Your Offer will be open to the public under the Illinois Freedom of Information Act (FOIA) (5 ILCS 140) and other applicable laws and rules, unless you request in your Offer that we treat certain information as exempt. A request for confidential treatment will not supersede the State's legal obligations under FOIA. We will not honor requests to exempt entire Offers. We reserve the right to amend the solicitation, to reject any or all offers in whole or in part, to reject individual offers for failure to meet any requirement; to award by item, part or portion of an item, group of items, or total; to cancel this request for supplies and/or services at any time; to issue a new solicitation and accept new offers; and to waive minor defects. We may request a clarification, inspect your premises, interview staff, request a presentation, or otherwise verify the contents of the Offer, including information about subcontractors and suppliers. We may request Best and Final Offers when appropriate. We will make all decisions on compliance, evaluation,

terms and conditions, and shall make decisions solely in the best interest of the State. This competitive process requires that you provide additional information and otherwise cooperate with us. If you do not comply with requests for information and cooperate, we may reject your Offer. You have no right to an award by submitting an Offer, nor do you have the right to a contract based on our posting your name in a Bulletin notice. We are not responsible for and will not pay any costs associated with the preparation and submission of your Offer. If you are the awardee, you shall not commence, and will not be paid for, any billable work prior to the date all parties execute the contract. **THIS SOLICITATION IS SUBJECT TO ERRORS, OMISSIONS, MODIFICATIONS, WITHDRAWAL OR CANCELLATION WITHOUT NOTICE.**

- 1.20 RELEASE OF CLAIMS.** By submitting an Offer, the Vendor agrees that it will not bring any claim or cause of action against the OAG based on any misunderstanding concerning the information provided herein or concerning the OAG's failure, negligent or otherwise, to provide the Vendor with pertinent information as intended by this RFP.
- 1.21 GOVERNING LAW AND FORUM.** Illinois law and rule govern this solicitation and any resulting contract. You must bring any action relating to this solicitation or any resulting contract in the appropriate court in Illinois. We do not allow binding arbitration. This document contains statutory references designed with "ILCS." You may view the full text at <http://www.ilga.gov/legislation/ilcs/ilcs.asp>. The Auditor General's procurement rules (44 Ill. Adm. - 1.22 COMPLETION OF SOLICITATION RESPONSE FORMS.** You must respond to all sections of each form including attachments, clearly show any "exceptions," complete, sign and return each of the forms as indicated. The solicitation forms show what we require in terms of specifications, contract terms and other requirements. It consists of the Vendor Transmittal letter and the attachments described below.
- a) Vendor's Transmittal Letter to OAG. The Vendor's Transmittal Letter to OAG identifies the Vendor's responsible party and, together with attachments, constitutes the Vendor's binding offer. By signing on the line provided you are making an offer to perform in accordance with the terms and conditions found in each section of the solicitation as modified by any exceptions properly noted. The State may accept your offer as submitted or may propose a counter-offer. It may be necessary to make modifications to the forms after award, or as a condition to award, to accurately reflect the final understanding of the Parties. You will need to complete the Vendor signature area. You must have an authorized person sign the form and complete the remaining blanks.
 - b) Description of Required Services. In this attachment we tell what we want you to provide. We identify our needs, goals, any general project information and the specifications. Your offer must tell us how you will meet the stated requirements.
 - c) Technical Proposal. The following must be included in your technical proposal, tabbed, and in the following order: (1) Qualification Form; (2) Business and Directory Information; (3) References; (4) Executive Summary and Assurances; (5) Technical Approach (Plan to Address the Services Required from the Vendor); (6) Technical Experience and Qualifications; (7) Personnel; (8) Subcontractor Information; (9) Other Consulting, Engineering, and/or Auditing Work; and (10) Information Regarding Terminations, Litigation and Debarment.
 - c) Formal Cost Proposal. In this attachment we provide the format for how we want you to price the supplies or services. Do not show price information in other sections of the offer. **Place this attachment in a separate sealed envelope but submit it with the remainder of the offer in the offer container.**

- e) Standard Certifications. By signing the signature page, you are making the certifications described in this attachment.
- f) Vendor Provided Additional Material and Exceptions. This is where you provide any additional material that you want us to consider in the evaluation process and any exceptions to the terms and conditions of the solicitation. If you are taking any exceptions, this is where you must provide the detail of the exceptions.
- g) Department of Human Rights Public Contract Number. This is information requested by the Illinois Department of Human Rights. You may be disqualified if this information is not timely submitted.
- h) Disclosures and Conflicts of Interest form. This form must be signed by you, under penalty of perjury, and represents a continuing obligation on your part to inform us of any changes or instances of non-compliance throughout the contract term.
- i) Taxpayer Identification Number. We must have this to make payment to you.

1.23 CRITERIA FOR EVALUATION AND AWARD. We evaluate four categories of information: administrative compliance, vendor responsibility, responsiveness and price. All offers must meet the following administrative and responsibility criteria:

- a) **Administrative Compliance.** We will determine whether the offer complied with the Instructions for Submitting Offers. We must reject your offer if you submit it late. Failure to meet other requirements could result in rejection.
- b) **Vendor Responsibility.** We will determine whether the VENDOR submitting the offer is one with whom we can or should do business (a "responsible" Vendor).
 - 1) A "responsible" vendor must exist as a legal entity and must be authorized to do business in Illinois at the time a bid, proposal or offer is submitted for a State contract. Evidence of good standing can include Certificate of Good Standing, copy of assumed name certificate from home county, etc.
 - 2) Public Act 96-0795 provides that a "prohibited bidder" includes a person assisting the State of Illinois or a State Agency in determining whether there is a need for contract unless such information was part of a response to a publicly issued request for information (RFI). Additionally, anyone assisting the State by reviewing, drafting or preparing an invitation for bids, request for proposals or request for information, or who provided similar assistance, is deemed a prohibited offeror. Vendor is required to certify its compliance with this prohibition through the Certifications section of the Contract.
 - 3) Other factors that we may evaluate to determine responsibility include, but are not limited to: certifications, conflicts of interest, financial disclosures, taxpayer identification number, Public Contracts Number from the Department of Human Rights, any other professional license or certification required for the type of service to be performed, past performance, financial stability, references (including those found outside the offer), compliance with applicable laws, the perceived ability to perform completely as specified, and other relevant factors. Vendors owing an unsatisfied delinquent debt to the State as shown in the Comptroller's Offset System may be found to be non-responsible. (This step does not relieve any vendor from satisfying any debt owed to the State.) A VENDOR must at all times have financial resources sufficient, in the opinion of the State, to ensure performance of the contract and must provide proof upon request. We will determine whether any failure to supply information, or the quality of the information, will result in rejection.

To be considered "responsible," Vendors must meet independence standards set forth in Government Auditing Standards. The Technical Proposal requires Vendors to disclose relationships with certain entities, including any consulting, engineering, or other work performed for Illinois Department of Transportation (IDOT), Illinois asphalt or concrete companies, associations, etc., or any other party with a vested interest in materials used on road construction projects in the State of Illinois. For any such work, Vendor is required to provide an explanation of how such work would not represent an independence problem in carrying out the services required by this solicitation. The OAG will review the extent and nature of the work performed by Vendor and Vendor's explanation of its independence. The

OAG will then make a final determination whether such work impairs the Vendor's independence. If, in the Auditor General's opinion, the Vendor's independence is impaired, in fact or in appearance, the Vendor's proposal will be rejected without further scoring or evaluation.

- c) The evaluation and award criteria are shown in the following subsections.
- 1) Responsiveness. We will evaluate for "responsiveness" offers that meet the "administrative" and "responsibility" requirements. We will determine how well offers meet our requirements in terms of "responsiveness" to the specifications. Minor differences or deviations that have negligible impact on the price or suitability of the supply or service to meet the State's needs may be accepted or corrections allowed. If no administratively compliant and responsible Vendor meets a particular requirement, we may waive that requirement. We will rank offers, without consideration of price, from best to least qualified using a point system (unless otherwise specified) as an aid in conducting the evaluation. References and past performance may be considered again in this portion of the evaluation. Point and other such evaluation methods are tools we use to aid us in the evaluation process but are not always definitive. We reserve the right to use our discretion to eliminate offers that we deem unacceptable.

If we do not consider the price submitted in response to the RFP to be fair and reasonable and that price cannot be negotiated to an acceptable level, we reserve the right to award to the next highest ranked Vendor. We will determine whether the price is fair and reasonable by considering the Offer, including the Vendor's qualifications, the Vendor's reputation, all prices submitted, other known prices, the project budget and other relevant factors. Only the OAG can determine whether a price is fair and reasonable.
 - 2) The total number of points for "responsiveness" is 100. Vendors who do not receive 49 of the total "responsiveness" points available need not be considered for award. For each element, proposals will receive a number of points proportionate to how that proposal compared to other proposals. The OAG reserves the right to reject any proposal that is, in the OAG's opinion, materially deficient in any one of the evaluation criteria, regardless of total overall score.
 - i. Appropriateness, comprehensiveness and responsiveness of proposer's approach to the engagement, including the number of professional hours to be devoted to the engagement and its component tasks, the manner in which the requirements of the RFP and any special specifications or objectives are addressed, and the value of any special testing proposed (40 points);
 - ii. Extent and quality of proposer's experience and the quality of similar services provided to the OAG and others, especially the proposer's experience in completing similar engagements (30 points);
 - iii. The quality, depth and relevance of the experience and qualifications of the team leader and key staff, including any intended subcontractors, who will be performing the engagement, as well as the availability of staff to provide the services (15 points); and
 - iv. The mix or ratio of higher level (partner, manager, supervisor) hours to lower level (senior, staff and interns) hours for the staff assigned to the engagement (15 points).
- d) Alternative Evaluation. If three or fewer offers are received, the offers may be evaluated without use of a point system, using simple comparative analysis.
- e) Best and Final Offers. The OAG reserves the right to enter into discussions with those Vendors who are eligible for further evaluation in accordance with the evaluation criteria. The purposes of such discussions include, but are not limited to, promoting understanding of the OAG's requirements and the Vendor's proposal and facilitating arriving at a contract that will be most advantageous to the OAG. The number of proposers allowed to participate in discussions or to submit best and final offers, and the scope of those discussions and best and final offers, shall be determined solely by the OAG.

DESCRIPTION OF REQUIRED SERVICES

Assistance in Reviewing IDOT's Implementation of Life-Cycle Cost Analysis

1. Engagement Scope and Standards.

Given the technical nature of the required analysis, the Office of the Auditor General needs to procure contractual assistance from a vendor with experience in life-cycle cost analysis for road construction projects with pavement costs that exceed \$500,000. It is intended that the Vendor will assist the Office of the Auditor General in its review of the Illinois Department of Transportation's policies, procedures, and practices regarding life-cycle cost analysis with regards to pavement type selection. The Office of the Auditor General will require the Vendor to prepare specified deliverables which the Office will then use in its preparation of the audit report required by Legislative Audit Commission Resolution No. 140.

Vendors must disclose in their proposals whether they intend to use a subcontractor in performing this engagement. For each proposed subcontractor, Vendors must provide in their proposal a description of the subcontractor's relevant expertise and experience and the specific work Vendor plans for the subcontractor to perform on this engagement. Resumes of key staff for both Vendor and any proposed subcontractor must also be provided in the Vendor's proposal.

2. Experience. The Vendor **will be required** to have experience in conducting and reviewing life-cycle cost analysis for road construction pavement projects.

3. Vendor/Subcontractor Qualification. The Vendor will be required to have demonstrated experience in professional engineering, economic analysis, or other area of expertise relevant to life-cycle cost analysis for road construction pavement projects. The requested work will be conducted by a Vendor that is independent, responsible, and responsive. Both Vendors and any proposed subcontractor must sign and submit relevant certification and disclosure forms to the OAG and must be independent and objective relative to the operations of the Illinois Department of Transportation. In addition, Vendors must demonstrate in their responses that their prior performance and work product has been **objective** in terms of not having preconceived conclusions or preferences regarding the various pavement alternatives.

4. Business Enterprise Program (BEP). The OAG encourages qualified businesses owned and controlled by minorities (MBE's), females (FBE's) or persons with disabilities (PBE's) to submit proposals. The OAG encourages Vendors to consider subcontracting portions of engagements to qualified small firms or firms owned and controlled by MBE's, FBE's or PBE's. For purposes of this section, the individuals claiming ownership and control must own at least 51% of the business. If the proposed Contractor or subcontractor is a qualified MBE, FBE or PBE, the proposal should include a certification stating that the individuals meet this definition of ownership and control.

5. Engagement Schedule. Time is of the essence on this engagement. Deadlines established by this RFP and the Auditor General must be met by the Vendor. The following dates are approximate:

5/6/11	Request for proposals issued
6/6/11	Proposals due in Springfield office by 9:00 a.m.
6/24/11	Expected award date
7/13/11	Work Plan due to OAG
9/30/11	Contract Deliverables due to OAG
11/8/11	Review of and comment on draft Performance Audit report due to OAG

Throughout the engagement, the Vendor will be required to provide the OAG contract manager with bi-weekly progress reports. The progress reports will disclose the number of hours worked by each assigned staff and the areas in which the hours were incurred.

6. Technical Approach. All proposers must complete and return the attached Solicitation Response Forms. No cost information is to be shown other than in the Cost Proposal document, as provided in Section 1.4 of the instructions for Submitting Offers.

7. Cooperation. Contractor must cooperate with staff from the OAG in their conduct of additional work or extended work assigned by the Auditor General as part of, or supplemental to, the Contractor's work.

8. Information about IDOT's Life-Cost Cycle Analysis. The Illinois Department of Transportation (IDOT) is responsible for the planning, design, construction, operation and maintenance of a 16,000+ mile State highway system and for the administration of local roads and streets program. The work related to these functions is performed through IDOT's central office and IDOT's regional/district offices.

The Bureau of Design and Environment (BDE) located within the Division of Highways is responsible for developing standards, specifications, and policies for the State highway system. BDE:

- Develops highway standards and provides support services for district highway design programs;
- Coordinates and prepares Federal-aid program documents; and
- Processes plans and contract documents through the letting and contract award stage.

In addition, the Bureau also prepares road projects for letting. During FY09, the Bureau of Design and Environment reviewed 1,792 projects, reviewed and processed 6,251 bid proposals, and awarded 1,560 contracts for approximately \$2.17 billion.

Life-cycle cost analysis at IDOT is not a new initiative; however, it was not required by law until August 2009. During the Senate floor debate for Public Act 96-715, which required IDOT to implement life-cycle cost analysis for projects with total pavement costs over \$500,000, it was stated that IDOT has been doing life-cycle cost analysis for more than 20 years.

In 2010, IDOT reported awarding 1,481 road construction projects. Of the 1,481 projects, 24 received a life-cycle cost analysis, according to information received from IDOT.

IDOT's policies and procedures for pavement type selection life-cycle cost analysis are found in Chapter 54 of its Bureau of Design and Environment Manual. On April 14, 2011, IDOT issued a revision to Chapter 54. The revision changed certain assumptions and models for its life-cycle cost analysis process. Among its revisions are: the addition of alternate bidding to the pavement selection process, the inclusion of language to reference specific statutory LCCA requirements, the change from a 40-year to 45-year life-cycle analysis period, and the updating of maintenance and rehabilitation models used for LCCA (both JPCP and Full-Depth HMA/HMA Overlay of Rubblized PCC Pavement), as well as the addition of a new model for CRC Pavement/Unbonded CRC Overlay.

Since the scope of the audit is for road construction contracts awarded in 2010, the audit will need to assess IDOT's compliance with policies and procedures utilized on the projects for which contracts were awarded in 2010. However, the audit will also need to assess the impact of the revised Chapter 54 effective April 2011, since it is now the process the Department will be using on future projects.

The following information regarding IDOT's life-cycle cost analysis process is located on the Internet:

- State law requiring life-cycle cost analysis:
<http://ilga.gov/legislation/ilcs/ilcs5.asp?ActID=354&ChapterID=5>
- IDOT Bureau of Design and Environment Manual, Chapter 54: Pavement Design (Revised April 2011)
<http://www.dot.il.gov/desenv/bdmanual.html>

Proposer is responsible for reviewing all available information to determine the appropriate number of hours to propose on this engagement.

10. Billing Procedures and Progress Billings. The contract will set forth the total financial obligation of the OAG and Contractor must agree to fully complete the statement of work and all contractual obligations within that stated total consideration. Amendments will be permitted only at the OAG's discretion. Billings must be prepared in accordance with the Auditor General's procedures regarding the submission of vouchers or other documentation. The voucher must list a total of the actual professional hours utilized for the work performed extended at the agreed contract average hourly rate. If total billings are less than the total consideration allowable under the contract, only the lesser cost shall be paid by the OAG. If progress payments are permitted, the contract will so specify.

11. Scope of Work.

(a) Need for Services

On November 16, 2010, the Legislative Audit Commission adopted Resolution No. 140 which directs the Office of the Auditor General to conduct a management audit of the Illinois Department of Transportation's (IDOT) implementation of the life-cycle cost analysis required by the Department of Transportation Law (20 ILCS 2705/2705-590). The Resolution contains the following determinations:

- *Whether the Department has developed and implemented a life-cycle cost analysis which complies with the requirements of Section 2705-590 of the Department of Transportation Law, for each State road project under its jurisdiction for which the total pavement costs exceed \$500,000 funded, in whole, or in part, with State or State appropriated funds;*
- *Whether the Department has designed and awarded these projects utilizing material having the lowest life-cycle cost; and*
- *The frequency in which the Department has made a decision based on other criteria when alternative material options are substantially equivalent on a life-cycle cost basis.*

Given the technical nature of the life-cycle cost analysis process, the Auditor General is seeking assistance to review the process undertaken by the Illinois Department of Transportation.

(b) Goals and Objectives

The purpose of this Solicitation is to select a Vendor to assist the Auditor General in its review of the Illinois Department of Transportation's implementation of the life-cycle cost analysis required by Section 2705-590 of the Department of Transportation Law. Section 2705-590 reads as follows:

(20 ILCS 2705/2705-590)

Sec. 2705-590. Roadbuilding criteria; life-cycle cost analysis.

(a) As used in this Section, "life-cycle cost" means the total of the cost of the initial project plus all

anticipated future costs over the life of the pavement. Actual, relevant data, and not assumptions or estimates, shall be used to the extent such data has been collected.

(b) The Department shall develop and implement a life-cycle cost analysis for each State road project under its jurisdiction for which the total pavement costs exceed \$500,000 funded in whole, or in part, with State or State-appropriated funds. The Department shall design and award these paving projects utilizing material having the lowest life-cycle cost. All pavement design life shall ensure that State and State-appropriated funds are utilized as efficiently as possible. When alternative material options are substantially equivalent on a life-cycle cost basis, the Department may make a decision based on other criteria. At the discretion of the Department, interstate highways with high traffic volumes or experimental projects may be exempt from this requirement.

(c) Except as otherwise provided in this Section, a life-cycle cost analysis shall compare equivalent designs based upon this State's actual historic project schedules and costs as recorded by the pavement management system, and may include estimates of user costs throughout the entire pavement life.

(d) For pavement projects for which this State has no actual historic project schedules and costs as recorded by the pavement management system, the Department may use actual historical and comparable data for equivalent designs from states with similar climates, soil structures, or vehicle traffic.

(c) Overview of Services Required

As noted in Section 11(a) above, Legislative Audit Commission Resolution No. 140 delineates the determinations or questions the Auditor General's report is required to address. The Contractor will be required to assist the staff of the Office of the Auditor General in their review of IDOT's implementation of life-cycle cost analysis. Such assistance shall include:

- 1) Reviewing the life-cycle cost analysis policies, procedures, and practices for pavement type selection utilized by IDOT. These include **both** the policies and procedures utilized on the projects for which contracts were awarded in 2010, as well as those revised effective April 14, 2011. This review shall include, but not be limited to, the following:
 - a. Whether the implementation of the life-cycle cost analysis complies with the requirements of Section 2705-590 of the Department of Transportation Law.
 - b. Whether IDOT's implementation of its life-cycle cost analysis is reasonable (i.e., not overly liberal or restrictive) as to which projects receive a life-cycle cost analysis.
 - c. Whether there are significant differences in IDOT's implementation of life-cycle cost analysis (including its policies, procedures and practices) and the implementation of life-cycle cost analysis performed by comparable entities, such as other states, the federal government, and/or private entities.
 - d. Whether the assumptions used by IDOT in its analyses are valid, objective, and reasonable.
 - e. Whether the data used by IDOT is valid, reliable, current, relevant, and compliant with the requirements of Section 2705-590 of the Department of Transportation Law.
- 2) For 10 projects in 2010 selected by the OAG, assist the OAG staff in their review of the life-cycle cost analysis used by IDOT to determine whether: IDOT complied with their policies and procedures, the analyses were accurate, and the data was valid, reliable, and compliant with Section 2705-590 of the Department of Transportation Law.

- 3) If projects are identified where changes in assumptions or data may be warranted, (such as if calculation errors are identified or assumptions or data should be changed), Contractor shall re-compute the cost analysis conducted by IDOT to determine whether these changes would have resulted in significantly different outcomes.
- 4) For 10 projects in 2010 selected by the OAG that did not receive a life-cycle cost analysis, assist the OAG staff in their determination as to whether such an analysis should have been performed by IDOT (i.e., required by State law and/or IDOT policies).
- 5) The Contractor shall prepare deliverables which document the work Contractor performed to address **1) through 4)** above. The deliverables must describe in detail the work performed by the Contractor and conclusions reached.
- 6) In addition, the Contractor shall be available to provide guidance and assistance to Auditor General staff throughout the conduct of this audit.

In addition to the above, the Contractor will be required to review and comment upon the report prepared by the Office of the Auditor General, pursuant to Legislative Audit Commission Resolution No. 140; prepare a work plan delineating the activities, staff and timeline to accomplish the contracted for assistance; attend meetings as requested by the Office of the Auditor General, including, but not limited to, with the Illinois Department of Transportation (including the exit conference) and the Legislative Audit Commission; and provide other related assistance as requested by the Office of the Auditor General. The Contractor will be available for consultation as needed and to attend meetings as requested by the Audit Manager upon reasonable notice.

Deliverables submitted to the OAG must be cross-indexed to the Contractor's supporting workpapers. Specifically, each fact, number, and statement in Contractor's deliverables must be cross-indexed back to the Contractor's workpaper that supports the fact, number, and statement.

Throughout the engagement, the Contractor is required to provide the OAG with progress reports as directed by the Audit Manager. The progress reports will disclose the number of hours worked by each assigned staff. Other reporting requirements, such as requiring Contractors to identify significant constraints or problems encountered, will also be established by the OAG Audit Manager and the Contractor will fully comply with those requirements.

Time is of the essence on this engagement. Any delays experienced by the Contractor, such as delays in obtaining requested information from the Illinois Department of Transportation, shall be brought to the immediate attention of the OAG Audit Manager.

In its response to this Solicitation, the Proposer should detail how it will carry out the responsibilities delineated above, as well as other activities or responsibilities the Proposer believes need to be undertaken to fulfill the requirements of this proposed legislation. **Please note, the Vendor is fully responsible for conducting all the work necessary to prepare the required deliverables, and must be able to demonstrate it has staff qualified in the needed areas. If the Proposer plans to subcontract a portion of the work, such as to obtain needed expertise, the proposal should clearly delineate this relationship.**

The Office of the Auditor General will be responsible for:

- 1) providing feedback and guidance on the planning and conduct of the planned work;
- 2) reviewing the deliverables and the adequacy of support;
- 3) participating in meetings, as necessary, between Contractor and IDOT officials;
- 4) assisting in resolving any issues arising between the Contractor and the affected entities; and
- 5) drafting and distributing the final report.

Throughout the terms of the contract, the Vendor will be expected to communicate progress and status of its work on a regular basis to assigned OAG staff. Pursuant to the Illinois State Auditing Act, and regulations adopted thereunder, the reports and related working papers, including all information prepared by the contractor in the course of fulfilling the responsibilities under this scope of work, will be public information upon release of the reports.

Note: As part of the solicitation review process, the Proposer may be requested to meet with OAG staff either in Springfield or Chicago to discuss and answer questions on its proposal.

(9) Other Consulting, Engineering, and/or Auditing Work

In this Section, you must disclose any consulting, engineering, auditing or any other work that your firm or any employee of your firm has performed with relation to the Illinois Department of Transportation and any trade groups, companies, or other organizations affiliated with, representing, or otherwise associated with the concrete or asphalt industry. This would include work directly contracted or sub-contracted by these entities, as well as any work performed for any other entity that is involved with or used by these entities. This disclosure must include:

- Any work performed during the past six calendar years (2006 - 2011);
- Any work currently being performed; and
- Any work that you anticipate performing in the future or which you are currently seeking.

If any employee of your firm was previously employed by any of the above entities, details should also be provided in this Section.

If your firm is proposing the use of a subcontractor(s) on this engagement, similar disclosures should be made in this Section for the subcontractor(s).

Even though the services required by this Solicitation are not audit services, independence is a vital aspect of work performed by the Office of the Auditor General. Consequently, to be considered "responsible," Vendors must meet independence standards set forth in Government Auditing Standards. Specifically, regarding conflicts of interest, Government Auditing Standards (GAS) state the following:

In all matters relating to the audit work, the audit organization and the individual auditor, whether government or public, must be free from personal, external, and organizational impairments to independence, and must avoid the appearance of such impairments of independence. (Par. 3.02)

Auditors and audit organizations must maintain independence so that their opinions, findings, conclusions, judgments, and recommendations will be impartial and viewed as impartial by objective third parties with knowledge of the relevant information. Auditors should avoid situations that could lead objective third parties with knowledge of the relevant information to conclude that the auditors are not able to maintain independence and thus are not capable of exercising objective and impartial judgment on all issues associated with conducting the audit and reporting on the work. (Par. 3.03)

GAS also provides that "When auditors use the work of a specialist, auditors should assess the specialist's ability to perform the work and report results impartially as it relates to their relationship with the program or entity under audit. If the specialist's independence is impaired, auditors should not use the work of that specialist." The standards give examples of specialists which include, but are not limited to, actuaries, appraisers, attorneys, engineers, environmental consultants, medical professionals, statisticians, and geologists. (Par. 3.05)

To that end, Vendors should review the independence requirements contained in Chapter 3 of Government Auditing Standards. Further guidance is available in "Answers to Independence Standard Questions" also published by the Comptroller General of the United States. Both GAS and the Answers to Independence Standard Questions are available on the internet at www.gao.gov/govaud/yellowbook.

For any work or relationships disclosed in this Section, Vendor is required to provide an explanation of how such work would not represent an independence problem in carrying out the services required by this solicitation. The OAG will review the extent and nature of the work performed by Vendor and Vendor's explanation of its independence. The OAG will then make a final determination whether such work impairs the Vendor's independence. If, in the Auditor General's opinion, the Vendor's independence is impaired, in fact or in appearance, the Vendor's proposal will be rejected without further scoring or evaluation.

2. The Vendor must also state whether it or any owners, officers, or primary partners have ever been convicted of a felony. Failure to disclose these matters may result in rejection of the bid Offer or in termination of any subsequent contract. This is a continuing disclosure requirement. Any such matter commencing after submission of a bid Offer, and with respect to the successful Vendor after the execution of a contract, must be disclosed in a timely manner in a written statement to the Agency.
5. During the last five (5) years, have any irregularities been discovered in any of the accounts maintained by the Vendor on behalf of others? If so, describe the circumstances of irregularities or variances and disposition of resolving the irregularities or variances.

Similar disclosures must be made for any subcontractor proposed by Vendor to provide services pursuant to this solicitation.

TITLE

STANDARD CONTRACT PROVISIONS

The following terms and conditions will govern this contractual relationship and the **VENDOR** is bound by them and is responsible for reading and understanding them.

1. **BILLING:** VENDOR shall submit invoices on the schedule and with the detail required by the OAG.
 - (a) Invoices shall be signed by VENDOR. Record-keeping shall be in accordance with generally accepted accounting practices. If total billings are less than the total consideration allowable under this contract, only the lesser cost shall be paid by the OAG. All billings must be submitted to the OAG at the cover page address directed to the attention of the Contract Manager. By submitting an invoice, VENDOR certifies that the equipment, supplies and/or services provided meet all requirements of the contract and the amount billed is as allowed in this contract.
 - (b) VENDOR shall not bill for any taxes unless accompanied by proof the State is subject to the tax. If necessary, VENDOR may request the OAG's Illinois tax exemption number and federal tax exemption information.
 - (c) All invoices for supplies purchased or services performed and expenses (if billable) incurred through June 30 of any year must be submitted to the OAG no later than July 31 of that year; otherwise, VENDOR may have to seek payment through the Illinois Court of Claims (30 ILCS 105/25).

2. **PAYMENT:**
 - (a) The OAG shall not be liable to pay for any equipment and/or supplies provided and/or services rendered prior to the execution of this contract by the Parties, even if the effective date of the contract is prior to execution. VENDOR shall not commence billable work in furtherance of the contract prior to final execution of the contract.
 - (b) The approved invoice amount will be paid less any retainage and previous partial payments. Final payment shall be made upon determination by the OAG that all requirements under this contract have been completed, which determination shall not be unreasonably withheld.
 - (c) Payments, including late payment charges, will be paid in accordance with the State Prompt Payment Act (30 ILCS 540) and rules (74 Ill. Adm. Code 900) when applicable. This shall be VENDOR's sole remedy for late payments by the State. Payment terms contained on VENDOR's invoices shall have no force and effect.
 - (d) The OAG's total financial obligation under this contract shall not exceed the total consideration set forth in the contract and VENDOR agrees to fully complete the statement of work specified in the appropriate contract schedule and all obligations within that stated total consideration. If and when this contract is renegotiated to allow increased costs due to unforeseen contingencies not apparent at the time of execution, an amendment shall be agreed to only at the OAG's sole option.
 - (e) As a condition of receiving payment, VENDOR must (i) be in compliance with the contract, (ii) pay its employees prevailing wages when required by law (e.g., public works, printing, janitorial, window washing, building and grounds services, site technician services, natural resource services, security guard and food services). VENDOR is responsible for contacting the Illinois Department of Labor (217/782-6206; <http://www.state.il.us/agency/idol/index.htm>) to ensure understanding of prevailing wage requirements; (iii) pay its suppliers and subcontractors according to the terms of their respective contracts; and (iv) provide lien waivers to the State upon request.
 - (f) If the OAG in good faith determines that the VENDOR has failed to perform or deliver any service or product as required by this contract, the VENDOR shall not be entitled to any compensation under this contract until such service or product is performed or delivered. In this event, the OAG may withhold that portion of the VENDOR's compensation which represents payment for service or product that was not performed or delivered.
 - (g) The State may set off any sum owed to the VENDOR on account of any debt owed to the State, unless otherwise required by law, in accordance with the State Comptroller Act (15

ILCS 405). The VENDOR agrees that this provision constitutes proper and timely notice under the law of setoff.

3. **PROGRESS PAYMENTS FOR AUDIT SERVICES:** If this contract is for audit or attestation services, unless otherwise specified in writing now within this contract or hereafter incorporated by reference, VENDOR may submit progress billings in the manner set forth below as follows:

- (a) At any time after the work has begun, VENDOR may submit a bill for actual hours worked, at the agreed contract average hourly rate. If the total amount of such bill is for an amount equal to or in excess of 50% of the total amount due under this contract, VENDOR shall be entitled to receive an amount equal to 50% of the total amount due under this contract. If the total amount of such bill is for an amount less than 50% of the total amount due under this contract, the VENDOR shall be entitled to receive the amount billed.
- (b) Upon delivery of all written draft deliverables and completion of assigned fieldwork, analysis and contractor drafting tasks as specified in this contract in a form acceptable to the OAG, VENDOR may submit a further bill for actual hours worked at the agreed average contract hourly rate. If the total amount of such bill is for an amount in excess of 75% of the total amount due under this contract, VENDOR shall be entitled to receive an amount equal to 75% of the total amount due under this contract, less any amount paid pursuant to the first progress billing. If the total amount of such bill is for an amount less than 75% of the total amount due under this contract, VENDOR shall be entitled to receive the amount billed, less any amount paid pursuant to the first progress billing.
- (c) Upon delivery of the final report or equivalent to the OAG and acceptance thereof, VENDOR may submit a final bill for the balance due for actual hours worked at the agreed average contract hourly rate pursuant to the terms of this contract. If the total cost exceeds the agreed total maximum contract payment, then the amount in excess of the contract maximum shall be deducted from the total cost of the work done so as to arrive at the net amount due in accordance with the total maximum contract payment specified in Section 2, above.

Throughout this contract, when the term "audit" is used it includes attestation services and agreed-upon procedures if such services are the subject of the engagement.

4. **COMPLIANCE WITH THE LAW AND PROFESSIONAL STANDARDS:**

- (a) The VENDOR, its employees, agents and subcontractors shall comply with all applicable federal, state and local laws, rules, ordinances, regulations, orders, federal circulars and all license and permit requirements in the performance of this contract.
- (b) VENDOR shall be in compliance with applicable tax requirements and shall be current in payment of such taxes.
- (c) VENDOR warrants that VENDOR, its employees, agents and subcontractors who would perform services requiring a license have and maintain any required license. If this contract is for audit or attestation services, VENDOR, its employees, agents and any subcontractor engaged by it must meet all requirements necessary to comply with applicable professional standards, including peer review, continuing education and independence.

5. **AUDIT/RETENTION OF RECORDS:** VENDOR and its subcontractors shall maintain books and records relating to the performance of the contract or subcontract and necessary to support amounts charged to the State under the contract or subcontract. Books and records, including information stored in databases or other computer systems, shall be maintained by the VENDOR for a period of 3 years from the later of the date of final payment under the contract or completion of the contract, and by the subcontractor for a period of 3 years from the later of the date of final payment under the subcontract or completion of the subcontract. The 3 year period shall be extended for the duration of any audit in progress during the term. Book and records required to be maintained under this Section shall be available for review or audit by the OAG, its representatives, and any other governmental entity with monitoring authority upon reasonable notice and during normal working hours. VENDOR and its subcontractors shall cooperate fully with any such audit or review. The VENDOR shall not impose a charge for audit or examination of the VENDOR's books and records. If any audit indicates

overpayment to VENDOR, or subcontractor, the OAG shall adjust future or final payments otherwise due. If no payments are due and owing to VENDOR, or if the overpayment exceeds the amount otherwise due, VENDOR shall immediately refund all amounts that may be due to the OAG. Failure to maintain the books and records required by this Section shall establish a presumption in favor of the State for the recovery of any funds paid by the State under the contract for which adequate books and records are not available to support the disbursement. The VENDOR shall take reasonable steps to ensure that any subcontractor is in compliance with the requirements of this section.

6. **RETENTION OF WORKING PAPERS:** If this contract is for audit or attestation services, VENDOR shall maintain all working papers and reports, at VENDOR's expense, for a minimum of five years from the report release date, unless the firm is notified in writing by the OAG of the need to extend the retention period. VENDOR agrees to make the working papers available, upon the OAG's request and without limitation and at no charge, to: the OAG; the agency reviewed; successor auditors; any federal cognizant agency; parties designated by the federal or state government or others as part of a quality review process; auditors of entities of which the audited agency is a sub-recipient of grant funds; auditors of entities of which the audited entity is a component unit; members of the legislature and the public in compliance with the Illinois State Auditing Act, the Illinois Freedom of Information Act and regulations adopted under those Acts.
7. **SCHEDULE OF WORK AND REPORTING REQUIREMENTS:** Any work performed on State premises shall be done during the hours designated by the State and performed in a manner that does not interfere with the State and its personnel. VENDOR shall immediately notify the OAG of any event that may have a material impact on VENDOR's ability to perform the contract.
8. **INDEPENDENT CONTRACTOR:** VENDOR shall, in the performance of this contract, be an independent contractor and not an agent or employee of, or joint venturer with, the State. All payments by the State shall be made on that basis.
9. **ASSIGNMENT AND SUBCONTRACTING:**
 - (a) This contract may not be assigned, transferred or subcontracted in whole or in part by the VENDOR without the prior written consent of the OAG. VENDOR shall describe within this contract the names and addresses of all authorized subcontractors utilized by VENDOR in the performance of this contract, together with the anticipated amount of money that each subcontractor is expected to receive pursuant to this contract. For purposes of this section, subcontractors are those specifically hired to perform all or part of the work or to provide the supplies covered by the contract.
 - (b) Any dispute between Vendor and any third party, including any subcontractor, shall be solely between such third party and Vendor, and the Agency shall be held harmless by Vendor.  - (a) Any documents or information obtained by VENDOR in connection with this contract shall not be provided to any third party unless disclosure is approved in writing by OAG. If, during the course of providing the services required by this Contract, VENDOR may access, use or disclose protected health information (PHI), as that term is defined in the Health Insurance Portability and Accountability Act (HIPAA), then VENDOR agrees to execute a Business Associate Agreement with the OAG and to abide by federal law and regulations pertaining to the privacy and security of PHI.
 - (b) VENDOR is required to encrypt or redact any confidential information on all networks, servers, computers and other electronic media or storage devices. VENDOR may not transmit

Any personally identifiable information that is protected under any Illinois or federal law will trigger this obligation to the extent that the information is breached while in the control of the VENDOR during the performance of this contract or while still in VENDOR'S possession or control following the termination of this contract. VENDOR must immediately notify the State of such a breach and agrees not to initiate any independent notification of those actually or potentially affected until a determination is made by the State as to the most appropriate method, timeline and content of such notice. The State reserves the right to make the final determination as to the timing and substance of any such notification.
- (e) VENDOR'S obligations regarding confidentiality under this contract shall survive termination of this contract.

VENDOR hereby assigns to the State all right, title, and interest in and to such work including any related intellectual property rights, and/or permanently waives any and all claims that VENDOR may have to such work including any so-called "moral rights" in connection with the work. VENDOR acknowledges the State may use the work product for any purpose. Confidential data or information contained in such work shall be subject to confidentiality provisions of this contract. VENDOR shall exclusively own any intellectual property rights (i) owned by VENDOR prior to the commencement of services or (ii) developed or acquired by VENDOR independent of the services provided under this contract; however, if incorporated into any work product provided under this contract, VENDOR'S intellectual property rights will not extend to (i) any portion of the State's material incorporated into any work product or (ii) to any information specific to any products or the State's business operations. The State will retain ownership of all intellectual property rights (such as copyrights and trade secrets) in or to any information and/or materials that the State supplies to VENDOR, or that the State develops in connection with this agreement.
- (b) To the extent VENDOR is providing the State with software under this contract, or a service that incorporates or includes software requiring a license for its proper use, and in consideration for a one time payment of any applicable license fee for such software, or any identified service fee that covers the use of the software, VENDOR hereby grants to the State and the State hereby accepts a non-transferable (except within State of Illinois government), nonexclusive, perpetual, irrevocable license to use the software. Continuous use of the license is subject only to the specific terms contained within any specific license terms attached to this contract.

- (c) Where the State is purchasing maintenance for software, previously purchased by the State from VENDOR, that is perpetual in nature, all rights granted in the original license agreement are unaffected by this contract.
- (d) Where the State purchases annual maintenance, following the initial term of the agreement for term licenses, all licenses granted in this contract shall continue in force during the annual maintenance period (s).
- (e) Upon completion or at the termination of this contract, all such documents and information shall, at the option of the OAG, be appropriately arranged, indexed and delivered to the OAG by VENDOR.

This contract may be renewed for successive terms, subject to the OAG's discretion, with the mutual written consent of both parties and subject to performance review, the satisfactory negotiation of terms (including price) and the annual availability of an appropriation. In no event will the total term of the contract, including the initial term, and renewal terms and any extensions, exceed 10 years.
15. **AVAILABILITY OF APPROPRIATIONS:** This contract is contingent upon and subject to the availability of funds. The State, at its sole option, may terminate or suspend this contract, in whole or in part, without penalty or further payment being required, if: (1) the Illinois General Assembly or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason; (2) the OAG's funding is reduced through reserves, or (3) the OAG determines, in its sole discretion, that a reduction is necessary or advisable based upon actual or projected budgetary considerations. 16. **INDEMNIFICATION AND LIABILITY:**
- (a) The VENDOR agrees to indemnify and hold harmless the State of Illinois, its agencies, officers, employees, agents and volunteers from any and all costs, demands, expenses, losses, claims, damages, liabilities, settlements and judgments, including in-house and contracted attorneys' fees and expenses, arising out of (a) any breach or violation by VENDOR of any of its certifications, representations, warranties, covenants or agreements, (b) any actual or alleged death or injury to any person, damage to any property or any other damage or loss, claimed to result in whole or in part from VENDOR's negligent performance, (c) any act, activity or omission of VENDOR or any of its employees, representatives, subcontractors or agents.

If an action is brought against the State claiming that the authorized use of the software infringes such third party patent, copyright or other proprietary right, VENDOR will

defend the State at VENDOR'S expense and pay the actual damages, attorney's fees, and costs finally awarded against the State in any proceedings arising from an infringement action. The State must promptly notify VENDOR in writing of any allegations of infringement made and permit the VENDOR, at VENDOR'S request and expense, to defend and conclude the action. If any claim arises or is reasonably likely to arise, VENDOR shall either procure, at VENDOR'S sole cost, the right for the State to continue to use the software or modify the software (without causing diminution in functionality) so that it does not infringe the third party's rights or if VENDOR is not able to accomplish either of the above, provide written notice to the State to that effect and refund to the State (within thirty days) all licensing fees and any prepaid maintenance fees paid by the State to the VENDOR and terminate the license for the software involved. This indemnity does not apply to the extent that infringement results from alterations or additions to the software made by the State that caused the infringement or use of the software in combination with any other software, where the infringement would not have occurred without the other software.

- (c) Any indemnification obligation of the parties shall survive termination of this contract.
- (d) VENDOR shall assume risk of loss until delivery to the OAG's facility. VENDOR shall do nothing to prejudice the State's right to recover against third parties for any loss, destruction or damage to State property and shall, at the State's request and expense, furnish to the State reasonable assistance and cooperation, including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the State in obtaining recovery.
- (e) The OAG assumes no liability for actions of VENDOR and is unable to indemnify or hold VENDOR or any third party harmless for claims based on this contract or use of VENDOR provided supplies or services.
