INTENDED COST COVERAGE OF FEES

Fees are often charged to cover a portion of the cost of providing the service or program. The columns below show the number of fees that were intended to cover all, most, some, or none of the cost. The "Other" column contains fees which did not fit into the columns because, for example, the fees were intended to cover "reasonable" costs.

* We have tried to rely upon statutes and administrative rules to indicate whether a fee was intended to cover the full cost or not. Department officials stated that all their fees are either intended to cover the full cost or should be intended to cover the full cost with only a few exceptions.

** Department charged these fees to be consistent with other professions regulated. The Department does not have specific authority to charge them.

*** The fees deposited into the Real Estate License Administrative Fund for the Real Estate Appraiser will be deposited into the Real Estate License Appraisal Fund beginning in Fiscal Year 1993.

(1) The Department routinely measures fee revenue against profession cost and periodically adjusts fees when appropriate. As such, fees for many of the professions have gone through several changes since the professions have been regulated.

NOTE: The Department or a Designated Testing Service is required by statute and or rule to administer the exam and exam verification fees. These fee revenues are not deposited into the State Treasury.

DEPARTMENT OF PROFESSIONAL REGULATION	
FEES INTENDED TO COVER FULL COST	
<i>Total fees: 555</i>	<i>Fees intended to cover full cost: 289</i>

This section contains the following information on fees intended to cover the full cost:

1. Fiscal Year 1992 cost of the service or program associated with the fee.
2. Items included in cost, such as fixed, administrative, or direct cost.
3. Whether agency-set fees covered projected service/program costs.
4. Whether the fee was collected before, during, or after services were provided.

NOTE: This spreadsheet contains two groups of fees: (1) the 289 fees specified in statutes and rules as intended to cover full cost and (2) an additional 230 fees which Department officials said were also intended to cover full cost; these have an asterisk by the title of the profession. For reporting purposes we counted only the 289 fees that statutes/rules indicated were intended to cover full cost.

INTENDED COST COVERAGE OF FEES

Fees are often charged to cover a portion of the cost of providing the service or program. The columns below show the number of fees that were intended to cover all, most, some, or none of the cost. The "Other" column contains fees which did not fit into the columns because, for example, the fees were intended to cover "reasonable" costs.
