FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

INADEQUATE INTERNAL CONTROLS OVER FINANCIAL STATEMENT REPORTING

The Office of the Treasurer (Office) did not properly evaluate and report a section of the deposit and investment note disclosure.

Office utilized information provided by its service organization to prepare financial statement note disclosures

Money market mutual funds were moved from level 2 to level 1

During our testing of the financial statements and notes, we noted the Office utilized information provided by its service organization, as the custodian of the Illinois Funds Program, to prepare the financial statement note disclosures, including the deposits and investments note (Note 2). Note 2 includes information related to a financial instrument's level within the fair value hierarchy in accordance with Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application (GASB 72). The Office used the information provided by its service organization to prepare Note 2 without properly evaluating the information. At June 30, 2017 and 2016, investments in money market mutual funds, totaling \$218 million and \$519 million, respectively, were moved from level 2 to level 1. Level 1 investments are investments whose fair value is determined based on quoted prices for identical assets in active markets. Level 2 investments are investments whose fair value is determined based on observable inputs other than quoted prices in an active market.

In the prior year, the first year of GASB 72 implementation, auditors accepted the Office's disclosure of money market mutual funds under the GASB 72 level hierarchy as Level 2. After the auditors in the current year noted the money market mutual fund investments were listed in an active market, a Level 1 pricing methodology under GASB 72, the Office changed its fair value disclosure for money market mutual funds to Level 1 for both fiscal years 2017 and 2016. (Finding 2017-001, pages 38-39).

We recommend the Office improve its internal control over the financial reporting process to ensure accurate preparation of financial statements and note disclosures. The Office should evaluate and determine the accuracy of information provided by the service organization and review all amounts included in the financial statements and note disclosures.

Office personnel accept the auditor's recommendation

The Office accepted the recommendation.

OTHER FINDING

The remaining finding is reportedly being given attention by the Office. We will review the Office's progress towards implementation of our recommendation in our next engagement.

AUDITOR'S OPINION

The auditors stated the Office of the Treasurer, The Illinois Funds financial statements as of and for the year ended June 30, 2017, are fairly stated in all material respects.

This financial audit was conducted by Crowe Horwath LLP.
