FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

FINANCIAL REPORTING PREPARATION

The Illinois Conservation Foundation (Foundation) does not have sufficient internal controls over the financial reporting process.

Reporting errors

Several errors were identified during the audit of the Foundation's financial statements. The Foundation's financial statements were adjusted for the following reporting errors:

Adjusting entries not made

• The Foundation failed to make numerous adjusting entries to present the financial statements in accordance with Generally Accepted Accounting Principles (GAAP).

\$42,000 adjustment to correct the balances in the dividend and interest income and investment fees expense accounts

 The Foundation recorded internal transfers of securities as dividend and interest income and investment fees expense in error. The result of this misstatement was an overstatement of both revenues and expenses by \$42,000. An audit adjustment was recorded to correct the balances in the dividend and interest income and investment fees expense accounts.

Foundation subsequently corrected financial statements

• The Foundation failed to identify a capital asset in the amount of \$16,181. The capital asset was omitted from the depreciation schedule provided to auditors resulting in an understatement of both capital assets and current year additions. (Finding 1, pages 11-12) This finding has been repeated since 2011.

We recommended the Foundation implement additional internal control procedures to ensure financial statements are prepared in accordance with GAAP.

Management agrees with auditors

Foundation management accepted our recommendation. (For the previous Foundation response, see Digest Footnote #1.)
