FINANCIAL AUDIT
For the Year Ended June 30, 2024

Report Required Under *Government Auditing Standards*

Summary

The audit of the accompanying financial statements of Governors State University (University) was performed by Adelfia LLC in accordance with *Government Auditing Standards*. This report is an integral part of that audit.

Based on their audit, the auditors expressed an unmodified opinion on the University's basic financial statements, issued under a separate cover.

Summary of Findings

The auditors identified a matter involving the University's internal control over financial reporting that they considered to be a significant deficiency. Further, the auditors identified a noncompliance matter.

<u>Item No.</u>	<u>Page</u>	<u>Last/First Reported</u>	<u>Description</u>	<u>Finding Type</u>
Current Finding				
2024-001	5	2023/2023	Weaknesses in Change Control Processes	Significant Deficiency and Noncompliance

Exit Conference

The University waived an exit conference in a correspondence from Ms. Villalyn Baluga, Associate Vice President for Finance, on March 14, 2025. The response to the recommendation was provided by Ms. Villalyn Baluga, Associate Vice President for Finance, in a correspondence dated March 13, 2025.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
Governors State University

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component unit of Governors State University (University), collectively a component unit of the State of Illinois, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and we have issued our report thereon dated March 21, 2025. Our report includes a reference to other auditors who audited the financial statements of the Governors State University Foundation, as described in our report on the University's financial statements. The financial statements of the Governors State University Foundation were not audited in accordance with Government Auditing Standards and, accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with the Governors State University Foundation or that are reported on separately by those auditors who audited the financial statements of the Governors State University Foundation.

Report on Internal Control Over Financial Reporting

Management of the University is responsible for establishing and maintaining effective internal control over financial reporting (internal control).

In planning and performing our audit of the financial statements, we considered the University's internal control as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal control, described in the accompanying Schedule of Findings as item 2024-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings as item 2024-001.

University's Response to the Finding

Government Auditing Standards requires the auditor to perform limited procedures on the University's response to the finding identified in our audit and described in the accompanying Schedule of Findings. The University's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS – *GOVERNMENT AUDITING STANDARDS*
For the Year Ended June 30, 2024

2024-001 **FINDING** (Weaknesses in Change Control Processes)

Governors State University (University) did not have adequate controls around its change control process and had not adequately controlled developer access to its production environment.

The University established a change management process describing the process from initiation until post-implementation review. However, during the review of the University's change control policies and procedures, we noted the following:

- The change policy did not describe standard testing and documentation requirements for each type of change.
- Developers had access to the production environment, resulting in a segregation of duties weakness.

The *Security and Privacy Controls for Information Systems and Organizations* (Special Publication 800-53, Fifth Revision) published by the National Institute of Standards and Technology, Configuration Management and System and Communication Protection sections, requires entities to develop and document control over changes, for changes to follow the documented controls, and developers' access to the production environment is restricted.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to maintain a system, or systems, of internal fiscal and administrative controls with proper segregation of duties to provide assurance that resources are utilized efficiently and effectively.

University officials stated these exceptions were due to resource constraints and competing priorities.

Failure to establish adequate controls and documentation around the change control process may lead to the University being unable to monitor and ensure only valid, authorized changes are deployed in the University's Information Technology Environment. Also, allowing developers to access the production environment results in segregation of duties weakness and increases the risk of unauthorized changes being made to the computing system. (Finding Code No. 2024-001, 2023-001)

RECOMMENDATION

We recommend the University update its policies and procedures to describe testing and documentation requirements for each type of change.

Further, we recommend the University strengthen controls to ensure proper segregation of duties are established by restricting developers' access to the production environment.

2024-001 **FINDING** (Weaknesses in Change Control Processes) (Continued)

UNIVERSITY RESPONSE

The University agrees with this finding and accepts the recommendation. The University has built a robust change control program to ensure system changes are completed with minimal impact and security implications. The University will also prioritize establishing the necessary procedures. Additionally, the University plans to engage with a third party which will be responsible for implementing changes to the Colleague production environment, remedying the separation of duties weakness.
