RSM US LLP

Independent Auditor's Report

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
University of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of the University of Illinois (University), a component unit of the State of Illinois, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated December 22, 2025.

Our report includes a reference to other auditors who audited the financial statements of the University of Illinois Foundation; University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University of Illinois Research Park, LLC; Illinois Global Gateway, LLC; and Illinois Quantum Microelectronics Park, LLC (collectively "component units"), as described in our report on the University's financial statements. The financial statements of the component units were not audited in accordance with *Government Auditing Standards* and, accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with these component units or that are reported on separately by those auditors who audited the financial statements of the component units.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2025-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2025-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The University's Responses to the Findings

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the findings identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The University's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance;
Report on Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance; and Report on Schedule of
Federal and Nonfederal Financial Activity**

Independent Auditor's Report

Honorable Frank J. Mautino
Auditor General, State of Illinois

and

Board of Trustees
University of Illinois

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

As Special Assistant Auditors for the Auditor General, we have audited the University of Illinois' (University) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2025. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Other Matter—Component Units Not Included in the Compliance Audit

The University’s basic financial statements include the operations of the University of Illinois Foundation; University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University of Illinois Research Park, LLC; Illinois Global Gateway, LLC; and Illinois Quantum Microelectronics Park, LLC, component units of the University, which are not included in the University’s schedule of expenditures of federal awards during the year ended June 30, 2025. Our compliance audit, described in the “Opinion on Each Major Federal Program”, does not include the operations of these component units because the component units did not expend federal funding during the year ended June 30, 2025.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University’s federal programs.

Auditor’s Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University’s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University’s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University’s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University’s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University’s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2025-003. Our opinion on each major federal program is not modified with respect to this matter.

Government Auditing Standards requires the auditor to perform limited procedures on the University's response to the noncompliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2025-003 and 2025-004 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by Uniform Guidance and the Report on Schedule of Federal and Nonfederal Financial Activity

We have audited the financial statements of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the University's basic financial statements. We issued our report thereon dated December 22, 2025, which contained unmodified opinions on those financial statements. Our report was modified to include a reference to other auditors. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. In addition, the accompanying schedule of federal and nonfederal financial activity is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the schedule of federal and nonfederal financial activity are fairly stated in all material respects in relation to the basic financial statements as a whole.

Finding 2025-001 Weaknesses in Controls over Access Termination and Reviews

The University of Illinois System (University) did not ensure adequate controls for system access reviews and terminations over their Electronic Health Record System (EHR) and Enterprise Resource Planning System (ERP).

The University maintains an EHR that contains patient medical records and data. The EHR supports billing and transaction workflows which feed into the financial statements. Additionally, the University maintains an ERP that contains student, faculty, financial, and personal data. The University relies on the ERP for financial reporting.

During our testing of separated users' access to the ERP and EHR, we noted the University's departments were not timely notifying Human Resources (HR), which in turn did not timely notify the Information Technology security team (IT) in order to remove access. Specifically we noted:

- For the ERP system, HR did not notify IT timely for 1 of 60 terminations (2%), and this user's access was removed 28 days late.
- For the EHR system, HR did not notify IT timely for 12 of 60 terminations (20%), and for 8 of those terminations (13%) access was removed between 2 and 106 days late.

In addition, for the EHR system, we noted the user access review was not performed at an appropriate level of precision. The review only validated whether employees who did not access the system within the past year were still employed by the University. The review did not include a review of all users with access to determine if their access was needed for their assigned job role.

The access termination portion of the finding was first reported in fiscal year 2022. In subsequent years, the University has been unsuccessful in implementing procedures to fully remediate the issues identified.

The *Security and Privacy Controls for Information Systems and Organizations* (Special Publication 800-53, Fifth Revision) published by the National Institute of Standards and Technology (NIST), Access Control Section, promotes controls for ensuring access to system resources are appropriate.

Also, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use and misappropriation.

Further, the University of Illinois Enterprise System Access Removal Policy (for both ERP and EHR) requires IT to be notified to disable user access within 15 business days of termination, and to remove access for ERP within this time frame. For EHR, the University Medical Center Account Access Controls – Terminations and Disable requires the Information Services Department to remove access within 2 business days of being notified of the employee's separation.

University management indicated the complexity and decentralized nature of EHR and ERP access delayed the notifications of employee separation. In the absence of notification, HR system data and account disable policies are used as compensating controls. In addition, University management stated due to limited resources and roles and responsibilities rarely changing, the user review performed did not include a review of all user access rights.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2025**

Finding 2025-001 Weaknesses in Controls over Access Termination and Reviews (Continued)

Failure to properly review user access or terminate separated employees' access could result in improper or unauthorized access to the EHR, ERP, and the underlying data. (Finding Code No. 2025-001, 2024-001, 2023-002, 2022-004)

Recommendation:

We recommend the University implement additional controls to ensure HR is notifying IT timely for all terminations. We also recommend that the EHR user access review includes a comprehensive review of all users with access.

University Response:

Accepted. Automated processes using enterprise systems data to proactively monitor and remove access to the EHR and ERP have been implemented, which have provided significant improvement for removing enterprise system access timelier. System-wide communications have been distributed to multiple levels within the university to emphasize and remind University departments that timely removal of access is a critical control that needs to be consistently performed. The University will continue to evaluate this distributed control and work towards improving notification for timely removal of access for employees who have separated from the University. Additionally, the Hospital will adjust their annual access review for the EHR to include a validation of user access roles.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2025**

Finding 2025-002 Inadequate Controls over Construction in Progress

The University of Illinois (University) did not properly transfer construction in progress into depreciable assets when projects were substantially complete.

During our audit, we identified two projects classified as construction in progress that were substantially completed prior to the University's fiscal year-end. The University identified an additional fourteen construction in progress projects that were also substantially complete prior to the University's fiscal year-end. As a result, the University improperly classified fixed assets of \$23,606,000 as non-depreciable capital assets that should have been classified as depreciable capital assets. The University recorded an adjustment to correct this error, which was properly reflected in the financial statements.

In addition, certain amounts disclosed in the capital assets footnote were misstated as these projects were substantially completed in prior fiscal years. For the fiscal year ending June 30, 2025, the beginning balances for construction in progress and buildings were overstated and understated by \$18,186,000, respectively, and transfers between construction in progress and buildings were overstated by \$18,186,000. Lastly, the accumulated depreciation for buildings was understated by \$1,305,000, and depreciation expense for fiscal year 2025 was understated by \$826,000. The University elected to pass on these adjustments.

Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, paragraph 21 states "Capital assets should be depreciated over their estimated useful lives" and GASB Codification Section 1400.115 states "Capital assets that are not being depreciated...should be reported separately if the government has a significant amount of these assets."

In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use and misappropriation.

University management stated that the Chicago campus construction unit relied primarily on manually entered data in their project tracking application, along with status updates from project managers, to complete the year-end substantial completion questionnaire. However, timely and complete data entry of critical information such as substantial completion dates was inconsistent across some project managers due to human error, which delayed transferring the assets to depreciable status.

Failure to transfer construction in progress projects that are substantially complete to depreciable fixed assets represents an error in the classification of fixed assets and results in incorrect depreciation of related assets. (Finding Code No. 2025-002)

Recommendation:

We recommend the University implement controls to ensure that project managers communicate status updates of projects timely so that assets can be classified and depreciated appropriately.

UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2025**

Finding 2025-002 Inadequate Controls over Construction in Progress (Continued)

University Response:

Accepted. Corrective action includes strengthening both data quality and oversight of the fiscal year-end review. The University will review project reports monthly to identify and follow up on missing information.

Additionally, customized reporting and dedicated staff will be utilized to proactively update project financial data in the project management software. A fiscal year-end quality control review will also be performed to identify and resolve any discrepancies with project managers, ensuring that all substantially complete projects are properly transferred to depreciable status.

ALN #s: 12.630; 12.910; 81.089; 93.145

Award Numbers (Federal Award Year): ARMY W911NF-17-2-0196 (2024-2025); DARPA HR0011-23-2-0004 (2024-2025); DOE DE-FE0031581 (2024-2025); and HRSA 5 U1OHA32109-07 (2024-2025)

Questioned Costs: None

2025-003. Finding: Cash Management – Timeliness of Subrecipient Payments

The University of Illinois Urbana-Champaign and the University of Illinois Chicago did not make certain subrecipient payments timely and the controls in place did not identify the late payments.

Condition:

Out of seventeen subrecipient payments tested which were made by the University of Illinois Urbana-Champaign under the Research & Development Cluster, three payments (18%) were not made within 30 days after receipt of the billing from the subrecipient. The payments ranged from 37-79 days after receipt of the billing from the subrecipients. The sample was not intended to be, and was not, a statistically valid sample.

Out of eight subrecipient payments tested which were made by the University of Illinois Chicago under the HIV-Related Training and Technical Assistance Program, two payments (25%) were not made within 30 days after receipt of the billing from the subrecipient. The payments were made 34 and 40 days after the receipt of billing from the subrecipients. The sample was not intended to be, and was not, a statistically valid sample.

Criteria:

Under Uniform Guidance (2 CFR 200.305(b)(3)), when the reimbursement method is used, the Federal awarding agency or pass-through entity must make payment within 30 calendar days after receipt of the billing, unless the Federal awarding agency or pass-through entity reasonably believes the request to be improper.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards to establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure subrecipient payments are made timely.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – FEDERAL COMPLIANCE AND QUESTIONED COSTS
For the Year Ended June 30, 2025**

2025-003. Finding: Cash Management – Timeliness of Subrecipient Payments (Continued)

Cause:

University of Illinois Urbana-Champaign officials stated the multi-layered review and approval process along with workload caused the exceptions noted.

University of Illinois Chicago officials stated the subrecipient payments were late due to competing priorities.

Effect:

Without proper program cash management processes and procedures, late subrecipient payments could result in the loss of future funding. (Finding Code No. 2025-003, 2024-002, 2023-006, 2022-008)

Recommendation:

We recommend the University of Illinois Urbana-Champaign and the University of Illinois Chicago review current processes, policies and procedures to minimize the time elapsing between the receipt of billings from the subrecipient and the transfer of federal funds to the subrecipient.

University Response:

Accepted. The University will take steps to address the recommendation in this finding.

Questioned Costs: None

2025-004. Finding: Internal Controls over Procurement

The University of Illinois Urbana-Champaign did not have sufficient rationale documented for the noncompetitive procurement method selected within their iBuy procurement system at the time of approval of the purchase to allow a reviewer to determine the appropriateness of the procurement method.

Condition:

The University of Illinois Urbana-Champaign's internal controls over small purchases include review and approval of a purchase requisition form that documents the procurement method selected. Prior to June 15, 2025, when a noncompetitive procurement method was selected, a radio button within the iBuy system allowed for selection of one of several circumstances where noncompetitive procurement is permitted by 2 CFR 200.320, including that the procurement can only be fulfilled by a single source. When this selection was made, additional information supporting this rationale should have been available to the reviewer to determine that this noncompetitive procurement method was appropriate. Out of four small purchase procurement transactions tested prior to June 15, 2025, for one transaction (25%), there was not sufficient evidence to support that documentation of the noncompetitive procurement method selected was provided at the time of review and approval. Based on additional information provided to us during our testing, there were no indications that the noncompetitive method selected was inappropriate. This transaction was selected from the period prior to the iBuy enhancement.

Subsequent to June 15, 2025, the purchase requisition form in the iBuy system was enhanced to require users to complete mandatory fields within the purchase requisition form when a noncompetitive procurement method is selected and provide detailed written justification.

The sample was not intended to be, and was not, a statistically valid sample.

Criteria:

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards to establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure procurement procedures are properly followed and support is properly maintained as required by 2 CFR 200.318.

UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – FEDERAL COMPLIANCE AND QUESTIONED COSTS
For the Year Ended June 30, 2025**

2025-004. Finding: Internal Controls over Procurement (Continued)

Cause:

University officials stated a single e-procurement system is used to collect and capture procurement-related information. University officials further stated the electronic system required selection of the relevant procurement method in the form of a radio button but did not require additional information in the central procurement file. Rather, this information was maintained by the requesting unit.

Effect:

If the procurement purchase requisition forms do not include sufficient supporting documentation of the rationale for the noncompetitive method of procurement selected, the University could approve payments of federal funds to vendors that do not meet federal regulations. (Finding Code No. 2025-004, 2024-004)

Recommendation:

We recommend the University of Illinois Urbana-Champaign review current processes within the iBuy system for noncompetitive procurement transactions to ensure sufficient documentation is included to support the rationale for the noncompetitive method of procurement selected.

University Response:

Accepted. While the University accepts the finding, we note that corrective action was implemented on June 15, 2025. No exceptions related to the iBuy central procurement file were found after implementation.

PRIOR FINDINGS NOT REPEATED
For the Year Ended June 30, 2025**

A. Errors in Reporting for NSLDS

During the prior audit, the University of Illinois Chicago did not properly report an enrollment change for a student who received federal student aid to the National Student Loan Data System (NSLDS) and the internal controls in place did not identify the error.

During the current audit, our testing did not identify a similar error. (Finding Code No. 2024-003, 2023-007, 2022-006, 2021-010, 2020-006)

Schedule of Expenditures of Federal Awards presentation:

See also the notes to the Schedule of Expenditures of Federal Awards; these notes are an integral part of this Schedule.

University of Illinois
Notes to Schedule of Expenditures of Federal Awards
June 30, 2025

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the University of Illinois (University) under programs of the federal government for the fiscal year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University.

The schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal agency. Pass-through awards are federal awards passed through a non-federal entity. Pass-through identifying information is presented when available and when applicable.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are presented on a modified cash basis of accounting. The methodology for determining federal awards expended is:

Direct costs are reported as federal expenditures on a cash basis, with the following exceptions:

1. Academic Year (nine-month) faculty salaries charged to sponsored projects are earned over nine months and paid over twelve months.
2. Salaries and wages earned between the last payroll date in June and June 30 are included as a current year federal expenditure.
3. Payroll related fringe benefits costs that are charged on an actuarial basis are included as a current year federal expenditure.
4. Costs incurred with outside entities by June 30 that are processed through the accounting system by the end of July are included as a current year federal expenditure.

Indirect costs are assessed as a percentage of direct costs and are included as a federal expenditure in the current year.

Expenditures reported on the Schedule meet the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Note 3. Federal De Minimis Indirect Cost Rate

The University of Illinois has not elected to use the de minimis indirect cost rate allowed under the Uniform Guidance. The University has approved federally recognized indirect cost rates negotiated between the University and the Federal Government.

Note 4. Federal Student Loan Programs

As disclosed in the Schedule of Expenditures of Federal Awards for the year ended June 30, 2025, the Federal Direct Student Loans Program (ALN 84.268) administered by the University of Illinois awarded approximately \$207.70 million at Urbana, \$254.97 million at Chicago, and \$15.50 million at Springfield.

In addition, the University of Illinois administers a series of loan programs as part of the Student Financial Assistance Cluster program. Loan balances subject to continuing compliance requirements during the year ended June 30, 2025 under the Federal Perkins Loan Program (Perkins), Health Professional Student Loans (HPSL), Primary Care Loans (PCL), Loans for Disadvantaged Students (LDS), Nursing Student Loan Program (Nursing), and Nursing Faculty Loan Program (NFLP) were as follows:

	Perkins (84.038)	HPSL (93.342)	PCL (93.342)	LDS (93.342)	Nursing (93.364)	NFLP (93.264)
Beginning loan balances	4,778,819	9,103,836	186,465	2,513,054	758,640	43,919
New loans issued	0	2,604,429	10,000	442,000	94,086	0
Federal capital contributions	0	502,971	0	0	0	0
Administrative cost allowance	0	0	0	0	0	0
Total	4,778,819	12,211,236	196,465	2,955,054	852,726	43,919

The total loan balances outstanding at June 30, 2025 were approximately \$3.28 million for Perkins, \$10.22 million for HPSL, \$174.4 thousand for PCL, \$2.68 million for LDS, \$638.5 thousand for Nursing, and \$30.3 thousand for NFLP.

*Perkins = Federal Perkins Loan Program
HPSL = Health Professions Student Loans
PCL = Primary Care Loans
LDS = Loans to Disadvantaged Students
Nursing = Nursing Student Loans Program
NFLP = Nurse Faculty Loan Program*

Note 5. Federal Insurance Disclosure

Federally funded medical malpractice insurance was in effect under the Federal Tort Claims Act for Health Resources and Services Administration Deeming Notice Number 1- F00000300-23-01 from July 01, 2024 to Dec 31, 2024 and Deeming Notice Number 1- F00000300-24-01 from January 01, 2025 to June 30, 2025.

Note 6. Federal Depository Library

The University’s “Government Information” library (Urbana), “Albert E. Jenner Jr. Memorial Law Library” (Urbana), “Richard J. Daley Library” (Chicago), “Louis L. Biro Law Library” (Chicago) and “Norris L. Brookens Library” (Springfield) serve as depository libraries in the U.S. Government Publishing Office’s Federal Depository Library. The Federal Depository Library Program gives the public free access to government information. The University is the legal custodian of government publications received under this program; however, these publications remain the property of the federal government.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FEDERAL AND NONFEDERAL FINANCIAL ACTIVITY
For the Year Ended June 30, 2025
(in thousands)**

The following schedules are used to determine the University's Single Audit costs in accordance with the Uniform Guidance (2 C.F.R. § 200.425).

Schedule A: Federal Financial Component

Total federal expenditures ¹	\$ 1,678,372
Total, Schedule A	<u>\$ 1,678,372</u>

Schedule B: Total financial component

Total operating expenses ²	\$ 7,968,502
Total nonoperating expenses ²	52,320
Federal loan balances ^{1,4}	17,385
Total value of new federal loans ^{1,5}	481,825
Other noncash federal award expenditures ³	-
Total, Schedule B	<u>\$ 8,520,032</u>

Schedule C: Computation of Nonfederal Expenses

Total, Schedule B	\$ 8,520,032	100.00%
Total, Schedule A	<u>1,678,372</u>	19.70%
Total Nonfederal Expenses	<u>\$ 6,841,660</u>	80.30%

¹ Obtained from Schedule of Expenditures of Federal Awards

² Obtained from the Statement of Revenues, Expenses, and Changes in Net Position

³ Obtained from the Notes to the Schedule of Expenditures of Federal Awards

⁴ Balance at the beginning of the fiscal year with continuing compliance requirements

⁵ Balance of loans issued during the fiscal year

These schedules are used to determine the University's single audit costs in accordance with Uniform Guidance.

See accompanying independent auditor's report.
