Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the Illinois State Board of Investment (ISBI). We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of ISBI's compliance with the following assertions during the year ended June 30, 2015. Based on this evaluation, we assert that during the year ended June 30, 2015, ISBI has materially complied with the assertions below.

- A. ISBI has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. ISBI has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. ISBI has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. The State revenues and receipts collected by ISBI are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. The money or negotiable securities or similar assets handled by ISBI on behalf of the State or held in trust by ISBI have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Very truly yours,

ILLINOIS/STATE BOARD/OF INVESTMENT

Exit Conference

In correspondence received from the Illinois State Board of Investment (ISBI) on January 19, 2016, ISBI elected to waive a formal exit conference. The response to the recommendation was provided by Alise White, Deputy Executive Director in correspondence dated November 6, 2015.

Independent Accountants' Report on State Compliance, on Internal Control over Compliance, and on Supplementary Information for State Compliance Purposes

RSM US LLP

Honorable Frank J. Mautino Auditor General State of Illinois

Board of Trustees Illinois State Board of Investment

Compliance

As Special Assistant Auditors for the Auditor General, we have examined the Illinois State Board of Investment's (Board) and its investment trust fund, the Illinois Power Agency Trust Fund, (collectively referred to as "ISBI") compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2015. The management of ISBI is responsible for compliance with these requirements. Our responsibility is to express an opinion on ISBI's compliance based on our examination.

- A. ISBI has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. ISBI has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. ISBI has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by ISBI are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by ISBI on behalf of the State or held in trust by ISBI have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about ISBI's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination of ISBI's compliance with specified requirements.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING In our opinion, ISBI complied, in all material respects, with the compliance requirements listed in the first paragraph of this report during the year ended June 30, 2015. However, the results of our procedures disclosed instances of noncompliance with the requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of finding as item 2015-001.

Internal Control

Management of ISBI is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered ISBI's internal control over compliance with the requirements listed in the first paragraph of this report to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of ISBI's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of ISBI's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of finding as item 2015-001 that we consider to be a significant deficiency.

Supplementary Information for State Compliance Purposes

As Special Assistant Auditors for the Auditor General, we have audited the Statement of Net Position and the related Statement of Changes in Net Position of ISBI as of and for the year ended June 30, 2015, and the Statement of Net Position and the related Statement of Changes in Net Position of its investment trust fund, the Illinois Power Agency Trust Fund as of and for the year ended June 30, 2015, and have issued our report thereon dated December 9, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise ISBI's basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 9, 2015. The accompanying supplementary information for the year ended June 30, 2015 in Schedules 1 through 6 is presented for the purposes of additional analysis and is not a required part of the basic financial statements of ISBI. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The accompanying supplementary information for the year ended June 30, 2015 in Schedules 1 through 6 has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic

financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information for the year ended June 30, 2015 in Schedules 1 through 6 is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2015.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the ISBI's basic financial statements as of and for the years ended June 30, 2014, and have issued our report thereon dated December 2, 2014, which contained an unmodified opinion on the financial The accompanying supplementary information for the year ended June 30, 2014 in statements. Schedules 1 through 6, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the June 30, 2014 financial statements. The accompanying supplementary information for the year ended June 30, 2014 in Schedules 1 through 6 has been subjected to the auditing procedures applied in the audit of the June 30, 2014 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information for the year ended June 30, 2014 in Schedules 1 through 6 is fairly stated in all material respects in relation to the basic financial statements as a whole from which it has been derived.

The accompanying supplementary information in the Analysis of Operations Section is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the Illinois State Board of Investment Board of Trustees, and ISBI's management, and is not intended to be and should not be used by anyone other than these specified parties.

RSM US LLP

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable William G. Holland Auditor General State of Illinois

Board of Trustees Illinois State Board of Investment

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Statements of Net Position and Statements of Changes in Net Position of the Illinois State Board of Investment Member Systems (ISBI Member Systems), as of and for the years ended June 30, 2015 and June 30, 2014, and the Statements of Net Position of its investment trust fund, the Illinois Power Agency Trust Fund (Trust Fund), as of June 30, 2015 and June 30, 2014, and the Statements of Changes in Net Position for the years ended June 30, 2015 and June 30, 2014 which collectively comprise the Illinois State Board of Investment's (ISBI) basic financial statements, and have issued our report thereon dated December 9, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered ISBI's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of ISBI's internal control. Accordingly, we do not express an opinion on the effectiveness of ISBI's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of finding as item 2015-001 that we consider to be a significant deficiency.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Compliance and Other Matters

As part of obtaining reasonable assurance about whether ISBI's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Illinois State Board of Investments' Response to Finding

ISBI's response to the finding identified in our audit is described in the accompanying schedule of findings. ISBI's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and results of that testing, and not to provide an opinion on the effectiveness of ISBI's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering ISBI's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RSM. US LLP

Schaumburg, Illinois December 9, 2015

State of Illinois Illinois State Board of Investment

Schedule of Finding For the Year Ended June 30, 2015

Current Finding - Government Auditing Standards

2015-001 Inadequate Controls Over Financial Close and Reporting

The Illinois State Board of Investment (ISBI) recorded a fiscal year 2016 distribution of \$1,200,000 in fiscal year 2015.

During our testing over distributions, we noted that a distribution to the Illinois Power Agency in the amount of \$1,200,000 was recorded in fiscal year 2015 in error. The funds were not distributed to the Illinois Power Agency until fiscal year 2016. An audit adjustment of \$1,200,000 was recorded by ISBI to correct the error.

Generally Accepted Accounting Practices (GAAP) requires transactions to be reported in the year that they occur. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires ISBI to establish and maintain a system, or systems, of internal fiscal and administrative controls which shall provide assurance that distributions are recorded in the proper fiscal year.

According to ISBI Management, the cause of the deficiency occurred during the June 30, 2015 cash reconciliation. The \$1,200,000 was inadvertently coded to the wrong account which caused the cash balance to be reduced by the \$1,200,000. To compound that error, the \$1,200,000 voucher disbursement was inadvertently coded to fiscal year 2015 instead of fiscal year 2016. During the review of the State Treasurer's Bank Statements, the coding errors were not detected when reconciling the bank statements.

Failure to record transaction in the proper period could result in inaccurate financial statements. (Finding Code No. 2015-001)

Recommendation

We recommend that ISBI review their procedures for monitoring significant transactions occurring near the end of their fiscal year in order to help identify and record transactions in the proper fiscal year.

Agency Response

The Board agrees the procedures for monitoring significant transactions occurring near the end of the fiscal year should be enhanced.

The Chief Fiscal Officer has received additional training on how to detect errors of this nature by conducting a more thorough review of the SAMS monthly reports provided by the Comptroller's Office. Accounting subledger records have been reformatted to make it easier to detect errors of this nature moving forward.

Also the Deputy Executive Director will perform a detailed review of all transaction activity to derive the subledger balance for each reporting period that will include a comparison to the monthly SAMS transaction reports.

Schedule of Findings

Prior Finding Not Repeated

Year ended June 30, 2015

None.

(An Internal Investment Pool of the State of Illinois)

Supplementary Information for State Compliance Purposes

Year ended June 30, 2015

Summary

Supplementary Information for State Compliance Purposes presented in this section of the report includes the following:

• Fiscal Schedules and Analysis:

Comparative Schedules of Operations Schedules of Investment Portfolio Schedules of Investment Manager Fees Schedules of Property and Equipment Reconciliation of the State Treasurer's Cash Balance with that of ISBI Analysis of Accounts Receivable

• Analysis of Operations (Unaudited):

Board Functions and Planning Program (Unaudited) Number of Employees (Unaudited) Proceeds from General Obligation Bonds (Unaudited) Third-Party Marketing Fees Paid (Unaudited) Service Efforts and Accomplishments (Unaudited) Overall Rates of Return (Unaudited) Investment Returns – Benchmark and Actual (Unaudited) Net Position Allocation as of June 30, 2015 (Unaudited) Schedules of Soft Dollar Credits (Unaudited) Schedules of Investment Commissions (Unaudited)

The accountants' report that covers the Supplementary Information for State Compliance Purposes presented in the Compliance Report Section states that it has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditors' opinion, it is fairly stated in all material respects in relation to the basic financial statements as a whole from which it has been derived. The accountants' report also states the Analysis of Operations Section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, they do not express an opinion or provide any assurance on it.

Reconciliation of the State Treasurer's Cash Balance with that of ISBI

| | | | | | | | Schedule 5 |
|---|--------------------|----|----------------------------|----|----------------|----|------------|
| | 2015 | | | | | | 2014 |
| | State Board | | Power Agency Trust Fund | | Total | | |
| Balance per State Treasurer at June 30 Vouchers in transit | \$ 106,282 - | \$ | 1,200,000 - | \$ | 1,306,282 - | \$ | 474,083 |
| Balance per ISBI at June 30 | \$ 106,282 | \$ | 1,200,000 | \$ | 1,306,282 | \$ | 474,083 |

In August 2007, by enactment of 30 ILCS 105/6z-75 of the Illinois Compiled Statutes, ISBI was given responsibility for the management of the Illinois Power Agency Trust Fund. This resulted in the transfer of the Illinois Power Agency Trust Fund's cash amounting to \$24,854,573, to ISBI in fiscal year 2012. This cash was held by the State Treasurer pending transfer to State Street Bank and Trust Company for investment. The transfer of these funds to State Street Bank and Trust Company occurred on July 19, 2012.

Fiscal Schedules and Analysis

Schedules of Property and Equipment

Year ended June 30, 2015

Analysis of Accounts Receivable

Schedule 6

A summary of ISBI's receivables are as follows:

| Receivables | 2015 | 2014 |
|------------------------|----------------|----------------|
| Foreign taxes | \$ 4,689,067 | \$ 2,741,543 |
| Accounts receivable | 307,849 | 1,522,662 |
| Investments sold | 585,819,310 | 357,652,133 |
| Interest and dividends | 41,705,091 | 39,381,775 |
| Total receivables | \$ 632,521,317 | \$ 401,298,113 |

ISBI's receivable balance at June 30, 2015 and 2014 amounted to \$632,521,317 and \$401,298,113, respectively. The balance consisted of \$46,702,007 and \$43,645,980 of dividends, interest, foreign taxes, and accounts receivable on investments held as of June 30, 2015 and 2014, respectively, and included receivables of \$585,819,310 and \$357,652,133 for investments sold prior to June 30, 2015 and 2014, respectively, but settled after year-end. Because the collection of this interest is relatively assured and the sale of investments is merely an issue of timing, ISBI does not maintain a reserve for uncollectible receivables or age the receivable detail.

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited)

Year ended June 30, 2015

Board Functions and Planning Program (Unaudited)

The Illinois State Board of Investment (ISBI) was created on October 10, 1969, by Article 22A of the Illinois Pension Code to manage and invest the assets and reserves of any pension fund or retirement system that transfers this responsibility to ISBI. In accordance with Article 22A, the Trustees of the State Employees' Retirement System, the General Assembly Retirement System, and the Judges' Retirement System transferred all of their investment assets to ISBI as of June 30, 1970. Since that date, all additional funds available for investment for those three systems have been transferred to ISBI.

In 1978, in accordance with Article 24, ISBI shall be responsible for developing and establishing the State Employees' Deferred Compensation Plan (the Plan). Initial enrollment began in 1979, at which time the Department of Personnel (now Department of Central Management Services) was named as the Administrator of the Plan. With respect to developing and establishing the Plan, ISBI reviews investment offering options for the Plan and supervises the Department of Central Management Services' administration of the Plan.

Beginning July 1, 1978, ISBI merged the Illinois Board Fund, Illinois Equity Fund, and Illinois Segregated Fund into the Illinois State Board of Investment Commingled Fund (the Commingled Fund). The purpose of this consolidation was to enhance control over investment policy through increased flexibility in the allocation of cash reserves between fixed income and equity investments. ISBI's investment policy and strategy can be more uniformly applied to each member system irrespective of cash flow. In addition, it simplified ISBI's accounting and reporting systems. The result is that the Commingled Fund now represents all of the assets under ISBI's supervision.

Beginning in 1982, ISBI expanded the asset base of the Commingled Fund to include both real estate and venture capital.

In 1992, ISBI completed its investment strategy to have all equity security investments managed externally.

During fiscal year 2004, ISBI engaged Marquette Associates as its investment consultant. ISBI conducted an asset allocation study and, in December 2003, adopted a written Asset Allocation Study. The Asset Allocation Study summarizes ISBI's investment policies and measures of performance, formally documents objectives of ISBI, and details a strategic plan for ISBI. Criteria for the review and evaluation of investment managers are included in the Asset Allocation Study. Additionally, a methodology and format is outlined to highlight the results of the objectives and goals established within the Asset Allocation Study. The Asset Allocation Study reaffirms the broadly diversified investment strategy that has been pursued by ISBI with the belief that, over a period of time, this approach will maximize investment return within a prudent level of risk. In March 2008, the Asset Allocation Study was updated to incorporate asset classes and revise asset allocation percentages. In June 2011, the Asset Allocation Study was again updated to incorporate asset classes and revise allocation percentages effective for fiscal year 2012. In June 2013 the Asset Allocation was again revised after a search for a General Consultant was There were no major changes to the asset allocation, however, certain strategies were completed. refined within allocations. At the June 2015 Board Meeting the allocation of the Board's real estate portfolio target was temporarily adjusted to 10.4% of total plan assets. Money will be taken from the Fixed Income portfolio to fund this increase in Real Estate. The additional monies will be targeted towards International Real Estate.

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited)

Year ended June 30, 2015

Members of the Board of Trustees as of June 30, 2015 include:

Senator James ClayborneComptroller Leslie Geissler MungerMark CozziSteven PowellEzequiel FloresShari Greco ReichesTreasurer Michael FrerichsJustice Mary Seminara SchostokMarc LevineSteven Powell

ISBI has established both long-term and short-term goals with the intention of maximizing earnings for Member Retirement Systems' investments. These goals are reviewed in accordance with the Strategic Investment Policy.

Number of Employees (Unaudited)

ISBI had 11 full-time employees at June 30, 2015 and had 11 full-time employees at June 30, 2014.

Proceeds from General Obligation Bonds (Unaudited)

Public Act 93-0002 (the Act) became effective on April 7, 2003 and authorized the State of Illinois to issue \$10 billion of General Obligation Bonds for the purpose of making contributions to designated retirement systems. The State Employees' Retirement System, General Assembly Retirement System, and Judges' Retirement System are "designated retirement systems" for the purpose of this law.

On June 12, 2003, the State of Illinois issued \$10 billion of General Obligation Bonds, Pension Funding Series June 2003. The net bond proceeds were allocated among the five state-funded retirement systems to reduce their actuarial reserve deficiencies as provided in the Act.

The State Employees' Retirement System, General Assembly Retirement System, and Judges' Retirement System (member systems) received an allocation of bond proceeds equal to \$1,544,924,744 on July 1, 2003. The monies were deposited into the Master Trust Account with the Illinois State Board of Investment on July 2, 2003. ISBI initially approved investing the pension bond proceeds in separate index funds. These index funds were subsequently liquidated and combined with ISBI's other investments and invested in accordance with the asset allocation policy of ISBI during the year ended June 30, 2004.

Public Act 96-0043 (the Act) became effective on July 15, 2009 and authorized the State of Illinois to issue \$3.466 billion of General Obligation Bonds for the purpose of making contributions to designated retirement systems. The State Employees' Retirement System, General Assembly Retirement System, and Judges' Retirement System are "designated retirement systems" for the purpose of this law.

On January 7, 2010, the State of Illinois issued \$3.466 billion of General Obligation Bonds, Taxable Bond Series January 2010. The net bond proceeds were allocated among the five state-funded retirement systems to reduce their actuarial reserve deficiencies as provided in the Act. The State Employees' Retirement System, General Assembly Retirement System, and Judges' Retirement System received an allocation of bond proceeds equal to \$809,401,372 on January 20, 2010. The monies were deposited into the Master Trust Account with the Illinois State Board of Investment the same day. The monies were combined with ISBI's other investments and invested in accordance with the asset allocation policy of ISBI during the year ended June 30, 2010.

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited)

Year ended June 30, 2015

Public Act 96-1497 (the Act) became effective on January 14, 2011 and authorized the State of Illinois to issue up to \$4.1 billion of General Obligation Bonds for the purpose of making contributions to designated retirement systems. On March 10, 2011, the State of Illinois issued \$3.7 billion of General Obligation Bonds, Taxable Bond Series February 2011. The net bond proceeds were allocated among the five state-funded retirement systems to reduce their actuarial reserve deficiencies as provided in the Act.

The State Employees' Retirement System, General Assembly Retirement System, and Judges' Retirement System received an allocation of bond proceeds equal to \$745,546,496 on March 14, 2011. The monies were deposited into the Master Trust Account with the Illinois State Board of Investment the same day. The monies were combined with ISBI's other investments and invested in accordance with the asset allocation policy of ISBI during the year ended June 30, 2011.

During fiscal year 2015 and 2014, respectively, employer and employee funding transfers were sent directly by the State of Illinois to Member systems, rather than to ISBI. As a result, ISBI reports no contributions from the State of Illinois in fiscal year 2015 and 2014. In fiscal year 2015, ISBI received \$20,700,000 in contributions from the Judges Retirement System which was deposited into the Master Trust Account the same day.

ISBI estimates the annualized return of each pension bond series as follows:

| Series | Return |
|---|--------|
| General Obligation Bonds, Pension Fund Series June 2003 | 7.3% |
| General Obligation Bonds, Taxable Bond Series January 2010 | 9.5% |
| General Obligation Bonds, Taxable Bond Series February 2011 | 9.5% |

Third-Party Marketing Fees Paid (Unaudited)

ISBI discloses whether investment managers hired marketing groups to assist with promoting their investment product to ISBI. There were no third party marketing fees paid by investment managers as of June 30, 2015 and June 30, 2014.

Service Efforts and Accomplishments (Unaudited)

For purposes of evaluating service efforts and accomplishments, three different measures have been included. One measure presents a historical perspective of overall annual and compound rates of return; another compares benchmark rates of return with actual rates of return by fund; and the last presents asset allocations by fund type.

Overall Rates of Return (Unaudited)

| - | 2015 | 2014 | 2013 | 2012 | 2011 |
|---|------|-------|-------|------|-------|
| Annual total return Compound annual rate of return since | 4.7% | 17.9% | 14.1% | 0.1% | 21.7% |
| July 1, 1982 | 9.3 | 9.5 | 9.2 | 9.1 | 9.4 |

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited)

Year ended June 30, 2015

Investment Returns – Benchmark and Actual (Unaudited)

ISBI operates under a long-range investment plan with the objective to maximize the total rate of return. The objectives set forth are as follows:

- At least equal to 7.25%, the actuarially assumed interest rate of return for one of ISBI's member systems, the State Employees' Retirement System (SERS). Historically, SERS had adopted 8.5% as the actuarially assumed rate of return, while the other two member systems - General Assembly Retirement System (GARS) and the Judges' Retirement System (JRS) have assumed 8.0%. In September 2010, SERS reduced its return assumption from 8.5% to 7.75%. Similarly, the GARS and JRS reduced their return assumptions from 8.0% to 7.0%. ISBI has assumed the same rate of return as SERS (7.25% as of June 30, 2015), as SERS' net assets represents approximately 95% of ISBI's net position as of June 30, 2015.
- At least equal to the return of a composite benchmark of market indices in the same proportions as ISBI's asset allocation policy targets.

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited)

Year ended June 30, 2015

ISBI earned a total rate of return of 4.7% for the year ended June 30, 2015.

Note: Effective 11/08, the Lehman Universal benchmark ceased to exist. Barclays Capital U.S. Universal is the benchmark currently used by ISBI.

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited)

Year ended June 30, 2015

Net Position Allocation as of June 30, 2015 (Unaudited)

The investment policy of ISBI establishes asset allocation targets and ranges for each asset class, selected to accomplish the long-range investment plan. The actual asset mix is roughly in line with the policy target, with modest over-allocations to U.S. equity and unallocated cash with offsetting under-allocations to international equity, alternative investments, and real estate.

| | Fair Value | | Actual Asset Mix | Policy Target |
|-------------------------------|---------------|----------------|---------------------|------------------|
| | | | | |
| U.S. equity | \$ | 4,748,492,740 | 30 | 30% |
| U.S. equity hedge funds | | 1,576,250,129 | 10 | 10 |
| International equity | | 2,380,176,737 | 15 | 20 |
| Commingled funds ⁴ | | 770,805,046 | 5 | - |
| Fixed income ¹ | | 2,615,130,329 | 17 | 16 |
| Bank loans | | 697,836,613 | 4 | 4 |
| Real estate | | 1,610,826,230 | 10 | 10 |
| Private equity ² | | 667,080,662 | 4 | 5 |
| Real assets ² | | 532,718,107 | 3 | 5 |
| Cash ³ | | 246,576,957 | 2 | - |
| Total | \$ | 15,845,893,550 | 100% | 100% |

¹ Maturities of one year or longer, including convertible bonds.

² Interests in limited partnerships and other entities which have limited liquidity.

³ Includes money market instruments and other assets, less liabilities.

⁴ Holdings include fixed income and equity investments.

(An Internal Investment Pool of the State of Illinois)

Analysis of Operations (Unaudited) Schedules of Soft Dollar Credits (Unaudited) Years ended June 30, 2015 and 2014

| | 2015 | 2014 |
|--|-------------|-------------|
| Soft dollar credits outstanding, at beginning of fiscal year | \$ 4,629 | \$ 5,917 |
| Soft dollar credits earned | 1,601 | 9,851 |
| Bank of New York payout amount | - | (11,139) |
| Soft dollar credits outstanding, at end of fiscal year | \$ 6,230 | \$ 4,629 |

Soft dollar credits are issued to ISBI by certain brokers based on the level of activity of investment managers using that particular broker. ISBI can use these credits to pay for various investment expenses.
