## INDEPENDENT AUDITORS' REPORT

To the Honorable William G. Holland  
Auditor General, State of Illinois  
Springfield, Illinois

Board of Trustees  
General Assembly Retirement System, State of Illinois  
Springfield, Illinois

As Special Assistant Auditors for the Auditor General, we have audited the accompanying statements of plan net assets of the General Assembly Retirement System, State of Illinois (the System), as of June 30, 2006 and 2005, and the related statements of changes in plan net assets for the years then ended, as listed in the table of contents. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the Illinois State Board of Investment, an internal investment pool of the State of Illinois, which statements represent 96 percent, 96 percent, and 57 percent, respectively, in 2006, and 97 percent, 97 percent, and 55 percent, respectively, in 2005 of total assets, net assets held in trust for pension benefits, and total additions of the System. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Illinois State Board of Investment is based on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the plan net assets of the General Assembly Retirement System, State of Illinois as of June 30, 2006 and 2005, and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated February 21, 2007 on our consideration of the System's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

The management's discussion and analysis on pages 3 and 4 and the schedules of funding progress and employer contributions on page 17 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements of the System for the years ended June 30, 2006 and 2005. The supplementary financial information on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary financial information on pages 18 and 19 has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

*McGladrey & Pullen, LLP*

Schaumburg, Illinois

# MANAGEMENT'S DISCUSSION & ANALYSIS

This financial report is designed to provide a general overview of the General Assembly Retirement System's finances for all those with an interest in the System's finances.

This section presents management's discussion and analysis of the financial position and performance of the General Assembly Retirement System (System) for the years ended June 30, 2006 and 2005. It is presented as a narrative overview and analysis.

The System is a defined benefit, single-employer public employee retirement system. It provides services to 182 active participants and 395 benefit recipients. Throughout this discussion and analysis units of measure (i.e. billions, millions, thousands) are approximate, being rounded up or down to the nearest tenth of the respective unit value.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the System's financial reporting which is comprised of the following components:

**1. Basic Financial Statements.** For the fiscal years ended June 30, 2006 and 2005, basic financial statements are presented for the System. This information presents the net assets held in trust for pension benefits for the System as of June 30, 2006 and 2005. This financial information also summarizes the changes in net assets held in trust for pension benefits for the years then ended.

**2. Notes to the Financial Statements.** The notes to the Financial Statements provide additional information that is essential to achieve a full understanding of the data provided in the basic financial statements.

**3. Required Supplementary Information.** The required supplementary information consists of two schedules and related notes concerning actuarial information, funded status and required contributions for the System.

**4. Other Supplementary Schedules.** Other schedules include more detailed information pertaining to the System, including schedules of revenues by source, cash receipts and disbursements, and payments to consultants.

## FINANCIAL HIGHLIGHTS

- The System's net assets decreased by approximately \$1.0 million and increased by approximately \$65.0 thousand during fiscal years 2006 and 2005, respectively. Investments, at fair value, decreased by \$1.8 million and \$514.9 thousand during fiscal years 2006 and 2005, respectively, as the result of investment sales necessary to meet cash flow requirements exceeding net investment income.
- The System was actuarially funded at 37.1% as of June 30, 2006 which is a decrease from 39.1% as of June 30, 2005.
- The overall rate of return for the Illinois State Board of Investment (ISBI) Commingled Fund was 11.0% for fiscal year 2006 compared to 10.1% for fiscal year 2005.

## ADDITIONS TO PLAN NET ASSETS

Additions to Plan Net Assets include employer and participant contributions and net income from investment activities. Participant contributions were approximately \$1.5 million for the years ended June 30, 2006 and 2005. Participant contribution rates are set by statute as a percentage of gross salary. Employer contributions decreased to approximately \$4.2 million in 2006 from approximately \$4.7 million in 2005. This decrease was due to Public Act 94-0004 which was enacted into law on June 1, 2005. This legislation contained a two-year funding reduction by stipulating that state contributions for fiscal year 2006 and 2007 be based on specific dollar amounts rather than actuarial calculations.

The condensed Statements of Plan Net Assets reflect the resources available to pay benefits to members, including retirees and beneficiaries, at the end of the years reported. A summary of the System's Plan Net Assets is presented below.

Condensed Statements of Plan Net Assets  
(in thousands)

	As of June 30,			Increase/(Decrease) from	
	2006	2005	2004	2005 to 2006	2004 to 2005
Cash	\$ 3,314.2	\$ 2,220.5	\$ 2,029.4	\$ 1,093.7	\$ 191.1
Receivables	28.2	375.1	4.3	(346.9)	370.8
Investments, at fair value	79,016.8	80,772.8	81,287.7	(1,756.0)	(514.9)
Equipment, net	2.7	2.0	1.0	0.7	1.0
Total assets	<u>82,361.9</u>	<u>83,370.4</u>	<u>83,322.4</u>	<u>(1,008.5)</u>	<u>48.0</u>
Liabilities	107.1	97.4	114.4	9.7	(17.0)
Total plan net assets	<u>\$ 82,254.8</u>	<u>\$ 83,273.0</u>	<u>\$ 83,208.0</u>	<u>\$ (1,018.2)</u>	<u>\$ 65.0</u>

# MANAGEMENT'S DISCUSSION & ANALYSIS

## DEDUCTIONS FROM PLAN NET ASSETS

Deductions from Plan Net Assets are primarily benefit payments. During 2006 and 2005, the System paid out approximately \$14.3 million and \$13.4 million, respectively, in benefits and refunds, an increase of 6.5% from 2005. Those higher payments were mainly due to higher employee salaries on which the payments are based as well as a 3% automatic annuity increase paid each year to offset the effects of inflation. The administrative costs of the System represented approximately 2% of total deductions in both 2006 and 2005.

## FUNDED RATIO

The funded ratio of the plan measures the ratio of net assets against actuarially determined liabilities and is one indicator of the fiscal strength of a pension fund's ability to meet obligations to its members. An annual actuarial valuation is required by statute. The most recent available valuation showed the funded status of the System on June 30, 2006 decreased to 37.1% from 39.1% at June 30, 2005. Major reasons for the decrease were reduced employer contributions and changes in the actuarial assumptions.

The amount by which actuarially determined liabilities exceeded net assets was \$139.5 million at June 30, 2006 compared to \$129.6 million at June 30, 2005.

## INVESTMENTS

Investments of the System are combined in a commingled investment pool with the Judges' Retirement System and the State Employees' Retirement System. Each system owns an equity position in the pool and receives proportionate investment income from the pool in accordance with respective ownership percentage. Investment gains or losses are reported in the Statement of Changes in Plan Net Assets of each retirement system.

Net investment income less expenses of the total ISBI Commingled Fund was approximately \$1.2 billion during fiscal year 2006, versus net investment income of \$1.0 billion during fiscal year 2005, resulting in returns of 11.0% and 10.1%, respectively.

For the three, five, and ten year period ended June 30, 2005, the ISBI Commingled Fund earned a compounded rate of return of 12.4%, 5.8%, and 8.3%, respectively.

## LEGISLATION

On June 1, 2005, Public Act 94-0004 was enacted into law. This legislation includes employer contribution funding reductions of approximately \$1.3 million and \$1.1 million for fiscal years 2006 and 2007, respectively. This resulted in increased transfers from the ISBI Commingled Fund in fiscal year 2006. In addition, it will result in increased transfers in fiscal year 2007 to meet future funding requirements for benefit obligations.

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the General Assembly Retirement System, Accounting Division, 2101 S. Veterans Parkway, P. O. Box 19255, Springfield, Illinois 62794

The condensed Statements of Changes in Plan Net Assets reflect the changes in the resources available to pay benefits to members, including retirees and beneficiaries.

# FINANCIAL STATEMENTS

## GENERAL ASSEMBLY RETIREMENT SYSTEM, STATE OF ILLINOIS

Notes to Financial Statements June 30, 2006 and 2005

### 1. Reporting Entity

Generally accepted accounting principles require that the financial reporting entity include (1) the primary government (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The General Assembly Retirement System (System) is administered by a Board of Trustees consisting of seven persons, which include the President of the Senate, ex officio, or his designee, two members of the Senate appointed by the President of the Senate, three members of the House of Representatives appointed by the Speaker of the House of Representatives, and one person elected from the member annuitants.

Based on the criteria of the Governmental Accounting Standards Board Statement No. 14, there are no other state agencies, boards or commissions, or other organizations required to be combined with the System, however, the System is considered to be part of the State of Illinois financial reporting entity, and is to be combined and included in the State of Illinois' comprehensive annual financial report.

Pursuant to federal tax law and regulations governing the administration of public employee pension plans, the System has established a separate fund for the sole purpose of paying benefits in accordance with Section 415 of the Internal Revenue Code. The receipts and disbursements from the fund for fiscal years 2006 and 2005 were each less than \$24,000. Due to the immaterial nature of the separate fund, these receipts and disbursements have been included in the System's financial statements.

### 2. Plan Description

The System is the administrator of a single-employer defined benefit public employee retirement system (PERS) established and administered by the State of Illinois to provide pension benefits for its participants.

#### a. Eligibility and Membership

The General Assembly Retirement System covers members of the General Assembly of the State and persons elected to the offices of Governor, Lieutenant Governor, Secretary of State, Treasurer, Comptroller and Attorney General for the period of service in such offices and the Clerks and Assistant Clerks of the respective Houses of the General Assembly. Participation by eligible persons is optional.

#### b. Contributions

In accordance with Chapter 40 Section 5/2-126 of the Illinois Compiled Statutes, participants contribute specified percentages of their salaries for retirement annuities, survivors' annuities and automatic annual increases as shown to the right. Contributions are excluded from gross income for Federal and State income tax purposes.

At June 30, 2006 and 2005, the System membership consisted of:

	2006	2005
Retirees and beneficiaries		
currently receiving benefits:		
Retirement annuities	267	263
Survivors' annuities	126	132
Reversionary annuities	<u>2</u>	<u>2</u>
	395	397
Inactive participants entitled to benefits		
but not yet receiving them	<u>83</u>	<u>93</u>
Total	<u>478</u>	<u>490</u>
Current participants:		
Vested	127	125
Nonvested	55	57
Total	<u>182</u>	<u>182</u>

Operation of the System and the direction of its policies are the responsibility of the Board of Trustees.

# FINANCIAL STATEMENTS

The total contribution rate is 11.5% as shown below:

8.5%	Retirement annuity
2.0%	Survivors' annuity
1.0%	Automatic annual increases
<u>11.5%</u>	

The statutes governing the General Assembly Retirement System provide for optional contributions by participants, with interest at prescribed rates, to retroactively establish service credits for periods of prior creditable service.

The Board of Trustees has adopted the policy that interest payments by a participant, included in optional contributions to retroactively establish service credits, shall be considered an integral part of the participant's investment in annuity expectancies and, as such, shall be included as a part of any refund payable.

The payment of (1) the required State contributions, (2) all benefits granted under the System and (3) all expenses in connection with the administration and operation thereof are the obligations of the State to the extent specified in Chapter 40, Article 5/2 of the Illinois Compiled Statutes.

### c. Benefits

After eight years of credited service, participants have vested rights to retirement benefits beginning at age 55, or after four years of service with retirement benefits beginning at age 62.

The retirement annuity is determined according to the formula in the box below based upon the participants' final rate of salary. The maximum retirement annuity payable is 85% of the final rate of salary.

The General Assembly Retirement System also provides annual automatic annuity increases for retirees and survivors, survivors' annuity benefits, reversionary annuity benefits, and under specified conditions, lump-sum death benefits. Participants who terminate service may receive, upon application, a refund of their total contributions.

3.0%	for each of the first 4 years of service
3.5%	for each of the next 2 years of service
4.0%	for each of the next 2 years of service
4.5%	for each of the next 4 years of service
5.0%	for each year of service in excess of 12 years

## 3. Summary of Significant Accounting Policies and Plan Asset Matters

### a. Basis of Accounting

The financial transactions of the System are maintained and these financial statements have been prepared using the accrual basis of accounting in conformity with generally accepted accounting principles.

Participant and employer contributions are recognized as revenues when due pursuant to statutory requirements. Benefits and refunds are recognized as expenses when due and payable in accordance with the terms of the plan.

### b. Cash

The System retains all of its available cash in a commingled investment pool managed by the Treasurer of the State of Illinois (Treasurer). All deposits are fully collateralized by the Treasurer.

" Available cash" is determined to be that amount which is required for the current operating expenditures of the System. The excess of available cash is transferred to the Illinois State Board of Investment (ISBI) for purposes of long-term investment for the System.

### c. Implementation of New Accounting Standard

In May, 2004, the Governmental Accounting Standards Board (GASB) issued Statement No. 44 (GASB 44), Economic Condition Reporting: The Statistical Section, an amendment of NCGA Statement No. 1. This statement establishes and modifies requirements related to the supplementary information presented in the statistical section. The requirements of this statement were effective for statistical sections prepared for periods beginning after June 15, 2005. The System implemented GASB 44 for the fiscal year ended June 30, 2006.

### d. Investments

The System transfers money to the ISBI for investment in the ISBI Commingled Fund. This money is then allocated among various investment managers to pursue a specific investment strategy. All investment transactions are initiated by the investment managers. The transaction settlement information is then forwarded to the agent bank's trust department under a master custodial agreement.

Custody of a majority of the actual physical securities is maintained at an agent of the agent bank's trust department using a book-entry system. The ISBI's master custodian is The State Street Bank & Trust Company. The agent of the master custodian is the Depository Trust Company.

# FINANCIAL STATEMENTS

Investments are managed by the ISBI pursuant to Chapter 40, Article 5/22A of the Illinois Compiled Statutes (ILCS) and are maintained in the ISBI Commingled Fund.

Investments owned are reported at fair value as follows: (1) U.S. Government and Agency, Foreign and Corporate Obligations, Convertible Bonds - prices quoted by a major dealer in such securities; (2) Common Stock and Equity Funds, Convertible Preferred Stock, Preferred Stock, Foreign Equity Securities, Forward Foreign Currency Contracts and Options: (a) Listed - closing prices as reported on the composite summary of national securities exchanges; (b) Over-the-counter - bid prices; (3) Money Market Instruments - average cost which approximates fair values; (4) Real Estate Investments - fair values as determined by the ISBI and its investment managers; and (5) Alternative (Private Equity and Hedge Funds) Investments - fair values as determined by the ISBI and its investment managers.

Units of the ISBI Commingled Fund are issued to the member systems on the last day of the month based on the unit net asset value calculated as of that date. Net investment income of the ISBI Commingled Fund is allocated to each of the member systems on the last day of the month on the basis of percentage of accumulated units owned by the respective systems. Management expenses are deducted monthly from income before distribution.

The investment authority of the ISBI is provided in Chapter 40, Section 5/22A-112 of the ILCS. The ISBI investment authority includes investments in obligations of the U.S. Treasury and other agencies, notes secured by mortgages which are insured by the Federal Housing Commission, real estate, common and preferred stocks, convertible debt securities, deposits or certificates of deposit of federally insured institutions and options.

Such investment authority requires that all opportunities be undertaken with care, skill, prudence and diligence given prevailing circumstances that a prudent person acting in like capacity and experience would undertake.

## Summary of the ISBI Fund's investments at fair value by type

	June 30, 2006	June 30, 2005
Government and agency obligations	\$ 1,110,919,988	\$ 1,130,079,107
Foreign obligations	104,455,671	88,970,486
Corporate obligations	1,382,574,163	1,643,935,794
Convertible bonds	0	1,404,244
Common stock & equity funds	5,369,124,032	5,529,033,328
Preferred stock	1,057,334	1,593,391
Foreign equity securities	1,113,268,102	1,035,874,373
Hedge Funds	416,462,183	0
Real estate investments	1,134,025,154	778,951,123
Private Equity	482,264,036	466,871,030
Money market instruments	320,641,552	283,461,008
Forward foreign exchange contracts	26,145	(497,874)
Total investments	<u>\$ 11,434,818,360</u>	<u>\$ 10,959,676,010</u>

### Custodial Credit Risk for Investments

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the ISBI will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. As of June 30, 2006 and 2005, the investments listed in the table below were uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the ISBI's name:

	2006	2005
Common stock	\$ 7,540,275	\$ 2,283,261
Government and agency obligations	43,932,397	16,885,000
Corporate obligations	4,649,641	4,725,000
Total	<u>\$ 56,122,313</u>	<u>\$ 23,893,261</u>

### Deposits

Custodial credit risk for deposits is the risk that, in the event of a financial institution failure, the System's and ISBI's deposits may not be returned. All non-investment related bank balances at year end are insured or collateralized with securities held by the Illinois State Treasurer or agents in the name of the State Treasurer. Cash held in the investment related bank account by ISBI is neither insured nor collateralized for amounts in excess of \$100,000. There is no related deposit policy for custodial risk. These assets are under the custody of State Street Bank and Trust. State Street Bank and Trust has a AA Long-term Deposit/Debt rating by Standards & Poor and an Aa2 rating by Moody. Certain investments of the ISBI with maturities of 90 days or less would be considered cash equivalents; these consist of short-

# FINANCIAL STATEMENTS

term investment funds and U.S. Treasury bills with maturities of 90 days or less. For financial statement presentation and investment purposes, the ISBI reports its cash equivalents as Money Market Instruments within their investments. The table to the right discloses the deposits held by the ISBI at June 30, 2006 and 2005, and the portion of those deposits exposed to custodial credit risk.

	June 30, 2006	June 30, 2005
Carrying amount of Cash	\$ 80,644,137	\$ 13,722,061
Bank balance total	<u>\$ 80,724,748</u>	<u>\$ 13,729,252</u>
Amount exposed to custodial credit risk	<u>\$ 80,566,513</u>	<u>\$ 13,501,974</u>

### Concentration of Credit Risk and Credit Risk for Investments

The ISBI's portfolio is managed by professional investment management firms. These investment management firms are required to maintain diversified portfolios. Each investment manager must comply with risk management guidelines individually assigned to them as part of their Investment Management Agreement. The ISBI did not have any single issuer investment that exceeded 5% of the total net assets of the fund as of June 30, 2006 and 2005. The table at right presents the quality ratings of debt securities held by the ISBI as of June 30, 2006 and 2005.

### Securities Lending

The ISBI participates in a securities lending program with State Street who acts as securities lending agent. Securities are loaned to brokers and, in return, the ISBI has rights to a portion of a collateral pool. All of the securities are eligible for the securities lending program. Collateral consists solely of cash, letters of credit, commercial paper and government securities having a fair value equal to or exceeding 102% of the value of the loaned securities (105% for non-U.S. securities). In the event of borrower default, State Street provides the ISBI with counterparty default indemnification. The ISBI had no credit risk as a result of its securities lending program as the collateral held exceeded the fair value of the securities lent. As of June 30, 2006 and 2005, there were outstanding loaned investment securities having fair values of

# FINANCIAL STATEMENTS

## Interest Rate Risk

The ISBI manages its exposure to fair value losses arising from interest rate risk by diversifying the debt securities portfolio and maintaining the debt securities portfolio to an effective weighted average rate between 80 and 120 percent of the benchmark index.

Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows,

weighted for those cash flows as a percentage of the investment's full price. The effective duration measures the sensitivity of market price to parallel shifts in the yield curve. The ISBI benchmarks its debt security portfolio to Lehman Brothers Aggregate. At June 30, 2006 the effective duration of the Lehman Brothers Aggregate was 3.6 years. At the same point in time, the effective duration of the ISBI debt security portfolio was 3.8 years. The effective duration of the ISBI portfolio at June 30, 2005 was 3.9 years.

## Foreign Currency Risk

The ISBI's international portfolio is constructed on the principles of diversification, quality growth and value. Risk of loss arises from changes in currency exchange

rates. International managers may also engage in transactions to hedge currency at their discretion. The table below presents the foreign currency risk by type of investment as of June 30, 2006 and 2005.

	2006		2005

# FINANCIAL STATEMENTS

## Derivative Securities

Some of the ISBI managers invest in derivative securities. A derivative security is an investment whose payoff depends upon the value of other assets such as bond and stock prices, a market index, or commodity prices. The ISBI's investments in derivatives are not leveraged. Obligations to purchase (long a financial future or a call option) are held in cash or cash equivalents. In the case of obligations to sell (short a financial future or a put option), the reference security is held in the portfolio. Derivatives transactions involve, to varying degrees, credit risk and market risk. Credit risk is the possibility that a loss may occur because a party to a transaction fails to perform according to terms. Market risk is the possibility that a change in interest or currency rates will cause the value of a financial instrument to decrease or become more costly to settle. The market risk associated with derivatives, the prices of which are constantly fluctuating, is regulated by imposing strict limits as to the types, amounts and degree of risk that investment managers may undertake. The ISBI Board of Directors and senior management approve these limits, and the risk positions of the investment managers are reviewed on a regular basis to monitor compliance with the limits.

During the year, derivative investments included forward foreign currency contracts, collateralized mortgage obligations (CMO's), futures and options. The remaining derivative securities are used to improve the yields or to hedge changes in interest rates.

Forward foreign currency contracts are used to hedge against the currency risk in the ISBI's foreign stock and fixed income portfolios. Forward foreign currency contracts are agreements to buy or sell specific amounts of a foreign currency at a specified delivery or maturity date for an agreed upon price. As the fair value of the forward contracts varies, the ISBI records an unrealized gain or loss. Forward foreign currency contracts represent an off-balance sheet obligation, as there are no balance sheet assets or liabilities associated with those contracts. The fair value of forward foreign currency contracts outstanding at June 30, 2006 and 2005, was as follows:

	Cost	Fair Value	Gain/(Loss)
As of June 30, 2006			
Forward currency purchases	\$3,956,106	\$4,008,201	\$ 52,095
Forward currency sales	7,860,622	7,886,572	(25,950)
Total gain/(loss)			<u>\$ 26,145</u>
As of June 30, 2005			
Forward currency purchases	\$41,391,551	\$40,355,914	\$ (1,035,637)
Forward currency sales	47,581,929	47,044,166	537,763
Total gain/(loss)			<u>\$ (497,874)</u>

The ISBI also invests in mortgage-backed securities to maximize yields and to hedge against a rise in interest rates. These securities are based on cash flows from principal and interest payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates. As of June 30, 2006 and 2005, the fair value of the ISBI's CMO holdings totaled \$211,686,803 and \$97,392,369, respectively.

The ISBI investment managers utilize financial futures to replicate an underlying security they desire to hold (sell) in the portfolio. In certain instances, it may be beneficial to own a futures contract rather than the underlying security (arbitrage). Financial future contracts are also used to improve the yield or adjust the duration of the portfolio. Financial futures contracts are agreements to buy or sell a specified amount at a specified delivery or maturity date for an agreed upon price. The fair values of the futures contracts vary from the original contract price, a gain or loss is recognized and paid to or received from the clearinghouse. Financial futures represent an off-balance sheet obligation, as there are no balance sheet assets or liabilities associated with those contracts. The cash or securities to meet these obligations are held in the investment portfolio.

The ISBI's investment managers utilize options in an effort to add value to the portfolio (collect premiums) or protect (hedge) a position in the portfolio. Options are agreements that give one party the right, but not the obligation, to buy or sell a specific amount of an asset for a specific price (called the strike price) on or before a specified expiration date. As the writer of financial options, the ISBI receives a premium at the outset of the agreement and bears the risk of an unfavorable change in the price of the instrument underlying the option. As the purchaser, the ISBI pays a premium at the outset of the agreement and the counterparty bears the risk of an unfavorable change in the price of the financial instrument underlying the option.

# FINANCIAL STATEMENTS

## Futures and options positions held by the ISBI as of June 30, 2006 and 2005

	2006		2005	
	Number of Contracts	Contract Principal*	Number of Contracts	Contract Principal*
Equity futures purchased	2,667	\$ 190,210,548	847	\$ 141,009,225

Eurocurrency purchased call options	23,550,000	23,550,000	0	0
Fixed income purchased call options	58	58,000,000	278	138,500,000
Fixed income purchased put options	0	0	131	77,000,000

\* Contract principal amounts shown represent the fair value of the underlying assets the contracts control. These are shown to present the volume of the transactions but do not reflect the extent to which positions may offset one another. These amounts do not represent the much smaller amounts potentially subject to risk. Contract principal values also do not represent recorded values.

### Investment Commitments

The ISBI's real estate and private equity investment portfolios consist of passive interests in limited partnerships. The ISBI had outstanding commitments to these limited partnerships of approximately \$400 million and \$524 million, as of June 30, 2006 and 2005, respectively. Also, at the end of fiscal year 2006, the ISBI had an outstanding commitment of \$567 million to separate real estate accounts.

### Other Information

The System owns approximately 1% of the net investment assets of the ISBI Commingled Fund as of June 30, 2006. A schedule of investment expenses is included in the ISBI's annual report.

For additional information on ISBI's investments, please refer to their Annual Report as of June 30, 2006. A copy of the report can be obtained from the ISBI at 180 North LaSalle Street, Suite 2015, Chicago, Illinois 60601.

### e. Actuarial Experience Review

In accordance with Illinois Compiled Statutes, an actuarial experience review is to be performed at least once every five years to determine the adequacy of actuarial assumptions regarding the mortality, retirement, disability, employment, turnover, interest and earnable compensation of the members and beneficiaries of the System.

The System's actuarial consultant performed an experience review for the four-year period ending June 30, 2005. Based upon the results of the review, several changes were made to the actuarial assumptions

which were used in the actuarial valuation for the fiscal year ended June 30, 2006. These changes had the effect of increasing the actuarial liability and the related unfunded accrued liability by \$4,786,991.

### f. Administrative Expenses

Expenses related to the administration of the System are financed through investment earnings and employer retirement contributions. These expenses are budgeted and approved by the System's Board of Trustees.

Administrative expenses common to the General Assembly Retirement System and the Judges' Retirement System are borne 40% by the General Assembly Retirement System and 60% by the Judges' Retirement System.

Invoices/vouchers covering common expenses incurred are paid by the Judges' Retirement System, and 40% thereof is allocated to and reimbursed by the General Assembly Retirement System. Administrative expenses allocated to and reimbursed by the General Assembly Retirement System as of June 30, 2006 and 2005, were \$262,868 and \$265,474, respectively.

### g. Risk Management

The System, as part of the primary government of the State, provides for risks of loss associated with workers' compensation and general liability through the State's self-insurance program. The System obtains commercial insurance for fidelity, surety, and property. There have been no commercial insurance claims in the past three fiscal years.

# FINANCIAL STATEMENTS

**h. Use of Estimates**

In preparing financial statements in conformity with U.S. generally accepted accounting principles, the System makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

**i. Reclassifications**

Certain fiscal year 2005 amounts have been reclassified to conform to the fiscal year 2006 presentation. These reclassifications have not changed the fiscal year 2005 results.

In addition, the funding plan provides for a 15 year phase-in period to allow the state to adapt to the increased financial commitment. Once the 15 year phase-in period is complete, the state's contribution will then remain at a level percentage of payroll for the next 35 years until the 90% funded level is achieved.

The total amount of statutorily required employer contributions for fiscal years 2006 and 2005 was \$4,157,000 and \$4,674,000, respectively. The total amount of employer contributions received from the state during fiscal years 2006 and 2005 was \$4,157,000 and \$4,675,000.

### Administrative expenses for fiscal years 2006 and 2005

**4. Funding - Statutory Contributions Required & Contributions Made**

On an annual basis, a valuation of the liabilities and reserves of the System is performed by the System's actuarial consultants in order to determine the amount of contributions statutorily required from the State of Illinois. For fiscal years 2006 and 2005, the actuary used the projected unit credit actuarial method for determining the proper employer contribution amount.

For fiscal year 2005, the required employer contribution was computed in accordance with Public Act 88-0593, as modified by Public Act 93-0002. This funding legislation provides for a systematic 50 year funding plan with an ultimate goal to fund the cost of maintaining and administering the System at an actuarial funded ratio of 90%.

For fiscal years 2006 and 2007, state contributions were and will be based on dollar amounts specified by Public Act 94-0004, rather than actuarial calculations. The legislation contains a two-year funding reduction of approximately 20% or \$2.4 million for the System. State contributions will be higher in future years to make up for the two-year funding reduction, as the overall goal of 90% funding in fiscal year 2045 is unchanged.

	2006	2005
Personal services	\$172,579	\$164,172
Employee retirement contributions paid by employer	6,438	6,514
Employer retirement contributions	13,454	26,358

Travel	1,608	1,528
Printing	1,570	1,621
Commodities	401	437
Telecommunications	1,443	1,445
Electronic data processing	5,380	7,605
Depreciation	832	733
Change in accrued compensated absences	<u>(5,752)</u>	<u>504</u>
<b>Total</b>	<u><u>\$304,723</u></u>	<u><u>\$317,161</u></u>

**5. Administrative Expenses**

A summary of the administrative expenses for the General Assembly Retirement System for fiscal years 2006 and 2005 is listed above.

**6. Accrued Compensated Absences**

Employees of the General Assembly Retirement System are entitled to receive compensation for all accrued but unused vacation time and one-half of all unused sick leave earned after December 31, 1983 and prior to January 1, 1998 upon termination of employment. These accrued compensated absences as of June 30, 2006 and 2005 total \$19,701 and \$25,453, respectively and are included in administrative expenses payable.

7. Pension Plan

Plan Description. All of the System's full-time employees who are not eligible for participation in another state-sponsored retirement plan participate in the State Employees' Retirement System (SERS), which is a pension trust fund in the State of Illinois reporting entity.

The SERS is a single-employer defined benefit public employee retirement system (PERS) in which state employees participate, except those covered by the State Universities, Teachers', General Assembly, and Judges' Retirement Systems.

The financial position and results of operations of the SERS for fiscal years 2006 and 2005 are included in the State of Illinois' Comprehensive Annual Financial Report (CAFR) for the years ended June 30, 2006 and 2005, respectively. The SERS also issues a separate CAFR that may be obtained by writing to the SERS, 2101 South Veterans Parkway, Springfield, Illinois, 62794-9255 or by calling 217-785-7202.

The State of Illinois' CAFR may be obtained by writing to the State Comptroller's Office, Financial Reporting Department, 325 West Adams St., Springfield, Illinois, 62704-1858 or by calling 217-782-2053.

A summary of SERS' benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established, are included as an integral part of the SERS' CAFR. Also included is a discussion of employer and employee obligations to contribute, and the authority under which those obligations are established.

Funding Policy. The System pays employer retirement contributions based upon an actuarially determined percentage of its payrolls. For fiscal years 2006, 2005, and 2004 the employer contribution rates were 7.792%, 16.107%, and 13.439%, respectively. The System's contributions to SERS for fiscal years 2006, 2005, and 2004 were \$13,454, \$26,358, and \$22,215, respectively, and were equal to the required contributions for each fiscal year.

Other Post-Employment Benefits. In addition to providing pension benefits, the State Employees Group Insurance Act of 1971, as amended, requires that certain health, dental and life insurance benefits shall be provided by the state to annuitants who are former state employees. This includes annuitants of the System.

Substantially all state employees including the System's employees may become eligible for post-employment benefits if they eventually become annuitants. Health and dental benefits include basic benefits for annuitants under the state's self-insurance plan and insurance contracts currently in force. Life insurance benefits are limited to five thousand dollars per annuitant age 60 and older.

Costs incurred for health, dental and life insurance for annuitants and their dependents were not separated from benefits provided to active employees and their dependents for the years ended June 30, 2006 and 2005. However, post-employment costs for the state as a whole for all state agencies/departments for dependent health, dental and life insurance for annuitants and their dependents are disclosed in the State of Illinois' Comprehensive Annual Financial Report.

Cost information for retirees by individual state agency is not available. Payments are made on a "pay-as-you-go" basis. The System is not the administrator of any of the other post-employment benefits described above.

# FINANCIAL STATEMENTS

## 8. Equipment

Capital assets are capitalized at their cost at the time of acquisition. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The estimated useful lives are as follows: (1) office furniture - 10 years, (2) equipment - 6 years, and (3) certain electronic data processing equipment - 3 years.

### Summary of the changes in equipment for fiscal years 2006 and 2005

	Beginning Balance	2006		Ending Balance
		Additions	Deletions	
Equipment	\$ 23,893	\$ 1,536	\$ (813)	\$ 24,616

## 9. Analysis of Changes in Reserve Balances

### Statements of Changes in Reserve Balances Years Ended June 30, 2006 and 2005

The funded statutory reserves of the General Assembly Retirement System are composed of two components as follows:

#### a. Reserve for Participants' Contributions

This reserve consists of participants' accumulated contributions for retirement annuities, survivors' annuities and automatic annual increases.

#### b. Reserve for Future Operations

This reserve is the balance remaining in the General Assembly Retirement System from State of Illinois contributions and revenue from investments after consideration of charges for payouts by the General Assembly Retirement System.

	Participants' Contributions	Future Operations	Total Reserve Balances
Balance at June 30, 2004	\$14,952,319	\$68,255,683	\$83,208,002
Add (deduct):			
Excess of revenues over/(under) expenses	1,428,082	(1,363,042)	65,040
Reserve transfers:			
Accumulated contributions of participants who retired or died with eligible survivor during the year	(1,318,556)	1,318,556	-
Balance at June 30, 2005	\$15,061,845	\$68,211,197	\$83,273,042
Add (deduct):			
Excess of revenues over/(under) expenses	1,322,284	(2,340,494)	(1,018,210)
Reserve transfers:			
Accumulated contributions of participants who retired or died with eligible survivor during the year	(966,205)	966,205	-
Balance at June 30, 2006	<u>\$15,417,924</u>	<u>\$66,836,908</u>	<u>\$82,254,832</u>

**Independent Auditors' Report on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance With Government Auditing Standards**

Honorable William G. Holland  
Auditor General, State of Illinois  
Springfield, Illinois

Board of Trustees  
General Assembly Retirement System, State of Illinois  
Springfield, Illinois

As Special Assistant Auditors for the Auditor General, we have audited the statement of plan net assets and statement of changes in plan net assets of the General Assembly Retirement System, State of Illinois (System), as of and for the year ended June 30, 2006, and have issued our report thereon dated February 21, 2007. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Illinois State Board of Investment, as described in our report on the System's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the System's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, and System management, and is not intended to be and should not be used by anyone other than these specified parties.
