FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

INACCURATE FINANCIAL REPORTING

The Illinois State Board of Investment (ISBI) has not established adequate internal controls over the financial reporting process.

Real estate investments sampled were understated by \$5,894,255

During our audit of the financial statements we noted the value reported for one real estate investment sampled in our testing (\$13,837,421) was understated by \$5,894,255. Upon further review, we noted ISBI reported the cost basis of the investment instead of its fair value (\$19,731,676) at year end. The error (representing 42.6% of the recorded balance of the investment) was not identified during ISBI's preparation of investment reconciliations or related supervisory review procedures.

ISBI's real estate investments and total investments were \$1,601,026,564 and \$17,530,882,474, respectively, as of June 30, 2017. (Finding 1, pages 29-30)

We recommended ISBI review its internal control procedures and implement the changes necessary to ensure investment accounts are accurately reported in its accounting records and in the financial statements.

ISBI concurs with the auditors

ISBI officials stated future controls will be enhanced to include a more detailed review to ensure an error of this nature is not repeated.

AUDITOR'S OPINION
