FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

DEBT COVENANT VIOLATIONS

Noncompliance with debt covenants

The Illinois Student Assistance Commission (Illinois Designated Account Purchase Program) was not in compliance with two of the covenants relating to the agency's revolving line of credit agreement.

Minimum coverage condition ratio required

During the audit of the agency's June 30, 2009 financial statements, the Illinois Designated Account Purchase Program (IDAPP) management discovered that they had potentially violated one of the covenants relating to the agency's revolving credit line (loan) agreement with a bank. The noncompliance pertained to the "Coverage condition ratio" covenant. The minimum Coverage Condition ratio required by the line of credit agreement is 104% and the current ratio as of June 30, 2012 was 101.30%.

Maximum default ratio required

During our audits of the agency's June 30, 2010 and 2011 financial statements, we noted that IDAPP was in violation of the covenant noted above. In addition, the agency was in violation of another covenant, the "Default ratio." IDAPP is required to maintain a maximum Default ratio of 6.25%. As of June 30, 2012, IDAPP's Default ratio was 8.36%, resulting in noncompliance with the Default ratio by IDAPP.

Lender has right to call loan

As a result of the violation, the bank has certain remedies available to it under the terms of the loan agreement, principal of which would be rights to call the loan and take possession of the collateral (the underlying student loan portfolio). The bank has been made aware of the event of default and has not communicated to IDAPP any intent to exercise the remedies available to it under the terms of the loan agreement. Management believes the bank would have little incentive to call the line of credit and begin servicing the student loans itself, particularly because IDAPP has made all of its required payments in a timely fashion. The balance of the line of credit with the bank was \$275,956,827 at June 30, 2012.

Management believes the bank would have little incentive to call the loan

> According to Commission management, the coverage condition and default issues are due to the increased level of delinquent accounts in the portfolio. The level has increased due to the poor global economic conditions. (Finding 2, pages 34-35) This finding was first reported in 2009.

involved. Commission officials also indicated that due to the tight credit markets for student loans and the performance of the portfolio, neither the bank nor ISAC has been able to refinance the facility. (For the previous IDAPP response, see

OTHER FINDING

The remaining finding for Illinois Designated Account Purchase Program pertains to the budget not being properly approved.

AUDITORS' OPINION

Our auditors stated the financial statements of IDAPP are fairly presented in all material respects. Auditors included a paragraph emphasizing that IDAPP is in default of certain conditions of its Revolving Credit Facility.

DIGEST FOOTNOTE

#1 - DEBT COVENANT VIOLATION

We accept the recommendation. IDAPP will continue to monitor these loan covenants. Commission management has been in constant communication with the lender and is working with them to resolve the violations and to refinance the facility.
