# INDEPENDENT ACCOUNTANT'S REPORT ON STATE COMPLIANCE, ON INTERNAL CONTROL OVER COMPLIANCE, AND ON SUPPLEMENTARY INFORMATION FOR STATE COMPLIANCE PURPOSES

Honorable Frank J. Mautino Auditor General State of Illinois

#### **Compliance**

As Special Assistant Auditors for the Auditor General, we have examined compliance by the State of Illinois, Office of the Secretary of State with the requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during the two years ended June 30, 2019. The management of the Office of the Secretary of State is responsible for compliance with these requirements. Our responsibility is to express an opinion on the Office of the Secretary of State' compliance based on our examination.

#### The specified requirements are:

- A. The Office of the Secretary of State has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The Office of the Secretary of State has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The Office of the Secretary of State has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations. As described in the accompanying Schedule of Findings as item 2019-001, the Office of the Secretary of State had not complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the Office of the Secretary of State are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.

E. E. Money or negotiable securities or similar assets handled by the Office of the Secretary of State on behalf of the State or held in trust by the Office of the Secretary of State have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act (the *Audit Guide*). Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Office of the Secretary of State complied, in all material respects, with the specified requirements listed above. An examination involves performing procedures to obtain evidence about whether the Office of the Secretary of State complied with the specified requirements listed above. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Office of the Secretary of State' compliance with specified requirements.

Our examination disclosed material noncompliance with the following specified requirements applicable to the Office of the Secretary of State during the two years ended June 30, 2019. As described in the accompanying Schedule of Findings as item 2019-001 the Office of the Secretary of State had not complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations

In our opinion, except for the material deviations from the specified requirements described in the preceding paragraph, the Office of the Secretary of State complied with the specified requirements during the two years ended June 30, 2019, in all material respects. However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings as items 2019-002 through 2019-010.

The Office of the Secretary of State's responses to the findings identified in our examination are described in the accompanying schedule of findings. The Office of the Secretary of State's responses were not subjected to the procedures applied in the compliance examination and, accordingly, we express no opinion on the responses.

The purpose of this report on compliance is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Internal Control over Compliance**

Management of the Office of the Secretary of State is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control).

In planning and performing our examination, we considered the Office of the Secretary of State's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Office of the Secretary of State's compliance with the specified requirements and to test and report on the Office of the Secretary of State's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Office of the Secretary of State's internal control. Accordingly, we do not express an opinion on the effectiveness of the Office of the Secretary of State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings as item 2019-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings as items 2019-002 through 2019-010 to be significant deficiencies.

As required by the *Audit Guide*, immaterial findings excluded from this report have been reported in a separate letter to your office.

The Office of the Secretary of State's responses to the findings identified in our examination are described in the accompanying Schedule of Findings. We did not examine the Office's responses and, accordingly, we express no opinion on the responses.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Frank J. Mautino Auditor General State of Illinois

#### **Report on the Financial Statements**

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the State of Illinois, Office of the Secretary of State, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State of Illinois, Office of the Secretary of State's basic financial statements, and have issued our report thereon dated January 30, 2020.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the State of Illinois, Office of the Secretary of State's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Internal Control Over Financial Reporting**

Management of the State of Illinois, Office of the Secretary of State is responsible for establishing and maintain effective internal control over financial reporting (internal control).

In planning and performing our audit of the financial statements, we considered the State of Illinois, Office of the Secretary of State's internal control to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Illinois, Office of the Secretary of State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Illinois, Office of the Secretary of State's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings as item 2019-001 that we consider to be a material weakness.

# Office's Response to Findings

The Office's response to the finding identified in our audit is described in the accompanying Schedule of Findings. The Office's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Illinois, Office of the Secretary of State's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Illinois, Office of the Secretary of State's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### **SCHEDULE OF FINDINGS**

#### CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS

**2019-001 FINDING** (Weaknesses in Determination of Cash on Hand and Cash in Transit Amounts Reported in the Financial Statements)

The Office of the Secretary of State (Office) did not properly update calculations and used incorrect query totals to determine the adjustment to record cash on hand and cash in transit at fiscal year-end. Additionally, the Office failed to record the cash on hand entry for the General Revenue Fund.

During the testing over the cash on hand and the cash in transit balances reported in the General Revenue Fund (Fund 0001) and the Road Fund (Fund 0011) auditors noted the following errors in the calculation:

- The spreadsheet used to calculate the total cash on hand and cash in transit for the Road Fund improperly included fiscal year 2018 data. The amount of June receipts held in the Treasurer's Clearing Accounts but not yet remitted to the Illinois Office of the Comptroller at June 30, 2019 was overstated by \$477 thousand. The amount of June receipts not yet deposited into the Treasurer's Clearing Accounts at June 30, 2019 was understated by \$15.2 million. The net understatement in the Road Fund due to this error was \$14.7 million.
- The spreadsheet used to calculate total cash on hand and cash in transit for the General Revenue Fund improperly included July 2020 receipts from the queries used to determine June receipts not yet deposited into the Treasurer's Clearing Accounts at June 30, 2019. This resulted in a \$6.6 million overstatement in the General Revenue Fund.
- The Office failed to report cash on hand for the General Revenue Fund resulting in an understatement of \$13.9 million.
- The spreadsheet used to calculate the cash in transit for the General Revenue Fund for delinquent registration fees understated the amount allocated to the General Revenue Fund and overstated the amount allocated to the Road Fund by \$828 thousand.
- In addition to the items above, auditors noted other errors in the spreadsheets that resulted in a \$6 thousand overstatement in the Road Fund.

For the Two Years Ended June 30, 2019

#### 2019-001 FINDING

(Weaknesses in Determination of Cash on Hand and Cash in Transit Amounts Reported in the Financial Statements) (Continued)

Total misstatements noted for the fiscal year ending June 30, 2019 related to the above errors were as follows:

- Understatement of cash and licenses and fee revenue of \$3 million in the General Revenue Fund.
- Understatement of cash and other tax revenue of \$5.1 million in the General Revenue Fund.
- Understatement of cash and licenses and fee revenue of \$13.9 million in the Road Fund.

In accordance with generally accepted accounting principles (GAAP), all assets, liabilities, revenues, and expenses should be accurately measured and recorded. Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, requires fund financial statements to be prepared using the current financial resources measurement focus and the modified accrual basis of accounting which revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to ensure State resources are used efficiently and effectively.

During the prior engagement period, Office management indicated the Department of Budget and Fiscal relied on information provided by the Accounting Revenue Department to accurately report cash in their GAAP packages and Financial Statements.

During the current engagement period, Office management indicated the Office's process for calculating cash on hand and cash in transit is an intricate and tedious process with many manually intensive components. As a result, errors were made during this process, which resulted in the issues noted above.

Failure to properly review and update calculations used for year-end adjustments could result in inaccurate reporting on the Office's financial statements. (Finding Code No. 2019-001, 2018-001, 2017-001, 2016-001)

#### **RECOMMENDATION**

We recommend the Office implement a process to review the calculation over the cash on hand and cash in transit process to determine that the calculation includes the correct fiscal year information and considers all in transit activity as of June 30<sup>th</sup>.

For the Two Years Ended June 30, 2019

**2019-001 FINDING** 

(Weaknesses in Determination of Cash on Hand and Cash in Transit amounts Reported in the Financial Statements) (Continued)

#### **OFFICE RESPONSE**

The Office agrees with the recommendation. The issues noted have been presented and discussed with the Office personnel responsible for the preparation of this information. Further, the Office has committed additional resources to aid in the review and oversight of the year-end adjustment calculations.

For the Two Years Ended June 30, 2019

#### CURRENT FINDINGS – STATE COMPLIANCE

#### **2019-002 FINDING** (Noncompliance with the Election Code)

The Illinois Office of the Secretary of State (Office) failed to fully comply with applicable sections of the Election Code (10 ILCS 5) (Code).

During the engagement period, the Office was noncompliant with two sections of the Code as follows:

- During fieldwork, we noted a downloadable, printable voter registration form was not made available on the Office's website. The Code (10 ILCS 5/1A-17) states the Office must make available on its website a downloadable, printable voter registration form. Office management stated the requirement to have a downloadable, printable voter registration form on its website predates implementation of online voter registration through the website. Office management stated, when online voter registration became available, it superseded the need for the paper process.
- While the Office does require employees to adhere to certain procedural standards, including the Driver's Privacy Protection Act, 18 USC 2721 and within its policy manual, the Office has not established specific policies and procedures to protect the privacy and security of voter information as required by the Code. The Code (10 ILCS 5/1A-16.7(k)) requires the State Board of Elections, the Office, and each designated automatic voter registration agency to implement policies and procedures to protect the privacy and security of voter information as it is acquired, stored, and transmitted among agencies, including the retention and preservation of voter information. The Code states the following is to be designated as confidential: (1) any portion of an applicant's Social Security number; (2) any portion of an applicant's driver's license number or State identification number; (3) an applicant's decision to decline voter registration; (4) the identity of the person providing information relating to a specific applicant; and (5) the personal residence and contact information of any applicant for whom notice has been given by an appropriate legal authority.

Office management stated the Office executed an interagency agreement with the Illinois State Board of Elections to implement the Automatic Voter Registration program. The Office believed the interagency agreement, which recognizes voter information is confidential and requires each agency to protect such information and identifies procedures for how data will be exchanged in a secure manner, was adequate. Office management also stated the voter registration process is integrated into the driver's license/identification card application process, for which the Office has existing policies and procedures concerning confidential information and access limitations.

For the Two Years Ended June 30, 2019

#### **2019-002 FINDING** (Noncompliance with the Election Code) (Continued)

Failure to make a downloadable, printable voter registration form available on the Office's website and formally adopt policies and procedures relating to handling confidential information is in violation of State statute. In addition, the failure to formally develop and adopt policies and procedures concerning the automatic voter registration program could result in an individual's information being seen by unauthorized individuals. (Finding Code No. 2019-002)

#### **RECOMMENDATION**

We recommend the Office make available on its website a downloadable, printable voter registration form, or seek legislative remedy from this requirement. We also recommend the Office formally implement policies and procedures to protect the privacy and security of voter information as it is acquired, stored, and transmitted among agencies, including the retention and preservation of voter information.

#### **OFFICE RESPONSE**

The Office accepts this recommendation. The Office will continue to evaluate, review, and monitor its ongoing compliance with this statutory requirement.

#### **2019-003 FINDING** (Noncompliance with the Illinois Identification Card Act)

The Illinois Office of the Secretary of State (Office) failed to full comply with applicable sections of the Illinois Identification Card Act (Act).

During the engagement period, the Office issued nearly 35,000 identification cards. During our testing of the Office's issuance of identification cards, we noted the following exceptions:

- The Office has not drafted administrative rules to administer the Wallet Card Program as required by the Act. Currently the Office operates from guidelines related to the distribution of the wallet cards. The Office offers driver's license restrictions and an Illinois Department of Services (DHS) Wallet Card to help notify law enforcement that a person may have difficulty communicating due to a disability. The Act (15 ILCS 335/4A-1) requires the Office to work with the Department of Human Services to adopt rules in the administration of the Wallet Card. Office management indicated the Office believed all of the requirements of the program were set forth in statute. Office management stated it made the decision to deviate from the statutory requirement because it believed the promulgation of administrative rules would not have aided the public or the Office in the implementation of the program.
- The housing status of four of 60 (7%) individuals tested who were provided homeless identification cards during fiscal years 2018 and 2019 were not verified by a human services, legal services or other worker that had knowledge of the individual's housing status during fiscal year 2018 and 2019. The Act (15 ILCS 335/4C) requires that an individual's status as a "homeless person" on an Illinois identification card be verified by a human services, legal services, or other worker that has knowledge of the individual's housing status. Office management stated the exceptions were due to lack of training in verifying homeless status.
- The veteran status of two of 60 (3%) individuals who were provided veteran identification cards during fiscal years 2018 and 2019 were not verified by the Illinois Department of Veterans Affairs or using the Form 214 from the U.S. Department of Defense. The Act (15 ILCS 335/5) requires that an individual's status as a veteran on an Illinois identification card be verified by the Department of Veterans Affairs or Form 214 from the Department of Defense. Office management stated the underlying cause was lack of training.
- During our testing, we noted the Office issued two individuals more than three identification cards in one year. These individuals were issued four identification cards in 2018. The Act states (15 ILCS 335/7(c)), notwithstanding any other provisions of the Act, the Secretary of State shall restrict the issuance of multiple duplicate identification cards to any individual to three per year and ten for the life of individual. Office management attributed the exceptions to lack of training and communication.

For the Two Years Ended June 30, 2019

#### **2019-003 FINDING** (Noncompliance with the Illinois Identification Card Act) (Continued)

• One of sixteen (6%) individuals tested who were sent a letter notifying them that the identification card associated with their name would be cancelled was not allowed at least five days to appear at a Drivers Services Facility before cancellation as permitted by the Act. The individual tested was allowed one day. The Act (15 ILCS 335/12.5) states the Secretary of State may, upon written notices of at least five days to the person, require the person to appear at a Drivers Services facility if (i) the Secretary has issued an identification card in error; (ii) the person has become ineligible to retain the identification cards; or (iii) the Secretary has good cause to believe that the identification card was issued based on invalid, fictitious, or fraudulent documents. Office management stated the data input employee mistakenly entered the incorrect date which was included in the notification letter in error.

Failure to adopt rules to administer the Wallet Card Program, verify the housing status of those seeking the homeless person status, verify an individual's status as a veteran, restrict the issuance of multiple duplicate identification cards, and allow an individual at least five days to appear at a Drivers Services Facility before the cancellation of an identification card represent noncompliance with the Act. (Finding Code No. 2019-003)

#### **RECOMMENDATION**

We recommend the Office ensure compliance with all elements of the Act, or seek legislative remedy for the requirements for which it believes changes are necessary.

#### **OFFICE RESPONSE**

The Office accepts this recommendation. The Office will continue to evaluate, review, and monitor its ongoing compliance with the statutory requirements of the Illinois Identification Card Act.

For the Two Years Ended June 30, 2019

#### **2019-004 FINDING** (Noncompliance with Various Statutory Mandates)

The Illinois Office of the Secretary of State (Office) failed to comply with various statutory mandates.

During testing we noted:

- The Office did not submit the 2016, 2017 and 2018 Agency Workforce Reports to the Office of the Governor by the following January 1st of each respective year. All three reports were submitted on July 30, 2019, which resulted in them being 940, 575, and 210 days late, respectively. The State Employment Records Act (5 ILCS 410/1 et seq.) requires State agencies to annually report to the Office of the Secretary of State and the Governor's Office the number of minorities, women, and physically disabled persons along with the related salary and statistical information to provide State officials and administrators with the information to help guide efforts to achieve a more diversified workforce. The report is to be filed by January 1 of each year. Office officials stated the Agency Workforce Reports were filed, as required, with the Office of the Secretary of State for 2016, 2017, and 2018, but not with the Office of the Governor, due to a clerical error.
- Three of 40 (8%) contracts tested totaling \$72,012, and five of 18 (28%) lease agreements tested totaling \$601,592 did not include a Right to Audit Records Clause. Section 20-65(b) of the Illinois Procurement Code (30 ILCS 500) (Code) requires every contract include a right to audit clause stating all books and records are required to be maintained and be available for review and audit by the Auditor General, chief procurement officer, internal auditor, and the purchasing agency. Office management stated the cause was due to the Division of Property Management not consistently using the Office's standard contract template which includes the missing certifications.

Failure to submit reports required in a timely manner prevents fulfillment of the State Employment Records Act, which is to provide information to help guide efforts to achieve a more diversified State work force. Failure to ensure proper disclosures are included in all contractual and lease agreements is a violation of State statute and could potentially compromise public accountability and transparency. (Finding Code No. 2019-004)

#### RECOMMENDATION

We recommend the Office implement procedures to ensure the Agency Workforce Report is submitted to all required parties in a timely manner as required by the Acts and its contracts and leases contain all of the requirement clauses.

#### **OFFICE RESPONSE**

The Office accepts these recommendations. The Office will continue to evaluate, review, and monitor its compliance with statutory mandated activities.

For the Two Years Ended June 30, 2019

#### **2019-005 FINDING** (Weaknesses Related to Property and Equipment)

The Illinois Office of the Secretary of State (Office) did not demonstrate adequate control over property and equipment during the engagement period. Specific deficiencies noted as a result of our testing are described below.

• During our testing of the Office's preparation of the agency Report of State Property (C-15), we noted errors in one of eight (13%) quarters tested. Building additions reported on the Office's C-15 for the fourth quarter of fiscal year 2018 of \$1,270,453 did not agree to the Office's property records which were \$1,591,843. As a result, the Office's C-15s were understated by a total of \$321,390. The Schedule of State Property (Schedule 5) was not corrected for these errors.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources.

- The Office reported a balance of \$100,000 for historical treasures and works of art on its Capital Asset Summary (SCO-538). The Office did not maintain support for the balance, nor any additions or deletions that have occurred since fiscal year 2002. According to Office personnel, this balance was established in fiscal year 2002 when the Office implemented GASB Statement No. 51, Accounting and Financial Reporting for Intangible Assets. The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources.
- Nine of forty (23%) items of property and equipment tested were not added to property acquisition records in a timely manner as required by the Illinois Administrative Code (44 Ill. Adm. Code 5010.400). The assets were added 17 to 342 days late. The Illinois Administrative Code requires agencies to adjust property records in a timely manner for acquisition, change or deletion of equipment items. Prior to May 3, 2019, agencies had 30 days to record the acquisition, any change, or the deletion of equipment items. Effective May 3, 2019, agencies have 90 days to record the acquisition, any change, or the deletion of equipment items.

#### 2019-005 FINDING

(Weaknesses Related to Property and Equipment) (Continued)

• During fieldwork we tested property inventory at the eleven drivers license facilities. We noted the following exceptions as a result of our testing:

The State Property Control Act (30 ILCS 605/4) requires responsible officers of the State to maintain accountability for the supervision, control, and inventory of all property under their jurisdiction to ensure the proper accounting and safeguarding of State assets. The Statewide Accounting Management System (SAMS) (Procedure 29.10.10) requires the Department to retain detailed records including the organization unit charged with the custody of each item, as well as the location of each item of property and equipment controlled by the Department.

Office management attributed the cause of the exceptions to a variety of origins including: human error; competing priorities; the decision to wait on obtaining all of the needed information to record the asset into the Office's property records, regardless of date, rather than focus on the timeline outlined in the Illinois Administrative Code; and the difficulties involved in maintaining property control in a decentralized organization.

For the Two Years Ended June 30, 2019

#### **2019-005 FINDING** (Weaknesses Related to Property and Equipment) (Continued)

Inaccurate property reporting reduces the reliability of statewide property information. Failure to maintain accurate property control records increases the potential for fraud and possible loss or theft of State property. Failure to properly update property acquisition records is a violation of Code and increases the risk of inaccurate recordkeeping. (Finding Code No. 2019-005)

#### **RECOMMENDATION**

We recommend the Department implement controls and procedures to ensure its property and equipment is reported and accounted for in a manner which complies with State statute and the Illinois Administrative Code.

# **OFFICE RESPONSE**

The Office accepts these recommendations. The Office will continue to evaluate, review, and monitor its compliance with mandated property control requirements.

For the Two Years Ended June 30, 2019

# **2019-006 FINDING** (Weaknesses in Performing Reconciliations)

The Office of the Secretary of State (Office) could not demonstrate the timely reconciliation of Office records to those of the Illinois Office of the Comptroller and, in come cases, failed to perform reconciliations of Office records to those of the Illinois Office of the Comptroller.

During fieldwork we tested the reconciliation of the Office's appropriation, receipt, cash, contract, and obligation records to those of the Illinois Office of the Comptroller. We noted the following exceptions:

#### Monthly Appropriation Status Report (SB01)

During our testing of six of six (100%) SB01 reconciliations prepared by the Office, we noted there were no date stamps or sign offs to indicate when the reconciliations were performed. As a result, it was not possible for the Office to demonstrate when the reconciliations were prepared and whether they were performed in a timely manner. The Statewide Accounting Management System Manual (SAMS) (Procedure 11.40.20) requires the reconciliation of Monthly Appropriation Status Report be performed within 60 days of month end. Office management indicated it had maintained and performed monthly reconciliations of the SB01 according to procedures outlined in SAMS. However, Office management stated the Office did not date or initial these reconciliations at the time they were completed, thus the Office could not provide validation of the timely completion of the reconciliations.

#### Monthly Revenue Status Report (SB04)

The reconciliations performed by the Office to compare revenues per agency records to those of the Illinois Office of the Comptroller were not properly utilized to correct differences identified. The reconciliations performed were not reviewed and differences that were noted in the reconciliations were not always resolved timely. The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to ensure revenues are properly recorded and accounted for to permit the preparation of accounts and reliable financial reports and to maintain accountability over the State's resources. Office management attributed the cause to procedural deficiencies.

#### Monthly Cash Report (SB05)

The Office reconciles its Monthly Cash Report on a quarterly basis rather than monthly as required by SAMS. In addition, for the year end reconciliations obtained, we noted there were no date stamps or sign offs to indicate when the reconciliations were performed. As a result, it was not possible for the Office to demonstrate when the reconciliations were prepared and whether they were performed in a timely manner. The Statewide Accounting

#### **2019-006 FINDING** (Weaknesses in Performing Reconciliations) (Continued)

Management System Manual (SAMS) (Procedure 09.40.30) requires the monthly reconciliation of Monthly Cash Report be performed within 60 days of month end. Office management stated, based on operational experience and reporting needs, the SB05 reconciliations have been conducted on a quarterly basis rather than monthly. Office management stated it does not have a formal signature process to validate the timely preparation of the reconciliations.

#### Obligation Activity Report (SC14)

The Office did not perform any Obligation Activity Report reconciliations to its obligation records during the engagement period. SAMS (Procedure 15.30.30) requires the reconciliation of the Obligation Activity report within 60 days of month end. Office management stated, though it performed regular reconciliations for the Obligation Activity Report (SC15), the Office has not implemented procedures to review and reconcile to the additionally provided SC15. Office management stated it believes this reconciliation is substantially performed each time an obligation transaction is filed with the Comptroller through normal agency and Comptroller pre-audit procedures.

Failure to document when reconciliations were performed prevents the Office from adequately monitoring their internal controls over timely completion of reconciliations as well as ensuring compliance with SAMS. Failure to perform reconciliations is noncompliance with SAMS and increases the risk differences will go undetected and corrected. Failure to utilize reconciliations to timely resolve differences identified increases the risk differences will go uncorrected. (Finding Code No. 2019-006)

#### **RECOMMENDATION**

We recommend the Office implement procedures to ensure reconciliations are performed in accordance with SAMS and differences noted are identified and resolved timely.

#### **OFFICE RESPONSE**

The Office agrees with the recommendation. The Office has implemented new procedures to ensure the reconciliations are reviewed and differences noted are corrected in a timely manner.

# **2019-007 FINDING** (Inaccurate Agency Fee Imposition Reports)

The Office of the Secretary of State (Office) had weaknesses in reporting fees collected and other statutorily required information on the Agency Fee Imposition Reports filed during the engagement period.

Our testing of the Office's Agency Fee Imposition Reports (Reports) filed during the engagement period noted weaknesses concerning the reporting of fees collected and compliance with the statutory reporting requirements. Specifically:

- Three fees in three funds listed within the 2017 Report did not agree with the Office's records. The differences noted ranged from \$383 to \$1,152,000 and resulted in an understatement of reported fees of \$1,172,383. Office management stated these exceptions were data entry errors.
- Fifteen fees in nine funds listed within the 2018 Report did not agree with the Office records. These differences ranged from \$300 to \$83,308,320 and resulted in an understatement of reported fees of \$105,514,325. Office management stated these exceptions were data entry errors.
- The following exceptions were noted for 60 fees tested, 30 for each Report, for statutory reporting requirements:

	2018	2017	
Exception Noted	Report	Report	Total
Description of fees imposed by the agency	6	1	7
Purpose of the fees	10	9	19
Statutory or other authority for the imposition of			
the fees	4	1	5
General population affected by the fee	6	8	14
Cost of the administration and the degree to which			
the goals of the program are met	30	30	60

Office management stated these exceptions were due to staff oversight.

The Illinois State Auditing Act (30 ILCS 5/3-8.5) states the Auditor General shall develop an Agency Fee Imposition Report Form to be used by all State agencies that impose and collect fees. The form shall provide for the reporting by State agencies of the following: (1) a list and description of fees imposed by the agency; (2) purpose of the fees; (3) statutory or other authority for the imposition of the fees; (4) the amount of revenue generated; (5) general population affected by the fee; (6) funds into which the fees are deposited; (7) use of the funds, if earmarked; and (8) cost of the administration and the degree to which the goals of the program are met.

# **2019-007 FINDING** (Inaccurate Agency Fee Imposition Reports) (Continued)

The State Comptroller Act (15 ILCS 405/16.2) requires all State agencies that impose and collect fees prepare the Agency Fee Imposition Report Form. The Fiscal Control and Internal Audit Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative control, to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources.

Inaccurate fee reporting reduces the reliability of Statewide fee information. Failure to include all of the required fee information results in statutory noncompliance. (Finding Code No. 2019-007)

#### **RECOMMENDATION**

We recommend the Office develop procedures, including a supervisor review prior to its submission, to ensure it presents complete and accurate Agency Fee Imposition Reports to the Illinois Office of the State Comptroller.

# **OFFICE RESPONSE**

The Office accepts the recommendation. The Office is working to develop improved procedures to ensure accurate and complete fee information is reported annually.

#### **2019-008 FINDING** (Weaknesses with Locally Held Funds)

The Office of the Secretary of State (Office) performed inaccurate reconciliations of its locally held funds records which resulted in inaccurate reports filed with the Illinois Office of the Comptroller. The Office also submitted late reports to the Illinois Office of the Comptroller for one of its locally held funds.

During fieldwork we tested the reconciliation of the Office's locally held fund and Report of Receipts and Disbursements for Locally Held Funds (C-17). We noted the following exceptions:

- Five of eight (63%) C-17s for the Safekeeping Fund (1344) contained errors in which the receipts and/or disbursements on the C-17 did not agree to the Office's accounting records. The total fiscal year 2018 dollar amount effect of the errors was an overstatement of \$91,490 reported on the C-17. The total fiscal year 2019 dollar amount effect of the errors was an understatement of \$7,775. These differences were immaterial to the Office's financial statements as a whole. Office management stated the errors identified were due to incorrect data input of the bank statements received for the fund.
- Three of eight (38%) C-17s tested for the Secretary of State Antique Vehicle Show Fund (1390) had errors in which the receipts and/or disbursement on the C-17 did not agree to the Office's accounting records. The total fiscal year 2018 dollar amount effect of the errors was an overstatement of \$9,772 reported on the C-17. These differences were immaterial to the Office's financial statements as a whole. In addition, we noted three of eight (38%) C-17s tested for the Secretary of State Antique Vehicle Show were filed late, ranging from 1 to 21 days late after the due date with the Office of the Comptroller. Office management stated the errors identified in this fund were due to untimely and incomplete entries in the fund ledger used to prepare the quarterly C-17.

The Statewide Accounting Management System Manual (SAMS) (Procedure 33.13.20) states the report should be completed using actual receipts and disbursements and requires that the reports be filed no later than the last day of the month following the last day of the quarter.

Fiscal Control and Internal Auditing Act (FCIAA) (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources.

For the Two Years Ended June 30, 2019

#### **2019-008 FINDING** (Weaknesses with Locally Held Funds) (Continued)

It is important to properly report locally held funds to the Illinois Office of the Comptroller as they are not subject to appropriation and are held outside the State Treasury. The Comptroller's Locally Held Fund Reporting System's major function is to capture cash receipt and disbursement information on a quarterly basis in order to provide a more comprehensive fiscal base for the State of Illinois. Failure to provide accurate and timely quarterly reports prevents the Comptroller from maintaining accurate year-to-date receipts, disbursements, and balances of locally held funds. (Finding Code No. 2019-008)

#### RECOMMENDATION

We recommend the Office implement procedures to ensure the locally held funds are accurately reconciled and the C-17s are accurately and timely prepared and submitted.

# **OFFICE RESPONSE**

The Office agrees with the recommendation. The Office will continue to evaluate, review, and monitor its compliance with locally held fund accounting procedures.

For the Two Years Ended June 30, 2019

#### **2019-009. FINDING** (Weakness with Payment Card Industry Data Security Standards)

The Office of the Secretary of State (Office) had not completed all requirements to demonstrate full compliance with Payment Card Industry Data Security Standards (PCI DSS).

The Office accepts credit card payments for various services including license and title registration, sticker and safe driver renewals. The Office accepts credit card payments using several different payment methods including Point-of-Sale (POS), Interactive Voice Response (IVR) and web/virtual terminals. In fiscal year 2018 and fiscal year 2019 the Office handled transactions over 4.3 million and 4.8 million, totaling approximately \$425 million and \$426 million, respectively.

Based on our review, we noted the Office had not:

- Formally assessed each program accepting credit card payments, the methods in which payments could be made, matched these methods to the appropriate Self Assessment Questionnaire (SAQ), and contacted service providers and obtained relevant information and guidance as deemed appropriate.
- Completed a SAQ addressing all elements of its environment utilized to store, process, and transmit cardholder data.
- Completed an Attestation of Compliance Form.

PCI DSS was developed to detail security requirements for entities that store, process or transmit cardholder data. Cardholder data is any personally identifiable data associated with a cardholder. In addition, PCI requires all members, merchants and service providers, who store, process, and/or transmit cardholder data to become PCI compliant. The PCI Standards require merchants to assess their environment and validate compliance with PCI on an annual basis. To assist merchants in the assessments of their environment, the PCI Council has established Self Assessment Questionnaires (SAQ) for validating compliance with PCI's core requirements.

During the prior engagement, Office officials indicated the Office was in the process of being PCI compliant; however, due to lack of a State budget, they were unable to address all concerns in the audit. During the current engagement, Office officials indicated the Office had formally assessed each program that accepts credit card payments, but had not started the process to complete the SAQ.

Failure to establish and maintain adequate procedures to handle and protect confidential and personally identifiable information could lead to the loss of credit card data or loss of the right to utilize certain credit card providers if not in compliance with current PCI standards. Additionally, loss of confidential data could result in identity theft or other unauthorized use, as well as unnecessary costs and liability to the Office. (Finding Code No. 2019-009, 2017-004, 2015-004, 2013-007)

#### RECOMMENDATION

We recommend the Office:

- At least annually, assess each program accepting credit card payments, the methods in which payments could be made, match the methods to the appropriate SAQ; and
- Complete the appropriate SAQ addressing all elements of its environment utilized to store, process, and transmit cardholder data and an Attestation of Compliance Form.

#### **OFFICE RESPONSE**

The Office accepts this finding. The Treasurer's Office administers the contract with the State's credit card processor and E-Pay program vendor. The Office is in the process of moving payment transactions over to the State's new credit card processor/ E-Pay program vendor by October 2020. The Office is correcting PCI weaknesses as they are identified. The Office will be completing the appropriate SAQ, as well as working toward compliance of this finding.

#### 2019-010. <u>FINDING</u>

(Lack of Adequate Controls over the Review of Internal Controls over Service Providers)

The Office of the Secretary of State (Office) did not obtain or conduct timely independent internal control reviews over its external service providers.

The Office utilizes five service providers for drivers' license processing. Some of the information controlled by the service providers would be classified as personally identifiable information.

During testing, we noted the Office had not obtained System and Organization Control (SOC) reports or conducted independent internal control reviews. Additionally, the contracts between the Office and the service providers did not contain a requirement for an independent review to be completed.

The Office is responsible for the design, implementation, and maintenance of internal controls related to information systems and operations to ensure resources and data are adequately protected from unauthorized or accidental disclosure, modifications, or destruction. This responsibility is not limited due to the process being outsourced.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources. In addition, generally accepted information technology guidance endorses the review and assessment of internal controls related to information systems and operations to assure the accurate processing and security of information.

Office management stated they awarded and signed a contract with the service provider starting in 2013. This was prior to the requirements for reviews of internal controls. The Office was unaware that the current contract language had not been updated.

Without having obtained and reviewed a SOC Report or another form of independent internal control review, the Office does not have assurance the external service providers' internal controls are adequate to ensure personal information is secure. (Finding Code No. 2019-010)

#### RECOMMENDATION

We recommend the Office:

• Obtain SOC reports or perform independent reviews of internal controls associated with outsourced systems at least annually.

#### 2019-010. <u>FINDING</u>

(Lack of Adequate Controls over the Review of Internal Controls over Service Providers) (Continued)

- Either obtain and review SOC reports for subservice organizations or perform alternative procedures to satisfy itself that the existence of the subservice organization would not impact its internal control environment.
- Document its review of the SOC reports and review all significant issues with subservice organizations to ascertain if a corrective action plan exists and when it will be implemented, any impacts to the Office, and any compensating controls.
- Review contracts with service providers to ensure applicable requirements over the independent review of internal controls are included.

#### **OFFICE RESPONSE**

The Office accepts this finding. The Office's Department of Information and Technology (DoIT) is working with the General Counsel's Office alongside DoIT's Security Administrator to make sure language is in its agreements with third party service providers related to the outsourcing of certain information systems. It will work to obtain, review, maintain and track SOC reports as well as ascertain if all requirements are followed. DoIT is also in the process of hiring a new position that will monitor, review and audit third party service providers.

### PRIOR YEAR FINDINGS NOT REPEATED

### A. **FINDING** (Inadequate Controls of Cash at Drivers License Facilities)

During the previous engagement, the Office of the Secretary of State (Office) permitted multiple employees to have access to the same cash drawers at the Drivers License Facilities.

During the current engagement, we visited 13 of the Office's 121 Drivers License Facilities. During our testing, we noted the Office had established procedures so only one employee has access to a cash drawer at a time. (Finding Code No. 2017-002, 2015-001, 2013-002, 11-1, 09-4, 07-4, 05-4)

### B. **FINDING** (Inadequate Change Fund Controls)

In the previous engagement, the Office did not maintain adequate records of the custodians of change funds and did not keep change fund information in a compartment that was locked at all times.

During the current engagement, we noted the Office maintained adequate records of the custodians of change funds. In addition, the weaknesses regarding the security of change fund information decreased. As a result, this finding was moved to the Schedule of Immaterial Findings. For the Two Years ended June 30, 2019 (Unaudited)

Jesse White, Illinois' 37th Secretary of State, assumed the office on January 11, 1999. The principal office of the Office of the Secretary of State (Office) is in the State Capitol, 213 Capitol Building, Springfield, Illinois 62756. The Secretary also maintains administrative offices in Chicago, as well as facilities throughout the State for drivers' licenses and motor vehicle related services.

The diverse responsibilities of this Office include the registering and titling of motor vehicles; issuing drivers' licenses; scheduling and conducting formal and informal hearings on driving privileges and registration matters; administering safety and financial responsibility laws; maintaining a vast data processing system which also assists law enforcement with immediate driver and motor vehicle information; and maintaining a Department of Police to enforce compliance with the provisions of the Illinois Vehicle Code, investigate code violations and maintain security at the Capitol Complex area in Springfield.

Other responsibilities include issuing corporate charters and certificates; registering dealers, brokers, agents, solicitors and investment advisors for securities; regulating the issuance of securities and enforcement of the Illinois Securities Law; retaining Uniform Commercial Code filings reflecting security interests of creditors financing businesses on the basis of secured transactions; oversight of the State library system through the Illinois State Library; store, maintain and preserve State historical documents and records at the Illinois State Archives and maintain the organ donation registry to match donors with recipient needs.

The Office is responsible for filing a significant number of legal and statutory documents, including Public Acts passed by the General Assembly, gubernatorial and amendatory vetoes, as well as registering trademarks, copyrights, notaries public and lobbyists. The Secretary serves as the Illinois State Librarian, State Archivist, and Ex-officio Clerk of the Court of Claims. The Office publishes the Rules of the Road, the Handbook of Illinois Government, the Illinois Blue Book, the Illinois Administrative Code, as well as other general educational materials for public distribution.

The Secretary of State has many departments that administer the various functions and duties prescribed by law and carry out the aforementioned responsibilities. The diversity of these responsibilities necessitates a comprehensive planning program.

The Office has a planning program, in which individual department goals are developed and updated at least annually. Upper management oversees the individual departments and is ultimately responsible for establishing Office-wide goals that will be accomplished if the individual department goals are met. The Office's plans consider resources, alternative approaches, and the feasibility of implementing programs pursuant to the plan and time schedule. External considerations include the needs of people of Illinois, legislative mandates and coordination with goals and objectives of other agencies for providing similar services.

### ANALYSIS OF SIGNIFICANT VARIATIONS IN RECEIPTS

For the Two Years Ended June 30, 2019 (Unaudited)

The Office of the Secretary of State's (Office) explanations for significant fluctuations in expenditures as presented in the Comparative Schedule of Cash Receipts (Schedule 7) are detailed below. For the purpose of this analysis, a significant fluctuation is defined as a variation that equaled or exceeded \$200,000 and 20% as compared to the prior year.

### **Business Services:**

### **Uniform Limited Partnership**

The increase in Uniform Limited Partnership (ULP) receipts from fiscal year 2018 to fiscal year 2019 was due to a \$858,525 deposit that was incorrectly deposited into the Uniform Limited Partnership account instead of the Corporation Taxes and Fees account in June 2019. The Office attempted to correct the error, by submitting a Receipt Transfer Request to the Office of the Comptroller (Comptroller) in July 2019. However, according to Office management, the Comptroller refused to process the Receipt Transfer Request stating because the receipt accounts were within the same fund, a correction would only result in a zero dollar net effect.

### **Limited Liability Co. Act**

Public Act 100-0571 decreased Limited Liability Company Act fees significantly. As a result, receipts in this account decreased from fiscal year 2017 to 2018, and again from fiscal year 2018 to fiscal year 2019.

### Library:

### **Federal Government**

Variances in this category are due to the availability of federal funding available to the Office within each fiscal year and then expenditure patterns of use of the funding. In fiscal year 2018, the Office received funding for the "Back to Books Program" for hundreds of libraries; the Office did not have funding for those programs in fiscal year 2017 or fiscal year 2019.

### **All Departments:**

### Other state agencies

The Office received two grants from the Illinois Emergency Management Agency for the purchase of a new bomb truck and for the upgrade of Police communications equipment during fiscal year 2018. These were one-time grants that concluded in fiscal year 2018.

### STATE OF ILLINOIS OFFICE OF THE SECRETARY OF STATE

### ANALYSIS OF SIGNIFICANT VARIATIONS IN RECEIPTS

For the Two Years Ended June 30, 2019 (Unaudited)

### **Unclaimed assets**

The fiscal year 2018 decrease of these receipts was due to a large increase in fiscal year 2017 collections due to an increase in claims from different customers for checks that were not cashed or claimed by the Treasurer's Office.

### **Motor Vehicle Insurers**

Public Act 100-0373 created the Illinois Motor Vehicle Theft Prevention and Insurance Verification Council to be administered by the Office. The Public Act became effective on January 1, 2018, so the first revenues collected under this Public Act began in fiscal year 2018.

### **Delinquent Vehicle Registration Renewal**

### Department of Business Services

The second largest cash collecting department in the Office of the Secretary of State is the Department of Business Services, whose primary responsibility is administration of the Business Corporation Act (Act). A total of 354,798 domestic and foreign business corporations filed returns in calendar year 2018 under the Act, reporting information which permits the Department to calculate the franchise tax, the largest source of receipts for this Department.

Franchise taxes and licenses fees are collected annually from each corporation. In addition, franchise taxes are payable to the Office upon stock issuances and on increases in paid-in capital. As a result, franchise tax collections fluctuate from year to year.

Other collections by the Department of Business Services include filing fees required with applications for articles of incorporation, certificates of authority of foreign corporations, articles of amendments, articles of merger or consolidation, certificates of withdrawal, reservations of name and filing fees collected from approximately 96,427 not-for-profit corporations.

The following table indicates the collections in the General Revenue Fund by the Department of Business Services for corporation taxes and fees in each of the last five fiscal years and the number of business corporations registered in Illinois in each of the last five calendar years:
