INDEPENDENT AUDITORS' REPORT

Honorable Frank J. Mautino Auditor General State of Illinois

Report on the Financial Statements

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Macon and Piatt Counties Regional Office of Education No. 39, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Macon and Piatt Counties Regional Office of Education No. 39's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Macon and Piatt Counties Regional Office of Education No. 39, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Illinois Municipal Retirement Fund - Schedules of Changes in the Net Pension Liability (Asset) and Related Ratios, Illinois Municipal Retirement Fund – Schedule of Employer Contributions, Teachers' Retirement System of the State of Illinois – Schedule of Employer's Proportionate Share of the Net Pension Liability, Teachers' Retirement System of the State of Illinois - Schedules of Employer's Contributions, Teacher's Health Insurance Security Fund -Schedules of the Employer Contributions, Teacher's Health Insurance Security Fund - Schedule of the Employer's Proportionate Share of the Collective Net OPEB Liability, Other Post Employment Benefits – Health Insurance - Schedule of the Employer's Contributions, and Other Post Employment Benefits - Health Insurance - Schedule of Changes in the Total OPEB Liability and Related Ratios on pages 68-76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Macon and Piatt Counties Regional Office of Education No. 39's basic financial statements. The combining schedules of accounts, the budgetary comparison schedules, and the combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining schedules of accounts, the budgetary comparison schedules, and the combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining schedules of accounts, the budgetary comparison schedules, and the combining fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2021 on our consideration of the Macon and Piatt Counties Regional Office of Education No. 39's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Macon and Piatt Counties Regional Office of Education No. 39's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Macon and Piatt Counties Regional Office of Education No. 39's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

Honorable Frank J. Mautino Auditor General State of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Macon and Piatt Counties Regional Office of Education No. 39, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Macon and Piatt Counties Regional Office of Education No. 39's basic financial statements, and have issued our report thereon dated October 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Macon and Piatt Counties Regional Office of Education No. 39's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Macon and Piatt Counties Regional Office of Education No. 39's internal control. Accordingly, we do not express an opinion on the effectiveness of the Macon and Piatt Counties Regional Office of Education No. 39's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses as findings 2020-001 and 2020-004 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Macon and Piatt Counties Regional Office of Education No. 39's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Responses as findings 2020-002 and 2020-003.

Regional Office of Education No. 39's Responses to Findings

The Macon and Piatt Counties Regional Office of Education No. 39's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. Macon and Piatt Counties Regional Office of Education No. 39's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Macon and Piatt Counties Regional Office of Education No. 39's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Macon and Piatt Counties Regional Office of Education No. 39's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-001 - Controls over Financial Statement Preparation (Repeat of Finding 19-001 and 18-001)

Criteria/Specific Requirement:

The Regional Office of Education No. 39 (ROE) is required to maintain a system of controls over the preparation of financial statements in accordance with generally accepted accounting principles (GAAP). The ROE's internal controls over GAAP financial reporting should include adequately trained personnel with the knowledge, skills, and experience to prepare GAAP based financial statements and include all disclosures as required by the Governmental Accounting Standards Board (GASB). Additionally, effective June 25, 2021 Public Act 102-0025 allows that a Regional Office of Education or Educational Service Center may utilize a cash basis, modified cash basis, or generally accepted accounting principles (GAAP) basis of accounting to prepare the financial statements for audit.

GASB Statement No. 34, Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments (Statement), requires governments to present government-wide and fund financial statements as well as a summary reconciliation of the (a) total governmental fund balances to the net position of governmental activities in the Statement of Net Position, and (b) total change in governmental fund balances to the change in the net position of governmental activities in the Statement of Activities. In addition, the Statement requires information about the government's major and nonmajor funds in the aggregate to be provided in the fund financial statements.

Condition:

The ROE does not have sufficient internal controls over the financial reporting process. The ROE maintains its accounting records on the cash basis of accounting during the fiscal year and posts year-end accrual entries for financial statement purposes. While the ROE maintains controls over the processing of most accounting transactions, there are not sufficient controls over the preparation of GAAP basis financial statements for management or employees in the normal course of performing their assigned functions to prevent or detect financial statement misstatements and disclosure omissions in a timely manner. During review of the ROE's accounting records, auditors noted the ROE did not have adequate controls over the maintenance of complete records of cash, receivables, unavailable revenue, and revenue. While the ROE did maintain records to indicate the balances of these items, numerous adjustments were required to present balances in accordance with generally accepted accounting principles.

Effect:

The ROE's management or its employees, in the normal course of performing their assigned functions, may not prevent or detect financial statement misstatements and disclosure errors and omissions in a timely manner.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-001 - Controls over Financial Statement Preparation (Repeat of Finding 19-001 and 18-001) (Concluded)

Cause:

Regional Office management indicated that at the end of fiscal year 2019 a new bookkeeper was hired. Fiscal year 2020's audit was the second time that the new bookkeeper went through the process of closing the books.

Auditors' Recommendation:

As part of internal control over the preparation of financial statements, the ROE should implement comprehensive preparation procedures to ensure that the financial statements are complete and accurate. These procedures should be performed by a properly trained individual possessing a thorough understanding of the applicable GAAP, GASB pronouncements, and knowledge of the ROE's activities and operations. Additionally, ROE management should consider Public Act 102-0025 to determine if changing to the cash or modified cash basis would be allowable or beneficial to the ROE and users of the ROE financial statements.

Management's Response:

The ROE hired a new bookkeeper at the end of fiscal year 2019. Fiscal year 2020's audit was the second time that the new bookkeeper went through the process of closing the books. The bookkeeper has been working with an outside CPA firm to remedy these issues going forward.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-002 - Controls over Grant Compliance (Repeat of Finding 19-002)

Criteria/Specific Requirement:

As a recipient of federal, State, and local funds from various grantor agencies, the Regional Office of Education No. 39 (ROE) must incorporate certain procedures into its operations in order to comply with the grant agreements with these entities.

The ROE is responsible for establishing and maintaining an internal control system over the completion of timely quarterly expenditure reports required for grants administered by the Illinois State Board of Education. The Illinois State Board of Education requires expenditure reports to be filed within 20 days of the applicable end of each quarter.

Condition:

During the course of the audit, auditors noted 15 of the 20 (75%) quarterly expenditure reports required by the Illinois State Board of Education were not submitted timely. Four of the quarterly expenditure reports were submitted 2 days late, nine quarterly expenditure reports were submitted between 10 and 20 days late, one quarterly expenditure report was submitted between 20 and 30 days late, and one quarterly expenditure report was submitted 45 days late. In addition, 4 quarterly expenditure reports required by the Illinois State Board of Education were not submitted.

Effect:

Lack of timely filed expenditure reports could result in a delay of grant funding. In addition, noncompliance with grant requirements could lead to the granting agency requesting reimbursement or the loss of grants for future periods.

Cause:

Regional Office management indicated the transition to a new bookkeeper caused a delay in the fiscal year 2019 expenditure reporting and set the expenditure reporting behind for fiscal year 2020. The restrictions of Covid-19 and the pandemic during FY20, coupled with the integration of the new bookkeeper made it more difficult to complete the expenditure reports in a timely manner and ensure the accuracy of the information.

Auditors' Recommendation:

The ROE should implement adequate internal controls to ensure that expenditure reports are filed timely.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-002 - Controls over Grant Compliance (Repeat of Finding 19-002) (Concluded)

Management's Response:

The restrictions of Covid-19 and the pandemic during FY20, coupled with the integration of the new bookkeeper made it more difficult to complete the expenditure reports in a timely manner and ensure the accuracy of the information. Reports will be submitted in timelier manner going forward.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-003 - Delay of Audit (Repeat of Finding 19-003)

Criteria/Specific Requirement:

Regional Office of Education No. 39 is subject to 105 ILCS 5/2-3.17a which requires the Auditor General's office to cause an audit to be made, as of June 30th of each year, of the financial statements of all accounts, funds and other moneys in the care, custody or control of the regional superintendent of schools of each educational service region in the State and of each educational service center established in the School Code. The audit is to be conducted in accordance with Generally Accepted Government Auditing Standards.

In accordance with 105 ILCS 5/2-3.17a, the Auditor General has promulgated administrative rules and regulations to govern this process. Those rules, 74 Ill. Adm. Code 420.320 (c) (2), state that for audit purposes, each regional office of education and educational service center shall make available to the Auditor General or his designee all books and records deemed necessary to make and complete the required audits. The records shall be in auditable form by August 15 of the succeeding fiscal year. Financial reports are to be available no later than August 31 in order for the annual audit to be completed by an independent auditor selected by the Auditor General. Annual financial statements are to be prepared on an accrual basis of accounting in accordance with generally accepted accounting principles (GAAP). Additionally, effective June 25, 2021 Public Act 102-0025 allows that a Regional Office of Education or Educational Service Center may utilize a cash basis, modified cash basis, or generally accepted accounting principles (GAAP) basis of accounting to prepare the financial statements for audit.

In addition, prudent business practices and transparency require timely preparation and completion of financial statements.

Condition:

The Regional Office of Education No. 39 did not provide completed financial statements in an auditable form by the August 31 deadline. The preliminary draft was provided to the auditors on April 7, 2021.

In addition, auditors noted inconsistencies with the bank reconciliation of the main operating account that required the Regional Office of Education No. 39 to revise the June 30, 2020 bank reconciliation. Auditors discussed concerns about the bank reconciliation with Regional Office of Education No. 39 management on June 7, 2021. The revised bank reconciliation was provided to the auditors on July 26, 2021.

Effect:

When financial statements and records are not provided in a timely manner, delays in the audit occur and the usefulness of the financial statements and related findings resulting from the audit is impacted. Additionally, untimely financial statements could result in repercussions from granting agencies including a loss of funding.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-003 - Delay of Audit (Repeat of Finding 19-003) (Continued)

Cause:

Regional Office management indicated that at the end of fiscal year 2019 a new bookkeeper was hired. This transition caused a delay in the fiscal year 2019 audit and set the audit schedule behind for fiscal year 2020. The restrictions of Covid-19 and the pandemic during fiscal year 2020, coupled with the integration of the new bookkeeper effectively derailed the audit timing.

Auditors' Recommendation:

The Regional Office of Education No. 39 should implement procedures to ensure compliance with 105 ILCS 5/2-3.17a and 74 Ill. Adm. Code 420.320 (c) (2). Annual financial statements should be compiled on an accrual basis of accounting in accordance with GAAP. Additionally, ROE management should consider Public Act 102-0025 to determine if changing to the cash or modified cash basis would be allowable or beneficial to the ROE and users of the ROE financial statements. These financial statements need to be presented to the Auditor General's independent auditors for audit by the August 31 deadline.

Management's Response:

At the end of fiscal year 2019 a new bookkeeper was hired. This transition caused a delay in the fiscal year 2019 audit and set the audit schedule behind for fiscal year 2020. The restrictions of Covid-19 and the pandemic during fiscal year 2020, coupled with the integration of the new bookkeeper effectively derailed the audit timing. Management will continue to work with the ROE's hired CPA firm to minimize audit delays going forward.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-004 - Controls over Cash (Repeat of Finding 19-004)

Criteria/Specific Requirement:

Sound internal controls require bank reconciliations to be performed monthly to ensure that all transactions have been recorded. The bank reconciliation process should include identifying and correcting all discrepancies between the bank records and the books on a timely basis. Sound internal control over cash requires bank reconciliations to be completed and reviewed by the appropriate level of management on a monthly basis.

Condition:

The Regional Office of Education No. 39's bank reconciliations are not being reviewed or do not show documentation of review to ensure the reconciliation is taking place and that the reconciliation is complete.

In addition, auditors noted the bank reconciliation of the main operating account had a material variance when comparing the balance per the bank reconciliation to the balance per the adjusted trial balance. The variance required the Regional Office of Education No. 39 to revise the June 30, 2020 bank reconciliation. Auditors discussed concerns about the bank reconciliation with Regional Office of Education No. 39 management on June 7, 2021. The revised bank reconciliation was provided to the auditors on July 26, 2021.

Effect:

Lack of reconciling bank accounts and reviewing bank reconciliations timely could result in management or employees not being able to prevent or detect financial statement misstatements in a timely manner. In addition, not identifying and addressing unrecorded items on a timely basis could cause expenditure reports to granting agencies to be incorrect.

Cause:

Regional Office management indicated the ROE's accounting software is a fairly dated Disk Operating System command accounting system. The new bookkeeper had difficulties reconciling cash variances at the end of fiscal year 2019. The ROE's hired CPA firm was able to help the new bookkeeper manually reconcile the cash accounts, but did not fix the reconciliation issues inside of the accounting software. The recording of cash transactions into the accounting software was completed monthly for fiscal year 2020, however the variances created while closing fiscal year 2019 made it difficult to reconcile to fiscal year 2020 bank accounts in the accounting system.

SCHEDULE OF FINDINGS AND RESPONSES SECTION II – FINANCIAL STATEMENT FINDINGS For the year ended June 30, 2020

FINDING NO. 2020-004 - Controls over Cash (Repeat of Finding 19-004) (Continued)

Auditors' Recommendation:

As part of its internal controls over cash, the Regional Office of Education No. 39 should reconcile all bank statements every month and correct any discrepancies in a timely manner. In addition, Regional Office of Education No. 39's management should review bank reconciliations and document their review each month after the reconciliation has been completed.

Management's Response:

Reconciliation issues rolling forward from fiscal year 2019 in the ROE's accounting software caused reconciliation issues for fiscal year 2020. Management will continue to work with the ROE's hired CPA firm to resolve reconciliation issues going forward.

CORRECTIVE ACTION PLAN FOR CURRENT YEAR AUDIT FINDINGS

For the year ended June 30, 2020

FINDING NO. 2020-001 - Controls over Financial Statement Preparation (Repeat of Finding 19-001 and 18-001)

Condition:

The ROE does not have sufficient internal controls over the financial reporting process. The ROE maintains its accounting records on the cash basis of accounting during the fiscal year and posts year-end accrual entries for financial statement purposes. While the ROE maintains controls over the processing of most accounting transactions, there are not sufficient controls over the preparation of GAAP basis financial statements for management or employees in the normal course of performing their assigned functions to prevent or detect financial statement misstatements and disclosure omissions in a timely manner. During review of the ROE's accounting records, auditors noted the ROE did not have adequate controls over the maintenance of complete records of cash, receivables, unavailable revenue, and revenue. While the ROE did maintain records to indicate the balances of these items, numerous adjustments were required to present balances in accordance with generally accepted accounting principles.

The ROE will continue to work with the ROE's hired CPA firm through the fiscal year 2021 audit.

Anticipated Date of Completion:

Process started with the ROE's hired CPA firm in April 2021 and will continue through the fiscal year 2021 audit.

FINDING NO. 2020-002 - Controls over Grant Compliance (Repeat of Finding 19-002)

Condition:

During the course of the audit, auditors noted 15 of the 20 (75%) quarterly expenditure reports required by the Illinois State Board of Education were not submitted timely. Four of the quarterly expenditure reports were submitted 2 days late, nine quarterly expenditure reports were submitted between 10 and 20 days late, one quarterly expenditure report was submitted between 20 and 30 days late, and one quarterly expenditure report was submitted 45 days late. In addition, 4 quarterly expenditure reports required by the Illinois State Board of Education were not submitted.

Plan:

The ROE does anticipate some late reports in the next fiscal year due to the switch to a new accounting system. However, the bookkeeper and Regional Superintendent plan to meet as needed to prepare and review expenditure reports to ensure that the expenditure reports are accurate and are submitted in a timelier manner.

Anticipated Date of Completion:

Fiscal year 2022

FINDING NO. 2020-003 – Delay of Audit (Repeat of Finding 19-003)

Condition:

The Regional Office of Education No. 39 did not provide completed financial statements in an auditable form by the August 31 deadline. The preliminary draft was provided to the auditors on April 7, 2021.

In addition, auditors noted inconsistencies with the bank reconciliation of the main operating account that required the Regional Office of Education No. 39 to revise the June 30, 2020 bank reconciliation. Auditors discussed concerns about the bank reconciliation with Regional Office of Education No. 39 management on June 7, 2021. The revised bank reconciliation was provided to the auditors on July 26, 2021.

Plan:

Although the ROE does anticipate that the fiscal year 2021 audit will be delayed until October 2021, the financial statements will be in auditable form at that time and will not cause any further delays in future audit cycles. The ROE plans to continue to work with the hired CPA firm to have the financial statements in auditable form by the August 31st deadline for all years after fiscal year 2021.

FINDING NO. 2020-004 - Controls over Cash (Repeat of Finding 19-004)

Condition:

The Regional Office of Education No. 39's bank reconciliations are not being reviewed or do not show documentation of review to ensure the reconciliation is taking place and that the reconciliation is complete.

In addition, auditors noted the bank reconciliation of the main operating account had a material variance when comparing the balance per the bank reconciliation to the balance per the adjusted trial balance. The variance required the Regional Office of Education No. 39 to revise the June 30, 2020 bank reconciliation. Auditors discussed concerns about the bank reconciliation with Regional Office of Education No. 39 management on June 7, 2021. The revised bank reconciliation was provided to the auditors on July 26, 2021.

Plan:

The ROE will retain the services of the hired CPA firm during fiscal year 2021 to assist with the bank reconciliations. The bookkeeper will continue to complete the reconciliations monthly. All bank reconciliations will be reviewed by Regional Superintendent monthly.

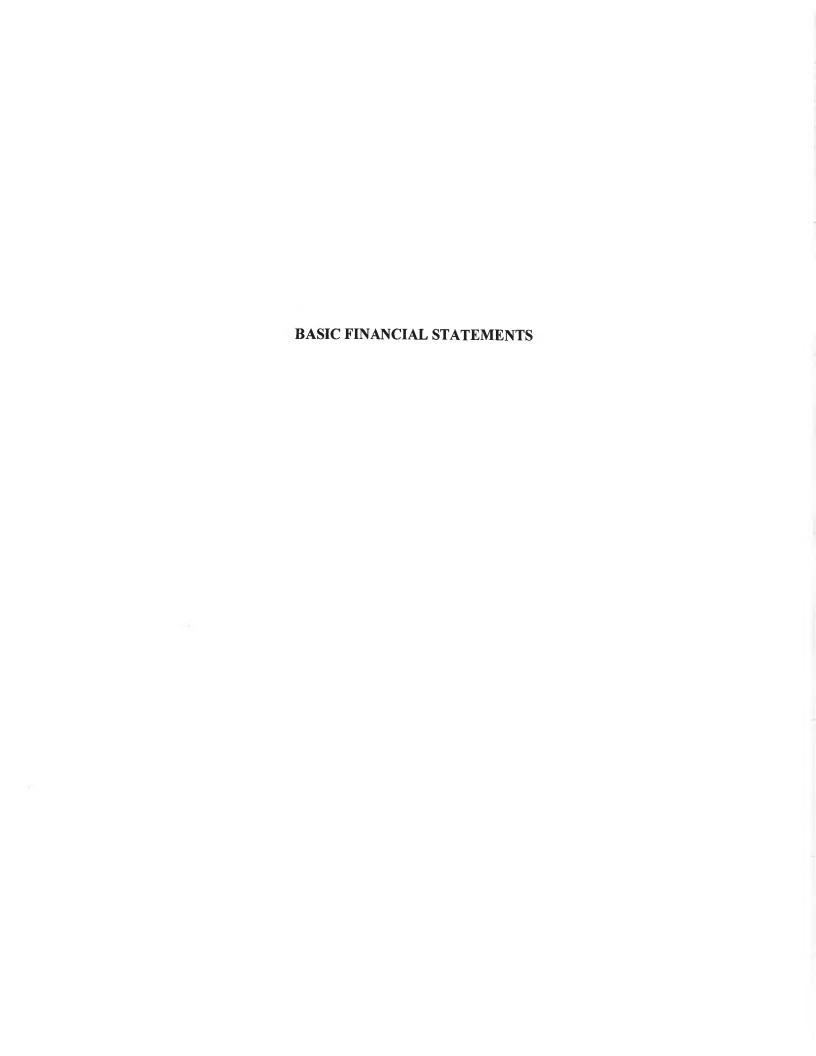

Anticipated Date of Completion:

Fiscal year 2021.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES GOVERNMENTAL FUNDS FOR THE YEAR ENDED JUNE 30, 2020

Net change in fund balances		\$ (122,330)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures; however, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlay Depreciation expense	7,998 (47,958)	(39,960)
In the statement of activities, only the loss on sale of property is reported where as in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the carrying amount of the assets sold.		(2,595)
Some revenues will not be collected for several months after the Regional Office's fiscal year ends; they are not considered "available" revenues and are deferred inflows of resources in the governmental funds. Current year unavailable revenue Prior year unavailable revenue	341,889 (275,986)	65,903
The issuance of long-term debt (e.g. capital lease) provides current financial resources to the governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. However, neither transaction has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt.		404
Certain expenses in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. Pension expense OPEB expense		15 8,88 7 10 8 ,544

NOTES TO FINANCIAL STATEMENTS June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Regional Office of Education No. 39's accounting policies conform to generally accepted accounting principles, which are appropriate to local governmental units of this type.

A. Reporting Entity

The Regional Office of Education No. 39 was created by Illinois Public Act 76-735, as amended, effective August 8, 1995. The region encompasses Macon and Piatt Counties.

The Regional Superintendent of Schools is the chief administrative officer of the region and is elected to the position for a four-year term. The Regional Superintendent is responsible for the supervision and control of the school districts.

The Regional Superintendent's responsibilities for administering the school educational service region programs include, but are not limited to, providing directions to teachers and school officials on science, art and teaching methods; implementing the State Board of Education's Policy Programs; encouraging camaraderie among teachers through the teachers' institute; making public notice of unfilled teaching positions within the region; and ensuring of the safety, health and welfare of the students in the region by periodically inspecting the school buildings and ensuring that the bus drivers have valid driving licenses and are properly trained to operate the school buses. The Regional Superintendent is also responsible for apportionment and payment of funds received from the State for the districts in the region, or seeing that no payments are made unless the treasurer has filed or renewed appropriate bond and that the district has certified publication of the annual financial report.

The Regional Office of Education No. 39 derives its oversight power and authority over the school districts from the School Code and is responsible for its own fiscal and budgetary matters. The Regional Office of Education No. 39 exercises no oversight responsibility on financial interdependency, selection of governing authority, designation of management or the ability to significantly influence the operations of any other outside agencies. Control or dependency is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective governing order. Therefore, no other agency has been included as a component unit in the Regional Office of Education No. 39's financial statements. In addition, the Regional Office of Education No. 39 is not aware of any entity that would exercise oversight as to result in the Regional Office of Education No. 39 being considered a component unit of the entity.

B. New Accounting Pronouncements

The global pandemic, coronavirus disease (COVID-19), has resulted in significant business disruptions due to mandated temporary work stoppages, limitations on travel, limitations on the size and duration of group meetings, and employee absences. In light of the pandemic, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. This Statement postpones the effective dates for certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. Due to the Regional Office of Education No. 39's implementation of this Statement, only certain provisions of GASB Statement No. 92, Omnibus 2020 and GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans were required to be implemented for the year ended June 30, 2020.

NOTES TO FINANCIAL STATEMENTS (Continued) June 30, 2020

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

B. New Accounting Pronouncements (continued)

The implemented provisions of these Statements had no significant impact on the financial statements of the Regional Office of Education No. 39. The Regional Office of Education No. 39 decided not to implement any postponed provisions of the GASB Statements prior to their adjusted effective dates.

C. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from the business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position includes all of the Regional Office of Education No. 39's assets, including capital assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Certain eliminations have been made as prescribed by governmental accounting standards in regards to interfund activities, such as, payables, receivables and transfers. Interfund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the governmental fund Balance Sheet and the proprietary fund Statement of Net Position, and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances and on the proprietary fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds are eliminated on the government-wide financial statements. All internal balances in the Statement of Net Position have been eliminated.

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and nonmajor funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the government-wide financial statements.

C. Government-wide and Fund Financial Statements (continued)

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund and nonmajor funds aggregated.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues from exchange transactions are recognized when they are earned, and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Regional Office of Education No. 39 considers revenues to be available if they are collectible within 60 days after year-end. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable, with the exception of expenditures for prepaid expenses and other long-term obligations, which are recognized as liabilities when due, as well as expenditures related to compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Revenues susceptible to accrual are recognized in the current fiscal period. Those revenues include local sources, State sources, federal sources, and interest. Unavailable revenues arise when potential revenue does not meet both the measurable and available criteria. Unearned resources arise when resources are received prior to the government having legal claim to them. The revenues are subsequently recognized when both recognition criteria are met or when the government has legal claim to the resources. Revenues received after the Regional Office's availability period is reported as deferred inflows of resources in the fund statements and are reported as current revenue in the Statement of Activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Regional Office of Education No. 39's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

It is the Regional Office of Education No. 39's policy to first apply restricted resources when an expenditure or expense is incurred for which both restricted and unrestricted resources are available. For unrestricted fund balances, committed fund balances are used first, then assigned fund balances, then unassigned, if any.

General Education Development (GED) - This program accounts for monies received from students who participate in the high school equivalency programs. These proceeds are used to pay the administrative expenses incurred to administer the GED program.

Bus Permit - This program accounts for registration and user fees and a distribution from the Illinois State Board of Education. These monies are used to pay the administrative expenses incurred to ensure compliance with 105 ILCS 5/3-14/32 (school bus driver permits).

2. Proprietary Fund

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprise where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis should be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control accountability, or other purposes.

The Regional Office of Education No. 39 reports the following major proprietary fund:

<u>Illinois Empower</u> - This program also provides workshops for professional development presented by consultants.

The Regional Office of Education No. 39 reports the following nonmajor proprietary fund:

<u>Workshop Reimbursement</u> - This program provides workshops for professional development presented by Regional Office of Education No. 39 employees.

3. Fiduciary Funds

Fiduciary funds are used to account for assets held by the Regional Office of Education No. 39 in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

Agency Funds - Agency funds are custodial in nature (assets equal liabilities) and do not involve measurements of results of operations.

Regional Board of Trustees - This fund accounts for monies received from individuals filing petitions requesting change of boundary hearings with the Regional Board of School Trustees. Monies are expended to cover hearing expenses.

School Occupation Facility Tax - This fund accounts for assets held by the Regional Office of Education No. 39 to be distributed to local school districts. Monies are received from the State Comptroller for the School Facility Occupation Tax and are forwarded directly to the school districts.

<u>Decatur Community Partnership</u> - Substance Abuse grant and contributions are used with other agencies, organizations and people who work collaboratively to promote a drug free community. In addition, the Decatur Community Partnership strives to improve the health of the Decatur and Macon County Community.

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance</u>

1. Deposits and Investments

The Regional Office of Education No. 39 considers cash on hand, checking accounts, savings accounts, and investments held with an original maturity date of 90 days or less to be cash and cash equivalents. State regulations require that Regional Office of Education No. 39 deposit funds under its control into accounts insured by the federal governments, accounts secured by substantial collateral, or pooled investment trusts. All funds not needed for immediate disbursement are maintained in interest bearing accounts.

Statutes authorize the Regional Office of Education No. 39 to make deposits or invest in obligations of states and their political subdivisions, savings accounts, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Money Market Fund.

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance</u> (continued)

2. Interfund Transactions

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" in the fund financial statements. Balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

3. Capital Assets

Capital assets are reported in the applicable columns in the government-wide financial statements. Capital assets, such as equipment, are defined by the government as assets with an initial, individual cost of more than \$ 500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Leasehold improvements	3
Equipment and furniture	4

In the fund financial statements, capital assets used in governmental operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

4. Deferred Outflows of Resources and Deferred Inflows of Resources

<u>Deferred Outflows of Resources</u> - Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension and OPEB expense and contributions from the employer after the measurement date but before the end of the employer's reporting period.

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance</u> (continued)

4. <u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> (continued)

Deferred Inflows of Resources - Deferred inflows of resources represent an acquisition of net position/fund balance that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources are reported in the governmental fund financial statements as unavailable revenue and represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year.

Deferred inflows of resources on the governmental funds Balance Sheet consist of grant receivables not collected within sixty days after the year end. Deferred inflows of resources in the Statement of Net Position consist of unrecognized items that have not yet reduced pension and OPEB expense.

5. Post-employment Benefits Other Than Pensions (OPEB)

For purposes of measuring the Regional Office of Education No. 39's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Regional Office of Education No. 39's OPEB Plan, and additions to/deductions from the Regional Office of Education No. 39's fiduciary net position have been determined on the same basis as they are reported by the Regional Office of Education No. 39's Plan recognizes the benefit payments when due and payable in accordance with the benefit terms. The Regional Office of Education No. 39's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense for the ROE's single-employer defined benefit OPEB plan have been actuarially determined using the Alternative Measurement Method.

6. Compensated Absences

After one year of employment, noncertified and certified employees who have a 261-day contract can earn up to 20 vacation days per year, prorated based on the number of days worked. Employees with less than five full-year contracts do not earn vacation days. The Regional Office currently employs six individuals eligible to carry forward a maximum of five days of unused vacation time to the next year with director's approval, but the previous year's unused vacation time is forfeited if unused by the end of the next year. Unused vacation time is paid on termination of employment. Management has determined that the current year accrual for vacation time is immaterial to the financial statements; therefore, this amount has not been accrued.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (continued)

6. Compensated Absences (continued)

Employees who have at least a 182-day contract receive two personal days per year. Unused personal days are allowed to accrue as sick leave. Employees earn up to 15 sick days per year, depending on the length of their annual contract, and the unused portion accumulates indefinitely. Employee sick leave is recorded when paid. Upon retirement, unused sick leave may be used as service credits toward the employee's retirement fund. Upon termination, employees do not receive any accumulated sick leave pay, and therefore no liability is accrued.

7. Equity Classifications

Government-wide and Proprietary Fund Statements

Equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position - Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

<u>Unrestricted Net Position</u> - The net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Governmental Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in a governmental fund. The following types of fund balances may be presented on the Governmental Funds Balance Sheet, the General Fund and Education Fund Combining Schedules of Accounts, and the Nonmajor Special Revenue Funds Combining Balance Sheet:

Nonspendable Fund Balance - The portion of a governmental fund's fund balance that is not available to be spent, either short term or long term, in either form or through legal restrictions. There are no funds presenting a nonspendable fund balance.

Restricted Fund Balance - The portion of a governmental fund's fund balance that is subject to external enforceable legal restrictions. Not on Tobacco's fund balance is restricted by grant agreements or contracts. The following funds are restricted by Illinois Statute: Institute, General Education Development, and Bus Permit.

Governmental Fund Statements (continued)

<u>Committed Fund Balance</u> - The portion of a governmental fund's fund balance with self-imposed constraints or limitations that have been placed at the highest level of decision-making. There are no accounts presenting a committed fund balance.

Assigned Fund Balance - The portion of a governmental fund's fund balance to denote an intended use of resources. The accounts presented with assigned fund balances are specified for a particular purpose by the Regional Superintendent. The following accounts comprise assigned fund balance: Junior Achievement, Student Council, Alternative Education Intervention, Futures Foundation, and Spelling Bee.

<u>Unassigned Fund Balance</u> - Available expendable financial resources in a governmental fund that are not designated for a specific purpose. The following accounts comprise unassigned fund balance: General, Business Office, Pop Fund, ADA State Aid, St. Mary's Hospital School, Teachers' Exchange, General State Aid, School Improvement, Ounce of Prevention - Training and Technical, and Family Violence Counseling.

2. BUDGETS AND BUDGETARY ACCOUNTING

The Regional Office of Education No. 39 was not legally required to adopt annual budgets for all funds under its control, and some annual budgets prepared were not based upon the same operating period. Therefore, budgetary reports comparing budgeted to actual expenditures are not presented.

Budgets relating to programs funded by grants from the Illinois State Board of Education are prepared and submitted to the granting agency as part of the grant awards process. The granting agency must also approve amendments to these budgets. Grant project budgets are based on the award period. Budgetary Comparison Schedules have been presented for the following grants: Truants Alternative/Optional Education, ROE/ISC Operations, Ounce of Prevention - Training and Technical, Regional Safe Schools, Early Childhood Block Grant, Early Childhood Block Grant - Continuing Three to Five, Homeless Children Youth Program, Work Readiness, Regional Safe School Cooperative Education Program, and Family Violence Counseling.

NOTES TO FINANCIAL STATEMENTS (Continued) June 30, 2020

3. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

4. DEPOSITS AND INVESTMENTS

A. Deposits

At June 30, 2020, the carrying amount of the Regional Office of Education No. 39's governmental activities, business-type activities, and fiduciary fund's deposits were \$2,188,496, \$-0-, and \$333,501, respectively. The bank balances totaled \$2,426,768 all of which was secured by federal depository insurance or collateralized with securities held by the pledging financial institution's trust department in the Regional Office of Education No. 39's name, and were, therefore, not exposed to custodial credit risk.

B. <u>Investments</u>

At June 30, 2020, the carrying amount of the Regional Office of Education No. 39's deposits in the Illinois Funds Money Market Fund for the governmental activities was \$ 130,481. The bank balance invested in the Illinois Funds Money Market Fund was \$ 177,532. This fund enables custodians of public funds an investment option with a competitive rate of return on fully collateralized investments and immediate access to the funds. These deposits are included in cash and cash equivalents in the Regional Office of Education No. 39's governmental activities.

Credit Risk

At June 30, 2020, the Illinois Funds Money Market Fund had a Standard and Poor's AAAm rating. The pool is audited annually by an outside, independent auditor and copies of the report are distributed to participants. Although not subject to direct regulatory oversight, the fund is administered by the Illinois State Treasurer in accordance with the provisions of the Illinois Public Funds Investment Act, 30 ILCS 235. All investments are fully collateralized.

Interest Rate Risk

The Illinois Funds Money Market Fund, created by the Illinois General Assembly, enables custodians of public funds an investment option with a competitive rate of return on fully collateralized investments and immediate access to the funds. The investment policy of the Illinois Funds Money Market Fund states that, unless authorized specifically by the Treasurer, a minimum of 75% of its investments shall have less than one-year maturity and no investment shall exceed two years maturity.

NOTES TO FINANCIAL STATEMENTS (Continued) June 30, 2020

4. <u>DEPOSITS AND INVESTMENTS</u> (continued)

Concentration of Credit Risk

Unless specifically authorized by the Treasurer, the Illinois Funds Money Market Fund's investment policy limits investment categories to not exceed 25% of the portfolio, with the exception of cash equivalents and U.S. Treasury securities. Further, certificates of deposit cannot exceed 10% of any single financial institution's total deposits.

5. RISK MANAGEMENT - CLAIMS AND JUDGMENTS

The Regional Office of Education No. 39 is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; workers' compensation; and natural disasters. The Regional Office of Education No. 39 is covered by commercial insurance to cover these risks of loss. No settlements have exceeded insurance coverage in the current or three previous years.

6. **CONTINGENCIES**

The Regional Office of Education No. 39 has received funding from Federal and State grants in the current and prior years, which are subject to audits by granting agencies. The Regional Office of Education No. 39 believes any adjustments that may arise will be insignificant to the Regional Office of Education No. 39's operations.

7. <u>CAPITAL ASSETS</u>

8. RETIREMENT FUND COMMITMENTS

A. Teachers' Retirement System of the State of Illinois

Plan Description

The Regional Office of Education No. 39 participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2019; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different than Tier 1.

NOTES TO FINANCIAL STATEMENTS (Continued) June 30, 2020

8. <u>RETIREMENT FUND COMMITMENTS</u> (continued)

A. Teachers' Retirement System of the State of Illinois (continued)

Benefits Provided (continued)

Essentially all Tier 1 retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the State of Illinois.

Contributions

The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2019, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the Regional Office of Education No. 39.

On behalf contributions to TRS - The State of Illinois makes employer pension contributions on behalf of the Regional Office of Education No. 39. For the year ended June 30, 2020, State of Illinois contributions recognized by the Regional Office of Education No. 39 were based on the State's proportionate share of the pension expense associated with the Regional Office of Education No. 39, and the Regional Office of Education No. 39 recognized revenue and expenditures of \$720,906 in pension contributions from the State of Illinois.

2.2 formula contributions - Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2020, were \$ 5,546, and are deferred because they were paid after the June 30, 2019 measurement date.

Contributions (continued)

Federal and special trust fund contributions - When TRS members are paid from federal and special trust funds administered by the Regional Office of Education No. 39, there is a statutory requirement for the Regional Office of Education No. 39 to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the State contribution rate to TRS and were much higher.

For the year ended June 30, 2020, the employer pension contribution was 10.66 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2020, no salaries were paid from federal and special trust funds that required employer contributions.

Employer retirement cost contributions - Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The Regional Office of Education No. 39 is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2020, the Regional Office of Education No. 39 made no payments to TRS for employer contributions due on salary increases in excess of 6 percent, or for sick leave days granted in excess of the normal annual allotment.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2019, the Regional Office of Education No. 39 reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the employer. The State's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the employer were as follows:

Employer's proportionate share of the net pension liability State's proportionate share of the net pension liability associated	\$ 93,295
with the employer	6,639,704
Total	\$ 6,732,999

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u> (continued)

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018, and rolled forward to June 30, 2019. The Regional Office of Education No. 39's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the contributions of all participating TRS employers and the State during that period. At June 30, 2019, the Regional Office of Education No. 39's proportion was .0001150254 percent, which was a decrease of .0000149299 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Regional Office of Education No. 39 recognized pension expense of \$720,906 and revenue of \$720,906 for support provided by the State. For the year ended June 30, 2020, the Regional Office of Education No. 39 recognized a pension benefit of \$262,636. At June 30, 2020, the Regional Office of Education No. 39 reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Amounts Related to Pensions	Deferred Outflows of Resources	Deferred Inflows of Resources

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u> (continued)

\$ 5,546 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows in these reporting years:

Year Ending	Net Deferred Inflows of
June 30,	of Resources
2021	\$ (122,872)
2022	(163,543)

2025	(861)
Total	\$ (833,514)

Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases varies by amount of service credit

Investment rate of return 7.00%, net of pension plan investment expense, including inflation

In the June 30, 2019 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2018 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are used on a fully generational basis using projection table MP-2014.

Actuarial Assumptions (continued)

The long-term (20 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	15.0%	6.30%
U.S. equities small/mid cap	2.0%	7.70%

Discount Rate

At June 30, 2019, the discount rate used to measure the total pension liability was 7.00 percent, which was the same as the June 30, 2018 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2019 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Regional Office of Education No. 39's proportionate share of the net pension liability to changes in the discount rate

The following presents the Regional Office of Education No. 39's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Regional Office of Education No. 39's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

B. Illinois Municipal Retirement Fund

IMRF Plan Description

The Regional Office of Education No. 39's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and their beneficiaries. The Regional Office of Education No. 39's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- ½ of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2019, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	45
Inactive plan members entitled to but not yet receiving benefits	45
Active plan members	25
Total	115

Contributions

As set by statute, the Regional Office of Education No. 39's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Regional Office of Education No. 39's annual contribution rate for calendar year 2019 was 9.85%. For the fiscal year 2020, the Regional Office of Education No. 39 contributed \$ 114,316 to the plan. The Regional Office of Education No. 39 also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The Regional Office of Education No. 39's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%.
- Salary Increases were expected to be 3.35% to 14.25%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.

Actuarial Assumptions (continued)

- For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Table with adjustments to match current IMRF experience.
- For disabled retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives.
- For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2019:

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability as of December 31, 2019. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75%, and the resulting single discount rate is 7.25%.

9. OTHER POST-EMPLOYMENT BENEFITS

A. Teacher Health Insurance Security Fund

THIS Plan Description

The Regional Office of Education No. 39 participates in the Teachers' Health Insurance Security (THIS) fund. The THIS fund is a non-appropriated trust fund held outside the State Treasury, with the State Treasurer as custodian. Additions deposited into the Trust are for sole purpose of providing the health benefits to retirees, as established under the plan, and associated administrative costs. The THIS fund is a cost-sharing multiple-employer defined benefit postemployment healthcare plan that covers retired employees of participating employers throughout the State of Illinois, excluding the Chicago Public School System. THIS health coverage includes provisions for medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits.

Annuitants may participate in the State administered Preferred Provider Organization plan or choose from several managed care options. As a result of the Governor's Executive Order 12-01, the responsibilities in relation to THIS were transferred to the Department of Central Management Services (Department) as of July 1, 2013. The Department administers the plan with the cooperation of the Teachers' Retirement System (TRS).

Benefits Provided

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefits provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 required all active contributors to TRS who are not employees of the State to make a contribution to the THIS Fund.

A percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On Behalf Contributions to the THIS Fund

The State of Illinois makes employer retiree health insurance contributions on behalf of the Regional Office of Education No. 39. For the year ended June 30, 2020, State of Illinois contributions recognized by the Regional Office of Education No. 39 were based on the State's proportionate share of the collective net OPEB liability associated with the Regional Office of Education No. 39, and recognized revenue and expenditures of \$ 60,206 in OPEB contributions from the State of Illinois.

Employer Contributions to the THIS Fund

The Regional Office of Education No. 39 also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.92 percent during the year ended June 30, 2020, and 0.92 and 0.88 percent during the years ended June 30, 2019 and 2018, respectively. For the year ended June 30, 2020 the Regional Office of Education No. 39 paid \$ 8,505 to the THIS Fund, which was 100 percent of the required contribution. For the years ended June 30, 2019 and 2018, the Regional Office of Education No. 39 paid \$ 8,263 and \$ 8,192 to the THIS Fund, respectively, which was 100 percent of the required contribution.

Further information on the THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation 2.50%

Salary increases Depends on service and ranges from 9.50% at 1 year of service to

4.00% at 20 or more years of service. Salary increase includes a

3.25% wage inflation assumption.

Investment rate of return 0%, net of OPEB plan investment expense, including inflation

Healthcare cost trend rates Actual trend used for fiscal year 2019. For fiscal years on and after

2020, trend starts at 8.00% and 9.00% for non-Medicare costs and Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.31% is added to non-Medicare costs on and after 2022 to account for the Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-2014 Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale

MP-2017.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

Single Discount Rate

Projected benefit payments were discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on the index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS fund is financed on a pay-as-you-go basis, a discount rate consistent with fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity's index's "20-year Municipal GO AA Index" has been selected. The discount rates are 3.62 percent as of June 30, 2018, and 3.13 percent as of June 30, 2019.

Sensitivity of the employer's proportionate share of the collective net OPEB liability to changes in the discount rate.

The following presents the Regional Office of Education No. 39's proportionate share of the collective net OPEB liability, as well as what the ROE's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.13 percent) or 1-percentage-point higher (4.13 percent) than the current discount rate:

	Discount		
	1% Decrease (2.13%)	Rate (3.13%)	1% Increase (4.13%)

The following table shows the Regional Office of Education No. 39's net OPEB liability as of June 30, 2019, using current trend rates and sensitivity trend rates that are either 1-percentage-point higher or lower. The key trend rates are 8.00% in 2020 decreasing to an ultimate trend rate of 4.81% in 2027, for non-Medicare coverage, and 9.00% in 2020 decreasing to an ultimate trend rate of 4.50% in 2027 for Medicare coverage.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the Regional Office of Education No. 39 reported a liability for its proportionate share of the collective net OPEB liability that reflected a reduction for State OPEB support provided to the Regional Office of Education No. 39. The amount recognized by the Regional Office of Education No. 39 as its proportionate share of the collective net OPEB liability, the related State support, and the total portion of the collective net OPEB liability that was associated with the Regional Office of Education No. 39 were as follows:

Employer's proportionate share of the collective net OPEB liability	\$ 1,015,272
State's proportionate share of the net OPEB liability associated	
with the employer	1,374,872
Total	\$ 2,390,144

The collective net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of June 30, 2018, and was rolled forward to the June 30, 2019 measurement date. The Regional Office of Education No. 39's proportion of the collective net OPEB liability was based on a projection of the Regional Office of Education No. 39's long-term share of contributions to the OPEB plan relative to the projected contributions of the Regional Office of Education No. 39, actuarially determined. At June 30, 2019, the Regional Office of Education No. 39's proportion was 0.003668 percent, which was an decrease of .000259 from its proportion measured as of June 30, 2018 (0.003927 percent). The State's support and total are for disclosure purposes only.

For the year ending June 30, 2020, the Regional Office of Education No. 39 recognized OPEB expense of \$60,206 and revenue of \$60,206 for support provided by the State. For the year ending June 30, 2020, the Regional Office of Education No. 39 recognized an OPEB benefit of \$123,266. At June 30, 2020, the Regional Office of Education No. 39 reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Plan Description

The Regional Office of Education No. 39 provides a single-employer defined-benefit postemployment healthcare plan to retirees who participate in the IMRF retirement plan. This plan extends the same health benefits to annuitants as to active employees in the IMRF plan. The Governmental Accounting Standards Board (GASB) issued Statement No.'s 74 and 75 that established generally accepted accounting principles for the annual financial statements for postemployment benefit plans other than pension plans. The required information is as follows:

Eligibility Provisions

Full- Time Employees - IMRF

Tier I IMRF Full-Time employees:

Age 55 with at least 8 years of service (reduced pension)

Age 55 with at least 30 years of service (reduced pension)

Tier II TRS Full-Time employees:

Age 62 with at least 10 years of service (reduced pension)

Age 67 with at least 10 years of service (full pension)

Benefits Provided

The Regional Office of Education No. 39 provides continued health insurance coverage at the blended employer rate to all eligible Regional Office of Education No. 39 retirees in accordance with Illinois Compiled Statutes, which creates an implicit subsidy of retiree health insurance. The Regional Office of Education No. 39 offers the Blue Cross Blue Shield PPO Plan to full-time IMRF and TRS employees. Retirees pay the full cost of coverage and may continue to be covered under the Regional Office of Educations No. 39's plan past Medicare eligibility. Eligible spouse or dependent coverage may continue should the retiree coverage terminate under COBRA provisions when an applicable qualifying event occurs. The spouse or dependent is responsible for the full cost of the coverage and may continue to be covered under the Regional Office of Education No. 39's plan past Medicare eligibility.

B. Health Insurance (continued)

Benefits Provided (continued)

The Regional Office of Education No. 39 provides dental, vision, and life insurance coverage to all eligible employees in accordance with Illinois Compiled Statutes. Retirees may continue dental or vision coverage into retirement. The retiree is responsible for the full premium cost of coverage for the dental and vision plans. Life insurance is not available to retirees.

Membership

At June 30, 2020 membership consisted of:

Inactive employees currently receiving benefits	1
Inactive employees entitled to but not yet receiving benefits	-
Active employees	45
Total	46

Funding Policy and Contributions

There is no funding policy that exists for the postretirement plan at this time, as the total OPEB liabilities are currently an unfunded obligation.

The employer contributions and benefit payments are related to the increase in active premiums due to the presence of retirees in the determination of blended retiree/active premiums.

The contributions of \$ 14,909 from other Regional Office of Education No. 39 resources and benefit payments of \$ 14,909 from other Regional Office of Education No. 39 resources are contributions made to and benefit payments made from the OPEB Plan that were not directly made to or from the OPEB Trust.

Total OPEB Liability

The total OPEB liability for the current fiscal year has been developed based on the July 1, 2020 actuarial valuation date and adjusted to the June 30, 2020 measurement date based on procedures that conform to the Alternative Measurement Method and generally accepted actuarial principles and practices.

Report dated September 18, 2018.

Premiums charged for coverage of retirees and

spouse are \$ 9,918 and \$ 15,493.

Initial trend rate is based on the 2020 Segal Health Plan Cost Trend Survey. For fiscal years on and after 2021, trend starts at 6.80% for both non-Medicare costs and post-Medicare costs and gradually decreases to an ultimate trend of 5.00%.

Same of Healthcare trend rates.

IMRF mortality rates use the RP-2014 with Blue Collar Adjustment and MP-2016 Improvement, weighted per IMRF Experience Study dated November 8, 2017 using age 85 for males and age 88 for females. TRS mortality rates use RP-20 14 with White Collar Adjustment and MP-20 17 Improvement, weighted per TRS Experience Study Report dated September 18, 2018 using age 88 for males and age 89 for females.

The retirement rates based on rates from the IMRF Experience Study Report dated November 8, 2017 and the TRS Experience Study Report dated September 18, 2018 were used to estimate the single retirement ages pursuant to the Alternative Measurement Method for GASB 74/75.

For any active participant who will not meet the service requirement necessary to retire at the assumed retirement ages, it is assumed they have prior service with a different employer and therefore will be eligible to retire. In the current valuation, there are four participants impacted by this assumption.

The mortality rates were used to estimate assumed age at death pursuant to the Alternative Measurement Method for GASB 74/75.

The probability of working to the assumed retirement age was determined based on the underlying termination and disability rates pursuant to the Alternative Measurement Method for GASB 74/75.

Discount Rate

The discount rate used in the determination of the total OPEB liability is based on a combination of the expected long-term rate of return on plan assets and the municipal bond rate. If the employer does not have a trust dedicated exclusively to the payment of OPEB benefits, as is the case with the Macon and Piatt Counties Regional Office of Education No. 39, then only the municipal bond rate is used in determining the total OPEB liability.

If the postretirement plan is funded, cash flow projections are used to determine the extent which the plan's future net position will be able to cover future benefit payments. To the extent future benefit payments are covered by the plan's projected net position, the expected rate of return on plan investments is used to determine the portion of the net OPEB liability associated with those payments. To the extent future benefit payments are not covered by the plan's projected net position, the municipal bond rate is used to determine the portion of the net OPEB liability associated with those payments

Projected benefit payments are determined during the valuation process based on the assumptions. The expected contributions are based on the funding policy of the plan.

Municipal Bond Rate

The municipal bond rate assumption is based on the Bond Buyer 20-Bond GO Index. The beginning of year rate is the 3.50% rate, and the end of year rate is 2.21%. The 20-Bond GO Index is based on an average of certain general obligation municipal bonds maturing in 20 years and having an average rating equivalent of Moody's Aa2 and Standard & Poor's AA.

The 20-Bond Index consists of 20 general obligation bonds that mature in 20 years. The average rating of the 20 bonds is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp.'s AA.

The indexes represent theoretical yields rather than actual price or yield quotations. Municipal bond traders are asked to estimate what a current-coupon bond for each issuer in the indexes would yield if the bond was sold at par value. The indexes are simple averages of the average estimated yield of the bonds.

Inflation Rate

The long-term inflation expectation used is 2.25%, which is an underlying component of the discount rate and assumed health care trend rates.

15. OPERATING LEASES

The Regional Office of Education No. 39 leased the first floor of the Tech Academy Building located at 300 East Eldorado Street, Decatur, Illinois. The monthly rental payments were \$5,500. The lease also called for the Regional Office to pay all utilities and liability insurance. The Regional Office was committed through June 30, 2021 under this lease agreement.

The Regional Office of Education No. 39 was committed through August 31, 2019 under a lease agreement for the copier located at the administrative office. The lease called for monthly rental payments of \$ 221.

During the fiscal year ended June 30, 2020, the Regional Office of Education No. 39 entered into a lease agreement for a new copier at the administrative office. The Regional Office of Education No. 39 is committed through August 31, 2024 under the lease agreement. The lease calls for monthly rental payments of \$ 396.

The Regional Office of Education No. 39 is committed through September 30, 2023 under a lease agreement for the building located at 1690 Huston Drive, Decatur, Illinois. The lease calls for monthly rental payments of \$4,800.

The Regional Office of Education No. 39 is committed through April 30, 2022 under a lease agreement for the copier located at the administrative office. The lease calls for monthly rental payments of \$ 188.

The counties served by the Regional Office of Education No. 39 are required by statute to provide the Regional Superintendents of Schools with office space. Therefore, Macon and Piatt Counties share a portion of the facility costs associated with the office space and reimburse the Regional Office of Education No. 39 for the rent, building maintenance and utilities expense incurred as a result of the lease for this office space.

Total lease expense for the year ended June 30, 2020 was \$ 128,458. The following is a schedule of future minimum lease payments required under the above operating leases:

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2020 Contribution Rate*

Valuation Date:

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

MACON AND PIATT COUNTIES REGIONAL OFFICE OF EDUCATION NO. 39 ILLINOIS MUNICIPAL RETIREMENT FUND SCHEDULE OF EMPLOYER CONTRIBUTIONS (UNAUDITED)

For the years ended June 30, 2020, 2019, 2018, 2017, 2016 and 2015

Methods and Assumptions Used to Determine 2019 Contribution Rates:

Actuarial Cost Method: Aggregate entry age normal

Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: Non-Taxing bodies: 10-year rolling period.

Taxing bodies (Regular, SLEP and ECO groups): 24-year closed period Early Retirement Incentive Plan liabilities: a period up to 10 years selected

by the Employer upon adoption of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 19 years for most employers (three employers were financed

over 28 years and four others were financed over 29 years).

Asset Valuation Method: 5-year smoothed market; 20% corridor

Wage Growth: 3.25%
Price Inflation: 2.50%

Salary Increases: 3.35% to 14.25%, including inflation

Investment Rate of Return: 7.50%

Retirement Age: Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2017 valuation pursuant to an

experience study of the period 2014 to 2016.

Mortality: For non-disabled retirees, an IMRF specific mortality table was used

with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Table, with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (based year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with

adjustments to match current IMRF experience.

Other Information:

Notes: There were no benefit changes during the year.

Changes of assumptions

For the 2019, 2018, 2017 and 2016 measurement years, the assumed investment rate of return was 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit, but the rates of increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

Assumption Changes

The assumed rate on High Quality 20-year Tax-Exempt G.O. Bonds was changed from 3.50% to 2.21% for the current year. The underlying index used is the Bond Buyer 20-Bond GO Index. The choice of index is unchanged from the prior year. The rate has been updated to the current Fiscal Year-End based on changes in market conditions as reflected in the Index. The change was made to reflect our understanding of the requirements of GASB under Statement 74 and Statement 75.

Since the Employer does not have a trust dedicated exclusively to the payment of OPEB benefits, the discount rate used in the determination of the Total OPEB Liability was also changed from 3.50% to 2.21%.
