RSM US LLP

Independent Auditor's Report

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
University of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of the University of Illinois (University), a component unit of the State of Illinois, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated January 14, 2025. That report includes an emphasis of matter relating to the dissolution of Shield T3, LLC, a component unit of the University.

The financial statements of the University of Illinois Foundation; University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University of Illinois Research Park, LLC; Illinois Global Gateway, LLC; and Shield T3, LLC component units of the University, were not audited in accordance with *Government Auditing Standards* and, accordingly, this report does not include reporting on internal control or compliance and other matters associated with these component units.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs as item 2024-001 that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The University's Response to the Finding

Government Auditing Standards requires the auditor to perform limited procedures on the University's response to the finding identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The University's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance;
Report on Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance; and Report on Schedule of
Federal and Nonfederal Financial Activity**

Independent Auditor's Report

Honorable Frank J. Mautino
Auditor General, State of Illinois

and

Board of Trustees
University of Illinois

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

As Special Assistant Auditors for the Auditor General, we have audited the University of Illinois' (University) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2024. The University's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Other Matter—Component Units Not Included in the Compliance Audit

The University’s basic financial statements include the operations of the University of Illinois Foundation; University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; The University of Illinois Research Park, LLC; Illinois Global Gateway, LLC; and Shield T3, LLC, component units of the University, which are not included in the University’s schedule of expenditures of federal awards during the year ended June 30, 2024. Our audit, as described below, did not include the operations of these component units because the component units did not expend federal funding during the year ended June 30, 2024.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University’s federal programs.

Auditor’s Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University’s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University’s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University’s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University’s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University’s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2024-002 through 2024-003. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the noncompliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The University's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as items 2024-002 through 2024-004 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the internal control over compliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The University's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by Uniform Guidance and the Report on Schedule of Federal and Nonfederal Financial Activity

We have audited the financial statements of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the University's basic financial statements. We issued our report thereon dated January 14, 2025, which contained unmodified opinions on those financial statements. That report includes an emphasis of matter relating to the dissolution of Shield T3, LLC, a component unit of the University. Our report was modified to include a reference to other auditors. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. In addition, the accompanying schedule of federal and nonfederal financial activity is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the schedule of federal and nonfederal financial activity are fairly stated in all material respects in relation to the basic financial statements as a whole.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
SUMMARY OF AUDITOR'S RESULTS
For the Year Ended June 30, 2024**

Financial Statements

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: *Unmodified*

Internal control over financial reporting:

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified? Yes None Reported

Noncompliance material to the financial statements noted? Yes No

Federal Awards

Internal control over major federal programs:

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified? Yes None Reported

Type of auditor's report issued on compliance for major federal programs: *Unmodified*

Any audit findings disclosed that are required to be reported in accordance with 2 C.F.R. § 200.516(a)? Yes No

Identification of major federal programs:

Assistance Listing Number(s)	Name of Federal Program or Cluster
Various	Research and Development Cluster
10.561	SNAP Cluster: State Administrative Matching Grants for the Supplemental Nutrition Assistance Program
93.575 / 93.596	Child Care and Development Fund
93.959	Block Grants for Prevention and Treatment of Substance Abuse
10.514	Expanded Food and Nutrition Education Program

Dollar threshold used to distinguish between type A and type B programs: **\$4,762,387**

Auditee qualified as a low risk auditee? Yes No

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2024**

Finding 2024-001 Weaknesses in Controls over Access Termination

The University of Illinois (University) had not implemented adequate access termination controls over their Electronic Health Record System (EHR) and Enterprise Resource Planning System (ERP).

The University maintains an EHR that contains patient medical records and data. The EHR supports billing and transaction workflows which feed into the financial statements. Additionally, the University maintains an ERP that contains student, faculty, financial, and personal data. The University relies on the ERP for financial reporting.

During our testing of separated users' access to the ERP and EHR, we noted the University's departments were not timely notifying Human Resources, which in turn did not timely notify the Information Technology security team. As a result, users' access to the ERP and EHR was not timely disabled. Specifically, our testing noted 2 of 40 (5%) ERP users' and 25 of 60 (42%) EHR users' access had not been timely removed after separation. Access was disabled 24 to 73 days for ERP and 9 to 191 days for EHR after the user had separated from the University.

This finding was first reported in fiscal year 2022. In subsequent years, the University has been unsuccessful in implementing procedures to fully remediate the issues identified.

The Security and Privacy Controls for Information Systems and Organizations (Special Publication 800-53, Fifth Revision) published by the National Institute of Standards and Technology (NIST), Access Control Section, promotes controls for ensuring access to system resources are appropriate.

Also, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use and misappropriation.

Further the University Medical Center Department's Administrative Directive requires the Department's Security Coordinators to revoke a separated employee's EHR access within 7 business days after termination. Additionally, the University of Illinois Enterprise System Access Removal Policy requires ERP access removal within 20 business days from the employee's termination.

University management indicated the complexity and decentralized nature of EHR and ERP access delayed the notifications of employee separation.

Failure to terminate separated employees' access could result in unauthorized access to the EHR, ERP, and data. (Finding Code No. 2024-001, 2023-002, 2022-004)

Recommendation:

We recommend the University terminate separated users' access within 7 business days and 20 business days of the last day of employment for EHR and ERP, respectively.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2024**

Finding 2024-001 Weaknesses in Controls over Access Termination (Continued)

University Response:

Accepted. Hospital Information Services and Administration Information Technology Services have implemented automated processes using data within enterprise systems to proactively monitor and remove access to the ERP and EHR systems. Even with these automated processes, the access removal process still relies on timely unit and human resources processes. The University does a quarterly review of ERP system logins for users who have separated from the University and the two noted exceptions for the ERP system had no logins after their separation date. Additionally, to reflect the reliance on these unit and human resources processes, Hospital Information Services has adjusted their access removal policy to remove access after notification within 48 hours. The University will continue to work towards improving notification processes for timelier removal of access to systems for employees who have separated from the University.

Federal Award Year 2023 – 2024

Questioned Costs: None

2024-002. Finding: Cash Management – Timeliness of Subrecipient Payments

The University of Illinois Urbana-Champaign and the University of Illinois Chicago did not make certain subrecipient payments timely and the controls in place did not identify the late payments.

Condition:

Out of thirty-two subrecipient payments tested which were made by the University of Illinois at Urbana-Champaign under the Research & Development Cluster, twelve payments (38%) were not submitted within 30 days after receipt of the billing from the subrecipient. The payments ranged from 35-201 days after receipt of the billing from the subrecipients. The sample was not intended to be, and was not, a statistically valid sample.

Out of eight subrecipient payments tested which were made by the University of Illinois Chicago under the Research & Development Cluster, one payment (13%) was not submitted within 30 days after receipt of the billing from the subrecipient. The payment was 32 days after the receipt of billing from the subrecipient. The sample was not intended to be, and was not, a statistically valid sample.

Out of eighteen subrecipient payments tested which were made by the University of Illinois Chicago under the Health Center Program Cluster: Community Health Centers and AIDS Education and Training Centers, five payments (28%) were not submitted within 30 days after receipt of the billing from the subrecipient. The payments ranged from 42-120 days after the receipt of billing from the subrecipients. The sample was not intended to be, and was not, a statistically valid sample.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – FEDERAL COMPLIANCE AND QUESTIONED COSTS
For the Year Ended June 30, 2024**

2024-002. Finding: Cash Management – Timeliness of Subrecipient Payments (Continued)

Criteria:

Under Uniform Guidance (2 CFR 200.305(b)(3)), when the reimbursement method is used, the Federal awarding agency or pass-through entity must make payment within 30 calendar days after receipt of the billing, unless the Federal awarding agency or pass-through entity reasonably believes the request to be improper.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure subrecipient payments are made timely.

Cause:

University of Illinois Urbana-Champaign officials stated the multi-layered review and approval process along with staffing deficiencies and workload challenges caused the situations for the exceptions noted.

University of Illinois Chicago officials stated the one payment was paid 32 days from receipt of the invoice due to high volumes of invoice processing at fiscal year end and the payment due date coinciding with a holiday. The five other subrecipient payments were due to high staff workloads and occurred prior to the fiscal year 2023 corrective action implementation.

Effect:

Without proper program cash management processes and procedures, late subrecipient payments could result in the loss of future funding. (Finding Code No. 2024-002; 2023-006; 2022-008)

Recommendation:

We recommend the University of Illinois Urbana-Champaign and the University of Illinois Chicago review current processes, policies and procedures to minimize the time elapsing between the transfer of federal funds to the subrecipient.

University Response:

Accepted. The University will take steps to address the recommendation in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – FEDERAL COMPLIANCE AND QUESTIONED COSTS
For the Year Ended June 30, 2024**

Federal Agency: US Department of Education (ED)

Program Name: Student Financial Assistance Cluster: Federal Direct Student Loans

ALN #: 84.268

Award Numbers: N/A; Federal Award Year 2023 - 2024

Questioned Costs: None

2024-003. Finding: Errors in Reporting for NSLDS

The University of Illinois Chicago did not properly report an enrollment change for a student who received federal student aid to the National Student Loan Data System (NSLDS) and the internal controls in place did not identify the error.

Condition:

Out of the twenty-five students tested at the University of Illinois Chicago, we noted one (4%) student in which the University did not report the correct enrollment effective date to the NSLDS at the Program-Level.

The sample was not intended to be, and was not, a statistically valid sample.

Criteria:

The Code of Federal Regulations (34 CFR 685.309) requires enrollment status changes for students be reported to NSLDS within 30 days or within 60 days if the student with the status change will be reported on a scheduled transmission within 60 days of the change in status. Regulations require the status include an accurate effective date.

According to the NSLDS Enrollment Reporting Guide, a student's Program-Level enrollment status should be reported with the same enrollment status as student's Campus-Level enrollment status for all programs the student is enrolled in at a location, even if the student is not currently taking coursework which applies to a particular program. If the student has withdrawn or graduated from an academic program, a "terminal enrollment status" of 'W' or 'G,' as appropriate, should be reported for the program, even if the student is still taking coursework applicable to other programs in which the student is enrolled.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure enrollment reporting is completed properly.

Cause:

University officials stated despite a defect resolution implemented in June 2023, an issue remains unresolved with the NSLDS reporting process. Further targeted investigation into the NSLDS reporting process is ongoing.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Questioned Costs: None

2024-004. Finding: Internal Controls over Procurement

The University of Illinois Urbana-Champaign and the University of Illinois Chicago did not have sufficient rationale documented for the noncompetitive procurement method selected within their iBuy system at the time of approval of the purchase to allow a reviewer to determine the appropriateness of the procurement method in the Research and Development Cluster.

Condition:

The University of Illinois Urbana-Champaign and the University of Illinois Chicago's internal controls over small purchases include review and approval of a purchase requisition form that documents the procurement method selected. Within the iBuy system, when a noncompetitive procurement method is selected, a radio button allows for selection of one of several circumstances where noncompetitive procurement is permitted by 2 CFR 200.320, including that the procurement can only be fulfilled by a single source. When this selection is made, additional information supporting this rationale should be available to the reviewer to determine that this noncompetitive procurement method is appropriate. We noted instances where there was not evidence that this information was available to the reviewer at the time of the approval.

Out of twenty-nine small purchase procurement transactions tested at the University of Illinois Urbana-Champaign, for five transactions (17%), there was not sufficient evidence to support that documentation of the noncompetitive procurement method selected was provided at the time of review and approval.

Out of eleven small purchase procurement transactions tested at the University of Illinois Chicago, for six transactions (55%), there was not sufficient evidence to support that documentation of the noncompetitive procurement method selected was provided at the time of review and approval.

Based on additional information provided to us during our testing, there were no indications that the noncompetitive procurement methods selected were inappropriate.

The sample was not intended to be, and was not, a statistically valid sample.

UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
CURRENT FINDINGS – FEDERAL COMPLIANCE AND QUESTIONED COSTS
For the Year Ended June 30, 2024**

2024-004. Finding: Internal Controls over Procurement (Continued)

Criteria:

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure procurement procedures are properly followed and support is properly maintained as required by 2 CFR 200.318.

Cause:

University officials stated a single e-procurement system is used to collect and capture procurement-related information. The electronic system required selection of the relevant procurement method in the form of a radio button, but did not require additional information in the central procurement file. Rather, this information was maintained by the requesting unit.

Effect:

If the procurement purchase requisition forms do not include sufficient supporting documentation of the rationale for the noncompetitive method of procurement selected, the University could approve payments of federal funds to vendors that do not meet federal regulations. (Finding Code 2024-004)

Recommendation:

We recommend the University of Illinois Urbana-Champaign and the University of Illinois Chicago review current processes within the iBuy system for noncompetitive procurement transactions to ensure sufficient documentation is included to support the rationale for the noncompetitive method of procurement selected.

University Response:

Accepted. While the University agrees that the supporting documentation was not captured in the electronic payment system, the rationale was available in other University records. The University will take steps to address the recommendation in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
PRIOR FINDINGS NOT REPEATED
For the Year Ended June 30, 2024**

A. Inadequate Internal Controls over Revenue and Expense Accruals for Grant Subawards

During the prior audit, the University of Illinois did not maintain appropriate control over accounting for grant subawards.

During the current audit, our testing over accounting for grant subawards did not identify any errors. (Finding Code No. 2023-001, 2022-003, 2021-005, 2020-002, 2019-001, 2018-001, 2017-001, 2016-001, 2015-001, 2014-001, 2013-001, 12-01, 11-01, 10-03, 09-03)

B. Inadequate Controls over Classification of Restricted Assets

During the prior audit, the University of Illinois did not maintain appropriate control over classifying assets as restricted.

During the current audit, we found no issues regarding the classification of restricted assets. (Finding Code No. 2023-003)

C. Reporting

During the prior audit, the University of Illinois' controls in place did not ensure certain reporting requirements were submitted timely, and in some cases, were not properly reviewed for accuracy.

During the current audit, we found no issues regarding the timelines of report submissions or the accuracy of reviews. (Finding 2023-004; 2022-007)

D. Federal Funding Accountability and Transparency Act Reporting

During the prior audit, the University of Illinois Chicago did not timely report subaward data to the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) under the Health Center Program and the controls in place did not identify the error.

During the current audit, we found no issues with FSRS reporting. (Finding 2023-005; 2022-009)

E. Errors in Return of Title IV Funds Calculation

During the prior audit, the University of Illinois Urbana-Champaign did not use the correct withdrawal date in the return of Title IV funds calculation for a student.

During the current audit, we found no issues with the return of Title IV funds calculations. (Finding 2023-008)

F. Lack of Subrecipient Monitoring

During the prior audit, the University of Illinois Springfield did not properly perform required subrecipient monitoring procedures on a certain subrecipient and the internal controls in place failed to ensure all monitoring procedures were performed.

During the current audit, we found no issues with subrecipient monitoring. (Finding 2023-009)

Schedule of Expenditures of Federal Awards presentation:

See also the notes to the Schedule of Expenditures of Federal Awards; these notes are an integral part of this Schedule.

University of Illinois
Notes to Schedule of Expenditures of Federal Awards
June 30, 2024

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the University of Illinois (University) under programs of the federal government for the fiscal year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University.

The schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal agency, pass-through awards are federal awards passed through a non-federal entity. Pass-through identifying information is presented when available and when applicable.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are presented on a modified cash basis of accounting. The methodology for determining federal awards expended is:

Direct costs are reported as federal expenditures on a cash basis, with the following exceptions:

1. Academic Year (nine-month) faculty salaries charged to sponsored projects are earned over nine months and paid over twelve months.
2. Salaries and wages earned between the last payroll date in June and June 30 are accrued and included as a current year federal expenditure.
3. Payroll related fringe benefits costs that are charged on an actuarial basis are included as a current year federal expenditure.

Indirect costs are assessed as a percentage of direct costs and are included as a current year federal expenditure.

Expenditures reported on the Schedule meet the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Note 3. Federal De Minimis Indirect Cost Rate

The University of Illinois has not elected to use the de minimis indirect cost rate allowed under the Uniform Guidance. The University has approved federally recognized indirect cost rates negotiated between the University and the Federal Government.

Note 4. Federal Student Loan Programs

As disclosed in the Schedule of Expenditures of Federal Awards for the year ended June 30, 2024, the Federal Direct Student Loans Program (ALN 84.268) administered by the University of Illinois awarded approximately \$201.99 million at Urbana, \$248.72 million at Chicago, and \$15.63 million at Springfield.

In addition, the University of Illinois administers a series of loan programs as part of the Student Financial Assistance Cluster program. Loan balances subject to continuing compliance requirements during the year ended June 30, 2024 under the Federal Perkins Loan Program (Perkins), Health Professional Student Loans (HPSL), Primary Care Loans (PCL), Loans for Disadvantaged Students (LDS), Nursing Student Loan Program (Nursing), and Nursing Faculty Loan Program (NFLP) were as follows:

	Perkins (84.038)	HPSL (93.342)	PCL (93.342)	LDS (93.342)	Nursing (93.364)	NFLP (93.264)
Beginning loan balances	\$7,195,636	\$9,735,360	\$194,571	\$2,253,271	\$870,024	\$60,118
New loans issued	\$0	\$808,535	\$0	\$438,810	\$89,049	\$0
Federal capital contributions	\$0	\$1,455,214	\$0	\$118,422	\$284,048	\$0
Administrative cost allowance	\$0	\$0	\$0	\$0	\$0	\$0
Total	\$7,195,636	\$11,999,109	\$194,571	\$2,810,503	\$1,243,121	\$60,118

The total loan balances outstanding at June 30, 2024 were approximately \$4.78 million for Perkins, \$9.10 million for HPSL, \$186.5 thousand for PCL, \$2.51 million for LDS, \$758.6 thousand for Nursing, and \$43.9 thousand for NFLP.

Perkins = Federal Perkins Loan Program
HPSL = Health Professions Student Loans
PCL = Primary Care Loans
LDS = Loans to Disadvantaged Students
Nursing = Nursing Student Loans Program
NFLP = Nurse Faculty Loan Program

Note 5. Federal Insurance Disclosure

Federally funded medical malpractice insurance was in effect under the Federal Tort Claims Act for Health Resources and Services Administration Deeming Notice Number 1-F00000300-22-01 from July 01, 2023 through December 31, 2023 and Deeming Notice Number 1- F00000300-23-01 from January 01, 2024 to June 30, 2024.

Note 6. Federal Depository Library

The University's "Government Information" library (Urbana), "Albert E. Jenner Jr. Memorial Law Library" (Urbana), "Richard J. Daley Library" (Chicago), "Louis L. Biro Law Library" (Chicago) and "Norris L. Brookens Library" (Springfield) serve as depository libraries in the U.S. Government Publishing Office's Federal Depository Library. The Federal Depository Library Program gives the public free access to government information. The University is the legal custodian of government publications received under this program; however, these publications remain the property of the federal government.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FEDERAL AND NONFEDERAL FINANCIAL ACTIVITY
For the Year Ended June 30, 2024
(in thousands)**

The following schedules are used to determine the University's Single Audit costs in accordance with the Uniform Guidance (2 C.F.R. § 200.425).

Schedule A - Federal financial component:

Total federal expenditures reported on the SEFA schedule	\$ <u>1,587,462</u>
Total Schedule A	\$ <u><u>1,587,462</u></u>

Schedule B - Total financial component:

Total operating expenses (from financial statements)	\$ 7,047,410
Total nonoperating expenses	53,541
Total new loans made	469,540
Amount of federal loan balances at beginning of year	20,309
Other noncash federal award expenditures	<u>-</u>
Total Schedule B	\$ <u><u>7,590,800</u></u>

	<u>Amount</u>	<u>Percentage</u>	
Schedule C:			
Total Schedule A	\$ 1,587,462	20.9%	%
Total nonfederal expenses	<u>6,003,338</u>	<u>79.1%</u>	<u>%</u>
Total Schedule C	<u><u>\$ 7,590,800</u></u>	<u><u>100.00%</u></u>	<u><u>%</u></u>

These schedules are used to determine the University's single audit costs in accordance with Uniform Guidance.

See accompanying independent auditor's report.
