Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the Teachers' Retirement System of the State of Illinois (System). We are responsible for and we have established and maintained an effective system of, internal controls over compliance requirements. We have performed an evaluation of the System's compliance with the following assertions during the period ended June 30, 2013. Based on this evaluation, we assert that during the years ended June 30, 2013, the System has materially complied with the assertions below.

- A. The System has obligated, expended, received and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The System has obligated, expended, received and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The System has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the System are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the agency on behalf of the State or held in trust by the agency have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate and in accordance with law.

Yours very truly,

Teachers' Retirement System of the State of Illinois

Honorable William G. Holland
 Auditor General, State of Illinois
 Springfield, Illinois

Board of Trustees
 Teachers' Retirement System
 of the State of Illinois

Compliance

As Special Assistant Auditors for the Auditor General, we have examined the Teachers' Retirement System of the State of Illinois' (System) compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2013. The management of the System is responsible for compliance with these requirements. Our responsibility is to express an opinion on the System's compliance based on our examination.

- A. The System has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The System has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The System has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the System are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the System on behalf of the State or held in trust by the System have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the System's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the System's compliance with specified requirements.

In our opinion, the System complied, in all material respects, with the requirements listed in the first paragraph of this report during the year ended June 30, 2013.

Internal Control

Management of the System is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the System's internal control over compliance with the requirements listed in the first paragraph of this report as a basis for designing our examination procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the System's internal control over compliance.

A *deficiency in an entity's internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter to your office.

Supplementary Information for State Compliance Purposes

As Special Assistant Auditors for the Auditor General, we have audited and issued under separate cover the Statement of Plan Net Position of the Teachers' Retirement System of the State of Illinois (System) as of June 30, 2013, and the related Statement of Changes in Plan Net Position for the year then ended, and have issued our report thereon dated December 16, 2013, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the System's basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 16, 2013. The accompanying supplementary information for State Compliance Purposes, consisting of the Fiscal Schedules and Analysis Section (Schedules 1 through 16) and the Investment Listing (Schedule 17), for the year ended June 30, 2013 are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Teachers' Retirement System of the State of Illinois. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The accompanying Fiscal Schedules and Analysis Section (Schedules 1 through 16) and Investment Listing (Schedule 17) for the year ended June 30, 2013 have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Fiscal Schedules and Analysis Section (Schedules 1 through 16) and Investment Listing (Schedule 17) for the year ended June 30, 2013 are fairly stated in all material respects in relation to the basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the Statement of Plan Net Assets of the Teachers' Retirement System of the State of Illinois (System) as of June 30, 2012, and the related Statement of Changes in Plan Net Assets for the year then ended (not presented herein), and have issued our report thereon dated December 18, 2012, which contained an unmodified opinion on those financial statements. The accompanying supplementary information for the year ended June 30, 2012, consisting of the Fiscal Schedules and Analysis Section (Schedules 1 through 16) is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The accompanying supplementary information (Schedules 1 through 16 for the year ended June 30, 2012) has been subjected to the auditing procedures applied in the audit of the June 30, 2012 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information (Schedules 1 through 16) for the year ended June 30, 2012 are fairly stated in all material respects in relation to the basic financial statements as a whole from which it has been derived.

The accompanying supplementary information in the Analysis of Operations Section is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the Board of Trustees of the System and System management, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Honorable William G. Holland
 Auditor General
 Springfield, Illinois

Board of Trustees
 Teachers' Retirement System of the State of Illinois
 Springfield, Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Statement of Plan Net Position and Statement of Changes in Plan Net Position of the Teachers' Retirement System of the State of Illinois (System), as of and for the year ended June 30, 2013, and the related notes to the financial statements, and have issued our report thereon dated December 16, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness of the System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control of the System that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Analysis of Revenues and Expenses

Schedule 3

The System is financed by employee member contributions, employer contributions, State appropriations, and investment earnings. A schedule of receipts of the System, which were deposited with the Comptroller of the State of Illinois, is shown on page 24 of this report.

Approximately 99 percent of total expenses (excluding investment expenses) for fiscal years 2013 and 2012 are related to benefits and refunds to members. Benefits include retirement, disability and survivor benefits. Details of benefit recipients, benefit expenses and summaries of new benefit payments and of average benefit payments can be found in the System's Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2013.

The System's revenues and expenses have been analyzed for fluctuations greater than \$1 million and 20% from the previous year as follows:

Investment Income

The System's investment strategy has been to maintain the investment allocation as stated by the Board of Trustees. At June 30, 2013, the assets assigned to the respective asset classes consist of 22.8 percent domestic equity, 21.1 percent international equity, 15.9 percent fixed income, 8.9 percent real return, 12.0 percent real estate, 11.9 percent private equity, 5.3 percent absolute return and 2.1 percent other investments. A more detailed explanation of the System's investment portfolio can be obtained from the System's CAFR.

Total investment income was \$4,561,768,383 and \$224,106,719 for fiscal years ending June 30, 2013 and 2012, respectively, an increase of \$4,337,661,664. The primary factor contributing to the overall increase was net appreciation in fair value, which increased \$4,370,810,363. The net appreciation is directly related to the financial markets posting very strong returns during the fiscal year. Accommodative monetary policies employed by central bankers throughout the developed world (U.S., Europe and Japan) and solid corporate fundamentals were among factors that drove investor assets back into equities. Market volatility dropped sharply as the prior year's negative macroeconomic events (e.g. European debt crisis) diminished. Through the year, equity returns outpaced all other markets and within this environment, the TRS investment portfolio posted a 12.8% rate of return (net of fees) for fiscal year 2013.

Analysis of Administrative Expenses

Schedule 5

Administrative expenses reflect all costs incurred to manage the day-to-day operations of the System. Detail costs relating to benefits and refunds paid to recipients and administrative costs relating to investment expenses have been separated from the Schedule of Administrative Expenses. The total administrative expenses of \$20.3 million are approximately 0.4 percent of the total expenses of \$5.0 billion for fiscal year 2013. Fluctuations greater than \$50,000 and 20% were analyzed as follows:

Professional Services

Expenses for professional services increased \$244,383 or 20.1% in fiscal year 2013. The increase was due to a \$146,933 increase in auditing and management services primarily because of consulting for the document imaging project, and a \$74,045 increase in legal expenses.

Commodities

Expenses for commodities increased \$137,848 or 47.2% in fiscal year 2013. The increase was primarily due to EDP equipment purchases for the document imaging project.

Provision for Depreciation

Depreciation expense increased \$257,707 or 40.0% in fiscal year 2013. A portion of the increase, \$138,727, was due to the capitalization of new assets, including software, purchased for the document imaging project. The remaining increase was primarily due to depreciation for the parking lot that was replaced in fiscal year 2012.

Investment manager fees relate to fees paid to various investment managers. Fees are paid primarily on market values and the manager's portfolio performance. A graduated scale is used for most managers based upon various increments per million dollars of market value.

Note: This schedule captures investment manager fees applicable to the fiscal year(s) reported and differs from investment fees reported in the separately issued financial statements.

**Schedule of Accounts Receivable
For the Years Ended June 30, 2013 and 2012**

| | 2013 | 2012 |
|--|---------------------------|---------------------------|
| Member receivables (1) | \$ 923,669 | \$ 838,562 |
| Salary deductions (2) | 60,707,379 | 48,391,986 |
| Employer federal funds and .58% contributions (3) | 6,968,891 | 8,278,409 |

| Total | <u>\$ 406,640,886</u> | <u>\$ 225,638,056</u> |

- (1) Member receivables consist of benefit overpayments.
- (2) Salary deductions consist of member contributions due from employers at the end of the fiscal year. The increase is due to the timing of employer payments at the end of the fiscal year.
- (3) The decrease in federal funds and .58% contributions in 2013 is due to the timing of employer payments at the end of the fiscal year.
- (4) The decrease in employer ERO and excess contributions in 2013 is the result of a decrease in the number of new retirees utilizing the ERO option in 2013.
- (5) The increase in State of Illinois is the unpaid balance of state contributions based on the appropriations for fiscal year 2013 as of fiscal year-end.

Progress in Funding the System

Schedule 11

The actuarial accrued liability of the System at June 30, 2013, amounted to approximately \$93.9 billion. The actuarial value of plan net position (at smoothed value) at June 30, 2013 amounted to approximately \$38.2 billion. The difference between the actuarial accrued liability and the actuarial value of plan net position reflects the \$55.7 billion unfunded actuarial accrued liability of the System at June 30, 2013. The System had a funded ratio (at smoothed value) of 40.6 percent at June 30, 2013.

On June 30, 2013, the market/fair value of plan net position was \$39,858,768,000. The difference between the System's 2013 accrued liability and the market value of plan net position was \$54,028,220,000 and the funded ratio using market/fair value of plan net position was 42.5 percent. On June 30, 2012, the market/fair value of plan net position used by the actuaries in the 2012 valuation was \$36,516,825,000. The difference between the System's 2012 accrued liability and the market value of plan net position was \$53,508,120,000 and the funded ratio using market/fair value of plan net position was 40.6 percent.

The market/fair value of the plan net position of the fund that was available for benefits increased from \$36.5 billion as of June 30, 2012 to \$39.9 billion as of June 30, 2013. The actuarial value of the plan net position of \$38.2 billion at June 30, 2013, is \$1.7 billion less than the market/fair value of the plan net position due to recognition of 100 percent of the actuarial loss in fiscal year 2009, 80 percent of the actuarial gain in fiscal year 2010, 60 percent of the actuarial gain in fiscal year 2011, 40 percent of the actuarial loss in fiscal year 2012 and 20 percent of the actuarial gain in fiscal year 2013.

The Governmental Accounting Standards Board (GASB) has promulgated Statements No. 25 and 27 that mandate, among other things, the use of market or market related (actuarial) asset value. Prior to the valuation as of June 30, 2009, it was agreed that market/fair value, without adjustment, would be used for all actuarial purposes. Under Public Act 96-0043, effective in the June 30, 2009 valuation, the contribution projections would be set based on the actuarial value of assets. Funding status determinations and the Annual Required Contributions (ARC) were calculated based on the actuarial value of assets.

The estimated State required contributions to the System (including reimbursements for minimum benefits) for the next five fiscal years are noted in the table below.

| <u>Year Ended June 30,</u> | Required State Contribution (in millions) | |
|----------------------------|--|---------|
| 2014 | \$ | 3,438.6 |
| 2015 | | 3,412.9 |
| 2016 | | 3,488.0 |

Progress in Funding the System (Continued)

Schedule 11

The Schedule of Funding Progress (in millions) for fiscal years ending June 30, 2012 and 2013 are noted in the table below.

| Actuarial Valuation Date | Actuarial Value of Assets | Projected Unit Credit) | Accrued Liability (AAL-Projected Unit Credit) | Funded Ratio | Unfunded Actuarial Accrued Liability (UAAL) | Covered Payroll | Unfunded Actuarial Accrued Liability as a percentage of Covered Payroll |
|--------------------------|---------------------------|------------------------|---|--------------|---|-----------------|---|
| 6/30/12 | \$ 37,945 | \$ 90,025 | | 42.1 % | \$ 52,080 | \$ 9,321 | 558.7 % |
| 6/30/13 | 38,155 | 93,887 | | 40.6 | 55,732 | 9,395 | 593.2 |

The Contributions from Employers and Other Contributing Entities (in millions) for the fiscal years ending June 30, 2012 and 2013 are noted in the table below.

| Year Ended June 30 | Federal and Employer Contributions ¹ | | | Annual Required Contribution per GASB Statement #25 | | | Annual Required Contribution per State Statute | | |
|--------------------|---|----------------------------------|----------|---|------------------------|------------------------|--|------------------------|------------------------|
| | State Contributions ¹ | Total Contributions ¹ | Total | Percentage Contributed | Percentage Contributed | Percentage Contributed | per State Statute | Percentage Contributed | Percentage Contributed |
| 2012 | \$ 2,405 | \$ 154 | \$ 2,559 | \$ 3,430 | 74.6 | | \$ 2,548 | 100.4 % | |
| 2013 | 2,702 | 156 | 2,858 | 3,582 | 79.8 | | 2,843 | 100.5 | |

Actual contributions varied slightly from contributions that are required by statute mainly because of differences between estimated and actual federal contributions. Lump-sum payments for ERO are included as employer contributions, further increasing the difference.

¹ Excludes minimum retirement contributions. Employer ERO contributions are included because the costs of the ERO are now included in the actuarial accrued liability.

The Government Accounting Standards Board (GASB) requires disclosure of the Annual Required Contribution (ARC) under a standard funding methodology. Amounts shown as the ARCs for each year are different from the contributions required by State statute. The cumulative difference between the ARC and the annual required contribution per State statute represents the net pension obligation (NPO). The NPO is \$15.7 billion at June 30, 2013, which is an increase of \$1.1 billion from the June 30, 2012 NPO of \$14.6 billion.

Member Contributions

Schedule 13

Employee contributions are established by the Illinois Pension Code at 9.4 percent of earnings. Employee contributions are either collected through payroll deduction or paid by the employer as part of an employment agreement. The employee contributions are submitted by the participating employers directly to the System for credit to each participant's accumulated contributions account. The number of members having contributions credited to their accounts at June 30, 2013 and 2012 are as follows:

| | 2013 | 2012 |
|---|-----------------------|-----------------------|
| Current Members- Defined Benefit Plan | | |

System's Functions and Planning Program

Functions

The Teachers' Retirement System of the State of Illinois was established on July 1, 1939, for the purpose of providing retirement allowances and other benefits for teachers, annuitants and beneficiaries. The System is governed by 40 ILCS 5/16-101 *et seq.* As of June 30, 2013, the System had 281,017 current active members and inactive members entitled to but not yet receiving benefits and 108,783 retirees and beneficiaries currently receiving benefits.

The System is funded through contributions from members, State of Illinois appropriations from the Common School and Education Assistance Funds, investment income and, to a limited extent, through contributions from school districts.

Members' contributions are refundable, without interest, after a four-month waiting period from the date members officially resign from qualified employment. The refund consists of all retirement contributions made by the member, except for the 1 percent survivor benefit contributions, which are refundable only upon retirement of a member with no dependent beneficiaries.

Management Organization

Management of the System is vested in a Board of Trustees consisting of 13 persons, as follows: The State Superintendent of Education, ex-officio, who is the president of the Board; 6 persons, not members, appointed by the Governor; 4 members from the contributing membership of the System elected by the contributing members and 2 annuitants elected by the annuitant members. Program planning activities of the System are under the direct supervision of the Executive Director and involve coordination between the governing board and other administrative staff of the System.

The System has adopted the following mission statement:

"Safeguard benefit security through committed staff, engaged members, and responsible funding."

The following are goals and objectives outlined in the System's Strategic Plan that covers fiscal years 2010 through 2013. This strategic plan was approved by the Board of Trustees in August 2009.

Goal 1

Set the customer service standard for teacher retirement systems by streamlining ways to provide accurate and timely information to our members.

Develop and maintain an intranet product to house member service information for instant staff access using keywords.

- Define all areas needed for the new database.
- Identify key staff who have knowledge and historical data.
- Enhance a turnkey (ready-made) product to meet our needs.
- Develop a plan to review and update annually.

For the Years Ended June 30, 2013 and 2012**

Research members who have previously verified out-of-system service to identify who should be notified regarding limitations to using the service.

Identify "problem" states.

- Research data to extract the affected members.
- Target notification by age.

Expand the use of e-mail for member communication.

- Publicize advantages of electronic communication.
- Encourage members to share their e-mail addresses.
- Create "sub groups" for target messaging.

Review and make consistent signature requirements for submission of forms.

- Review forms by department.
- Determine which forms require original signature for acceptance.
- Determine which forms may be accepted via fax or e-mail.

Goal 2

Initiate comprehensive organizational risk assessment to ensure compliance with law and best practices in public sector retirement system administration.

Maintain tax-qualified plan status.

- Implement regular review of processes used in tax calculations.
- Review and update tax-related member publications.

Document decision-making and administrative processes at each department level.

- Identify and archive obsolete materials stored in departmental and common electronic directories, e.g., TRS Common, EXCOMMON.
- Determine staff responsibility by department for drafting documentation.
- Develop timetable.
- Review, revise, and finalize departmental documentation.
- Create new documentation repository for internal policies, forms, presentations, documents, and other materials to assist staff to perform work duties, logically organized for easy staff access.
- Determine responsibility for periodic documentation review and updating.
- Devise succession operating plan.

Develop coordinated ethics education program for staff and trustees.

- Review statutory requirements.
- Investigate in-house and external training options.
- Design training curriculum tailored to each person's TRS functions.

Goal 3

Advance TRS technological systems to provide state of the art service.

Develop a TRS Going Green Initiative that will find alternative ways of disseminating information while reducing printing, distribution, and overhead costs.

- Increase use of the Internet and Web-based applications.
- Present non-paper-based alternatives for internal administrative procedures.
- Develop an Intranet for communication between staff.
- Conduct a staff awareness campaign to reduce print costs.
- Incorporate energy consumption as an evaluation criterion for purchases.

Provide enhanced mechanisms for securing TRS data as TRS application systems are deployed to external users.

- Establish standards/controls for virtual private networking (VPN) to allow staff working in the field to access TRS applications.
- Incorporate Web-based methods/procedures into the TRS Systems Methodology.

Incorporate new/upgraded software and hardware to improve business processes.

- Stay current on existing business software.
- Investigate new software to promote collaboration and streamline workflows.

Create more personalized, tailored member correspondence.

- Identify mechanisms and correspondence that would be improved by a more personalized message.
- Identify the areas to tailor and variable data required to support those mechanisms.

Reinforce staff and member confidence in TRS application systems.

- Improve information dissemination of TRS knowledge among staff.
- Improve quality of application deployments.
- Investigate improved methods for tracking projects, managing issues, and supporting TRS applications.

Major Initiatives

During our review of the overall planning functions, we noted the System is monitoring progress in achieving the stated goals and is implementing programs pursuant to the plan. The Executive Director and the Board of Trustees receive a periodic status report from various individuals who are the project's team leaders to determine progress being made toward accomplishing established goals and objectives.

The Illinois Pension Code, 40 ILCS 5/16-158 (Code), as amended by Public Act 88-0593 and subsequent acts, provides a 15-year phase-in to a 35-year plan that amortizes most of the unfunded liability faced by the System. In general, Public Act 88-0593 provides that:

- For fiscal years 1996 through 2010, the contribution to the System, as a percentage of payroll shall be increased in equal annual increments so that by fiscal year 2011, the State is contributing at the rate required in this Section of the law.
- For fiscal years 2011 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045. In making these determinations, the required contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.
- The funding legislation also provided for the establishment of a continuing appropriation of the required employer contributions to the System. The purpose of the continuing appropriation was to remove these funds from the annual budgetary process.

Public Act 90-0582 was enacted in 1998. One aspect of this act was to change the formula used to compute a member's retirement. The act established minimum State contribution rates so that the State's cost of the formula change would be paid as a level percent of pay instead of being phased in. The minimum State contribution rates were in effect from fiscal year 1999 through fiscal year 2004.

Public Act 93-0002 became law on April 7, 2003, and authorized the State to issue \$10 billion in general obligation bonds for the purpose of making contributions to the retirement systems. On June 12, 2003, the State issued \$10 billion in General Obligation Bonds, Pension Funding Series of June 2003.

Commencing with fiscal year 2005, the maximum State contribution under Public Act 93-0002 equals the State contribution that would have been required if the general obligation bond contribution had not been made, reduced – but not below zero – by the State's debt service on each system's respective portion of the full \$10 billion of General Obligation Bond, Pension Funding Series of June 2003.

In June 2005, Public Act 94-0004 became law. This legislation further modified the funding plan by reducing the amount of required employer contributions for fiscal years 2006 and 2007 that would have otherwise been required under Public Act 88-0593, as modified by Public Act 93-0002. This act specified the appropriation amounts for fiscal years 2006 and 2007. The required State contributions for fiscal years 2008 through 2010 were increased incrementally as a percentage of the participant payroll so that by fiscal year 2011 the State is contributing at the required level contribution rate to achieve the financing objective of a 90% funded status by the end of fiscal year 2045.

Public Act 96-0043 became law on July 15, 2009. As required under PA 96-0043, the method for determining the actuarial value of assets used to determine the employer contribution rate was changed beginning with the June 30, 2009 valuation. The method was changed from the market/fair value to a smoothed value. The smoothed value recognizes actuarial investment gains or losses for each fiscal year, beginning with FY09, in equal amounts over the ensuing five-year period.

Public Act 96-0889 added a lower tier of benefits for members who first contribute to TRS on or after January 1, 2011. When Public Act 96-1511 was enacted in January 2011, it required the System to assume that the provisions of Public Act 96-0889 were in effect on June 30, 2009 and to recalculate and recertify the fiscal year 2011 state funding requirement. Under this recertification, the fiscal year 2011 state contribution requirement was reduced by \$189,243,000, from \$2,358,441,000, to \$2,169,198,000.

Public Act 97-0694 directed the Auditor General to contract with or hire an actuary to serve as the State Actuary. In addition, the Act requires the System's Board of Trustees (Board) to submit to the State Actuary, the Governor and the General Assembly a proposed certification of the amount of the required State contribution to the System by November 1 of each year. On or before January 1 of each year the State Actuary shall issue a preliminary report concerning the proposed certification identifying, if necessary, recommended changes in actuarial assumptions that the System's Board must consider before finalizing its certification of the required State contributions. On or before January 15 of each year the System's Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The Board's certification must note any deviation from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

In June 2012, the Governmental Accounting Standards Board (GASB) approved a pair of related Statements that substantially changes the accounting and financial reporting of pensions by state and local governments and pension plans. GASB Statement No. 67, effective July 1, 2013, *Financial Reporting for Pension Plans*, addresses financial reporting for state and local government pension plans. GASB Statement No. 68, effective July 1, 2014, *Accounting and Financial Reporting for Pensions*, establishes new accounting and financial reporting requirements for governments that provide their employees with pensions. The guidance contained in these GASB Statements will change how governments calculate and report costs and obligations associated with pensions. The new GASB Statements relate to accounting and financial reporting issues only; the Statements do not address how governments approach pension plan funding.

In addition, the State appropriates funds to reimburse the System for the payment of minimum benefits to be provided to certain qualified members. The appropriation is based on projected payments. The receipts are based on actual disbursements. In FY 13, \$1.0 million of the \$1.2 million appropriation was used. In FY12 \$1.2 million of the \$1.3 million appropriation was used.

On December 5, 2013, Governor Pat Quinn signed Public Act 98-0599 into law, with an effective date of no earlier than June 1, 2014. The law's intent is to eliminate the TRS unfunded liability by 2044 and the long-term stabilization of the System's finances. This is accomplished by, among other things, reducing the annual cost of living adjustment, capping pensionable earning of Tier I members, delaying the retirement date of members under age 46, reducing Tier I member contributions, guaranteeing adequate annual state contributions, earmarking extra funds to help pay off the unfunded liability and calculating the System's liabilities under standard actuarial practices. A court challenge to the law's constitutionality is expected. TRS continues to analyze this legislation and its effect on TRS members.

Locally Held Fund

The System uses a locally held fund "TRS Master Trustee Account" (pension trust fund No. 1307) held at State Street Bank and Trust Company in Boston, Massachusetts to invest contributions received by the System and to transfer funds to the State Treasurer as needed to cover System expenditures. The Illinois State Treasurer is the ex-officio custodian of the funds of the System.

Rates of Return

The System operates under a long-range investment plan to maintain a diversified portfolio to manage risk. The objectives of the System's investment portfolio are as follows:

- At least equal to the assumed actuarial interest rate, currently 8.0 percent per year.
- At least equal to the return of the weighted policy index which represents a weighted average of each asset class benchmark, based on the total fund's target asset allocation. The weighted policy index at June 30, 2013 was 12.5 percent.
- Achieve a total return of at least 4.75 percent per annum in excess of the actuarial assumed inflation rate, the current actuarial assumed rate of inflation is 3.25 percent per annum.

The investment return for FY12 and FY13, net of fees, was 0.8 percent and 12.8 percent, respectively. The System's total fund performance surpassed the policy index by 0.3 percent for the year ended June 30, 2013. The investment return also surpassed the 8.0 percent actuarial return assumption and the total return expectation, which currently computed would also be a return of 8.0 percent.

Taken as a whole, the System investment portfolio produced a market rate of return of 12.8 percent and 0.8 percent for fiscal years 2013 and 2012, respectively. All System returns are net of fees. The System's total time weighted return of 12.8 percent for the year ended June 30, 2013 exceeded the investment objectives.

Proceeds from General Obligation Bonds, Pension Funding Series June 2003

Public Act 93-0002 (Act) became effective on April 7, 2003 and authorized the State of Illinois to issue \$10 billion of General Obligation Bonds for the purpose of making contributions to designated retirement systems. The Teachers' Retirement System of the State of Illinois (System) is one of the "designated retirement systems" for the purpose of this new law. On June 12, 2003, the State of Illinois issued \$10 billion of General Obligation Bonds, Pension Funding Series of June 2003. The net bond proceeds were allocated among the five state-funded retirement systems to reduce their actuarial reserve deficiencies as provided in the Act. The System received an allocation of bond proceeds equal to \$4,330,373,948 on July 2, 2003.

The monies were deposited with the master trustee on July 2, 2003. The System's Board of Trustees approved investing the pension bond proceeds as follows during fiscal year 2013 and 2012:

| | Amount | Percentage |
|--------------------------------------|------------------------|-------------------|
| Investment Allocation June 30, 2013: | | |

Analysis of Changes in Statutory Reserve Accounts

Statutory reserve accounts are maintained in accordance with the provisions of 40 ILCS 5/16-101 et.seq.. A brief discussion of the statutory reserve accounts follows:

Benefit Trust

This reserve serves as a clearing account for System income and expenses. The reserve is credited with contributions from the State of Illinois that are not specifically allocated to the Minimum Retirement Annuity Reserve, member and employer contributions, income from System invested assets, and contributions from annuitants who qualify for automatic annual increases in annuity. The reserve accumulates, with 6 percent interest, the contributions by members prior to retirement. Contributions have been 7.5 percent of salary since July 1, 1998. Contributions are fully refundable upon withdrawal from the System, excluding interest credited thereon. The interest accrued is refundable only in the event of death. Interest is credited as of the date of retirement or death of those retiring or dying during the year and as of the end of the fiscal year for all other members. Interest is computed annually based upon the individual member's balance in the reserve at the beginning of the fiscal year. This reserve is charged for transfers to the Minimum Retirement Annuity Reserve and all refunds to withdrawing members, retirement annuity payments (except as provided by the Minimum Retirement Annuity Reserve), benefits that are paid to temporarily or accidentally disabled members, death benefits paid, and refunds to annuitants for survivor benefit contributions. The expected benefit payments do not equal the present value of the reserve. The additional amount needed as calculated by the actuary is \$55,731,797,000 in 2013 and \$52,079,548,000 in 2012.

Minimum Retirement Annuity

The minimum annuity is set by law at \$25 per month for each year of creditable service to a maximum of \$750 per month after 30 or more years of creditable service. To qualify, annuitants are required to make a one-time contribution that is credited to the reserve. Interest at 6 percent is credited to the reserve annually, based upon the average reserve balance. The State of Illinois also appropriates funds necessary to pay the minimum benefits provided in the legislation. All benefits paid under this program are charged to the reserve. This reserve is fully funded.
