## FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

### WEAKNESSES IN CHANGE CONTROL PROCESSES

The University did not have adequate controls around its change control process and had not adequately controlled developer access to its production environment.

The University established a change management process describing the process from initiation until post-implementation review. However, during the review of the University's change control policies and procedures, we noted the following:

Change policy lacking requirements for some changes

• The change policy did not describe standard testing and documentation requirements for each type of change.

### Inadequate segregation of duties noted

 Developers had access to the production environment, resulting in a segregation of duties weakness. (GAS Report, Finding 1, Pages 5-6)

We recommended the University update its policies and procedures to describe testing and documentation requirements for each type of change. Further, we recommended the University strengthen controls to ensure proper segregation of duties are established by restricting developers' access to the production environment.

University agreed with the auditors

University officials agreed with the finding and stated the University has been working to address the issues identified.

#### **AUDITOR'S OPINION**

The auditors stated the financial statements of the University as of and for the year ended June 30, 2024 are fairly stated in all material respects.

This financial audit was conducted by Adelfia, LLC.
