SUMMARY REPORT DIGEST

STATE EMPLOYEES' RETIREMENT SYSTEM
OF THE STATE OF ILLINOIS

**Financial Audit – Pension Schedules
For the Year Ended June 30, 2022**

Release Date: March 30, 2023

INTRODUCTION

This digest covers the Financial Audit of the Schedule of Employer Allocations by Fund as of and for the year ended June 30, 2022, and the related notes to the Schedules. In addition, the digest also covers the Financial Audit of the total for all participating entities for the State Employees' Retirement System of the State of Illinois (System) of the columns titled ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (specified column totals) in the Schedule of Pension Amounts by Fund of the System as of and for the year ended June 30, 2022. We have also audited the financial statements of the System as of and for the year ended June 30, 2022, which will be released concurrently with this audit.

The System is the administrator of a single-employer defined benefit public employee retirement system established and administered by the State of Illinois to provide pension benefits for its employees. Generally, anyone entering State service, except those in positions subject to membership in certain other State sponsored retirement systems, persons employed after June 30, 1979, as public service employment program participants under the Federal CETA program, and other exceptions as indicated in State law, become members of the System immediately. Certain contributions are statutorily required to be made to the System by employees and the State of Illinois (State). For the year ending June 30, 2015, the State of Illinois adopted Governmental Accounting Standards Board (GASB) Statement 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. GASB Statement 68 requires the primary government and its participating component units that prepare financial statements in accordance with Generally Accepted Accounting Principles (GAAP) to recognize their proportionate share of certain collective pension amounts in their financial statements, which includes the net pension liability. In addition, certain departments of the State of Illinois that also prepare financial statements will report a proportionate share of certain collective pension amounts in their financial statements, which includes the net pension liability.

Prior to the implementation of GASB Statement 68, the State, its participating component units, and certain departments did not report the cumulative pension amounts, including the net pension liability, in either their audited financial statements or notes, even though there is an obligation to provide pension benefits to the employees. GASB Statement 68 changed previously followed financial reporting requirements and now requires the State and its participating component units to calculate their proportion of the System's collective pension amounts. As a result, the State, its participating component units, and certain departments will report a portion of the collective pension amounts in their financial statements.

The System has prepared the Schedule of Employer Allocations by Fund as of and for the year ended June 30, 2022, and the Schedule of Pension Amounts by Fund as of and for the year ended June 30, 2022, which provides the necessary financial information to assist the State, its participating component units, and certain departments in preparing financial statements. These Schedules have been audited and will provide relevant information for the Fiscal Year 2023 financial statements and audits thereof.

The State's net pension liability associated with the State Employees' Retirement System was \$32.3 billion, total deferred outflows of resources was \$3.3 billion, and total deferred inflows of resources was \$4.2 billion as of June 30, 2022. The State's pension expense was \$2.0 billion for the year ended June 30, 2022.

AUDITOR'S OPINION

Our auditors stated the Schedule of Employer Allocations by Fund as of and for the year ended June 30, 2022, the total for all participating entities for the System of the columns titled ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (specified column totals) in the Schedule of Pension Amounts by Fund of the System as of and for the year ended June 30, 2022, and the related notes to the Schedules, are fairly stated in all material respects.

This financial audit was conducted by RSM US LLP.
