FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

INADEQUATE CONTROL OVER SERVICE PROVIDERS

The Department of Revenue (Department) had not implemented adequate internal controls over its service providers.

We performed testing of four service providers identified by the Department. The Department utilized service providers for mail processing, lock box services, data entry and credit card payment processing.

Our testing noted the Department had not:

- Performed adequate independent reviews for two of four (50%) service providers
- Conducted an analysis to determine the impact of noted deviations within the SOC reports for one of four (25%) service providers.
- Monitored and documented the operation of the Complementary User Entity Controls (CUECs) related to the Department's operations for two of four (50%) service providers.

In addition, the department obtained a bridge letter for one (25%) service provider; however, the Department did not address the risk of relying on the bridge letter which covered nine months of the fiscal year. (Finding 1, pages 68-69)

We recommended the Department continue to strengthen its controls in assessing and monitoring all service providers. Further, we recommended the Department:

- Review SOC reports (or perform independent reviews) of internal controls associated with outsources systems at least annually.
- Conduct an analysis to determine the impact of the noted deviations within the SOC reports.
- Monitor and document the operation of the CUECs related to the Department's operations.
- Ensure no significant changes to the service provider's internal control when bridge letters are obtained for extended periods.

The Department accepted the finding and stated they have implemented procedures to ensure there are controls in place to assess and monitor service providers.

Independent reviews over service providers not performed

Analysis of SOC report not performed

Monitoring and documentation of CUEC's was not performed

Risk of relying on bridge letter was not addressed

Department accepted the finding
