportunities to personnel.

The Regional Office of Education #24 also stated that it will continue to address this finding using the limited resources it has. (For previous Regional Office response, see Digest Footnote #1 located at the end of the digest.)

AUDITORS' OPINION

Our auditors state the Regional Office of Education #24's financial statements as of June 30, 2015 are fairly presented in all material respects.
