Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of Southern Illinois University (University). We are responsible for, and we have established and maintained an effective system of, internal controls over compliance requirements. We have performed an evaluation of the University's compliance with the following assertions during the one-year period ended June 30, 2014. Based on this evaluation, we assert that during the year ended June 30, 2014, the University has materially complied with the assertions below.

- A. The University has obligated, expended, received and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. The State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate and in accordance with law.

EXIT CONFERENCE

The University waived an exit conference in correspondence dated February 5, 2015 from Ms. Kimberly A. Labonte, Director of Internal Audit.

The responses to the recommendations were provided by Ms. Kimberly A. Labonte, Director of Internal Audit, in correspondence dated February 6, 2015.

**Independent Accountants' Report on State Compliance  
and on Internal Control Over Compliance**

Honorable William G. Holland  
Auditor General  
State of Illinois

and

Board of Trustees  
Southern Illinois University

**Compliance**

As Special Assistant Auditors for the Auditor General, we have examined Southern Illinois University's (University) compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2014. The management of the University is responsible for compliance with these requirements. Our responsibility is to express an opinion on the University's compliance based on our examination.

- A. The University has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the University's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the University's compliance with specified requirements.

In our opinion, the University complied, in all material respects, with the compliance requirements listed in the first paragraph of this report during the year ended June 30, 2014. However, the results of our procedures disclosed instances of noncompliance with the requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings and questioned costs as items 2014-006 and 2014-007.

### **Internal Control**

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the University's internal control over compliance with the requirements listed in the first paragraph of this report to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2014-006 and 2014-007, that we consider to be significant deficiencies.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter to your office.

The University's responses to the findings identified in our examination are described in the accompanying schedule of findings and questioned costs. We did not examine the University's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the Board of Trustees, University management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards**

Honorable William G. Holland  
Auditor General, State of Illinois  
and  
Board of Trustees  
Southern Illinois University

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Southern Illinois University and the aggregate discretely presented component units, collectively a component unit of the State of Illinois, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Southern Illinois University's basic financial statements, and have issued our report thereon dated December 22, 2014.

Our report includes a reference to other auditors. Other auditors audited the financial statements of Southern Illinois University's discretely presented component units, as described in our report on Southern Illinois University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Association of Alumni, Former Students and Friends of Southern Illinois University, Inc. (at Carbondale), were not audited in accordance with *Government Auditing Standards*.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Southern Illinois University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Southern Illinois University's internal control. Accordingly, we do not express an opinion on the effectiveness of Southern Illinois University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Southern Illinois University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of Southern Illinois University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Southern Illinois University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*CliftonLarsonAllen LLP*

Peoria, Illinois  
December 22, 2014

**Independent Auditors' Report on Compliance for Each Major Federal Program, on Internal Control Over Compliance, and on the Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

Honorable William G. Holland  
Auditor General  
State of Illinois

and

Board of Trustees  
Southern Illinois University

**Report on Compliance for Each Major Federal Program**

We have audited Southern Illinois University's (University) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2014. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The schedule of expenditures of federal awards and our audit described below does not include expenditures of federal awards for those agencies determined to be component units of the University for financial statement purposes.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2014-001, 2014-002, 2014-003, 2014-004, and 2014-005. Our opinion on each major federal program is not modified with respect to these matters.

The University's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

### **Report on Internal Control Over Compliance**

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2014-001, 2014-002, 2014-003, 2014-004, and 2014-005 that we consider to be significant deficiencies.

The University's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

#### **Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of the business-type activities and aggregate discretely presented component units of the University as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the University's basic financial statements. We issued our report thereon dated December 22, 2014, which contained unmodified opinions on those financial statements. Our report includes a reference to other auditors. Other auditors audited the financial statements of University's discretely presented component units, as described in our report on the University's financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 22, 2014. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS**

**2014-001. Finding: Untimely National Student Loan Data System Reporting - Carbondale Campus**

Federal Agency: U.S. Department of Education  
CFDA Number: Various  
Program Name: Student Financial Aid Cluster  
Questioned Costs: None Noted

Enrollment status changes were not reported to National Student Loan Data System (NSLDS) in a timely manner by the Carbondale campus.

The University is required to confirm and report to the NSLDS the enrollment status of students who receive Federal student loans. The Carbondale Campus failed to timely report enrollment status within sixty days from the date that the University determined the status change of the student.

During our testing of 25 students for NSLDS reporting, 5 (20%) students were reported to the NSLDS after the sixty day time frame. Three students, who graduated in Spring 2014, were not received by the NSLDS until September 2014 and one student, who graduated in Summer 2014, was not received by the NSLDS until October 2014. Also, there was one graduate student with an error in reporting the Social Security number at the time that the status for graduate would have been updated. The student has since re-enrolled; therefore, the graduate status was never reported to NSLDS.

The University is required to confirm and report to NSLDS the enrollment status of students who receive Federal student loans according to 34 CFR 682.610 and 685.309. Enrollment information is used to determine the borrower's eligibility for in-school status, deferment, interest subsidy, and grace period. Enrollment changes, such as a change from full-time to half-time status, graduation, withdrawal, or an approved leave of absence, are changes that need to be reported. The enrollment information is merged into the NSLDS database and reported to guarantors, lenders, and servicers of student loans. The University must report enrollment changes within 30 days; however, if a roster file is expected within 60 days, the updated information may be provided on the updated roster file.

According to University officials, data is submitted to the Clearinghouse to be sent to NSLDS. In all cases but one, the data was sent to the Clearinghouse in a timely manner. One student was an issue because of an incorrect Social Security number in the University's system, which has since been corrected. Three students were affected by a system issue at the National Student Clearinghouse, causing a delay in the transfer of the May 2014 roster to NSLDS.

Without effective review procedures of submissions to NSLDS, the University risks not meeting the reporting requirements. (Finding Code No. 2014-001)

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-001. Finding: Untimely National Student Loan Data System Reporting - Carbondale Campus (Continued)**

**Recommendation**

We recommend the University establish formalized review and reconciliation procedures regarding information submitted to NSLDS to meet reporting requirements and to ensure reporting is completed timely.

**University Response**

Partially Implemented. The Registrar's Office and the Financial Aid Office are collaborating more aggressively to identify and correct SSN discrepancies among the various offices on campus. If the University identifies the need to change its enrollment records in regard to the SSN of a student, a mechanism has been established to ensure this correction is also made to Clearinghouse database.

In regard to the untimely submission of data to the NSLDS, the University is working with the Clearinghouse, its third party vendor, to identify the cause of the late submissions and develop a more effective submission schedule. The Registrar's Office is making plans to submit files to the Clearinghouse twice each month rather than once; on or about the 10<sup>th</sup> and the 25<sup>th</sup>, so that when the Clearinghouse receives the request for information from the NSLDS it will have the most recent information available from our University to submit. It is our recent understanding from the Clearinghouse that it will forward, on a monthly basis, the most current data it has to the NSLDS upon request within 15 days; this second monthly submission from the University to the Clearinghouse will reduce the risk of late submission to the NSLDS. While we recognize that it is ultimately the University's responsibility to ensure timely submission of data to the NSLDS, there are many variables that contribute to achieving full compliance. However, we are committed to working with our vendor to establish a reliable process.

FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-002. Finding: Errors in Return of Title IV Calculations - Edwardsville and Carbondale Campuses**

Federal Agency: U.S. Department of Education  
CFDA Number: Various  
Program Name: Student Financial Aid Cluster  
Questioned Costs: \$293

The University did not accurately complete Return of Title IV calculations for students.

The University used the wrong withdrawal date for the Return of Title IV calculations or did not complete a Return of Title IV calculation for students that had dropped classes within the census date.

Out of the 60 students tested at the Edwardsville campus, we noted 5 (8%) students in which the Edwardsville campus did not accurately complete the Return of Title IV calculation. For one student, the wrong withdrawal date was used for an official withdrawal, resulting in an error in the Return of Title IV calculation of \$123, which should have been returned to the Department of Education. For the remaining 4 out of 5 students, the date used for the withdrawal on the Return of Title IV calculation was the University's last date of withdrawal instead of the date the student actually initiated the withdrawal process; however, all of these students had earned all their aid and no funds are required to be returned to the Department of Education.

Out of 60 students tested at the Carbondale campus, we noted 6 (10%) students in which the Carbondale campus did not accurately complete the Return of Title IV calculation. For one student, the wrong withdrawal date was used for an official withdrawal, resulting in an error in the Return of Title IV calculation of \$170 which should have been returned to the Department of Education. For the remaining 5 out of 6 students, the students withdrew within the University's refund policy and before the school's census date and no Return of Title IV calculation was completed and all aid was cancelled and returned to the Department of Education. Under federal regulations, institutions are required to complete accurate Return of Title IV calculations for students who begin attendance and subsequently withdraw.

During the current examination period, our sample testing indicated that the Carbondale campus had updated the spreadsheet used to calculate the Return of Title IV funds and used the correct number of calendar days to be in compliance with federal regulations.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-002. Finding: Errors in Return of Title IV Calculations - Edwardsville and Carbondale Campuses (Continued)**

According to 34 CFR 668.22, institutions are required to complete accurate return of Title IV calculations as defined in the regulations. A student begins earning Title IV funds on his or her first day of attendance. Therefore, even if a student withdraws before a school's census date, the school must perform a Return calculation using the number of days the student attended. Also, a student that provides official notification of his or her intent to withdraw, for the purposes of calculation of the Return of Title IV funds, the date the student began the institution's withdrawal process is the withdrawal date for Title IV purposes.

According to University officials, on the Edwardsville campus, the errors were the result of a misalignment in departmental policies and procedures between the Office of the Registrar and the Office of Financial Aid. Four of the students were processed medical withdrawals and one student was an administrative withdrawal. In these instances the date that was used for the calculation was a withdrawal date identified for purposes of assessing tuition and fee charges and assignment of grades, rather than the official withdrawal date. On the Carbondale campus, all but one of the errors were caused by an institutional policy of crediting all charges to and removing all aid from students who withdrew during the full refund policy period but attended classes; rather than allowing the student to retain the financial aid for the time attended.

The Return of Title IV calculation determines the amount of federal financial assistance that the student is entitled to based on the number of days they completed in the period. Due to errors in the Return of Title IV calculations, the Department of Education was deprived of \$293 and five students earned aid that was cancelled. (Finding Code No. 2014-002, 2013-006, 12-7)

**Recommendation**

We recommend the University implement policies and procedures to properly determine the withdrawal date to be in compliance with Federal regulations. In addition, we recommend the University determine if students' accounts should be adjusted due to the calculation error.

**University Response**

Implemented. SIUE has modified procedures for determining the official withdraw date, which now require the Financial Aid managing advisor to review documents obtained from the Office of the Registrar and determine and document an accurate date of withdrawal for purposes of calculating a return of funds. Additionally, SIUC has implemented changes to its policy to ensure that a return of Title IV calculation is performed for all students who attended at least 1 day before withdrawal. Finally, a return calculation will be made for these noted students and either a return of funds or disbursement to the student will be made.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-003. Finding: Improper Review Procedures of Indirect Cost Calculations for TRIO Program - Edwardsville and Carbondale Campuses**

Federal Agency: U.S. Department of Education  
CFDA Number: Various  
Program Name: TRIO Cluster  
Questioned Costs: None Noted

The Edwardsville and Carbondale campus did not have proper review procedures in place to determine if the calculated indirect cost (IDCs) on expenditures for the TRIO program were appropriate.

The grants selected for testing allowed 8% of indirect costs on the expenditures. During our testing of the indirect cost calculations in the TRIO programs, it was noted that the calculation of indirect costs was not properly reviewed.

Through review of the indirect calculations at the Edwardsville campus, we noted that 3 out of the 4 calculations tested in the TRIO program were not properly reviewed and calculated. The University was properly excluding stipends as part of the expenditure base; however, there were errors in the adjustments as the percentage was being applied to the expenditure base. The Edwardsville campus under applied the allowed amount of indirect costs by \$2,174 to the grant agreement.

Through review of the indirect calculations at the Carbondale campus, we noted 1 out of 4 calculations tested in the TRIO program were not properly reviewed and calculated. The University erroneously excluded an expenditure due to an error at the department level in assigning an object code; therefore, the expense was also excluded from the expenditure base during the indirect cost calculation. The Carbondale campus under applied the allowed amount of indirect costs by \$93 to the grant agreement.

University management is responsible for reviewing grant agreements and verifying that indirect costs are properly applied as defined in 34 CFR 74.2 and 80.3 (34 CFR 75.562 (c)(2)). The University should maintain proper review procedures over the calculations to verify the correct amounts are being applied to the grants.

According to University officials, at the Edwardsville campus an error was made in the process of making adjustments to the indirect cost of the prior year. The error was not caught during the normal quarterly review process. At the Carbondale campus, the error occurred due to an oversight of the incorrect object code being assigned to the expense.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-003. Finding: Improper Review Procedures of Indirect Cost Calculations for TRIO Program - Edwardsville and Carbondale Campuses (Continued)**

Without effective review procedures, the University is at a greater risk for noncompliance with Federal regulations that could result in the loss of funding. (Finding Code No. 2014-003, 2013-004)

**Recommendation**

We recommend the University implement formalized review procedures to properly record the indirect costs according to the grant agreements.

**University Response**

Accepted. SIUE has enhanced its process for calculating indirect costs on the TRIO program. The enhancements were implemented at the end of the first quarter of FY15. SIUC will initiate a quarterly review to verify F&A expenses on the TRIO Cluster projects effective the end of the third quarter in FY15. However, it should also be noted that the above described indirect cost testing was performed mid-grant. Both SIUC and SIUE perform additional end-of-grant reviews of all expenditures including indirect costs, prior to conducting the last cash draw and prior to submitting the final financial report. If for any reason the normal process fails to catch an error, it would ultimately be corrected during this end-of-grant review.

**STATE OF ILLINOIS

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-004. Finding: No Formalized Signoff Evidencing Review and Approval of Patient Financial Applications - School of Medicine - Center for Family Medicine**

Federal Agency: U.S. Department of Health and Human Services / Health Resources and Services Administration  
CFDA Number: 93.224  
Program Name: Federal Qualified Health Center Cluster  
Questioned Costs: None

The Southern Illinois University School of Medicine – Center for Family Medicine (Center) did not have the proper documented review process for patient financial applications for the Federal Qualified Health Center cluster program.

During our testing of patients' financial applications for this program, we noted that the financial applications were being completed in accordance with the grant agreement; however, we noted a lack of internal controls for 23 out of the 45 (51%) patient applications tested. One patient file application selected for eligibility testing was not available for review. For the remaining 22 out of 45 (49%) applications selected, there was no evidence that the applications were being formally reviewed and approved with a signature and date.

The University is responsible for establishing and maintaining effective internal controls over compliance with the completion of the patient's financial application for the Federal Qualified Health Center cluster program. The Disposition, Recommendation, and Approval Form should be completed, signed, and dated by the financial counselor and sent to the Insurance Manager/Supervisor for review and final approval noted by a signature and date. The patient application and additional information should be scanned into Centricity Business (CB), the patient management system.

According to University officials, the University was unable to locate one application for review due to the original documents being shredded after they are scanned for storage. There was a malfunction with the scanner and the copy of the application was not saved. Also, University officials stated that in 2014 the Center added a step in the application process to complete and submit a third page of the application form to document review and approval of the patient's financial application.

Without effective review procedures, the Center risks the possibility of including ineligible patients into the program and inappropriately utilizing federal resources. (Finding Code No. 2014-004, 2013-009)

**STATE OF ILLINOIS

FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-004. Finding: No Formalized Signoff Evidencing Review and Approval of Patient Financial Applications - School of Medicine - Center for Family Medicine (Continued)**

**Recommendation**

We recommend the Center establish and implement an effective system of internal controls to perform and document a supervisory review and approval of all patient applications to ensure eligibility requirements are being met.

**University Response**

Implemented. This matter was brought to our attention at the conclusion of the FY13 audit (March 2014) and it was immediately corrected. The new review process that was implemented includes a review and approval of the application (via signature) by the Assistant Insurance Manager. The applications that were noted as exceptions by the auditors during the FY14 audit were from prior to the implementation of this corrective action.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - FEDERAL AND QUESTIONED COSTS (CONTINUED)**

**2014-005. Finding: Pell Over-Award – Edwardsville Campus**

Federal Agency: U.S. Department of Education  
CFDA Number: 84.063  
Program Name: Student Financial Aid Cluster  
Questioned Costs: \$1,411

The Edwardsville campus did not award the correct amount for the Pell grant to one student.

During our student file testing we noted one student out of 40 (3%) was not awarded the correct Pell Grant amount. The Student Financial Aid (SFA) department awarded a student \$1,411 more than should have been allowed according to federal guidelines. The University mistakenly locked their Banner screen after the student reduced his course load to less than full-time, which caused there to be an over-award.

According to 34 CFR 690.63 students may qualify for a maximum Pell Grant award with a zero Expected Family contribution (EFC) and full-time enrollment status. Students with less than full-time enrollment or more than zero EFC are eligible for a reduced Pell award. The University should have awarded a Pell amount of \$4,234 instead of \$5,645, resulting in an over-award of \$1,411.

According to University officials, the SFA advisor has to lock the Pell award in Banner when a student attends the summer semester and is available for aid. The advisor did not lock the Pell award for the year and when the student attended the Summer semester, it calculated the Pell award to be too high. The University has subsequently corrected the over-award.

Over-awarding Pell grants results in the inappropriate utilization of federal resources and could result in the University reimbursing the loss to the U.S. Department of Education. (Finding Code No. 2014-005)

**Recommendation**

We recommend the Edwardsville campus implement policies and procedures to verify that students that are manually packaged are not over-awarded Pell grants.

**University Response**

Implemented. This condition was the result of an error related to the manual packaging of student aid. Consequently, reports and a check and balance process have been developed and implemented that will help to identify any errors that manual packaging creates.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - STATE COMPLIANCE**

**2014-006. Finding: Weaknesses in Computer Inventory Control**

Southern Illinois University (University) was unable to locate 280 computers and other computer-related items (226 from Carbondale and 54 from Edwardsville) with an original acquisition value of \$348,889 during their annual inventory.

Of these 280 items, 34 (with an acquisition value of \$20,981) were reported as stolen from SIUC, and the remaining were classified by the University as lost during fiscal year 2014. The majority of these items are now fully depreciated (more than five years old); only 81 items have any remaining useful life. The computers noted as missing represent only 2.3% of the University's total computer inventory at June 30, 2014.

During testing, the auditors noted the University had not protected its computers with encryption software, thus increasing the risk that confidential information could be exposed. Confidential information routinely collected and maintained by the University includes education records, health records, personal information, and sensitive information.

The State Property Control Act (30 ILCS 605/4 and 6.02) requires that the University be accountable for the supervision, control and inventory of all items under its control. In addition, the University had the responsibility to ensure that confidential information is protected from disclosure and that provisions in the Personal Information Protection Act (815 ILCS 530) are followed.

University officials stated computers reported as missing were unable to be located by the department staff during annual inventory procedures; however, in many instances these computers are later located by department staff. Some of them may be missing due to temporary relocation of items during construction or remodeling projects. Other missing items are due to the department's failure to file proper paperwork for obsolete items that were sent to surplus property over the years. University officials stated they file police reports for computers reported as stolen. After due diligence has been exhausted in searching for the computer items, it is the University's practice to remove items that remain unlocated from its inventory.

University officials stated that encryption efforts are underway on each campus; however, the estimated timeframe for completion has been extended due to the significant resources needed and other priorities.

Failure to maintain sufficient controls over computer inventory has resulted in lost and stolen computer inventory and the potential for unintended exposure of confidential information. By not encrypting storage, the risk of exposure of confidential information increases. (Finding Code No. 2014-006, 2013-015, 12-11)

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - STATE COMPLIANCE (CONTINUED)**

**2014-006. Finding: Weaknesses in Computer Inventory Control (Continued)**

**Recommendation**

We recommend the University:

- Review current practices to determine if enhancements can be implemented to prevent the theft or loss of computers;
- Ensure confidential information is adequately secured with methods such as encryption or redaction.
- Continue to perform an assessment to determine if the missing computers contain confidential information.

**University Response**

Partially Implemented. In early fiscal year 2015, SIU began the process of inventorying all computer equipment (computers, servers, tablets, and mobile hard drives). A sweep of all buildings is complete; approximately 226 buildings in Carbondale, Edwardsville, Alton, and East St. Louis. The SIUE campus is nearing the final phase of its project. The SIUC campus computer inventory project ended on January 30<sup>th</sup>. The follow-up to this project will be done during the annual equipment inventory. As inventories are completed, they will be compared to the computer inventory records to identify differences. The expected completion date of the corrective action on the inventory project is June 30, 2015. The encryption efforts are also underway on each campus; however, it was necessary to extend the estimated timeframe for completion due to the significant resources needed and other priorities.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
FINDINGS, RECOMMENDATIONS, AND UNIVERSITY RESPONSES  
Year Ended June 30, 2014**

**CURRENT FINDINGS - STATE COMPLIANCE (CONTINUED)**

**2014-007. Finding: Timesheets Are Not Required**

The University does not have a policy that requires all employees to periodically submit timesheets documenting the time spent each day on official University business to the nearest quarter hour as required by the State Officials and Employees Ethics Act (Act).

The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The IBHE adopted personnel policies for public universities on February 1, 2004, in accordance with the Act. However, the University has not incorporated IBHE policies into the University's policies.

We noted that the University's faculty did not submit timesheets in compliance with the Act. The process is effectively a "negative" timekeeping system for faculty whereby the employee is assumed to be working unless noted otherwise. No timesheets documenting the time spent each day on official State business to the nearest quarter hour are required for faculty. During fiscal year 2007, the University adopted a policy to require timesheets from all employees except faculty.

The Act (5 ILCS 430/5-5(c)) states, "The [University] policies shall require State employees to periodically submit timesheets documenting the time spent each day on official State business to the nearest quarter hour."

University officials indicated there is currently no formal policy in place for faculty to submit timesheets, outside the current "negative" timekeeping system.

By not requiring appropriate timesheets from all of its employees, the University does not have complete documentation of the time spent by faculty on official state business as contemplated by the Act. (Finding Code No. 2014-007, 2013-016, 12-10, 11-5, 10-4, 09-3, 08-5, 07-10, 06-4, 05-1)

**Recommendation**

We recommend the University amend its policies to require all employees to submit timesheets in compliance with the Act.

**University Response**

Accepted. Southern Illinois University continues to require all employees, including faculty, to request time off and the University maintains and reports the time requested and approved. This practice is similar to the practices of other public universities. At Southern Illinois University Carbondale this is an issue subject to bargaining with the faculty union, on which the parties have previously been unable to reach agreement but the University will continue to attempt to work toward resolution. Pending the outcome of the issue during current negotiations at SIUC, the University will consider what actions, if any, it needs to take on its other campuses.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
PRIOR FINDINGS NOT REPEATED  
Year Ended June 30, 2014**

**A. Finding: Misstatement of Accounts Receivable**

Southern Illinois University (the University) did not establish an adequate process to review receivables to ensure all amounts recorded are in conformity with accounting principles generally accepted in the United States of America. In the prior year, the University's method of accounting for unrecovered fringe benefits expense resulted in the Carbondale campus overstating receivables by \$6.0 million. (Finding Code No. 2013-001)

Status: Not Repeated

During the current year engagement, our sample audit testing indicated that the University adopted review procedures to ensure that receivables recorded are in conformity with accounting principles generally accepted in the United States of America.

**B. Finding: Failure to Meet Head Start Earmarking Requirements – Edwardsville Campus**

The East St. Louis Center of the Edwardsville campus failed to meet the Head Start program's requirement for enrollment of children with disability and a waiver was not requested timely. (Finding Code No. 2013-002, 12-5, 11-4, 10-3)

Status: Not Repeated

During the current examination period, the auditors' noted that the enrollment levels were not met half way through the program year; however, a waiver was requested and received from the U.S. Department of Health and Human Services.

**C. Finding: Errors in Reporting Volunteer Hours Used to Meet Head Start Matching Requirement – Edwardsville and Carbondale Campuses**

The University did not have effective controls in place to ensure accurate reporting of volunteer hours to meet matching requirements for the Head Start program. (Finding Code No. 2013-003, 12-6)

Status: Not Repeated

During the current examination period, the auditors' sample testing indicated the University had adopted monitoring and review procedures for volunteer time sheets and obtained appropriate signatures.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
PRIOR FINDINGS NOT REPEATED (CONTINUED)  
Year Ended June 30, 2014**

**D. Finding: Improper Award of Federal Supplemental Educational Opportunity Grant – Edwardsville Campus**

The Edwardsville campus improperly awarded a Federal Supplemental Educational Opportunity Grant (FSEOG) to an eligible student who was not the neediest. (Finding Code No. 2013-005)

Status: Not Repeated

During the current examination period, the auditors' sample testing indicated the University awarded the Federal Supplemental Educational Opportunity Grant to the neediest students.

**E. Finding: Grading Policy Not Properly Applied – Edwardsville Campus**

Professors at the Edwardsville campus were not consistently applying the grading policy to ensure the reliability of the grades assigned for purposes of Title IV funds return calculations. (Finding Code No. 2013-007)

Status: Not Repeated

During the current examination period, the auditors' sample testing indicated the University had implemented internal controls to assist in identifying potential inconsistent grades that may qualify as unofficial withdrawals and require return of Title IV funds.

**F. Finding: No Formalized Signoff Evidencing Review of Indirect Costs for Head Start Program – Edwardsville Campus**

The Edwardsville campus did not have evidence of a documented review over the indirect cost calculations for the Head Start Program. (Finding Code No. 2013-008)

Status: Not Repeated

During the current examination period, the auditors' sample testing indicated the University had implemented internal controls regarding review procedures over indirect cost calculations for the Head Start Program.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
PRIOR FINDINGS NOT REPEATED (CONTINUED)  
Year Ended June 30, 2014**

**G. Finding: Use of Outdated Federal Poverty Level Guidelines in Determining Patient Ability to Pay - School of Medicine - Center for Family Medicine**

The Southern Illinois University School of Medicine - Center for Family Medicine (Center) improperly utilized the 2012 HHS federal poverty level guidelines to make a determination of the patient's eligibility for services provided under the Federal Qualified Health Center program for all applications sample tested from January 24, 2013 through June 30, 2013. (Finding Code No. 2013-010)

Status: Not Repeated

During the current examination period, the auditors' sample testing indicated that the University took corrective action and began using the correct 2013 HHS federal poverty level guidelines in August 2013.

**H. Finding: Patient Nominal Fee Charge at or Below One-Hundred Percent of Federal Poverty Level – School of Medicine – Center for Family Medicine**

The Southern Illinois University School of Medicine – Center for Family Medicine (Center) was improperly writing off the patient's nominal fee charge required under the grant agreement for patients at or below 100 percent of the federal poverty level guidelines that also qualified for Medicaid. (Finding Code No. 2013-011)

Status: Not Repeated

During the current examination period, the auditors' sample testing indicated the University had corrected the error and implemented additional internal controls to help verify the fees being charged.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
PRIOR FINDINGS NOT REPEATED (CONTINUED)  
Year Ended June 30, 2014**

**I. Finding: Inadequate Control over Access to and Disposal of Confidential Information**

The University had weaknesses regarding the security and control of confidential information. The University lacked University-wide procedures for the security and disposal of confidential information, and had not performed a comprehensive risk assessment. Additionally, we noted improper use of lockable bins and three security incidents that exposed data. (Finding Code No. 2013-012)

Status: Not Repeated

During the current examination period, the University had developed policies for the safeguarding confidential information. The University had also initiated inventories of electronic confidential information and efforts to secure electronic information. However, these tasks had not yet been completed. Additionally, we found no incidents of inappropriately disposed confidential information. This finding is reported in the immaterial findings letter.

**J. Finding: Firewall Administration Weaknesses**

The University had not ensured adequate administration controls were established over firewalls. During our prior year review, we noted formal change management and patch management policies for firewalls did not exist, comprehensive reviews of firewall logs and configuration rules were not performed and several security configurations and alerts were not established. (Finding Code No. 2013-013)

Status: Not Repeated

During the current examination period, we noted the University established change management and patch management policies and procedures, performed monitoring and reviewing of networking devices, established notification procedures for security alerts, and procured a service to perform testing.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
PRIOR FINDINGS NOT REPEATED (CONTINUED)  
Year Ended June 30, 2014**

**K. Finding: Security Access Weaknesses**

The University had not established formal policies and procedures for performing and monitoring security administration activities to computer resources, including servers, databases, and operating systems. (Finding Code No. 2013-014)

Status: Not Repeated

During the current examination period, we noted the University had established formal policies and procedures for performing and monitoring security administration activities to computer resources. In addition, a two factor authentication was implemented for staff, such as security administrators.

**L. Finding: Failure of Internal Control Over Cash to Identify Theft Timely**

Southern Illinois University's internal controls designed to safeguard cash failed to timely identify two instances of theft. (Finding Code No. 2013-017)

Status: Not Repeated

During the current examination period, the auditors' sample testing did not reveal any instances in which the University's internal controls over cash failed to identify or detect theft on a timely basis.

**M. Finding: Failure to Report Automobile Accidents Timely**

Southern Illinois University (University) did not report automobile accidents to the Department of Central Management Services (DCMS) on a timely basis. (Finding Code No. 2013-018, 12-14)

Status: Not Repeated

During the current examination period, the auditors' sample testing of automobile accident reports made by the University to DCMS indicated that the number and timeliness of incidents of late automobile accident reporting had improved significantly.

**STATE OF ILLINOIS  
SOUTHERN ILLINOIS UNIVERSITY  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
Year ended June 30, 2014**

**NOTE A – BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Southern Illinois University (the “University”) and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.
