Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the State of Illinois, Illinois Pollution Control Board (Board). We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of the Board's compliance with the following specified requirements during the two-year period ended June 30, 2020. Based on this evaluation, we assert that during the years ended June 30, 2019 and June 30, 2020, the Board has materially complied with the specified requirements below.

- A. The Board has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The Board has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The Board has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the Board are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.

Yours truly,

State of Illinois, Illinois Pollution Control Board

INDEPENDENT ACCOUNTANT'S REPORT ON STATE COMPLIANCE, ON INTERNAL CONTROL OVER COMPLIANCE, AND ON SUPPLEMENTARY INFORMATION FOR STATE COMPLIANCE PURPOSES

Honorable Frank J. Mautino Auditor General State of Illinois

Compliance

As Special Assistant Auditors for the Auditor General, we have examined compliance by the State of Illinois, Pollution Control Board (Board) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during the two years ended June 30, 2020. Management of the Board is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Board's compliance based on our examination.

The specified requirements are:

- A. The Board has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The Board has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The Board has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the Board are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance

about whether the Board complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Board complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Board's compliance with the specified requirements.

In our opinion, the Board complied with the specified requirements during two years ended June 30, 2020, in all material respects.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Internal Control Over Compliance

Management of the Board is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Board's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Board's compliance with the specified requirements and to test and report on the Board's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. A material weakness in internal control is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

As required by the *Audit Guide*, immaterial findings excluded from this report have been reported in a separate letter.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Supplementary Information for State Compliance Purposes

Our examination was conducted for the purpose of forming an opinion on the Board's compliance with the specified requirements. The accompanying supplementary information for the years ended June 30, 2020 and June 30, 2019 in Schedules 1 through 5 and the Analysis of Operations section are presented for purposes of additional analysis. Such information is the responsibility of Board management. We have applied certain limited procedures as prescribed by the *Audit Guide* to the accompanying supplementary information for the years ended June 30, 2020 and June 30, 2019 in Schedules 1 through 5. We have not applied procedures to the accompanying supplementary information for the year ended June 30, 2018 in Schedules 3 through 5 and in the Analysis of Operations Section. We do not express an opinion, a conclusion, nor provide any assurance on the accompanying supplementary information in Schedules 1 through 5 or the Analysis of Operations Section.

STATE OF ILLINOIS POLLUTION CONTROL BOARD ANALYSIS OF OPERATIONS

For the Two Years Ended June 30, 2020

(NOT EXAMINED)

Functions

The Illinois Pollution Control Board (Board) was created in 1970 by the Environmental Protection Act (Act) (415 ILCS 5/1 et seq.). The Act is Illinois' primary law for safeguarding the environment from pollution. The Board endeavors to:

Establish coherent, uniform, and workable environmental standards and regulations that restore, protect, and enhance the quality of Illinois' environment;

Perform impartial decision-making that resolves environmental disputes in a manner that brings to bear technical and legal expertise, public participation, and judicial integrity; and

Provide Government leadership and public policy guidance for the protection and preservation of Illinois' environment and natural resources, so that they can be enjoyed by future generations of Illinoisans.

Cases handled by the Board:

Case by Type	<u>2020</u>	<u>2019</u>	<u>2018</u>
Variances (an extension to comply with rules)	ı	4	ı
Enforcement Cases	27	23	12
Permit Appeals	25	13	20
Administrative Citations	7	21	18
Adjusted Standards	0	2	3
Other (Energy planning, Community Right to			
know, trade secrets, and procedural rule			
amendments)	48	78	49
Total Case Distribution	107	141	102
Regulations Proposed	21	19	32

Note: Under certain sections of the Environmental Protection Act, cases can be filed by various entities, such as the State of Illinois, Environmental Protection Agency, the Attorney General, counties, or pollution sources. The Board has no input into the filing of enforcement cases, permit appeals, reviews, or citations. As a result, any fluctuations are beyond the control of the Board.

The Board has two main functions:

1) Adopting environmental rules for Illinois (determining, defining and implementing environmental control standards for the State).

During the rulemaking process, the Board ensures that the rules are:

- a) economically reasonable,
- b) technically feasible,
- c) protective of human health and
- d) protective of the environment.

STATE OF ILLINOIS POLLUTION CONTROL BOARD ANALYSIS OF OPERATIONS

For the Two Years Ended June 30, 2020

(NOT EXAMINED)

2) Deciding non-criminal environmental cases (as described below, including but not limited to, enforcement actions filed by the Attorney General's Office or individual citizens alleging non-criminal violations of the Act; variance and adjusted standard petitions; appeals from final State agency decisions (primarily from the Illinois Environmental Protection Agency; appeals from decisions by local authorities regarding siting of pollution control facilities; and administrative citations).

The Board consists of five members with experience in the field of pollution control, appointed by the Governor and subject to Illinois Senate confirmation. Board members serve three-year term appointments, which can be renewed by the Governor. The Board is chaired by Barbara Flynn Currie. Board members as of June 30, 2020 were:

- Barbara Flynn Currie
- Cynthia Santos
- Brenda Carter
- Anastasia Palivos
- Vacant

Board decisions in rulemakings and adjudicatory cases are based on legal documents filed with the Board, and testimony or comments gathered at public hearings or submitted by the public. The Board takes formal action and issues its orders by a majority vote of at least three Board members at meetings properly noticed and opened to the public under the Open Meetings Act. Final Board decisions may be appealed directly to the State's appellate courts.

Following meetings, the Board issues formal, written opinions and orders, explaining and setting forth reasons for its decisions. Board opinions and orders and Board meeting agendas and minutes (along with the Act, the Board's environmental regulations, the Board's procedural rules, and a wealth of other information) can be found on this web site http://pcb.illinois.gov/.

The Board hears many types of adjudicatory cases. The Board hears enforcement actions alleging violations of the Act and Board regulations. An enforcement action may be brought by anyone, including the Illinois Attorney General, a State's Attorney, or any individual, citizens group, association, unit of local government, or corporation. The Board also hears appeals of various types of decisions, including permit decisions made by the Illinois Environmental Protection Agency (IEPA); appeals of decisions made by the Office of the State Fire Marshal regarding the Underground Storage Tank Fund; appeals of landfill siting decisions made by counties and municipalities; and appeals of administrative citations issued by the IEPA or units of local government that have been delegated the authority to issue such citations. The Board hears various other types of cases, including requests for variances, adjusted standards and other types of relief from Board regulations and orders; applications for pollution control facility certification for property tax purposes; and claims that information is subject to protection as a trade secret or non-disclosable information.

STATE OF ILLINOIS POLLUTION CONTROL BOARD ANALYSIS OF OPERATIONS

For the Two Years Ended June 30, 2020

(NOT EXAMINED)

The Board fulfills its responsibilities in an efficient and professional manner consistent with and relying on its procedural rules, case management, and staff training.

Planning

The Board is a quasi-legislative and quasi-judicial body which does not function as a programmatic agency. The Board's strategic challenge is to provide a public process that fairly and effectively considers environmental cases and regulations, ensuring that the Act is interpreted, applied, and implemented impartially and consistently.

The Board has set-up three goals in achieving its objectives:

- (1) promulgate sensible and sound environmentally protective regulations based on a decision-making process that brings to bear the most current scientific and technological information, and affords maximum public participation;
- (2) create a stable system of environmental law by impartially considering and deciding contested cases and promptly issuing well-written, well reasoned opinions and orders; and,
- (3) reduce pollution by increasing public awareness of the Act and Board regulations.
